PREFACE

THE *Yearbook* was first published in 1914. Before its advent the official University Calendars were the only authentic sources of information regarding the personnel, organization, regulations, and recent activities of universities. When British universities were few and university men took but little interest in the affairs of any except their own, the Calendars sufficed; but there are now 71, and each takes a growing interest in the others. The Calendars constitute a library of no mean dimensions—some 50,000 pages—and hardly anywhere except at the Universities Bureau are they all accessible. Much of their contents is of strictly local interest. In the *Yearbook* an attempt is made to extract from each of these bulky volumes such information as is likely to prove of interest to members of other Universities and Colleges, to Government Departments, Clubs, schoolmasters, and the public generally. It would be impossible to present a conspectus of this kind in a volume of manageable dimensions without resorting to the use of abbreviations and other devices for saving space. It is hoped that abbreviation has not been pressed beyond the limits of intelligibility.

In chapters introductory to the sections dealing with the Universities of Great Britain and Ireland, of Canada, of Australia, of South Africa, and of India, is collected such information regarding their history, regulations, and practice as they share in common. Each section comprises three parts:

(1) A directory of the officers and members of the staff of the University. Much trouble has been taken in preparing these directories to ascertain the sources of the various degrees held by teachers, since such information gives in a small space the educational history of their holders. If no name of a university follows a degree, it may be assumed that the degree was conferred by the university upon whose staff the teacher is serving.

With the exception of honours conferred by H.M. the King, titles other than degrees are omitted, unless they throw light upon the standing of their holders in the subjects which they profess. It is, for example, of interest to learn that a medical teacher of a university overseas holds diplomas of the Royal Colleges, whereas the addition of the letters M.R.C.S., L.R.C.P., to the name of a teacher in the

United Kingdom who is also M.D. cannot be said to convey information of importance.

(2) Under the heading "General Information," an account is given of the equipment in libraries, museums, laboratories, etc., of the university, the degrees, diplomas, and certificates which it confers, its composition fees, scholarships open to graduates, residential accommodation, extra-mural work, publications, etc.

(3) The accounts of the universities which hold good with modifications from one issue to another are followed by reports of events of outstanding interest which occurred during the past academic year. They include statistics of the numbers of students in attendance and degrees conferred. These annual reports will be of great importance to future historians of the universities.

Appendices may be classified as (a) Summaries of regulations for the diplomas of the Medical Colleges and other Associations and Institutions of the United Kingdom, and the conditions governing admission to various professions and careers for which university studies are a fitting preparation; (b) matriculation examinations; (c) admission of students from abroad into the universities of the United Kingdom; (d) lists of inter-university scholarships and fellowships, and grants for research; (e) lists of professional schools of the universities of the United Kingdom and the distribution of subjects in which these universities, severally, may be said to specialize; (f) list of centres of research outside the universities.

To the current edition a new Appendix has been added giving lists of titles of theses accepted for research degrees. Owing, chiefly, to the varying importance of thesis and examination in determining the award of a master's degree, it has been found necessary to restrict these lists to theses for the doctorate. It was too late, when the decision to prepare Appendix XXVIII. was taken, to allow of the receipt of returns from the majority of Universities overseas. It is hoped that next year the lists will be complete.

The Universities Bureau acknowledges gratefully the ungrudging help afforded by the official Registrars and other correspondents in the Universities. This help gives the book an authoritative character to which it could not otherwise pretend.

THE UNIVERSITIES BUREAU OF THE EMPIRE

At the final, Delegates', meeting of the Congress of 1912 it was resolved that steps be taken for the formation in London of a Bureau of Information for the Universities of the Empire. From its inception until November 1919 the Bureau was, by the great courtesy of the Director, allowed the use of a room in the Imperial Institute. In the spring of 1919 the Government offered a non-recurrent grant of £5000 to enable the Committee to secure and furnish premises suitable for the wide activities which the Bureau had developed, on condition that the Universities of the Empire undertook to provide funds adequate to its maintenance. The Committee thereupon purchased the lease of No. 50 Russell Square. Offices in this building have been let to—

THE BRITISH DIVISION OF THE AMERICAN UNIVERSITY UNION.
Director—ROBERT MARK WENLEY, D.Phil., D.Sc. *Assistant Director*
—R. H. SIMPSON, M.A.

OFFICE NATIONAL DES UNIVERSITÉS ET ÉCOLES FRANÇAISES
(removed to Cromwell Gardens, South Kensington, S.W.7).

THE ANGLO-DANISH BUREAU, ESTABLISHED BY THE DANISH STUDENTS' INTERNATIONAL COMMITTEE. *Director*—J. H. HELWEG, Cand. Mag.

THE COMMONWEALTH FUND ; Committee of Award (see page 689).

The Committee of the Universities Bureau desire to welcome members of any of the Universities of the King's Dominions overseas who may visit London, and to place the resources of the Bureau at their disposal. By calling at the Bureau or writing to the Secretary, visitors from overseas can obtain information regarding forthcoming lectures, conferences, etc., and by registering their names and addresses (whether by calling or by letter) they will enable the Bureau to offer them opportunities of getting into touch with one another.

COMMITTEE

(Appointed in accordance with a resolution of the Delegates to the Congress of the Universities of the Empire, at a Meeting in London on July 5, 1912)

Principal Sir J. ALFRED EWING, K.C.B., M.A., D.Sc., LL.D., F.R.S.,
representing Scotland.

PETER GILES, Litt.D., Master of Emmanuel, representing Cambridge
(*Treasurer*).

Vice-Chancellor Sir W. HENRY HADOW, C.B.E., M.A., D.Mus., representing
Durham, Leeds, Liverpool, Manchester, and Sheffield.

J. W. JOYNT, M.A., representing New Zealand.

Vice-Chancellor R. W. LIVINGSTONE, M.A., D.Lit., representing Ireland.

Vice-Chancellor T. LOVEDAY, M.A., representing South Africa.

Right Hon. Sir FREDERICK D. LUGARD, G.C.M.G., C.B., D.S.O., D.C.L.,
LL.D., representing Hong-Kong and Malta.

Principal Sir THEODORE MORISON, K.C.S.I., K.C.I.E., C.B.E., M.A., D.C.L.,
representing India.

Principal Sir HARRY R. REICHEL, M.A., LL.D. (Vice-Chancellor of the
University of Wales), representing Birmingham, Bristol, and Wales
(*Chairman*).

T. FRANKLIN SIBLY, D.Sc. (Principal Officer), representing London.

President H. MARSHALL TORY, M.A., D.Sc., LL.D., one of the two repre-
sentatives of Canada.

E. M. WALKER, M.A., Pro-Provost of Queen's, representing Oxford.

Prof. J. T. WILSON, M.A., M.B., F.R.S., representing Australia.

Secretary: ALEX HILL, M.A., M.D., F.R.C.S.

UNIVERSITIES were the outcome of the great intellectual revival which affected Europe in the twelfth and thirteenth centuries. Shortly after the Schools of Bologna and Paris had developed into what we now term Universities, similar seats of learning arose at Oxford and Cambridge, the nucleus of organization being, as at Paris, a corporation of masters—not, as at Bologna, a corporation of students—and many of the students being boys of fourteen or even younger. Instruction was in the form of lectures by licensed teachers. To the Seven Liberal Arts of the mediæval schools (the "trivium"—GRAMMAR, LOGIC, and RHETORIC, and the "quadrivium"—ARITHMETIC, GEOMETRY, MUSIC, and ASTRONOMY) the Universities added the three higher "Faculties" of THEOLOGY, LAW, and MEDICINE in order to provide complete preparation for the learned professions. The Scottish Universities, except Edinburgh, were founded in the fifteenth century, but the country had not been greatly influenced by the Revival of Learning, and although the earliest Reformers were in touch with continental scholars, and some attempts were made to introduce the New Learning into the schools and universities, the mediæval scholastic tradition remained paramount in St. Andrews and Glasgow until the seventeenth century. Aberdeen was more receptive to *renaissance* influences. The University of Edinburgh originated in a College established by the Town Council in 1583. Trinity College, Dublin, was founded by Queen Elizabeth in 1591 on the lines of the Oxford and Cambridge colleges.

After the Reformation a demand arose in England for education of a more secular type, but the Acts of Uniformity (1559 and 1662) and similar measures stereotyped the schools and universities as clerical and theological institutions, and by the latter half of the eighteenth

century the teaching in the Universities had become mainly traditional and formal, and they were rapidly losing their hold on the national life.

Readjustment to modern conditions took place in the course of the nineteenth century. Already in 1779 Protestant Dissenters, and in 1791 Roman Catholics, had been emancipated from the ban against their following the teaching profession. The few Denominational tests retained by the older Universities were abolished in 1871. Oxford in 1800 established a system of written examinations for the bachelorship, and Cambridge in 1824 the classical Tripos. Soon afterwards both Universities instituted non-classical Honour examinations. The University Commissioners of 1850 and 1877 made provision at Oxford and Cambridge for the endowment of the teaching of modern subjects, and the throwing open of scholarships to students of such subjects removed practically all obligations to take orders in the Church of England, and did much to make the Universities accessible to all classes of the community.

Meanwhile the foundation in 1828 on a strictly undenominational basis of what has now become University College, London, provided a teaching institution of University rank free from all restriction of tests. The University of Durham obtained its charter in 1837. In its original conception it followed closely the lines of Oxford. It was partly endowed out of the funds of the See and Chapter of Durham. The Colleges in which the other English Universities originated were founded as follows: Owens College, Manchester, 1851; Yorkshire College, Leeds, 1874; University College, Bristol, 1876; Firth College, Sheffield, 1879; Mason College, Birmingham, 1880; University College, Liverpool, 1881; the University Extension College, in conjunction with the Schools of Science and Art, Reading, in 1892. Created to minister to local needs and supported largely by local benefactions, they were naturally closely associated with local industries, and from the first laid stress upon the study of mathematical, scientific, and modern subjects. Reading differs from the others in having been established in a town of comparatively small size (population less than 100,000), in the large share of its resources devoted to work in connexion with the agricultural and associated industries, and in its policy of making residence in college or hostel the rule for its students. The Royal College of Science and the Royal School of Mines originated in a Technical School formed in 1851 in connexion with a Museum of Practical Geology. They, together with the City and Guilds (Engineering) College, founded in 1881, became integral parts of the Imperial College of Science and Technology which was established in 1907 with the declared purpose of giving the highest specialized instruction and providing for research in the various branches of science, especially in its applications to industry.

A University of Wales was projected early in the fifteenth century and the project was revived in Cromwell's time, but it did not materialize until 1893. The constituent colleges at Aberystwyth, Cardiff, Bangor, and Swansea were founded in 1872, 1883, 1884, and 1920 respectively. They are thoroughly indigenous to the Principality,

much of the funds having been collected in very small sums from workpeople at the doors of churches and chapels.

The two modern Irish Universities both date from 1909. In 1850 a Royal Charter was granted to the then recently established Queen's Colleges of Belfast, Cork, and Galway, constituting them a Federal University, which was absorbed in 1880 in the Royal University. University College, Dublin, representing the Catholic University established by the Irish Bishops in 1854, became with the Cork and Galway Colleges in 1909 constituents of the National University of Ireland, while Queen's College, Belfast, became the Queen's University of Belfast.

WOMEN were first admitted to Degrees by the University of London in 1878. Bedford College had already been founded in 1849; the three other colleges for women in connexion with the University of London were founded, Westfield in 1882, Holloway in 1886, and King's in 1902. Of the Cambridge colleges Girton originated at Hitchin in 1869, and was removed to the near neighbourhood of Cambridge in 1873; Newnham was founded in 1880. The colleges at Oxford were opened, Lady Margaret in 1878, Somerville in 1879, St. Hugh's in 1886, and St. Hilda's in 1893. Cambridge admitted women informally to Tripos examinations in 1872 and to the titles of degrees in 1923; in 1926 women were declared eligible to university teaching posts and therefore to membership of boards of faculties. Oxford admitted them to examinations in 1884 and to degrees and full membership in 1920. Women have been admitted to the Universities of Scotland since 1892, Durham since 1896, Dublin since 1904, and to all the modern Universities from their foundation.

Unlike those of most other countries, the Univs. of the United Kingdom have been, since their origin, independent of State control. Another distinguishing characteristic of British Univs., as compared with those of the Continent of Europe, has from the earliest days been the provision of halls of residence, or COLLEGES, in which students live as members of a community, with the privileges of social intercourse and subject to the mutual influence which corporate life exerts.

Pursuant to the recommendations made by the Royal Commission of 1910, important constitutional and other changes have been effected at Oxford and Cambridge by the Statutory Commissioners appointed in 1923. See the sections relating to these universities.

ADMISSION AS AN UNDERGRADUATE. Before inserting a student's name in *matricula* all Univs. exact evidence that the applicant's intellectual equipment fits him to undertake a course of study for a degree.

Matriculation examinations covering the usual subjects of education in a secondary school are held by the Univs. of Durham, London, Wales, Belfast, Dublin, Ireland (N.U.I.), and the Joint Board of Manchester Liverpool, Leeds, Sheffield, and Birmingham. Analogous examns. are held by Oxford ("Responsions"), Cambridge ("Previous Examn."), and the Scottish Univs. Entrance Board ("Preliminary Examn."), and these must be passed (or exemption on the ground of having passed equivalent examns. must be obtained) by all students

Scotland. The admission of applicants who, owing to exceptional circumstances, have not been able to fulfil the normal conditions is provided for by "Special" Regns. The Entrance Board's Regns. take effect as from Feb. 1, 1927 (vide p. 273).

Ireland. The Leaving Certificate of the Dept. of Education of the Irish Free State or the Senior Certificate of the Ministry of Education of Northern Ireland is accepted by the Univ. of Dublin and the National Univ. of Ireland, subject for subject, in lieu of their matric. examns., and (subject to special conditions in respect of Maths.) by Belfast. Belfast and the N.U.I. also accept, subject for subject, the Scottish Leaving Certif. (Higher or Hons.), the Higher Certif. of the Ox. and Camb. Schools Examn. Board, and (Belfast only) the Bristol School Certif. For admission to the Univ. of Dublin the Senior Lecturer is now allowed to recognize examns. as "equivalent" to the Entrance examn., and does so recognize the Scottish Leaving Certificate and others.

SCHOOL EXAMINATIONS IN OTHER COUNTRIES. In Appendix XXIII. are to be found particulars of the recognition accorded by certain Univs. in the United Kingdom to School-leaving examns. conducted by Ministries of Education in Canada, Australia, South Africa, and Egypt, and Boards of High School and Intermediate Education in India. This is done explicitly by Oxford, Cambridge, the Northern (English) Univs. Joint Board, Wales and the Scottish Univs. Entrance Boards.

ADMISSION OF STUDENTS FROM THE KING'S DOMINIONS OVERSEAS AND FROM FOREIGN COUNTRIES. Certificates which would qualify for admission to Univs. outside the United Kingdom are accepted as satisfying, in whole or in part, the matric. requirements of the Univs. of the United Kingdom. Intending students should apply for information to the Registrar of the Univ. in which they desire to be matriculated. A summary of existing regulations is given in Appendix XXIII.

The **NUMBER OF FULL-TIME STUDENTS** in Universities and University Colleges in receipt of Treasury Grant is given in the Returns published by the University Grants Committee for the year 1924-25 as 41,794, including 12,881 women. The returns do not include the students of the Irish Universities, Guy's Hospital Medical School, and some other schools of the University of London. If the figures for these institutions are added a total of 47,800 is obtained. The total may be distributed as follows: Oxford and Cambridge (including 1250 women), 9300; London, 10,800; Midlands and North of England (Birmingham, Leeds, Liverpool, Manchester, Sheffield, Durham, and Nottingham), 9100; West and South of England (Bristol, Exeter, Southampton, Reading), 2100; Wales, 2650; Scotland, 9750; Ireland, 4100. The Grants Committee classify the 41,794 full-time students included in their tables: Medicine, including Dentistry, 9527, of whom 1631 were women; Arts, Theology, Law, Music, Commerce, Economics, and Education, 19,891 (8941 women); Pure Science, 7329 (2164 women); Engineering, Applied Chemistry, Agriculture, etc., 5047 (145 women). The above statistics do not include the students of the institutions, other

than Universities and University Colleges, in which professional education of university grade is given in Theology, Teaching, Agriculture, Mining, etc. ; nor students reading privately for the external degrees of the University of London, for the Bar, etc. Another consideration which makes difficult comparison with statistics of other countries is that the work of the higher forms of many of our secondary and " public " schools corresponds with the earlier stages of the work done in Colleges and collegiate departments of Universities elsewhere, *e.g.* in America.

A NATIONAL UNION OF STUDENTS of the Univs. and Univ. Colleges of England and Wales was formed in Feb. 1922 " to represent the students of this country nationally and internationally," and to promote their educational and social interests in entire independence of all political or religious propaganda. It is a federation of Unions, Guilds, and Student Representative Councils. It is affiliated to the *Confédération Internationale des Étudiants* (see Appendix XXV.), through which it has taken an active part in promoting foreign travel of English students and stimulating intercourse with students abroad. In July 1924 a conference of Dominion student representatives was held at London and Cambridge to discuss ways and means of practical co-operation between students of the Empire, together with general Imperial problems. Two results of this conference have been the formation in England of the Dominion Students' Athletic Union and the visit of a Debating Team representing the Univs. of Great Britain to Canada, New Zealand and Australia. The team, consisting of four men, left England in Jan. 1926 and returned in July, having visited all the Univs. of the three Dominions. *Publication*—" The University," once a term, 6d. *Address*—3 Endsleigh Street, London, W.C.1.

THE STUDENTS' REPRESENTATIVE COUNCILS OF SCOTLAND hold an annual inter-univs. conference, and jointly, as a national organisation, count as one member of the International Confederation of Students. They have a joint *International Academic Committee* which appoints " Academic Consuls " in the principal univ. centres in countries outside Great Britain. They have published a handbook on Foreign Study (Darien Press, Edinburgh, 3rd edition, 1926 ; 1s.).

TERMS. The academic year is divided into three terms, which run from about Oct. 1 to the middle of Dec. ; middle of Jan. to end of March ; middle of April to end of first week in July.

FEEES are charged by all Universities. They vary somewhat in the different Univs., but are, on the average, for Arts £30, for Science £36, for Engineering or for Medicine £30 to £60 per annum in English Univs. In Scottish, Welsh, and Irish Univs. the fees are lower.

SCHOLARSHIPS. " The English Scholarship System is a medley," wrote Lord Haldane in a foreword to a report on the subject published in July 1924 by the Sir Richard Stapley Educational Trust, " of things very old and very new, national and local, rational, and sometimes, perhaps, the reverse." The number of scholarships is so large, and the conditions for their award and tenure are so varied that

it is impossible in this book to give any adequate account of them. In the "General Information" regarding each university will be found, however, a brief notice of scholarships open to graduates. Reference may also be made to the Scholarships paragraph of The Scottish Universities chapter, and to Appendix XXIV. Entrance Scholarships are awarded not only by universities and colleges, by schools administering School-leaving exhibitions, and by the trustees of unattached endowments, but also by Local Education Authorities and by the Board of Education. The expenditure of Local Education Authorities in England and Wales in 1922-23 on Scholarships to universities and institutions of university rank amounted to £220,000. It was with special reference to these awards that the above-mentioned report (obtainable at the Trust's offices, 33 Bloomsbury Square, W.C.1., price 2s. 6d.) was prepared. The Board of Education, which has for many years awarded the Whitworth and other Science scholarships, administers the system of State Scholarships introduced in 1920 for boys and girls in full-time attendance at grant-aided secondary schools who reach in "Second Examinations" (vide p. 4) such a standard as gives reasonable expectation that they are capable of following successfully a course of study for a university degree in honours, and need assistance to enable them to do so. The scholarships, which carry with them grants in aid of the fee payable for the proposed course and maintenance grants not exceeding £80 p.a., are ordinarily tenable for 3 years which may be extended to 4. The number of such scholarships for which provision was made in 1926 was 200. A review of the whole subject of scholarships is to be found in a report of the Consultative Committee of the Board of Education published in 1916 (Cd. 8291). The Board held a conference in January 1925 to provide for the co-ordination of grants from all sources for Oxford and Cambridge scholarship candidates, and a report was issued in Nov. 1925. The Oxford and Cambridge College entrance open scholarships are now, except as regards free rooms or their equivalent, on an eleemosynary basis.

LIBRARIES. In each of the sections relating to the universities severally will be found a brief note on this subject. A University Library Co-operation Inquiry Office has been established by the Association of University Teachers with the help of a grant from the Carnegie United Kingdom Trustees. It will endeavour to discover for research workers in what library, if any, any publication or MS. is available, and whether it can be lent. Address: L. T. Oldaker, Esq., The University, Edmund Street, Birmingham. Any inquiry should be accompanied by a list of the libraries which the inquirer has already tried in vain. In this connexion attention may be drawn to the Association of Special Libraries and Information Bureaux, 38 Bloomsbury Sq., W.C.1, which was established, also with the help of a grant from the same source, in 1925. Full details of all university and college libraries may be found in *The University and College Libraries of Great Britain and Ireland: a Guide to the Material Available for the Research Student*, by L. Newcombe, Bumpus, 1926. This book gives details of the contents

of some 300 university and college libraries with special reference to those collections which are likely to be of value to the research student.

PARLIAMENTARY GRANTS TO UNIVS. AND UNIV. COLLEGES. Prior to 1889 the English Univs. and Univ. Colls. were dependent for their incomes upon endowments, subscriptions and students' fees. In that year a Treasury Grant of £15,000 p.a. was made to the English Univ. Colls. and the College at Dundee. At the same date each of the three Welsh Univ. Colls. was receiving £4000 p.a., and the Scotch Univs. a statutable Grant of £42,000, to which was added in 1892 under the Education and Local Taxation Account (Scotland) Act an annual Subsidy of £30,000. Between 1826 and 1895 sums amounting to £380,000 were contributed by Government towards the cost of enlarging the buildings of the Scottish Univs. In Ireland the Queen's Colleges of Belfast, Cork, and Galway were established in 1845, the three buildings costing a total of £100,000. Each College received a Government Grant of £7000 p.a. The Queen's Univ. was established in 1850, as an examining body. Its annual Subsidy, varying with the estimates, never exceeded £5000. In 1879 the Queen's Univ. was replaced by the Royal Univ., also an examining body, but differing from the Queen's Univ. in that students other than those of the Queen's Colls. were admitted to its examns. It also gave fellowships, scholarships, and prizes. Until 1883, when, in accordance with the Act of Parliament by which it was established, it obtained its income of £20,000 p.a. out of funds released by the disestablishment of the Church of Ireland, its expenses were met in the same way as in the case of the Queen's Univ.

In 1896 two Commissioners were appointed by the Treasury to inspect the equipment and report upon the work of the 12 Univ. Colls. in England and at Dundee participating in the Grant (£15,000 p.a.) of 1889 and 2 which were claimants for Grants. In recognition of their increased activities and of additional support received from rates and private benefactions the total Grant was increased to £25,000 p.a. In their Report on the Univ. of Birmingham (into which the Mason College had been transformed in 1900), the 11 other Univ. Colls. to which Grants had been assigned, and 3 claimants the two Commissioners appointed in 1901 submitted evidence of growth qualifying for increased financial aid; but owing to the South African War no action, with the exception of the addition of the Univ. Colls. of Reading and Southampton to the list, each receiving £1000, was taken by the Treasury until 1905, when the total Grant was increased to £100,000. In Jan. 1906 a Permanent Committee was appointed by the Treasury "to advise the Department as to the distribution of the Grant in aid of Colleges furnishing Education of a Univ. Standard." The Committee forthwith proceeded to appoint two inspectors to report upon the 14 Univs. and Univ. Colls. receiving Grants and 3 claimants. By this time, in addition to Birmingham, Leeds, Liverpool, Manchester and Sheffield possessed Univs., to each of which £2000 p.a. had been granted towards the cost of examns. and the giving of degrees. The Univ. of London also received £8000 p.a.

In 1909-10 the Grant to the English Univs. and Univ. Colls. and

to Dundee was raised to £150,000. In 1907 a Treasury Committee was appointed "to inquire and report upon the University of Wales and its constituent Colleges." (The present Secretary to the Bureau was one of the two Commissioners in 1901 and again in 1906 and a member of this Committee.) Following the issue of the Committee's Report in 1909 the Grant to the 3 Welsh Colleges was increased to £25,000. In 1919 the Advisory Committee was dissolved and the Univ. Grants Committee appointed "to inquire into the financial needs of Univ. Education in the United Kingdom and to advise the Government as to the application of any Grants that may be made by Parliament towards meeting them." The total Grant was increased to £1,000,000. Including Emergency Grants to Cambridge, Oxford, and Trinity College, Dublin, the sums assigned in 1920-21 were: Annual Grants £909,240 (including Ireland £111,000), Non-recurrent Grants £304,000 (including Ireland £67,000). The total Grant for 1921-22 was £1,500,000, and in addition a sum of £500,000 was provided to assist the Institutions to provide retrospective superannuation benefit for their staffs; the grant for 1922-23 for Great Britain only was £1,169,000, which was also the amount of the grant for 1923-24. The grant for 1924-25 was £1,242,570; for each subsequent year £1,550,000.

REPRESENTATIVES IN PARLIAMENT. Oxford (2), Cambridge (2), London, Wales, Scottish (3), Dublin, National of Ireland, Belfast—v. the sections relating to these Univs.

Birmingham, Bristol, Durham, Leeds, Liverpool, Manchester, Sheffield, Reading—Sir ALFRED HOPKINSON, M.A., B.C.L.; Sir MARTIN CONWAY, M.A.

ADULT EDUCATION. *University Extension* Courses have been promoted by the Univs. of Cambridge, Oxford and London for the last 50 years. At Cambridge they are known as local lectures and were initiated in 1873 (see p. 64). Oxford and London took up the work soon afterwards. These courses number several hundreds and vary in length from 6 to 25 lectures; the longest extend over several years.

In 1903 *The Workers' Educational Association* was founded. In 1907 relations were established with Oxford Univ. Since that date relations have been established with all the Univs. and Univ. Colleges, and there are joint committees composed of representatives of the Univ. or College and the W.E.A., which promote Preparatory Classes, Three-Year Tutorial Classes, Advanced Classes, Vacation Courses, etc. In 1925-26 Preparatory Classes numbered 76, Three-Year Tutorial 542, and Advanced Tutorial 16. These were recognized by the Board of Education for purposes of GRANT UNDER CHAPTER II. OF THE ADULT EDUCATION REGULATIONS.

The *Adult Education Committee* was appointed by the President of the Board of Education, in April 1921, to promote the development of liberal education for adults, and in particular to bring together national organizations concerned with the provision of adult education, so as to secure mutual help and prevent overlapping and waste of effort; to further the establishment of local voluntary organizations for the purpose and of arrangements for co-operation with Local Education

Authorities ; and to advise the Board of Education upon any matters which the Board may refer to the Committee. It was re-appointed by successive Presidents in 1923 and 1925. It includes representatives of all Univs. in England and Wales, and of the principal voluntary organizations engaged in the work of Adult Education ; also three representatives of Local Education Authorities. Assessors are appointed by the Board of Education, the Army Council and the Air Ministry. Since 1921 the Committee has been engaged on many inquiries, and the following Reports have been published by H.M. Stationery Office, Adastral House, Kingsway, London, W.C.2 : Paper No. 1—Local Co-operation between Univs., Local Education Authorities and Voluntary Bodies. (Price 4d.) No. 2—Recruitment, Training and Remuneration of Tutors. (6d.) No. 3—Development of Adult Education in Rural Areas. (6d.) No. 4—Development of Adult Education for Women. (6d.) No. 5—British Music. (6d.) No. 6—The Drama in Adult Education. (1s.)

The *British Institute of Adult Education*, 39 Bedford Square, London, W.C.1, has recently compiled a Handbook and Directory of Adult Education (Year Book Press, London, 2s. 6d.), and issued the first number of a half-yearly review, *The Journal of Adult Education*, 2s. 6d.

An account of organizations concerned with adult education and a bibliographical note are contained in *The Way Out* (Oxford Univ. Press, 1923. To the bibliography should now be added : University Extension, 1873-1923, by W. H. Draper, Cambridge Univ. Press, 3s. 6d. ; Report of Jubilee Celebrations of the Cambridge Local Lectures, July 1923.

CONFERENCES. In May 1917 representatives of the Universities and University Colleges met in Conference to devise measures for the further encouragement of Post-graduate Study and Research. It was resolved that it was desirable that a degree should be instituted carrying the title of Doctor, obtainable by graduates of British and foreign Univs. after a course of advanced study and research. The conditions and regulations for such a degree were further considered at adjourned meetings held on May 10, 1918, Jan. 24, 1919, and March 14, 1919. The resulting legislation is summarized on p. 18. Interchange of Teachers and Students, the Tenure of University Offices, Superannuation and Provision of Pensions, and other matters have been considered by Conferences specially convened at various times.

In May 1918 Mr. Balfour summoned at the Foreign Office a Conference of representatives of all the Universities for the purpose of putting before them a proposal that on the invitation of the Govt. of the U.S. a Universities' Mission should be sent to America. At this meeting Mr. Balfour took the opportunity of pressing upon the Univs. the desirability of establishing a representative body to which matters of interest to the Univs. might be referred by Govt. Departments. He urged the necessity of the creation of "an organ of expression" which would voice the desires and aspirations of the British Univs. and represent them in their relations with the Univs. of other nations. At

a subsequent meeting Conference resolved that "it is desirable in the interests of the Univs. and of the nation that steps be taken to promote co-operation and mutual consultation among the Univs. of Great Britain and Ireland, and, further, that the Vice-Chancellor or Principal of each Univ. or a deputy appointed by him, together with the Executive Committee of the Universities Bureau, be appointed a **STANDING COMMITTEE** to consider any matters of common interest arising out of the proceedings of this Conference or submitted to it by the Govt. and to report from time to time to the Conference."

The Standing Committee of Vice-Chancellors has dealt with such matters as the presentation of the case for Increased Grants to Univs. and Univ. Colleges, leading to the Deputation to the Chancellor of the Exchequer which was received in Nov. 1918, and to a similar deputation received in 1924; the relations of the Univs. and Univ. Colleges to national schemes for the Promotion of Research; the question of controlling the number of students in professional and other subjects; the Recognition of the Special Army Education Certif., as qualifying for matriculation; Fees for Courses of Undergraduate and for Post-graduation Study and the possibility of adopting a uniform scale in each of the several Faculties of all Univs. of the U.K.; the relations of the Univs. to Training Colleges for Teachers; qualification for admission to courses leading to the Ph.D. degree; recognition of foreign school-leaving certificates as qualifying for matriculation; salaries of members of staff; recognition of records of students from Australia, Canada, S. Africa, and India; specialization in certain subjects of study by certain Universities*; the mutual recognition of Matriculation exams. and Degree courses of study; Income-tax on funds invested for provision of pensions, Inhabited House Duty on hostels and other legal liabilities of Universities; the replenishing of the libraries of the Univs. of Louvain, Nancy, Tokio.

At the **ANNUAL CONFERENCE** of the Univs. of Great Britain and Ireland held on May 9, 1925, the subjects discussed were: (1) the function of the universities in relation to Agriculture; (2) Physical Training and Medical Supervision of University students; (3) relations of universities to foreign National Institutes established in Great Britain and similar British Institutes abroad. A report of the proceedings was printed. Copies are obtainable from the Universities Bureau, 50 Russell Square, price 1s. The Conference did not meet in 1926 because the quinquennial congress of Univs. of the Empire (*v. infra*) was held in that year.

INTERNATIONAL CONFERENCES. Following the Mission to America already referred to, the British Univs. in May 1919 accepted an invitation to appoint a delegation to visit the Univs. of France as guests of the French Republic. In the autumn of 1919 a similar invitation was accepted from the Belgian Govt. In July 1920, 17 Professors of English, and in July 1921, 32 Professors of History, from many parts of the U.S.A. and the British Dominions overseas, met their colleagues of the Universities of the U.K. in conference at the invitation of the

University of London to discuss methods of research and teaching and to elaborate plans of co-operation. The Conference of 1921 synchronized with the opening of the University of London Institute of Historical Research. A Conference of British and Swiss Universities was held at Bâle in 1922. By invitation of Columbia University a Conference of British and American teachers of English was held in New York in June 1923. An Anglo-American Conference of Professors of History took place at Washington and Richmond (Virginia), Dec. 27-30, 1924, and in London (Institute of Historical Research), July 12-17, 1926.

INTERCHANGE OF TEACHERS AND STUDENTS between the Univs. of the King's Dominions overseas and of foreign countries and the Univs. of the U.K. In May 1919 a Committee was established for the purpose of promoting interchange. This Committee was discharged in March 1922 and replaced by another consisting of the Interchange Correspondents of the Bureau in the various Univs. See, in this connexion, Appendices XXII., XXIII., and XXIV.

CONGRESSES OF THE UNIVERSITIES OF THE EMPIRE

The FIRST CONGRESS of the Univs. of the Empire was held in London on July 2 to 5, 1912. All the Universities of the Empire were represented. Subjects discussed: "Specialization among Universities," and "Inter-University Arrangements for Post-graduation and Research Students," Chairman, the Earl of Rosebery and Midlothian, Chancellor of the Univs. of London and Glasgow, and Lord Rector of the Univ. of St. Andrews; "The Relation of Universities to Technical and Professional Education and to Education for the Public Services," and "Interchange of University Teachers," Chairman, the Earl Curzon of Kedleston, Chancellor of the Univ. of Oxford; "The Problem of Universities in the East in regard to their Influence on Character and Moral Ideals," and "Residential Facilities," Chairman, Mr. A. J. Balfour, Chancellor of the Univ. of Edinburgh; "Conditions of Entrance to Universities, Equivalence and Mutual Recognition of Entrance Tests," and "Action of Universities in Relation to the After-careers of their Students," Chairman, Lord Rayleigh, Chancellor of the Univ. of Cambridge; "Courses of Study and Examinations for other than Degree Students, University Extension and Tutorial Class Work," Chairman, Lord Kenyon, Senior Deputy Chancellor of the Univ. of Wales; "The Establishment of a Central Bureau, its Constitution and Functions," "The Position of Women in Universities," and "Representation of Teachers and Graduates on the Governing Body of a University," Chairman, Lord Strathcona and Mount Royal, Chancellor of the Univs. of Aberdeen and McGill.

The SECOND CONGRESS of the Univs. of the Empire met in Oxford on July 5 to 8, 1921. All members received, and upwards of 300 accepted, offers of hospitality, either from a College or from a resident member of the Univ., for the four days during which Congress was to sit. Including members of the Univ. of Oxford, who attended without enrolment, and those who returned to London and other places for the night, the attendance numbered about 550. The 18 Home Univs.

and 36 of the Univs. overseas were represented, the visitors from overseas numbering 100. Subjects discussed : " The Universities and the Balance of Studies," Chairman, the Marquess Curzon of Kedleston, Chancellor of the Univ. of Oxford ; " The Universities and the Teaching of Civics, Politics, and Social Economics," and " The Universities and Secondary Education," Chairman, Mr. A. J. Balfour, Chancellor of the Univ. of Cambridge and of the Univ. of Edinburgh ; " The Universities and Adult Education," Chairman, Viscount Haldane, Chancellor of the University of Bristol ; " The Universities and Technological Education," Chairman, the Marquess of Crewe, Chancellor of the Univ. of Sheffield ; " The Universities and Training for Commerce, Industry, and Administration," and " The Universities and the Training of School Teachers," Chairman, Dr. J. C. Irvine, Principal, in the place of the late Lord Balfour of Burleigh, Chancellor of the Univ. of St. Andrews ; " University Finance," Chairman, Sir Robert Stout, Chancellor of the Univ. of New Zealand ; " The Universities and Research," Chairman, Lord Robert Cecil, Chancellor of the Univ. of Birmingham ; " Interchange of Teachers and Students," Chairman, Lord Kenyon, Pro-Chancellor of the Univ. of Wales.

The THIRD CONGRESS of the Univs. of the Empire was held in Cambridge on July 13 to 16, 1926. Owing to the large number of students in residence in the Colleges the majority of the members received private hospitality. Excluding resident members of the University the attendance numbered about 350. 121 were visitors from overseas. Subjects discussed : " The State and the University," Chairman, the Earl of Balfour ; " The Desirability of Establishing in London a School of Advanced Legal Studies," Chairman, the Warden of All Souls, deputy for Viscount Cave ; " Co-operation in Research throughout the Empire," Chairman, the Marquess of Londonderry ; " Mutual Recognition of Examinations and of Time Spent in Study Elsewhere," Chairman, Sir Matthew Nathan ; " The Desirability of making Provision for the Physical Welfare and Training of Students and the Organization of Athletics with a View to securing more General Participation," Chairman, the Vice-Chancellor of Leeds, deputy for the Duke of Devonshire ; " The Actual Working of the Ph.D. Scheme," Chairman, Viscount Cecil of Chelwood ; " The Desirability of Articulating other Pension Schemes with the Federated Superannuation System of Great Britain and Ireland," Chairman, Viscount Haldane of Cloan. Sectional Meetings on " University Statistics " (Sir Theodore Morison), " Interchange " (Sir Henry A. Miers), " The Classification of Honours Graduates " (Sir Donald MacAlister), " An Imperial Policy in Education " (Sir Frederick D. Lugard).

DEGREES CONFERRED BY THE UNIVERSITIES OF GREAT BRITAIN AND IRELAND

The older Universities have developed out of the Univs. of the Middle Ages under the compulsion of internal forces, with very little influence

from outside. The historical continuity of their evolution and their individual independence account for certain customs and usages in which they differ one from another and from Univs. in other lands. Their titles of degrees afford an illustration of this. A Univ. of the Middle Ages was a Guild of learned men. Teaching was the craft of the Guild, whose fellowship carried with it the right to teach. An admitted aspirant for fellowship was termed a bachelor. The members of the Guild recognized his apprenticeship after submitting him to certain tests or, as we should term them, examns. After gaining some experience in teaching, and successfully maintaining a thesis in public disputation, the bachelor attained to his degree. Admitted into the Guild, with its *jus ubique docendi*, he was known indifferently as doctor, master, or professor. Still following this ancient usage, the degree in Scotland is the mastership, M.A. In Oxford, Cambridge, and Dublin, where the examn. for the bachelorship grew to be the determining test, the mastership, which carries with it all the privileges of membership of the Guild, or Senate, follows without further examn. after an interval of two or three years, but in no case less than six years from matricn. For convenience in standardizing the attainments of their alumni, modern Univs. have divided the degree into stages—usually described as the “first” and “higher” degrees—Bachelorship, Mastership, and Doctorate. The conferment of a first degree now marks the satisfactory completion of a three or four years’ Univ. course.

At Oxford and Cambridge the Faculty of Arts is not subdivided. B.A. is the “first degree,” whether the course leading to it be literary or scientific. In Trinity College, Dublin, a B.Sc. course, including no classical language, was introduced in 1926, but it is expected that most Science students will continue to take the B.A. which remains the primary degree, and must be obtained before proceeding to any other degree except Mus.B., Mus.D., B.Sc. and Ph.D. At Cambridge there is no B.Sc. At Oxford the B.Litt. and B.Sc. are awarded for special study and research, like the M.Litt. and M.Sc. of Cambridge. At St. Andrews the B.Phil. or the B.Litt. may be taken either conjointly with, or after, the M.A.

At all other Univs. a course in Arts leads to the B.A. (in Scotland, M.A.), in Science to the B.Sc., in Commerce to the B.Com., and similarly to other titles in other departments of knowledge.

Each of the Faculties of Theology, Law, Medicine, and Music has its own bachelor’s degree.

The signatures of the titles of degrees vary. In the following list the more usual signature is placed first :

Bachelor of Arts : B.A.

Bachelor of Science : B.Sc.

*Bachelor of Science in its various applications*¹: B.Sc. (Engineering), B.Eng. Liv., Sheff.; B.A.I. Dub.; B.Sc. (Metallurgy), B.Met. Sheff.; B.Sc. (Mining), B.Sc. (Mining Engineering) Glas.; B.Sc. Tech.; B.Sc. (Applied Chemistry); B.Sc. (Naval Architecture); B.Sc. (Veterinary Science), B.V.Sc. Liv.; B.Sc.Agr., B.Agr. Bris., Belf., Agr.B. Dub., B.Agr.Sc. N.U.I.; B.Sc. (Forestry), Agr.B. (Forestry) Dub.; B.Sc. (Horticultural)

ture); B.Sc. (Estate Management); B.Sc. (Dairying), Reading; B.Sc. (Economics); B.Sc. (Public Health), B.Hy. Durh.; B.Sc. (Pharmacy) Glas.; B.Sc. (Architecture) Glas.

Bachelor of Commerce: B.Com. or B.Comm., B.Com.Sc. Belf.

Bachelor of Architecture: B.Arch.

Bachelor of Dental Science: B.D.S., B.Ch.D. Leeds, B.Dent.Sc. Dub.

Bachelor of Education: Ed.B. (of the Scottish Univs., two years after a first degree).

In Theology the title of the first degree is B.D. In Law it is LL.B., B.C.L. Ox. Durh., B.L. or (open only to graduates in Arts) LL.B. the Scottish Univs. In Medicine the signature of the title is M.B., B.M. Ox.; in Surgery, Ch.B., B.Chir. Camb., B.Ch. Dub. Ox. Wales. Belf., B.S. Durh. Lond.; in Obstetrics, B.A.O. Belf. Dub. N.U.I. In Music, Mus.B., B.Mus. Birm. Durh. Ox. Wales.

The Primate's Degrees: Under powers conferred before the Reformation by the Pope, the Primate has the right to confer degrees. In recent years he has, on an average, conferred annually two doctorates.

Honours Degrees

In all Univs. of the United Kingdom the first degree in Arts (or Science, if a separate faculty) may be obtained as an ordinary degree, or with Honours.

At Oxford the Honours Schools (B.A.) are in Literæ Humaniores, Mathematics, Natural Science (including Engineering), Jurisprudence, Modern History, Theology, Oriental Studies, English Language and Literature, Modern European Languages, and Philos., Politics and Economics.

At Cambridge (Triposes), in Anthropology, Classics, Economics, English, Geography, History, Law (B.A. and LL.B.), Mathematics, Mechanical Science, Modern and Mediæval Languages, Oriental Languages, Moral Science, Natural Science, Theology.

In Scotland: M.A. Hons. in Celtic, Classics, Econ. Science, English (Aberdeen, Geography), History (St. Andrews, History and English), French, German, Italian, Spanish, or Celtic, Mathematics and Natural Philosophy, Mental Philosophy, Modern Languages (St. Andrews, Natural Science, Maths. and Physical Science, Philosophy), Sanskrit, Semitic Languages; B.Sc. Hons. in various branches of Science.

At Dublin (Moderatorships), in Mathematics, Classics, Mental and Moral Philosophy, Experimental Science, Natural Science, History and Political Science, Modern Literature, Legal and Political Science, Engineering Science, Celtic Languages, Oriental Languages.

At London, B.A. Hons. in Classics, Latin, Greek, Mathematics, Anthropology, Archæology, English, French, German, Celtic, Italian, Spanish, Portuguese, Dutch, Scandinavian Langs., Russian, Polish, Czech and Slovak, Serbo-Croat and Slovene, Indo-Aryan, Arabic, Persian, Hebrew and Aramaic (including Syriac), Chinese, Philosophy, Psychology, History, Sociology, Geography; B.Sc. (Special), Mathematics, Astronomy, Physics, Chemistry, Geology, Botany, Zoology,

Physiology, Human Anatomy and Morphology, Psychology, Anthropology, Statistics; B.Sc. (General)—three subjects; B.Sc. Hons. (Economics); B.Sc. Hons. (Engineering); B.Sc. Hons. (Mining); B.Sc. Hons. (Metallurgy); B.D. Hons.; LL.B. Hons.; M.B., B.S. Hons.; B.D.S. Hons.

In other Univs. Honours are obtainable in a variety of subjects.

Recognition of Study at other Universities

UNDERGRADUATES. The Univs. of Bristol and Leeds accept attendance for 1 yr. at any Univ. requiring residence as a qualification for a degree. At London any person who has passed the external Intermediate examn. before registering as an Internal student may take the Final Examn. after a 2 yrs.' course and qualify for a degree in the subsequent year. At Oxford members of certain Affiliated Colleges of the United Kingdom, and of certain approved home, colonial, and Indian Univs., who have attended lectures for at least 2 yrs. and attained a prescribed standard, are allowed to count the first term kept by residence as the fourth (see p. 214). At Cambridge a similar privilege is allowed to certain classes of students (see p. 58). At Dublin students who have spent 2 yrs. in Arts studies at certain Univs. (see list on p. 326) and have passed the examns. belonging to that period are given credit for the first academic year. At Durham a similar concession is made to students of science. In the Scottish (see p. 274) and certain other Univs. attendance at lectures and examns. passed in other Univs. may be recognized by the Board of Studies, or Senate, after consideration of each case. As regards Belfast, see p. 318.

GRADUATES. The remission to graduates of any other approved University of 2 yrs. of the 4 yrs.' course is made by the Univ. of Dublin, of 1 yr. of the 3 yrs.' course by Bristol, London, and Sheffield, and the N.U.I. For similar remissions made by Oxford and Cambridge, see pp. 214 and 58. At Oxford graduates of a home Univ. and others, who can satisfy the Education Committee that they have received a good general education, are eligible to apply for admission to an approved course of special study and research for the degree of B.Litt. or B.Sc., and, if successful, may supplicate for the degree after completing 2 yrs. of residence. At Cambridge graduates suitably qualified are admitted as Research students and may, after the satisfactory completion of a 2 yrs.' course and the submission of a dissertation, obtain the degree of M.Litt. or M.Sc. At Dublin a graduate of any approved Univ. who possesses a degree the equivalent of Moderatorship may, after 1 yr. of advanced study and research, present himself for examn. for the degree of M.Sc. Certain Univs. which have not adopted ordinances to that intent are prepared to consider applications from graduates of other Univs. who desire to read for higher degrees for remission of standing or exemption from examinations.

Higher Degrees

M.A. At Cambridge a Bachelor of Arts may, without further examn., proceed to the M.A. at the close of the 6th yr. after the end

of his first term ; at Oxford in the twenty-first term after matriculation ; at Dublin 3 yrs. after passing the B.A. examn. At Durham and Sheffield graduates in Honours (Durham—1st or 2nd class) of 3 yrs.' and 1 yr.'s standing respectively are admitted to the M.A. without examn. ; other graduates must pass the M.A. examn. or (Sheffield) present a thesis. Other Univs. exact a further period of study from their own graduates, followed by the presentation of a thesis, or an examn., or both, of 1 yr. at Birmingham, Leeds, Belfast, and the N.U.I. ; of 1 yr. from graduates with Honours, and 2 yrs. from others, at Bristol, Manchester, and Wales ; of two years from all graduates at Liverpool, London, and Reading. Graduates of approved Univs. can obtain the Mastership after 1 yr. of advanced study and research at Birm. and the N.U.I. ; after 2 yrs. at Bris., Leeds, Liv., Lond., Manc., Reading (thesis required), Sheff., Wales. At London a thesis is required from Internal students in all branches, except Mathematics, in which it is optional, and an examn. At Leeds, Liverpool, and Manchester persons who have not graduated can obtain the M.A. degree after a course of advanced study and research extending, usually, over 3 years.

M.Sc. This degree is not conferred by Oxford or any of the Scottish Univs. At other Univs. it can be obtained by graduates of the Univ. under conditions similar to those for the M.A. At Durham, by graduates, B.Sc., of 2 yrs.' (Sheffield 1 yr.'s) standing who took first or second class Honours, without further test. At Leeds, by graduates, B.Sc., with Honours, of 1 yr.'s standing (other Bachelors of any Faculty of 2 yrs.' standing), after research (thesis required). At Liverpool, by graduates, B.Sc., with Honours, after 1 yr.'s higher study (thesis required). At London, by Internal students of 1 yr.'s or 2 yrs.', by External students of 1 yr.'s standing from B.Sc. with thesis (optional in Mathematics) and examn. At Manchester, by graduates, B.Sc., of 1 yr.'s standing after thesis and examn. (at the discretion of the Faculty). At Cambridge the degree is conferred upon Research students (v. p. 62). In other Univs. which confer the degree, graduates of approved Univs. can obtain the M.Sc. on terms similar to those for the M.A. ; at Durh. or Reading, after 2 yrs.' advanced study in the Univ.

Other titles of Mastership conferred by various Univs.—*M.Litt.*, *M.Com.*, *LL.M.*, *M.Mus.*, *M.A.O.* (Midwifery), *M.Ch.*, *Ch.M.*, *M.Ch.Orth.* (Orthopædic Surgery), *M.D.S.* (Dental Surgery), *M.V.Sc.*, *M.H.* (Hygiene), *M.Eng.*, *M.Sc.Tech.*, *M.Met.*, *M.Arch.*, *M.Ed.*

Ph.D. All the Univs. of the United Kingdom now confer the degree of Philosophiæ Doctor. Candidates entering upon a course of advanced study and research for this degree must be at least 21 (Oxford, Camb., Brist., L'pool., Durh., Wales, Reading, St. Andrews, Dub.—no minimum age) ; must ordinarily be graduates either of the Univ. or of some other approved Univ. ; must have pursued their studies at a Univ. or Univs. for a period of at least 3 yrs. (London—2, Reading and Dublin—not specified) ; must produce evidence of fitness for the proposed course of study and research. The course for the degree extends ordinarily over at least 2 years (Cambridge, Reading, Aberd.,

Glas., St. And. and N.U.I.—3 years). At its termination the student must submit a dissertation and may be required to qualify also by examn. The degree is granted in any faculty in which the Univ. is prepared to receive advanced students.

A candidate for the degree of Ph.D., as an External student of the Univ. of London, must have graduated in the Faculty of Theology, Arts, Music, Science, Engineering, or Economics in this University not less than 2 academic yrs. previously.

Litt.D. and *Sc.D.* The Doctorate in Letters or in Science is conferred upon Masters of Arts or Science (Wales and Dublin, Bachelors or Masters) distinguished by their contributions to the advancement of learning or science. The claim to the degree must be based either upon a special thesis, as at London, or upon published works. In certain Univs. the Faculty may require the applicant to appear for examn. An applicant for the Doctorate must be of 3 yrs.' standing from graduation at Dublin, Belf. (for D.Sc.), N.U.I. (for D.Sc. Pub. Health) ; 4 yrs.' at Manchester, London (for D.Sc. and External D.Lit.) ; 5 yrs.' at Birmingham, Sheffield, N.U.I. (for D.Litt., D.Litt. Celt., D.Sc.), and the Scottish Univs. ; 6 yrs.' at Belfast (for D.Lit.), Durham (for D.Sc.), Leeds, Liverpool (5 yrs. from M.A. or, for D.Sc., from M.Sc. or Ph.D.), Bristol, Reading (4 yrs. from M.A. or M.Sc., 3 yrs. from Ph.D.) ; 5 yrs. from M.A., LL.M., M.Chir., M.Litt., M.Sc. or Ph.D., or 7 yrs. from M.B. at Cambridge ; 7 yrs.' at Oxford, London (for Internal D.Lit.) ; 10 yrs.', Univ. of Wales (3 yrs. from M.A., 2 yrs. from Ph.D.), Durham (for Litt.D.).

Graduates of other Univs. who have been admitted to the degree of M.A. or M.Sc. (Oxford M.A., B.Sc., or B.Litt. ; Dub. B.A.) can proceed to the Litt.D. or Sc.D. under the prescribed regulations. In Scotland Honours graduates of approved Univs. of 5 yrs.' standing who have spent the equivalent (4 terms) of two winter sessions in research at a Scottish Univ., have submitted a satisfactory thesis or published work, and have, if required, passed an examn., are admitted to the Doctorate. At Bristol the degree of D.Sc. can be obtained without previous admission to the M.Sc. At London a candidate for the Doctorate may be specially exempted from the examn. for M.A. or M.Sc. ; at Manchester, from the examn. for M.Sc.

D.Hy. (Durh.) 2 yrs. from B.Hy. ; examn., thesis.

Degrees in Divinity

B.D. is conferred after examn. in the Scottish Univs. and the Univs. of Durham, London, Manchester, and Wales ; after examn. and submission of a thesis at Dublin ; after examn. and the submission of a dissertation and published works at Cambridge (examn. may be omitted) and at Oxford. At London the course must extend over 3 yrs., subsequent to matriculation. In Scotland a candidate must be M.A. of a Scottish Univ. who has taken a theological course in a specially recognized institution, or a graduate of an approved Univ. who has taken a complete theological course of at least 2 yrs. in the Univ. conferring the degree ; at Dublin, a B.A. of 3 yrs.' standing ; at Durham,

he must be a man who is either a graduate of 2 yrs.' standing or the holder of the Diploma in Theology ; in Wales, a graduate who, subsequent to graduation, has studied for 3 yrs. at one of the Associated Theol. Colls. of the Univ. ; at Cambridge, a candidate must be M.A. or LL.M., and cannot be admitted to the degree until he is seven years from the Master's degree ; at Oxford, a candidate must be a M.A. or must be 26 yrs. of age, have followed a course of study in Christian Theology extending over 6 terms, and resided at the Univ. during 6 terms.

D.D. In Scotland the degree is conferred *honoris causa tantum*. At London it is conferred upon B.D.'s who took Honours in at least one subject, on presentation of a dissertation, followed by an examn., if the examiners so desire. At other Univs. it is conferred in consideration of published works, or a dissertation (and, at Oxford, a *viva voce* examn., if the judges so desire). The requisite standing is, at Cambridge and London, 5 yrs. from B.D. (or, for a Cambridge B.D., 12 yrs. from M.A.) ; Dublin, 8 yrs. from B.A. ; Durham, 10 yrs. from B.A. ; Manchester, 4 yrs. from B.D. (or 6 yrs. for B.D.'s of other Univs. who have studied for 2 yrs. at Manchester) ; Oxford, 14 yrs. from matricn., or, if he was admitted to the degree of B.D. as a graduate of another Univ., the candidate must have attained the age of 33 ; Wales, 6 yrs. from B.D.

Degrees in Medicine and Surgery

M.B., Ch.B. The regulations for these degrees are practically uniform. Preliminary examinations satisfying the requirements of the General Medical Council (see Appendix XI.). Registration as a medical student by the G.M.C. is recommended. Satisfactory attendance during at least 5 yrs. at courses of study and hospital practice. Four examns. (in some Univs. grouped as three or two). All examns. must be passed at the Univ. granting the degree, with the exception of the first, in Chemistry, Physics, and Biology (and, at St. Andrews, the second in Anatomy and Physiology), from which a candidate may be exempted if he has passed an equivalent examn. at the Univ., or elsewhere (Scottish Univs., Birmingham, Bristol, Dublin for S. African students only, Durham, London, Oxford Senior Students, Sheffield). Study in the Univ. for at least 3 yrs., except for the degrees as an External student of the Univ. of London, who must study for 1 yr. in a Univ. of the United Kingdom ; or for 2 yrs., Scottish Univs., Leeds, Liverpool, Manchester ; for 1 yr. College of Medicine, Newcastle-on-Tyne (Durham). The Univs. of Oxford and Cambridge exact 3 yrs.' residence, but allow students to do any or all of their medical work at other recognized medical schools. At Oxford, Dublin, Univ. of Wales, candidates must graduate B.A. (or B.Sc., Wales) before admission to a medical degree.

M.D. Candidates must be M.B., Ch.B. of, usually, 2 yrs.' standing (Oxford, 10 yrs. from matriculation ; Cambridge, M.B. of 3 yrs.', or M.A. of 4 yrs.' standing ; Leeds, Sheff., M.B., 1 yr.'s standing ; Belf.,

M.B. 3 yrs., B.A. or B.Sc. with M.B. 2 yrs. ; Dublin, of M.A. standing). A dissertation is compulsory in almost all Univs., followed by an examn., unless the examiners pronounce the dissertation to be of such merit as to render further examn. unnecessary.

Ch.M. Regulations similar to those for M.D.

D.Ch. (Durh.). Candidate must have devoted, subsequently to having obtained a registrable qualification, 3 yrs. (including one at least in the Univ. and 6 months at least abroad) to the study of Surgery and ancillary subjects.

Degrees in Dentistry, in Pharmacy (London, Manchester, Glasgow), *and in Veterinary Science* are obtainable under somewhat similar conditions.

Degrees in Law

LL.B. (or *B.C.L.*), obtainable with Honours or as an ordinary degree. In the Scottish Univs. candidates must have graduated M.A. ; at Dublin, Durham (B.C.L. and LL.B.), National University of Ireland, B.A. For B.C.L. at Durham candidates must be of 2 yrs.' standing from B.A. ; for LL.B. the course is 3 yrs. for a candidate of Intermediate grade in Arts or Science. In Wales the course extends over 3 yrs. for a pass degree and 4 yrs. for an Honours degree. At Belfast graduates of this or of some other Univ. are eligible for the degree after a 2 yrs.' course in Law ; at Oxford, after a 2 yrs.' course, if they obtain Honours in the B.C.L. examination. At Sheffield a graduate of a Univ. of the United Kingdom who has attended for 1 yr. the intermediate course and for 1 yr. the Final course in Law and for 2 yrs. studied in a recognized institution, may be a candidate for the degree. In the majority of Univs. there are two examns., Intermediate and Final. For B.L. v. Scottish Univs.

LL.M. Cambridge, Leeds, Liverpool, London, Manchester, Sheffield, Wales. By standing for graduates in Law with Honours, except at Leeds and Manc., where a dissertation must be presented. For others, after examn. or (Camb.) dissertation, or both (Wales). Liverpool requires 2 yrs. of approved study.

LL.D. (or *D.C.L.*). By the Scottish Univs. the Doctorate is awarded only *honoris causa tantum*. Other Univs., unless the degree be awarded *honoris causa*, require the submission of a thesis, dissertation, or published works, and may require attendance at an examn. ; in Dublin a candidate may elect to undergo examn. in lieu of offering a thesis, etc. The requisite standing for the Doctorate is, at London, 2 yrs. from Honours LL.B. ; Belf., 3 yrs. from LL.B. if thesis ; Dublin, 3 yrs. from B.A. of Dub., Ox., or Camb. ; Manchester, 4 yrs. from LL.B. ; National Univ. of Ireland and Sheffield, 5 yrs. from LL.B. ; Oxford (D.C.L.), 5 yrs. from B.C.L. ; Cambridge, 8 yrs. from first degree ; Liverpool, 5 yrs. from LL.M. ; Leeds, 6 yrs. from LL.B. ; Durham (D.C.L.) and Wales, 10 yrs. from graduation or 3 yrs. from LL.M.

Degrees in Music

The degrees of Mus.B. (or B.Mus.) and Mus.D. (or D.Mus.) are conferred by the Univs. of Cambridge, Dublin, Durham, Edinburgh, London, Manchester, N.U.I., Oxford, Wales; B.Mus. and M.Mus. Birmingham; Mus.M. Cambridge and M.Mus. Wales.

Mus.B. At Birmingham, Cambridge, Dublin, Edinburgh, London, Manc., N.U.I., and Wales, students must pass the same Entrance examn. (Matriculation, Previous, or Preliminary) as students in Arts; with, at Birmingham, where the degree is an Honours degree, an examn. in theory and in execution. At Durham they are admitted on a *testamur* as Students of Music. At Oxford they must pass either Responsions or the Preliminary for Students of Music, in which, if two of the three languages, French, German, Italian, are taken, neither Greek nor Latin is obligatory. In Wales a student must attend an intermediate class in Arts or Science in addition to the Music course. Residence is not obligatory at Dublin, Durham, or Oxford. At Edinburgh students must study Music in the Univ. for one whole winter session. As a rule, the course extends over 3 yrs. with two, or three, examns., including an exercise for the Final examn.

Mus.M. Conferred 3 yrs. (Wales—2 yrs.) after the Mus.B. for original work and dissertation (Birmingham), after examn. and exercise (Cambridge, Wales).

Mus.D. Conferred at Cambridge on graduates not less than 30 yrs. of age, in recognition of distinction as Composer; in Wales (D.Mus.) on B.Mus. of 10 yrs.' or M.Mus. of 3 yrs.' standing on consideration of original compositions; at Edinburgh on Mus.B.'s of 3 yrs.' standing, after examn. as Composer, Executant, or Theorist or Historian (Dissertation), and also *honoris causa tantum*; at Dublin on Mus.B.'s after further examn. or practical test; at London on Mus.B.'s of 2 yrs.' standing, Oxford 3 yrs.', Manchester 4 yrs.', Durham and N.U.I. 5 yrs.', after exercise and examn.

AFFILIATED INSTITUTIONS

MIDLAND INSTITUTE. Students are admitted to Intermediate Arts examn. as Internal Students. *Principal*—A. Hayes, M.A. Ox., and Birm.

SALTLEY TRAINING COLLEGE. Students taking the 4-yr. course are admitted to the Intermediate Arts examn. as Internal students. *Principal*—Rev. F. T. Cooper, M.A. Camb.

HANDSWORTH AND LICHFIELD THEOLOGICAL COLLEGES. Students can take the 2nd and 3rd yrs. for the B.A. in their own Colls. *Principals*—Handsworth: F. Platt, M.A., D.D.; Lichfield: L. A. Phillips, M.A. Ox.

GENERAL INFORMATION

The University, formerly the Mason College founded by Sir Josiah Mason in 1880, was incorporated by Royal Charter in 1900. The Charter prescribes instruction in all branches of a liberal education, and such instruction especially as may be of service in the manufactures, commerce, and industrial pursuits of the Midlands. Arts, Medicine, and the Biological departments are still housed in the buildings of Mason College in the centre of the city. Other buildings have been erected and equipped at a cost of £750,000 at Bournbrook on a site of 50 acres.

LIBRARY, about 120,000 vols. *Special Collections* : Sargant, rich in French economic literature of about 1830-1860 ; Collings, some 350 books on agric. and land problems ; Bunce, rich in nineteenth-century biography ; Corbett, county, especially Shropshire, history. **MUSEUMS**, Anat., Dent., Geol., Zool.

LABORATORIES : Chemical (special organic, phys., electro-chem., analytical, and public health depts.) ; Engin., Metallurgy, and Mining (exceptionally well equipped and including coal-mining research lab., expl. coal-mine and oil-boring plant, petroleum engineering being a speciality) ; Brewing ; Power-station supplying whole Univ. with lighting, heat, and power. A small **OBSERVATORY** is attached to the dept. of Physics. **HOSPITALS** (600 beds) available for clinics—General, Queen's, and many special.

FACULTIES : Science, Arts, Medicine, Commerce. **Deans** : Prof. Turner (Metallurgy), Prof. de Sélincourt (English), W. F. Haslam (Anatomy), Prof. F. Tillyard.

Departments of Education (training for teaching in primary, secondary, and continuation schools) ; Malting and Brewing and Bio-Chemistry of Fermentation ; Legal Studies ; Social Study ; Industrial Certificates. Connected with the Medical Faculty is a *School of Dentistry*. Research work is co-ordinated by a *University Research Committee*.

MATRICULATION. See Appendix XXI.

DEGREES. B.A., B.Mus., LL.B., M.A., M.Mus., D.Phil., D.Litt. ; B.Sc. (in Pure Science, in Engineering—Civ., Elec., Hydro-Elec., Mech., or Oil, in Metallurgy, or in Mining—Coal and Metal), M.Sc., D.Sc. ; M.B., Ch.B., B.Sc. (Pub. Health), B.D.S., M.D., Ch.M., M.D.S. ; B.Com., M.Com. ; Ph.D. (in any Faculty) ; LL.D. (Honorary).

No degree can be obtained without attendance upon prescribed courses in the Univ. extending over at least 3 academic yrs. after matricn. except in the case of graduates of other Univs., who are, under certain conditions, admitted to the 1-yr. courses for the M.A. and M.Sc. and to 2 yrs.' courses for the B.Sc. (courses in technical subjects), B.Com. (one year may in exceptional cases be taken elsewhere), Ph.D. (v. p. 18), M.D., or Ch.M.

B.A. Honours schools in Classics, French, German, Engl. Lit., Hist., Social and Polit. Sc., Philos., Maths., Music, Geography, Italian.

In the B.Com. courses one-third of the student's time may, if he chooses, be devoted to work in Applied Science.

The B.Sc. with Honours requires 3 yrs. after the Intermediate standard has been reached. The B.Sc. courses in Engineering and Oil Mining cover 4 yrs. Those in Mining involve practical work underground. Graduates of Oxford who have obtained the Ox. Dipl. in Scientific Engin. and Mining are eligible, subject to certain provisos, for the B.Sc. in Engin., Mining, or Metall. after 2 yrs.' study in Birmingham.

Special course in Spanish for students of applied science ; 2 lecture hours a week for 2 sessions.

Med. students may spend their final yr. at any school or schools of Med. recognized by the Univ., and the Senate may recognize examns. passed therein as exempting from the 1st Med. examn. They may obtain the B.Sc. as well as their Med. degree by devoting 6 yrs. after the pre-medical year instead of 5 to study in the Univ.

Candidates for the B.Mus. (Honours) must have passed the matricn. or an equivalent examn. and an examn. in the Rudiments of Music, and power of performance on some musical instrument.

The M.A., M.Com., and M.Sc. involve at least 1 yr. of study after completing the course for the bachelorship.

The M.A. may be taken in Educn. as well as in the ordinary Arts subjects.

The D.Phil. or D.Litt., M.Mus., or D.Sc. may be taken 3 yrs. after the M.A., B.Mus., or M.Sc.

Advanced Standing. Candidates who pass at entrance certain examns. ordinarily taken after the first year of a degree course may take the final examn. for the B.A. at the end of their second year and the M.A. at the end of their third year. Certain examns. of other approved Univs. and Examining Bodies are accepted as qualifying for such advanced standing.

Diplomas. *Art* Instructor's (2 yrs.' course), for students of the Municipal School of Art; *Brewing* (3 yrs.' course), Brewing Special for graduates (1 yr.); Graduates' *Commerce* (1 yr. course), open to graduates of any Univ. who have passed an adequate test in accounting; *Mining*; *Social Study* (1 yr. or, Higher Dipl., 2 yrs.' course preparatory for public administration, charity organization, factory welfare, trade union official work, etc.); Secondary, Primary, or Continuation School *Teachers'* (1 yr. course), for graduates of a Univ. of the U.K. or others equally qualified; *Dental Surgery* (4 yrs. subsequent to passing a recognized Pre-Dental examn.); *Public Health* (1 yr. course), not less than 2 yrs. after obtaining registrable qualification in Med., Surg., and Midw.

A Joint *Coal-mining* Diploma of the Univs. of Oxford and Birmingham may be taken by Oxford graduates in Engineering who, after 4 months' practical experience in coal-mining, pursue courses covering one session in this Univ. Tuition fee, £60. A similar Joint Diploma of Camb. and Birm. is given.

Mining students from *British Dominions*, not under 25 years of age, who have been regularly employed in mines for not less than 4 yrs. may take a special 2-yrs.' course (combined with practical experience) qualifying for the Univ.'s Mining Diploma.

Certificates for Brewers and Maltsters (2 yrs.).

An *Industrial Certificate* class has been instituted under the control of a joint board of Univ. and Trade Union representatives. This class provides two full days' instruction to members of Trade Unions, nominated by their Unions, in English Literature, Modern History, Economics, and Elementary Science. The class is held in all three terms of the Univ. session, and at the end an Industrial certificate is awarded after examn. The class is a new departure, as it is not based on the principle of evening work but on full-time day work, and the instruction is provided by members of the Univ. Staff. Evening classes are not provided by the Univ., this work being left to the Birm. and Midland Inst., Munic. Tech. Sch., etc.

RESEARCH. A joint standing committee of lay members of council and academic members of senate co-ordinates research work in all faculties, formulates policies of research, obtains funds, and co-operates with Gov. agencies and external bodies. Trust Funds (Spencer and Holcroft) amount to £10,000. There are special committees for research in Mental Diseases and in Cancer.

FEES. Matricn., £2. Tuition for B.A., £75; B.Sc., £75-£96; Engin.,

£221; Mining, £146-£198; Metall., £129-£175; Med., including Hospl. fees, £170; LL.B., £29. Examns., Interm. and Final, for first degree, £10, except in Med., £20, and Engin., £12: 10s. Laboratory research fees average about £20.

SCHOLARSHIPS for advanced students. Walter Myers (Travelling), £150 for 1 yr., renewable, for research in Path. or Clin. Med., open to graduates in Med. and Surg. of Birm. (who have also obtained the B.Sc.), London, Ox., or Camb.; 10 Scientific Research, tenable for 1 yr. (6 of £96 and 4 of £50 each), are offered annually.

RESIDENCE. For women there is a Hostel—Univ. House, Edgbaston Park Rd. (Warden), with grounds of 2½ acres; for 70 men students—Chancellor's Hall (Warden), Augustus Road, Edgbaston; for 30 men students, Queen's College (Warden), Somerset Road, Edgbaston. The cost of board and lodging is from £2: 2s. upwards a week.

An **APPOINTMENTS BOARD** (Secy.—The Registrar) has been established.

GUILD OF GRADUATES. Six representatives serve on the Univ. Court of Governors, one of whom is also a member of the Univ. Council. A *Register of Graduates* and a *News Letter* are circulated annually to all members.

UNIVERSITY EXTENSION work includes Lectures and Tutorial Classes in the city and neighbouring towns.

PUBLICATIONS. *Calendar* (Oct.), 2s.; Sectional Prospectuses (April); *Careers in Science*; *Report of University Research Committee*, including list of research reports published during the session (Jan.); students' magazine, the *University Gazette*.

THE YEAR 1925-26

BENEFACTIONS. £100,000 from Sir Charles Hyde to be applied to (a) purchase of some 41 acres to the north of the present Edgbaston site, bringing the total site up to approximately 110 acres, (b) a new Students' Union, (c) the extension of Chancellor's Hall of Residence for men students, (d) an addition to the permanent income at the disposal of the Joint Standing Committee of Research. £2250 from the Brewers' Society towards new equipment in the Brewing Laboratories. Additional special grants have been made by the Miners' Welfare Fund towards the cost of building and equipping the Coal Treatment Laboratories. Numerous gifts of sums below £500, together with many gifts of machinery, apparatus, books, specimens from individual donors, and industrial firms have been received.

NEW BUILDINGS. The Biological Block (which will cost approximately £100,000) on the Edgbaston site, with accommodation for Zoology, Botany, and Brewing and Bio-Chemistry should be occupied during the present session (1926-27), and these departments will then be transferred from Edmund Street; the new block for the Dept. of Petroleum Engineering was formally opened in May 1926, the new Coal Treatment Laboratory for the Dept. of Coal Mining in Nov. 1926; the extension of Chancellor's Hall (48 single bedrooms, Dining-room, and Recreation Hall, so as to provide for about 96 students in all) is in progress.

NEW POSTS. Full-time assts. in the Depts. of Chemistry, Botany, and Geography.

OTHER RECENT DEVELOPMENTS. The directorship of the Joint Research Committee (Univ. and City) for Mental Disease, rendered vacant by the death

of Sir Frederick Mott, was filled by the appointment of Dr. Pickworth. A Cancer Research Committee has been formed and is conducting investigations.

GENERAL INFORMATION

University College, Bristol, founded in 1876, was dissolved in 1909 on the incorporation by Royal Charter of the Univ. of Bristol. The main buildings, including a large extension recently opened which cost £500,000, a new building for the accommodation of the Physics department (cost £200,000), and other projected additions, when complete, will cover a site of 16 acres near the centre of the city on high ground adjoining residential districts. The Municipal Museum and Art Gallery adjoin.

The TECHNICAL COLLEGE OF THE SOCIETY OF MERCHANT VENTURERS provides accommodation for and maintains the Faculty of Engineering of the University. Dean of the Faculty—Prof. Andrew Robertson, D.Sc.

LIBRARIES, 70,000 vols. LABORATORIES: Scientific, Medical, and Engineering, all equipped for purposes of research. Agri-Horticultural station at Long Ashton with Expl. fruit plantations 268 acres devoted to research in fruit-culture, cider-making, plant diseases and their treatment, etc. Fruit and vegetable preservation research station at Campden, Glos., controlled by the Univ. on behalf of the Ministry of Agr., for instruction and experimentation on a semi-commercial scale. Hospitals available for clinical study, 2 General (618 beds), Children and Women (109), Eye (40), in all 767 beds.

FACULTIES. Arts, Science, Medicine, Engineering. Deans: Prof. Crofts (English), Prof. Hassé (Mathematics), Prof. Fawcett (Anatomy), Prof. A. Robertson.

Special Departments. Education (places for 180 men and 180 women students); Agriculture and Horticulture; Pathological Laboratory (for investigation of epidemic and other outbreaks, examination of waters and foods, and routine diagnostic work required by medical practitioners).

MATRICULATION. In common with all other English Univs., Bristol holds School and Higher School Certificate Exams., at which candidates may qualify for matriculation. It holds no separate matriculation examn. See also Appendix XXI.

DEGREE COURSES. B.A., B.Sc., B.Sc. in Engineering—3 yrs., including at least 2 in the Univ.; Honours in Arts and Pure Science—4 yrs., except for those who enter with Higher School Certif.; B.Sc. in Domestic Science—4 yrs.; on an evening class curriculum—6 yrs. (Engineering 5 yrs.); by research in case of a graduate of another Univ.—2 yrs.; "Sandwich" Scheme of Training for Engineers, including 30 mos. in works—5 yrs.; M.B., Ch.B.—5 yrs., after passing a Prelim. Science examn. in Chem. and Physics; B.D.S.—5 yrs., including at least 3 in the Univ.; B.Agr.—5 yrs.

Instruction given in Theological subjects in the Associated Colleges to undergraduates of the Univ. by the Principal or teachers mentioned above is, for the purpose of the B.A. degree, deemed to be given in and by the Univ.

Post-graduation medical studies are under the direction of the Prof. of Pathology, who arranges for weekly afternoon demonstrations and discussions in April and May. Fee for the course, 1 guinea.

HIGHER DEGREES. M.A., D.Litt.; M.Sc., D.Sc. (in Pure Sc. or Engineering); Ch.M., M.D.; Ph.D. (see p. 18). Graduates of other Univs. are placed practically on the same footing as graduates of Bristol as far as regards facilities for proceeding to all these except the Medical Degrees. Candidates who graduate with Honours in Science may take the M.Sc. one yr. later. Otherwise the Mastership is not granted within 2 yrs. after graduating. The M.D. may be taken 2 yrs. after graduating in Med., the D.Litt. 4 yrs. after the

M.A., and the D.Sc. 4 yrs. (3, if devoted to original work in the Univ.) after the M.Sc.

DIPLOMAS. Education (post-graduate) 1 yr., L.D.S. 4 yrs., D.P.H. (for fully registered medical practitioners of 2 yrs' standing), 9 months, D.V.S.M. (for M.R.C.V.S. of 1 yr.'s standing), Engineering 3 yrs. (or evening classes 5 yrs.).

CERTIFICATES. Testamur in Educn., 1 yr.; Continuation School Teachers' Certif., 1 yr.; Testamur in Social Study, 2 or (Higher Testamur) 3 yrs.; Testamur in Biology, 1 yr.; Engineering Apprentices, 2 yrs.

FEEs. Matricn., 3 gs.; Registration, £1:10s.; Tuition, annual, B.A., 24 (Theol. students, 20) gs.; B.Sc., 30 gs.; B.Sc. in Engin., 40 gs. (Lab. practice alone, 4 gs. per term for one day a week); M.B., Ch.B., entire curriculum, 205 gs.; B.D.S., including mech. lab. and hospl. practice, 215 gs.; Testamur in Social Study, 2 yrs., 27 gs.; Degree examus. (including Graduation), B.A. or B.Sc., 9½ gs.; M.D., 24 gs.; M.D.S., 24 gs.; M.A. and M.Sc., 9½ gs.; Ph.D., 13 gs. Univ. Union, £3:3s. per annum.

RESEARCH. The Colston Research Society devotes annually about £400 to the promotion of Research in the Univ. It offers, preferably to Bristol graduates, fellowships of £150 each, the money being provided by donors, who are allowed to determine the subject of the research and, subject to the approval of the Board of the Faculty, to nominate the holder. The donor has a right of access to the research work and to receive the result of it 12 months prior to publication.

SCHOLARSHIPS FOR GRADUATES. £160 for research in Engin.; £45 and £31 (women only), 46 gs. (men only), for post-graduate course; £52 for Chemical Metall. research; £7 for study in English Lit.

RESIDENCE. Mortimer House and Canynge Hall for men—from £75 and £67:10s. p.a.; Clifton Hill House and 4 other residences for women students—from 60 gs. p.a.

APPOINTMENTS BOARD. Secy., O. V. Guy, B.A., D.S.O.

For FORMER STUDENTS there is an Association of Alumni.

UNIVERSITY EXTENSION. A Joint Board was formed in 1922 consisting of representatives of the Univ. of Bristol, the Univ. College of the South-west of England, Exeter, and the Univ. College of Southampton. Secy.—J. H. Nicholson, M.A., Director of Extra-mural Studies, The University, Bristol.

Co-operation with Rural Community Councils. The Univ. appoints 3 representatives to the R.C.C. of Gloucestershire and Somerset respectively. The Director of Extra-mural Studies in the Univ. is Vice-Chairman of the Gloucestershire R.C.C., and Chairman of the Education Committee of each of the two Councils. The Gloucestershire R.C.C. contributes to the salary of a whole-time tutor for Adult Education, appointed by the Univ. for that County.

PUBLICATIONS. *Calendar*; Faculty prospectuses issued in June; annual report of Council; Pamphlets on Extension Lectures (with list of lectures on the Bristol, Southampton, and Exeter panels), Public Lectures, Halls of Residence, Regns. for Matricn. and for School Certif. Examns. (*Examn. Papers*, 1s. 3d. per set post free); Students' Mag. *Nonesuch*, 9d.

THE YEAR 1925-26

BENEFACTIONS. Gift of £135,000 by Sir George A. Wills for the erection of a Residential College for Men at Downside, Clifton.

NEW BUILDINGS. Residential College begun; new Physics building continued.

NEW POSTS. Lecturers in Domestic Science and (Clinical) in Laryngology, etc.; Asst. Lectrs. in Classics, French, Maths., Botany, Zoology, Dairy Bacteriology, Public Health; Asst. to the Prof. of Surgery; Tutor in Dental Surgery; Resident Tutor in Economics.

NEW REGULATIONS were made: (1) for the Degree of B.Sc. in *Domestic Science*, the Gloucestershire Training College of Dom. Sc. being associated with the Univ. for the purpose of the necessary practical work: the curriculum occupies 4 years, the first 3 of which are spent in the Science Faculty; (2) for a *Testamur in Biology*, the course (1 year) being intended primarily for students who have taken a 2-year course in the Dept. of Education, and Trained Certificated Teachers.

OTHER NEW DEVELOPMENTS. An *Appointments Board* was constituted, consisting of the Vice-Chancellor, 4 members of Council, and the Deans of Faculty.

SPECIAL CONFERENCES were held with Training Colleges to organize co-operation.

The legislative and executive authority of the Univ. is vested in the REGENT HOUSE, which comprises those Univ. Officers, Fellows of Colls., and others, who are concerned with its teaching and administrative work. A meeting of the Regent House is called a *Congregation*.

There is a right of appeal against a decision of the Regent House, on the motion of at least one-third of its members, to the SENATE, which consists of graduates of at least seven years' standing from their first term of residence, who have taken a degree of Doctor or Master, or the degree of Bachelor of Divinity. In order to be successful an appeal must be sustained by a statutable prescribed majority. The Senate elects the Chancellor and certain other officers, confers degrees, and holds meetings for the discussion of proposals.

Changes of statute can be made by the Univ. with the approval of the Privy Council, and Parliament.

Many executive duties, and the duty of sanctioning the submission of resolutions (called *Graces*) to a Congregation, are entrusted to the *Council of the Senate*, which is elected by the Regent House.

The titular presiding officer at a Congregation, and the Chairman of the Council, is the Chancellor, who is by custom a non-resident distinguished in public life. His duties are in fact performed by the Vice-Chancellor, who is a Head of a College, appointed annually, in theory by the Regent House, in practice by the Council. It is customary for the Vice-Chancellorship not to be held for more than two years in succession by one person.

There are numerous *Boards* and *Syndicates* for dealing with the various branches of University business: the most important of them are the *General Board of the Faculties*, whose duty it is to advise the Univ. as to educational policy and to supervise and co-ordinate the work of the Faculties, and the *Financial Board*, whose duty it is to supervise the finance of all spending departments.

There are twenty Faculties, a Faculty being a body of teachers in a subject or group of subjects. The organization of teaching, research, and examinations in the various subjects is in the hands of the several Faculty Boards, subject to the control of the General Board. A Faculty Board is in part composed of members elected by the Faculty. The large scientific Faculties are divided into Departments, under a Head, generally a Professor, who is responsible to the Faculty Board for the management of his Department.

The INCOME of the Univ. is derived from the endowments of specific posts, from general endowment (though to a small extent only), from the fees of students, from the statutable contributions of Colls., and from a Treasury Grant.

DISCIPLINE outside the walls of the Colls. is maintained by the Proctors.

The Univ. TEACHING OFFICERS are the Professors, Readers, Lecturers, and Demonstrators. They, as well as the administrative officers, are required to join in the Federated Superannuation Scheme for Univs. and to retire at the age of 65.

The COLLEGES are self-governing corporate bodies distinct from the Univ., owning and managing their separate property, the corporators being the

Head and Fellows. Their powers are, however, limited by their Statutes, which cannot be altered by them without notice to the Univ. and approval by the Privy Council. The functions of the Colls. in regard to students are to provide lodging, corporate life, and personal tuition for them, while the function of the Univ. is to provide public instruction by means of lectures and demonstrations, examinations leading to degrees, and facilities for research. The affairs of the Colls. are, however, closely interwoven with those of the Univ. Most of the Fellows of Colls. are Univ. officers, indeed the Statutes require that a certain proportion of the Fellowships of each Coll. shall be held by Univ. officers. And each Coll. is required by Statute to contribute a certain fraction of its income to the funds of the Univ., the scale of contribution being graduated according to the wealth of the College.

The Colls. also maintain Fellowships for the furtherance of research, and a large number of Scholarships. The title of scholar is awarded on purely intellectual grounds, but, as at Oxford, no Coll. emolument other than an allowance for rooms is paid to an undergraduate scholar unless he satisfies the Coll. that his circumstances justify the payment.

NON-COLLEGIATE STUDENTS reside in licensed lodgings or in "Houses" recognized by the Non-Collegiate Students' Board. Such students may, by becoming members of Fitzwilliam House, obtain opportunities for taking part in communal life (dining in Hall, belonging to athletic clubs, etc.) similar to those enjoyed by members of Colleges.

WOMEN STUDENTS. Subject to the condition that the joint number of women students receiving instruction in the Univ. shall not exceed five hundred, the students of the women's Colls. (Girton and Newnham) are admitted to instruction and examinations in the Univ. and to the titles of degrees. Women titular graduates aged 30, share with men graduates, under the Representation of the People Act, 1918, the privilege of voting for the election of the two Burgesses, who represent the Univ. in the House of Commons. Women are eligible for most Univ. offices and for membership of Faculties and Faculty Boards, but cannot become members of the Senate or Regent House. From 1872 women were informally admitted to Tripos exams. in the Univ., and from 1881 have been formally admitted to the *Previous* examn., the Tripos exams., and certain exams. in Med. and Music. They were subsequently admitted to the courses and exams. for the Diplomas in Agric., Horticulture, Forestry, and Geog., and for the Training of Teachers, and were made eligible for Certifs. of Research. Finally in Oct. 1921 a Grace admitting them to titular degrees was passed.

ADMISSION. To become an undergraduate member of the Univ. a person must first be admitted either as a member of a College or as a Non-Collegiate Student. No person except Research Students (see p. 62) and certain others may be matriculated who has not passed or been exempted from the "Previous" examn. (see Appendix XXI.).

For admission to a College or as a Non-Collegiate student application should be made to the proper officer: the Tutor for Admissions, Christ's; the Senior Tutor, Gonville and Caius, St. John's; the Tutor, Clare, Cath., Corp., Down., Magd., Pet., Trin. H.; one of the Tutors, Trin.; the Proyost or Tutor, King's; the President, Queens'; the Bursar, Selwyn; the Master, Emm., Jesus, Pem., Sid.; the Censor, Fitzwilliam House (Non-Coll. students). It is advisable to apply some considerable time beforehand; and if the applicant has any special preference in the matter of lodgings, e.g. for cheap rooms, to begin correspondence at least 12 months beforehand.

As regards *Colonial and Foreign students*, see Appendix XXIII.

ADMISSION TO ADVANCED STANDING. I. A graduate with First Class Honours (or equivalent record) * or—provided that he passed, † when qualifying for his degree, in English, 2 other languages, one of which is either Latin or Greek, and Maths., or, if the student is a native of Asia or Africa and not of European descent, in English, in Maths., and in one of : Arabic, Persian-with-Arabic, Chinese, Sanskrit, or Pali—with Second Class Honours (or equivalent record) ‡ of an approved university || at which he has attended classes not less than 3 years, will be accepted as an *Affiliated Student*, and will then be entitled to (1) be exempt from the Previous Examn. ; (2) reckon the first term kept by residence as the 2nd, 3rd, or 4th term for the purposes of all provisions respecting the standing of candidates for (a) Tripos examns., or for degrees in Law, Med., Surgery, or Music, and (b) Degrees other than the ordinary B.A. Degree or Degrees conferred under the regns. for Research Students ; (3) secure such a degree in certain circumstances on one part or section of a divided Tripos.

II. Students at an *Affiliated Local Lectures Centre* (at present Exeter, Leicester, Southport, Hull, Newcastle-upon-Tyne, Derby, Sunderland, Scarborough, Plymouth, Stonehouse, Devonport, Norwich, Colchester, Northampton, Portsmouth) will be admitted to Nos. (2) and (3) of the above privileges provided that they have (a) attended a series of courses of lectures and classes for 6 terms, extending over such period of years as may be approved by the Syndicate, in one of the following groups : A, Natural, Physical, and Math. Science ; B, History, Pol. Econ., Mental Science, Literature, Art ; (b) attended in each of 2 terms a course of lectures in the other of the groups A, B ; (c) satisfied the examiners in the examn. held after each course of lectures.

INCORPORATION. Students who before admission as members of this Univ. have kept terms by *bona fide* residence at Ox. or Dub. are, subject to certain provisos, allowed terms corresponding to those which they have so kept ; a graduate of Ox. or Dub. who took a degree or degrees after having duly qualified himself therefor not only by having passed the examns., etc., required, but by having kept his terms by residence in his own Univ., may be admitted on certain conditions to the same degree or degrees in Camb.

INTERCOLLEGIATE INDIAN STUDENTS COMMITTEE : Secy., W. S. Thatcher, M.A., 22 Fitzwilliam St.

TERMS. In order that a term may be counted towards qualifying for a degree, a student must reside in Cambridge (*i.e.* within a circle of $2\frac{1}{2}$ miles' radius from Gt. St. Mary's Church) during three-fourths of the term. Full terms begin : Jan. 14, Apr. 20, Oct. 7, 1927 ; Jan. 13, Apr. 20, Oct. 9, 1928 ; end—Mar. 14, June 11, Dec. 5, 1927 ; Mar. 13, June 11, Dec. 7, 1928.

DEGREES. B.A., M.A., M.Litt., Litt.D., M.Sc., Sc.D. ; B.D., D.D. ; LL.B., LL.M., LL.D. ; M.B. and B.Chir., M.Chir., M.D. ; Mus.B., Mus.M., Mus.D. ; Ph.D.

ARTS. The qualifications for the B.A. are : (i.) 9 terms' residence ; (ii.) passing or being exempted from the *Previous* examn. ; (iii.) passing the examns. for the ordinary degree or a Tripos examn. or examns.

* In U.S.A., generally speaking, graduation in the first sixth of his class with evidence of exceptional ability in some subject.

† A pass before matriculation in the corresponding Part of the Previous Examn. in any of these subjects will be accepted in lieu of passing when qualifying for the degree.

‡ In U.S.A., generally speaking, graduation in the first half of his class.

|| V. list in Appendix XXIII.

Exemption from (i.) to the extent of 3 terms can be obtained by students entitled to the privileges of *affiliation* (v. *supra*).

(ii.) The *Previous* examn. includes Latin or Greek, one other language, Maths., and English. Subject to certain provisos, natives of Asia or Africa who are not of European parentage may substitute papers in Arabic, Chinese, Sansk., or Pali for the Latin papers. For details, see Appendix XXI.

Exemption from (ii.) can be obtained by students who hold certain certifs. granted by various Univs. of the U.K., by the Scotch Education Dept., or by the Ministry of Education, Northern Ireland, or by certain Australasian, S. African, American, and European authorities (v. App. XXIII.); such exemption is also granted to students entitled to the privileges of affiliation.

As regards (iii.), the ordinary B.A. is obtained by qualifying in 5 subjects of which 3 at least must be "principal" and 1 at least must be chosen from each of 2 groups. The principal subjects are—in Group I.: Bible, Church Hist., Engl., Gk., Lat., Fr., Ital., Span., Ger., Rus., Geog., Hist. I., Hist. II., Econ. I., Econ. II., Moral Philos., Psych., Law I., Law II., Educn., Music, Mily. Subjects I., History of Art; in Group II.: Maths., Physics, Chem., Applied Chem., Metal., Bot., Zool., Physiol., Geol., Geog., Engin. I., Engin. II., Mily. Subjects II. There are 4 subsidiary subjects in each group.

Students of *Agriculture* and allied subjects may proceed to the ordinary B.A. by means of certain courses dealing with their scientific and practical sides, and including also prescribed literary training.

The Honours B.A. is obtained by passing in one or more of the following Triposes: Anthropological, Classical, Economics, English, Geog., Hist., Law, Maths., Mech. Sciences, Mod. and Med. Langs., Mor. Sc., Nat. Sc., Oriental Langs., Theol.

A Bachelor may be admitted Master of Arts at the end of six years from the end of his 1st term, provided that not less than 2 yrs. have elapsed from his admission as B.A.

DIVINITY. A M.A. or LL.M. proceeds to the B.D. on or after the 11th of June in the 7th year from his *creation*, either (1) by submitting an original dissertation composed by himself in Latin or English on some subject connected with Biblical Criticism, Exegesis, or History, or with the Evidences of Christianity, or with Dogmatic Theology, or with the study of other Religions in relation to the Christian Religion, or with Ecclesiastical History, Literature, or Antiquities, or with the Philosophy of Religion, or (2) by specifying his published works on one or more of these subjects. He is required to satisfy the Degree Committee, either by his Dissertation, etc., or otherwise, that he possesses a competent knowledge of Christian Theology. A B.D. of 5 yrs.' standing proceeds to the D.D. by submitting published works or a printed dissertation on the same subjects as those for the B.D.

LAW. A student who has kept 9 terms and obtained Honours in both parts of the Law Tripos, or Honours in some other Tripos and subsequently Honours in either part of the Law Tripos, is entitled to proceed to the degree of B.A. To qualify for the LL.B. it is necessary to pass the LL.B. examn. after having kept 9 terms and obtained honours in Pt. I. or Pt. II. of the Law Tripos, or passed in either Part at the Honours standard, or taken the degree of B.A. and qualified for practice as a barrister or solicitor in England or Ireland, or as an advocate or law agent in Scotland. A LL.B. may, not less than 6 years after the end of his 1st term, ask leave to submit a dissertation on some branch of Law or of the History or Philosophy of Law, and, if such dissertation is approved, he incepts in Law and in due course becomes LL.M. A LL.M. (as well as holders of certain other degrees) may be admitted LL.D., not less than 8 yrs. after admission to his 1st degree, if he has published one or

more original contributions, approved for the purpose, to the advancement of the science or study of Law.

MEDICINE. The qualifications for the M.B. and B.Chir. are : (i.) 9 terms' residence ; (ii.) passing (or exemption from) the *Previous* examn. (v. *supra*) ; (iii.) 5 yrs.' Medical study ; (iv.) passing in due order 3 examns. and presenting an approved thesis. Admission to the 2nd M.B. examn. is conditional on proof of diligent attendance on prescribed courses of lectures and practical work. Admission to the 3rd M.B. is conditional on proof of 3 yrs. of hospl. practice, 5 yrs.' Medical study, and diligent attendance on prescribed courses of instruction and practical work. A M.B. in the 9th term after *inauguration* (v. *supra*) and a M.A. in the 12th after *creation* may be admitted M.D. on submission of a thesis or dissertation, but the M.A. must have attended lectures and hospl. practice and passed examns. as required for the M.B. A B.Chir. after 3 yrs. from inauguration may be admitted Inceptor in Surgery and so by creation to the M.Chir. degree. A M.A. may be admitted also if legally qualified to practise Surgery. A candidate for the M.Chir. must either pass the examn. for the degree or be exempted therefrom in consideration of a contribution to the advancement of the Science or Art of Surgery. Addenbrooke's Hospl., containing 192 beds and large out-patient depts., is available for clinics. Overseas examns. exempting from the 1st M.B. : 1st examn. for B.Sc. in Agr. of Univ. of S. Africa (subject for subject) ; 1st examn. for medical degrees in Univ. of Adel., Melb., or Syd., or 1st examn. in Science in Physics, Chem., and Biol. in Univ. of Queensland, W. Aust., or Tasm.

MUSIC. The qualifications for the Mus.B. include (i.) 9 terms' residence ; (ii.) passing (or exemption from) the *Previous* examn. ; (iii.) passing an examn. in two parts whereof the first may not be taken before the 2nd term, nor the 2nd before the 8th term. The Mus.M. may be taken after at least 3 yrs. have elapsed since *inauguration* (v. *supra*) as Mus.B. and after passing the prescribed examn.

Persons not less than thirty years of age who have graduated in some Faculty of the Univ. and given proofs of distinction in musical composition may be candidates for the Mus.D.

THE SC.D. AND LITT.D. Any person may be a candidate for either degree who is a M.A., LL.M., or M.Ch. of not less than 5 yrs.' standing or a M.B. of not less than 7. These degrees are granted in consideration of original contributions to the advancement of Science or Learning.

DIPLOMAS. In addition to degrees, which are for the most part conferred only on its own members, the Univ. grants 6 Diplomas which are open to other persons—in Geog., in Psych. Med., in Pub. Health, in Med. Radiology and Electrology, in Hygiene, in Tropical Med. and Hygiene ; and 7 which are almost entirely restricted to members of the Univ.—Agric. Sc., Anthropol., Class. Archæol., Education, Forestry, Horticult. Sc., and Oriental Languages, the diplomas in Anthropol. and Orient. Langs. being open to non-members in certain exceptional circumstances only. Among overseas Mental Hospitals recognized for clinical work for the Dip. Psych. Med. are the Pretoria and the Gladesville (Sydney). *Certificates*, open to members of the Univ. only, are conferred in Architecture (open to graduates only) and in certain foreign languages. A *Divinity Testimonium* is granted on proof of diligent attendance at 6 courses of lectures.

The *Joint Coal-mining Diploma* of the Univs. of Cambridge and Birmingham enables Cambridge graduates in Engineering to shorten by one year the period of training at Birmingham otherwise required. It is approved by the Board of Trade.

The Diploma in Anthropology may be obtained after residence for one term only by *Officers of any of the Public Services of the Empire*, not ordinarily resident in the British Isles, having exceptional qualifications.

The Diploma in Hygiene, established in 1921 in response to a communication from the League of Red Cross Societies at Geneva, is intended for *foreigners* who possess a qualification to practise medicine or surgery which, though not registrable in Great Britain, is recognized by the authorities of their own countries. The full course must extend over 9 months. The requirements are similar to those demanded for the English D.P.H. except that no detailed knowledge of English public health laws is required.

The Univ. makes provision for training candidates for the Higher Civil SERVICES; Probationary Vice-Consuls; Indian Civil Service selected candidates; candidates for administrative appointments in Tropical Africa and other branches of the Civil Service and candidates for service under the Govt. of the Sudan. To meet the wants of Civil Service candidates a series of lectures supplementary to the courses for regular Tripos candidates has been arranged by the Board of I.C.S. Studies, and by a Committee of Associated Colls. Detailed information may be obtained from the Director of Civil Service Studies, appointed by this Committee (C. J. B. Gaskoin, M.A., Fitzwilliam House), and from H. A. Roberts, M.A., Univ. Offices, St. Andrew's St., who is Secy. to the Board of I.C.S. Studies, Foreign Service Students' Committee, and Appointments Board.

CAMBRIDGE TRAINING COLLEGE FOR WOMEN (POST-GRADUATION). Principal—Miss M. H. Wood, M.A. Camb. and Lond., Litt.D. Dublin.

A system of MILITARY INSTRUCTION has also been organized by the Univ. The Board of Milit. Studies (Secy.—Hon. I. M. Campbell, D.S.O., Trin. H.) are in direct communication with the War Office and responsible for the nomination of Camb. Univ. candidates for Regular commissions in H.M. Forces. See Appendix I.

The TRAINING OF TEACHERS is under the management of the Teachers Training Syndicate, established in 1878 (Secy.—F. E. E. Harvey, M.A.; address—Warkworth House).

Exams. for the Univ.'s *Certificate of Proficiency*, held in June and Dec., are open to students of certain colleges, and to teachers who have had at least a year's experience in an approved Secondary School, if their attainments are satisfactory.

Students of the *University Training College* (Principal—C. Fox, M.A. Chr.; address—Warkworth House) devote their first 3 yrs. to reading for the B.A. degree, the 4th to professional training. Several scholarships and exhibitions are offered to intending schoolmasters who have been Bursars, Student Teachers, or Pupil Teachers.

There is also a Post-graduation Training Coll. for Women. Principal—Miss M. H. Wood, M.A. Lond., Litt.D. Dub., Girton; address—Wollaston Rd.

Cambridge graduates are trained for HOLY ORDERS at Ridley Hall, founded in 1879 (Principal—Rev. Canon A. J. Tait, D.D. Joh.); or at the Clergy Training School, Westcott House, founded in 1881 (Principal—Rev. Canon B. K. Cunningham, O.B.E., M.A. Trin.) under a scheme controlled by a Council composed of members of the Church of England. Other theological colleges recognized by the Univ. as Houses of Residence for students: the Westminster Coll., founded 1844 (Principal—J. Oman, M.A. Qu., D.Phil., and D.D. Edin., Presbyterian); Cheshunt Coll., founded 1768 (President—Sydney Cave, D.D. Lond., mainly Congregational); St. Edmund's House, founded in 1896

(Principal—Rev. J. F. McNulty, M.A., Roman Catholic) and Wesley House, founded 1924 (Principal—H. Maldwyn Hughes, M.A. Jes., D.D. Lond.). Cheshunt and Westminster Colleges were moved from Cheshunt and London in 1905 and 1899 respectively.

RESEARCH STUDENTS. Each application for admission must be accompanied by (i.) a diploma or other certif. of graduation at a Univ.; (ii.) a statement as to the course of research which the applicant desires to pursue, together with evidence of qualification, attainments, and previous study; (iii.) a certif. or declaration of the applicant's age at the date of application. In exceptional cases requirement No. (i.) may be dispensed with. The application is not granted unless it appears (a) that the course of research can conveniently be pursued within the Univ., and (b) that the applicant has produced adequate evidence that he is qualified to enter upon the proposed course.

Asst. Registry for Research Studies: R. E. Priestley, M.A. Clare.

A Research student pursues his course under direction and supervision, prescribed by the Degree Committee of the Board of Studies concerned. If he should wish to obtain a degree elsewhere he may, after he has pursued his studies in the Univ. for not less than 2 terms with regularity and industry, receive a *Certificate* to that effect signed by the V.C. After a course extending over 2 yrs. and residence in the Univ. for at least 6 terms (Cambridge graduates, 3 terms) after admission as research students, the M.Sc. or M.Litt. may be obtained. For the Ph.D. (v. p. 18) 3 yrs. are ordinarily required, including two years spent in Cambridge Univ. One year of the 3-years' course may be remitted if the applicant satisfies the Board of Research Studies that he or she has done at least a year's satisfactory research work before admission to Cambridge Univ.

UNIVERSITY SCHOLARSHIPS open to graduates number about 57, and are worth about £5600 p.a. In almost every instance they are open only to persons who have graduated in or are members of this Univ., and in some cases only to those who have kept a certain number of terms. For details see *Students' Handbook* (price 7s. 6d., Univ. Press), which also gives details of *Entrance Scholarships*.

EXPENSES. See p. 223.

APPOINTMENTS. (1) The University Appointments Board is concerned with appointments of all kinds (Secy.—H. A. Roberts, M.A., Univ. Offices; Educational Secy.—R. S. Goodchild, M.A.); (2) the Scholastic Agency is concerned with educational appointments (Director—E. O. Vulliamy, M.A.; office at 8 Bene't Street, Cambridge).

The **UNIVERSITY LIBRARY** contains over 1,000,000 vols., including many early printed books, and over 10,000 MSS. and 165,000 maps. It is entitled under the Copyright Act to a copy of every book published in the U.K., and a large number of foreign books and periodicals are acquired by purchase. It contains, amongst others, the following remarkable collections: Acton library (mediæval, ecclesiastical, and modern history, 60,000 vols.); W. G. Aston's Japanese library; Sir T. Wade's Chinese books; J. W. Clark collection (Cambridge books, pamphlets, papers, etc.). The annual budget is about £18,000.

Each College and Hostel has a library. Some are interesting survivals of mediæval rooms kept in the state in which they were originally arranged. Among special collections in College libraries are: in Christ's College the Robertson Smith collection of Oriental books, many of which are connected with Semitic literature; in Gonville and Caius College 800 MSS. collected by

Wm. Moore, 1653-59, 60 *incunabula*, heraldic collections of Dr. John Knight (17th cent.), 1300 books and controversial pamphlets of Dr. Wm. Branthwaite (d. 1619), Norfolk and Suffolk topographical and genealogical works; in Girton College small collections of Oriental books, chiefly Sanskrit (Cowell) and Hebrew (Frere—printed catalogue), and Botany books and pamphlets (Ethel Sargent).

In the Arts School in Bene't Street are the Seeley Memorial (works on History and Comparative Politics originally collected by Prof. John Symonds, 1771 to 1807, and added to by his successors), the Bendall (Sanskrit, etc.), and English, Modern Languages and Moral Sciences departmental libraries. The Balfour library in Downing Place contains a large collection of books and periodicals on biological subjects. Here also is the Marshall Library of Economics. Other important departmental collections are in the Museum of Classical Archæology, the Squire Law Library, the Selwyn Divinity School, and the schools of the Natural Sciences. There is a collection of music in the rooms of the Cambridge Musical Society (Downing St.). The Library of the Philosophical Society maintains a special relation to all the Scientific Depts., and is very rich in sets of Journals and Scientific Transactions.

MUSEUMS of Art and Archæology. The Fitzwilliam (Director and Marlay Curator—S. C. Cockerell, M.A.) contains a large and valuable collection of paintings, drawings, engravings, Egyptian and Greek antiquities, ceramics, coins, illustrated MSS., autographs, early printed books, and music; the Museum of Class. Archæol. (Curator—A. B. Cook, M.A. Qu.) contains a collection of casts illustrating the history of Greek sculpture.

The Museum of Ethnol. and Archæol. (Curator—L. C. G. Clarke, M.A. Trin. H.) has a large and increasing collection, including Saxon urns and ornaments, casts of Central American monuments, Egyptian stone implements, unique Fijian collection, and numerous others resulting from scientific expeditions by Cambridge men.

The "Museums of Science" include museums, laboratories, lecture-rooms, class-rooms, and workshops for Agric., Bio-Chem., Bot., Chem., Engin. (including Engine-room, Elasticity, Elec., and Hydraulic Labs., and drawing office), Exper. Physics, Hum. Anat., Ethnol., Forestry, Medicine, Mineralogy (collection very largely increased in recent years and one of the best in the country), Physiol., Psychol., Zool. and Comp. Anat. The Zool. Lab., in addition to providing for the ordinary work of the Dept. and for research, affords peculiar facilities for the study of diseases of animals and of economic entomology. The Museum of Zool. includes very complete series of vertebrates and invertebrates, the fishes obtained by Charles Darwin during the voyage of H.M.S. *Beagle*, a series of invertebrata from Naples, valuable collection of Polyzoa, extensive collection of marine animals from Pacific and Indian Oceans, and an important collection illustrating heredity, protective resemblance, and mimicry [Supt.—C. F. Cooper, M.A. Trin.; Strickland Curator (Birds)—H. Gadow, M.A., F.R.S. (King's); Curator in Entom.—H. Scott, Sc.D. Trin.]. The Sedgwick Museum of Geol. includes a fine collection of British and foreign building stones lately added to the Economic section.

In addition to the laboratories of the School of Agric. there are Field Labs. covering about 10 acres, provided by means of Govt. grants for an Institute for Research in *Animal Nutrition*; also a Univ. Farm (Director—A. Amos, M.A. Down.) of 200 acres and *Plant-breeding Farm* of 230 acres. The *Botanic Garden* (Director—H. Gilbert-Carter, M.A. Trin.) has excellent facilities for study. The Molteno Institute for research in *Parasitology*, and a *Low Temperature Station* for research in *Bio-Chemistry* and *Bio-Physics* were established in 1921.

A *Horticultural Research Station* was established in 1924 in co-operation with the Ministry of Agriculture.

A *Polar Research Institute* was founded in 1925 with the help of a grant from the Capt. Scott Memorial Trustees.

A *SCHOOL OF PATHOLOGY* was endowed by the Rockefeller Foundation (£133,000) and Ernest Gates (£33,000) in 1924.

The *OBSERVATORY* (Director—Plumian Prof. of Astr.), about a mile from Cambridge, has a meridian circle of $8\frac{1}{4}$ in. aperture; the Northumberland equatorial 12 in. aperture; the Sheepshanks photographic equatorial $12\frac{1}{4}$ in.; a number of smaller instruments, and a good library. The Solar Physics Observatory standing close to the older Obs. has the Newall telescope (25 in.), McClean cœlostat and spectrograph, Huggins telescopes, etc. The Univ. has taken over charge (for the Govt.) of the Solar Physics Obs. formerly at South Kensington, receiving a grant-in-aid.

The *CAMBRIDGE LOCAL EXAMINATIONS*, instituted in 1858, are conducted at various places throughout the country and overseas. Copies of the Regns. regarding the Junr. Local and School and Higher School Certificate examns. and the examns. (designed for teachers of not less than 20 yrs. of age) for Certifs. of Proficiency in Religious Knowledge and in English, may be obtained from the Secy., Local Examns. Syndicate, Syndicate Buildings.

UNIVERSITY EXTENSION Lectures are delivered and classes in connexion with them held by a staff of about 40 itinerant lecturers in various towns in different parts of England, including places so distant as Southport, Newcastle, Gt. Yarmouth, and Exeter, under a system initiated in Cambridge in 1873. The characteristic features of the method of teaching adopted are (i.) the Lecture presenting the subject in broad outline, (ii.) the Class, held for about an hour before or after the lecture, at which questions are given out by the lectr., (iii.) the essays written on these questions, and (iv.) the examination. The grades of certificates are: *Terminal*, awarded after a course of ordinarily 12 lectures; *Terminal Certificate in Honours* implying distinction; *Sessional*, for courses extending over not more than 2 yrs. and including at least 22 lectures; the *Vice-Chancellor's*, awarded to students who obtain Terminal or Sessional certifs. satisfying certain conditions and submit a satisfactory essay; and *Affiliation* certif., obtainable only at affiliated centres (Exeter, Leicester, and Southport) under special conditions. A *Travelling Library* is provided for each course. The work is under the management of the *BOARD OF EXTRA-MURAL STUDIES*, on which there are, in addition to members of the Senate, representatives of the Local Centres Union and the Workers' Educational Asscn. Full particulars can be obtained from the Secy., Stuart House, Syndicate Buildings (Rev. D. H. S. Cranage, Litt.D.).

TUTORIAL CLASSES are arranged in connexion with the Workers' Educational Asscn. They are managed by a Committee appointed by the Board of Extra-mural Studies, including all the members of the Board nominated by the W.E.A.

PUBLICATIONS. The *Camb. Univ. Reporter*, weekly during term, 3d. a copy, terminal subs. 2s. 6d., or by post 4s. 6d.; *Ordinances*, 1923 (fresh editions every 3 or 4 yrs., *Supplementary Ordinances*, 1925, 2s. 6d.), 15s.; *The Students' Handbook*, annually in July, 7s. 6d.; *Facilities for Graduate Study and Research*, 1926; *Compendium of Univ. Histories, etc. : (a) *Annals of Cambridge*, by C. H. Cooper (5 vols.) ; (b) *The Univ. of Cambridge*, by J. B. Mullinger (3 vols. to the later 17th cent.) ; (c) *College Histories*—Robinson's Series, various authors ; Dent's Series—King's, St. John's, Trinity, 2s. each ; (d) *Cambridge and its Colleges*, A. Hamilton Thompson ; (e) *Cambridge*, T. D. Atkinson and J. W. Clark ; (f) *Architectural History of Cambridge*, R. Willis and J. W. Clark, 4 vols.

Magazines : *The Cambridge Review*, the *Granta*, the *Old Cambridge*, the *New Cambridge*, weekly during term.

THE YEAR 1925-26

The statutes of the Univ. and its constituent Colleges have recently been revised. In 1922 a Royal Commission for Oxford and Cambridge (appointed in 1919) published its report (Cmd. 1588), and in 1923 Parliament established a legislative Commission which was to give effect at Cambridge to the recommendations contained in this report. The statutes made by the Commission, under the chairmanship of Viscount Ullswater, having become operative in 1926, the summary given in the opening paragraphs of the above "General Information" of the principal features of the constitution of the Univ. takes their effect into account.

It will be seen that the legislative and executive functions formerly vested in the Senate (the constitution of which has not been greatly altered) are now to be exercised by a "Regent House" the composition of which is somewhat similar to that of the former Electoral Roll, the powers of the Senate being limited to a suspensory veto. The control over teaching appointments previously possessed by Colleges is shared by them with the University, the former retaining the duty of appointing Directors of Studies who will superintend the weekly personal instruction of students, with correction of essays and the like. The fees hitherto paid to the Colleges for lectures will now be payable to the University instead ; moreover, in several subjects a composition fee will replace separate fees. Women have been declared eligible to University teaching posts, and therefore to membership of Boards of Faculties, and trusts are being so altered as to enable the Univ. to throw scholarships and prizes open to the candidature of women unless the founder has expressly excluded women. The stipends attached to open college entrance scholarships have, as at Oxford, been put on an eleemosynary basis, though the winning of a scholarship will depend, as heretofore, entirely on merit. Admission to a degree is to be by a single act, and the ancient procedure by stages (designation and inauguration, inception and creation) is obsolete.

BENEFACTIONS. The Chancellor, a classical medal for women ; J. F. P. Rawlinson, bequest of £1500 ; Rouse Ball, £50,000 for professorships or readerships in Mathematics and in English Law, and £10,000 for the Library ; an anonymous donor, £20,000 for Fitzwilliam Museum ; E. J. Bles, bequest of the reversion of his estate for foundation of a "Darwin" professorship ; Sir Otto Beit, £1000, addition to Beit Library endowment ; Dr. Chase, £100 for University Library ; Sir Alfred and Lady Yarrow, endowment (£500 p.a.) of Lectureship in Assyriology ; trustees of Mrs. S. A. Wallis, £150 for Univer-

sity Servants Pension scheme ; Laura Spelman Rockefeller Memorial Trustees, \$150,000 for a Chair of Political Science.

CHANGES IN REGULATIONS. Regulations for the Mechanical Sciences, English, and Medieval and Modern Languages Triposes were under revision. A special syndicate on residence in Institutions recommended recognition of St. Edmund's House, Westminster College, Cheshunt College, and Wesley House as Houses of Residence.

OTHER DEVELOPMENTS. The building of the new School of Pathology was proceeded with. Cambridge University Air Squadron was established. A scheme for training of probationers for administrative posts in East and West Africa was prepared, to come into effect in 1926-27. The Scott Polar Research Institute was inaugurated. The Cambridge expedition to East Greenland successfully accomplished its task.

DEATHS. W. Welsh, Sept. 12 ; Sir Francis Darwin, Sept. 19 ; Rt. Rev. F. H. Chase, Sept. 23 ; I. Abrahams, Oct. 6 ; W. J. Corbett, Oct. 7 ; J. N. Langley, Nov. 5 ; E. G. Browne, Jan. 5 ; J. F. P. Rawlinson, Jan. 14 ; F. W. Bateson, Feb. 8 ; T. W. Drury, Feb. 12 ; M. B. R. Swann, Feb. 16 ; J. S. Reid, April 1 ; Sir W. Durnford, April 7 ; W. J. Lewis, April 16 ; J. F. Shepherdson, April 25 ; E. J. Bles, May 3 ; C. Wood, July 12 ; J. P. Postgate, July 15 ; Sir Wm. Ridgeway, Aug. 12 ; A. H. N. Sewell, Sept. 28.

RESIGNATIONS. S. M. Wadham, Senr. Demr. in Botany, appointed Prof. of Agriculture in the Univ. of Melbourne ; B. Banham, Asst. Registry.

INTERCHANGE OF TEACHERS. The following visitors from abroad lectured in the Univ. : R. J. Tillyard (Cawthorne Inst., N.Z., Entomology) ; Prof. Bouglé (Sorbonne, French Literature) ; Prof. V. Parvān (Bucharest, Archaeology). The following members of the Univ. lectured abroad : J. B. S. Haldane (Biochemistry, Canada) ; Prof. Sir E. Rutherford (Physics, Australia and New Zealand) ; F. M. Cornford (Greek Philosophy, U.S.A.) ; W. E. Dixon (Johns Hopkins, Medicine).

HONORARY DEGREES. Sc.D.—Col. Sir T. W. Edgeworth David ; LL.D.—The Earl of Ronaldshay, Sir Samuel Hoare, Major-General Sir Fredk. Maurice ; Litt.D.—A. E. Cowley ; M.A.—W. Lewis (University Printer), H. F. Samman, H. M. Hughes, C. Nabokoff.

OTHER DEGREES. Men : D.D., 1 ; M.D., 15 ; Sc.D., 6 ; Litt.D., 2 ; Ph.D., 35 ; M.Chir., 1 ; M.A., 895 ; LL.M., 7 ; M.Litt., 2 ; M.Sc., 4 ; M.B., 53 ; B.Chir., 68 ; B.A., 1232 ; LL.B., 9 ; Mus.B., 5. Women (Titles of Degrees) : Ph.D., 4 ; M.A., 145 ; M.Sc., 1 ; M.B., 1 ; B.Chir., 1 ; B.A., 231 ; LL.B., 1.

APPOINTMENTS BOARD. In 1925, 399 appointments were obtained on the introduction of the Board. These included : educational, 119 ; manufacturing and technical, 89 ; administrative posts in commerce and industry, 81 ; Government departments, mainly scientific, 16 ; colonial administrative, 37 ; agriculture and forestry, 11 ; Indian and Colonial Railways, P.W.D. and Survey, 16 ; journalism and publicity, 2 ; secretaryships, 6 ; railway traffic, 4.

LOCAL EXAMNS. were held in Dec. 1925 at 326 centres, including 41 in India, 23 in Ceylon, 18 in Straits Settlements and Malay States, 3 in China, 15 in Africa, 16 in W. Indies, and others in Aden, Central and S. America, Bermuda, Fiji, Gibraltar, Mauritius, Seychelles, and Switzerland. The number of candidates was 14,303. In July 1926 the exams. were held in 336 centres, of which 22 were overseas, and the number of candidates was 9877.

Number of students (excluding 94 men and 26 women not members of the Univ.) whose homes are in the British Isles : men 4193, women 451 ; not in the British Isles but within the British Empire : m. 342, w. 10 ; in foreign countries, m. 193, w. 14. Number of students (members of the Univ.) residing in College : m. 1973, w. 415 ; in licensed lodgings, m. 2673, w. 30 ; at home, m. 82, w. 30. Part-time students : none.

Research students, March 1926, 276, of whom 90 were Cambridge graduates, while the others came from other Univs. in England (43—Liverpool 7, London 12, Manchester 8), the U.S.A. (37), Scotland (25), Wales (15), Ireland (6), Canada (13), Australia (10), India (8), New Zealand (7), S. Africa (6), China (1), Japan (1), Lima (1), Europe (5). The fields of research were chiefly Physics (42), Chemistry and Physical Chemistry (39), Bio-Chemistry (17), Botany (21), Zoology (9), Physiology (11), Medicine (8), Agriculture (8), History (14), English (25), Geology (12), Economics (8), Modern Languages (11), Classics (5).

BOARD OF EXTRA-MURAL STUDIES. The Chairman of the Trades Union Congress was, on the nomination of the W.E.A., appointed a member of the Board in place of the late Fred Bramley, Secretary of the T.U.C. Five lecturers were nominated to stipendiary posts. Percival "Guild House" at Rugby had a successful first year of work as a tutorial classes centre. The *University Extension Bulletin*, for many years the organ of extra-mural work at Oxford, Cambridge, and London, came to an end ; its place is being taken, so far as Cambridge is concerned, by the *Cambridge Bulletin of Extra-mural Studies*. The *Summer Meeting* of 1926 (principal subject "India") was attended by 453 students (women 319), of whom 93 came from Germany, 51 from U.S.A., 39 from 10 other foreign countries, and 10 from India. Under the scheme inaugurated by the Board in the preceding year for the attendance of "extra-mural" students at Cambridge, six were in residence in as many men's colleges and three at Newnham. Four came from the three affiliated centres, two from educational settlements, and three from tutorial classes in other centres. One was in her 4th year, two in their 3rd, and two in their 2nd. Their subjects were Moral Science, History (2), English (2), Music, Economics, Psychology, and Bio-chemistry. The Board reported that they have made full use of this opportunity of education, and have all entered whole-heartedly into the social and athletic life of the University.

STUDENTS. Attending Tutorial Classes : men 264, women 280 ; Local Lectures (Extension Courses), 2583.

Students may take in these Colleges courses extending over 3 years, which qualify for the Lic.Theol. Nine terms kept in one of these Colleges, after passing the matricn. examn., may be counted in lieu of 6 of the terms required for the B.A. degree in the case of a student who obtains the Lic.Theol.

GENERAL INFORMATION

The Univ. was established by Act of Parliament in 1832 and reconstituted in two divisions in 1908. The College of Medicine, founded in 1832, became

associated with the Univ. first in 1852, and more closely, as "The University of Durham College of Medicine," in 1870. Armstrong College was founded in 1871 as the Durham College of Physical Science, and assumed its present name in 1904. The Vice-Chancellorship is held in rotation by a representative of the Durham Colleges, College of Medicine, and Armstrong College for 2 years.

The Univ. has no teaching staff apart from those of the Durham Colls., the Coll. of Medicine, and Armstrong Coll. The Council of the Durham Colleges, the Coll. of Medicine, and Armstrong Coll. have respectively full power and authority to regulate teaching and discipline, and to provide for the appointment of all their teachers and other officers.

LIBRARIES. See under the Colleges.

FACULTIES AND DEANS. At Durham only: Theology, Prof. Dawson-Walker, and Music, Prof. Bridge. At Durham and Armstrong: Arts and Letters, Prof. Renwick (Armstrong—English), and Science, Prof. Welch (Armstrong—Nav. Arch.). At College of Medicine: Medicine, Prof. McDonald (Pathology). At Armstrong: Law, Prof. A. Robinson (Durham—Educn.), and Commerce, Miss G. E. M. Jebb. University Committees of Education and of Military Education.

MATRICULATION. See Appendix XXI.

ADMISSION OF STUDENTS FROM OVERSEAS. The matric. examns. of Sydney and the S. African Univs. and degrees in Arts of all Univs. of the British Empire are accepted. See also Appendix XXIII.

DEGREES. B.A., M.A., B.Litt. (obsolete), M.Litt., D.Litt.; B.Sc., M.Sc., D.Sc.; B.D., D.D.; B.C.L., D.C.L., LL.B.; M.B., B.S., M.D., M.S., D.Ch.; B.Hy., D.Hy.; B.D.S., M.D.S.; B.Mus., D.Mus.; B.Com., M.Com.; Ph.D. (v. p. 18).

Diplomas in Foreign Langs., Arabic, Theol., Psychiatry, Teaching, Public Health; L.D.S., Lic.Theol.

The B.A., B.Sc., or B.Com. may be obtained by a 3 yrs.' undergraduate course. For the 1st yr. of the B.Sc. course equivalent study in another Univ., and for the 1st yr. of the B.Com. course 2 yrs.' attendance as an evening student, may be accepted. For the B.Mus. two public examns. must be passed.

For the M.B. and B.S. at least 1 of the 5 yrs. of Med. study must be spent in the Coll. at Newcastle. The B.Hy. is open to graduates in Med. who have spent 1 yr. in professional study at Newcastle. The B.D.S. course is one of 5 yrs.

The B.C.L. may be taken by examn. by a B.A. of 6 terms' standing.

The LL.B. may be taken by a candidate of Intermediate grade in Arts or Science after a 3 yrs.' course.

The course for the Diploma in Teaching covers 3 terms after graduation.

The course for the Diploma in Arabic covers 3 terms.

The M.A. is open to a B.A. of 9 terms' standing who obtained 1st or 2nd Class Honours in the Final B.A. examn. or, after passing this examn., has passed the Dipl. Theol., B.D., B.C.L., M.B. or B.Sc., degree examn., or who qualifies by passing a special examn.

The M.Sc. can be obtained by a B.Sc. of 2 yrs.' standing by original work or examn.

The M.D.S. can be obtained by a B.D.S. of 2 yrs.' standing by thesis and practical dental work of high skill.

The D.Litt. or D.C.L. may be obtained by a B.A. (or B.Litt.) or B.C.L., respectively, of 10 yrs.' standing by a sufficient contribution to learning; the D.Sc. in the 7th year after admission to B.Sc.; the D.Mus. by a B.Mus. of 15 terms' standing.

For the M.D. a candidate must have had 2 yrs. of practice in a hospl. or Mily. or Naval service after graduation as M.B.

For the D.Ch. a candidate must have devoted 3 yrs. (including one at least in the Univ. and 6 months at least abroad), subsequently to having obtained a registrable qualification, to the study of surgery and ancillary subjects.

For the D.Hy. 2 yrs.' experience of Pub. Health administration or research after obtaining the B.Hy. are necessary.

M.D. Degree Examn. for Practitioners. A person who has been registered by the Gen. Med. Council of the U.K. and in the active practice of his profession for 15 yrs. as a qualified practitioner and is not less than 40 yrs. of age may obtain the M.D. degree without fulfilling any conditions as to residence on passing an examn. instituted for this purpose by this Univ. and held in June and Dec. Candidates who have not passed previously to their professional examn. an examn. in Arts are required to pass an examn. in Classics and Maths. Natives of India are admissible if they bring evidence of having passed within the preceding year an examn. in Latin.

Degrees, etc., in Theology. The B.D. examn. is open to candidates who are graduates of a Univ. of the British Empire in Arts (or Letters) of 2 yrs.' standing; if of another Univ. they must have obtained the Dipl. Theol. of Durham. The Board of the Faculty may admit also non-graduates who keep three terms at Durham and pass the Dipl. examn.

The Lic. in Theol. is open to members of the C. of E. only. Nine terms must be kept at one of the Theol. Colls. in list C above.

The Dipl. in Theol. is obtainable by graduates of a Univ. of the British Empire who keep 3 terms at Durham and pass the Dipl. examn. Residence for a year at an approved Australian Coll. may be accepted in lieu of keeping 3 terms at Durham.

The D.D. is open to a B.D. of Durham who is a Master of Arts of 10 yrs.' standing on submission of a sufficient contribution to learning.

FEES. Matricn., £2. Examns. and degrees, £2 to £10 (Examns. for D.Ch., £20; D.Hy., £20; M.D. for practitioners, 50 gs.; Final for M.B., B.S., £15).

AFFILIATED COLLEGES

COLLEGE OF THE RESURRECTION, MIRFIELD (Warden—G. Rees, M.A.)
and RAWDON COLLEGE (Principal—W. E. Blomfield, B.A., B.D.). Students
are exempt from attendance at the Univ. in the first of the 3 yrs. of study for
the B.A. degree.

TECHNICAL COLLEGE, HUDDERSFIELD (Prin.—J. F. Hudson, M.A., B.Sc.). Similar exemption for B.A., B.Sc. (including Engin.), and M.B. and Ch.B.

DIOCESAN TRAINING COLLEGE, YORK. Similar exemption for the B.A. and B.Sc.

PRINTING DEPARTMENT OF THE LEEDS CENTRAL TECHNICAL SCHOOL. Affiliation granted with a view to the recognition of classes as part of the course for the degree of B.Com.

GENERAL INFORMATION

The Leeds School of Medicine, founded 1831, and Yorkshire College, established as a College of Science in 1874, were united in 1884. The College formed part of the Victoria Univ. from 1887 to 1904, when a Univ. was established by Royal Charter in the city of Leeds.

LIBRARY, including that of the Medical School, about 98,000 books, 24,000 pamphlets. Besides the General Library, there are separate rooms devoted to Science, English, French, German, Classics, Economics, Philosophy, History, Law and Music. Special collections : (a) MSS. about Broad Cloth Act of 1740 and illustrating developments in textile industry about 1800 ; (b) 500 vols. in French on Great Britain, printed before 1801 ; (c) 264 vols. contemporary records (Journal Officiel, newspapers of Metz, Strasbourg, and Nancy, etc.) of political events in France during 1870 and 1871.

MUSEUMS : Anatomy, Dyeing, Materia Med., Path., Textile, Zool. **LABORATORIES** : Agricultural Chemistry, Botany, Chemistry, Colour Chem. and Dyeing, Engin. (Elec., Civ., Mech.), Geol., Leather Industries (including Procter Internat. Research), Maths., Metallurgy, Mining, Path. and Bacteriology, Cancer, Physics, Physiol., Textile (116 looms), Zool. **OBSERVATORY**, 18½" reflector telescope. **FARM**, 312 acres, including Dairy School ; Research farm, 350 acres, near Scarborough. **HOSPITALS** available for Clinics : Infirmary (520 beds) and several others ; Asylum (2000 inmates).

FACULTIES. Arts (including Economics and Law), Science, Technology [including Agric., Coal Gas and Fuel with Metallurgy, Colour Chemistry and Dyeing, Engineering (Civ., Elec., Mech.), Leather Industries, Mining, Textile Industries], Medicine (including Dentistry). *Deans* : Profs. Strong (Educn.), Whiddington (Science), David (Technology), Jamieson (Medicine).

In connexion with each of the technological departments there is an Advisory Committee, which includes representatives of the industry concerned.

MATRICULATION. See Appendices XXI. and XXIII. An *Overseas Students'* Committee has been appointed.

DEGREES. Obtainable after a 3 yrs.' course starting from matricn.—B.A., B.Sc. (Honours degree usually 4 years), B.Com. (which may be taken with an Applied Science as one of the principal subjects : 3 yrs. for degree, or 4 yrs. including Diploma of Printing Dept. of Leeds Tech. Sch.) ; LL.B. ; after 5½ to 6 yrs., M.B., Ch.B., B.Ch.D.

Subject to a minimum attendance in this Univ. of 2 yrs., members of other Univs. requiring residence as a condition of graduation may be permitted to count their studies and examns. (other than the Final examn.) therein towards graduation in Leeds.

Mining students receive practical instruction in mines under arrangements made with local owners, but the courses are not intended to supersede the usual apprenticeship.

Honours students of (1) French and (2) German normally spend the 3rd term of the 2nd year at (1) the Univ. of Caen, (2) a Univ. where the medium of intercourse is German.

Honours in Gas Engineering or Fuel and Metallurgy involve 1 yr. of research or special study after taking the ordinary degree; in Leather Manuf., 4 yrs.' study.

Supplementary Textile studies may be combined with a B.A. or B.Com. course. Any of the Tech. subjects may be taken in a B.Sc. course. The Law Dept. prepares students for the Bar and Solicitors' exams. as well as for the Univ. degrees.

HIGHER DEGREES. M.A., LL.M., M.Com., M.D., Ch.M., 1 yr.; M.Ed., M.Sc., 2 yrs. (for holders of Hons. B.Sc., 1 yr.) after the bachelorship. Graduates of approved Univs. (all the chief Univs. of the world, including institutions recognized by the Assocn. of Amer. Univs., v. App. XXV.) may obtain the M.A., Ph.D. (v. p. 18), or M.Sc. by 2 yrs. of research. M.A., Ph.D. or M.Sc. of this Univ. may obtain the Litt.D. or D.Sc. 6 yrs. after the bachelorship.

Graduates of other Univs. who have been admitted to degrees of equal or similar rank in Leeds may, in proceeding to higher degrees, count their standing as graduates from the date of original graduation.

DIPLOMAS. In Education (grads.) or Ed. Admn., 1 or 2 yrs. In Social Organization and Public Service, 2 yrs. In Engin., Fuel and Metall., Dyeing, Textiles, Leather, 3 yrs., reducible under certain conditions to 2. In Gas Engin. or Fuel and Metall., special for graduates, 1 yr.; for apprentices, part-time, 4 yrs. In Colour Chem. and Dyeing, for apprentices, part-time, 5 yrs. In Public Health, 12 mos. In Psych. Med., 6 mos. In Nursing, involving 4 yrs.' hospital training and 3 mos.' lectures. In Dent. Surg., 4 yrs., including 2 in Univ. In Commerce, 1 yr. (postgrad.).

Agric. Students are prepared for the National Diploma.

EVENING COURSES for advanced students in Technological subjects are conducted in co-operation with the Leeds and West Riding Education Committees.

FEES. Matricn., £2. Registration, £2. Composition fees for tuition (including Union): Arts, £33 a session; Science, £41; Technology, £45; Agric. (other than degree students, who pay the Technol. fee in the 2nd and 3rd yrs.), winter course, £20, summer course, £10; Law courses, 11 gs. a session. Course for Dipl. in Educn., £42 p.a.; Dipl. in Social Organization, £26 p.a. Medicine: complete course for M.B., including hospl. practice, £215. Exams.: Arts, Science, etc., £6; Medicine (including graduation), £18; Dentistry, B.Ch.D., £16; L.D.S., £16. Graduation fee, £7.

SCHOLARSHIPS, ETC., FOR GRADUATES. Fellowships, £200 for one year, renewable, for research in Gas, and £100, renewable, in Col. Chem.; £150 for 3 yrs. for Textile Research (preference to graduates in Science or Tech. and to natives or residents of Bradford, but not restricted to members of Leeds Univ.); also £150 for 2 yrs. for research and advanced study; £150 for 2 yrs. for research in English, or History, or Economics; £70 Scholp. for research in Arts Faculty; £120 for higher Humanistic study, for graduates of Leeds or Sheffield; £45 for advanced study in Greek or Latin; £60, Colour Chem. and Dyeing; £20 (three), in Textile Dept.; £25, Forensic Med. and Hygiene.

RESIDENCE. One hostel for 120 men and 4 for women. Fees, men £64, women £54 to £63 per session of 32 weeks. A site of 160 acres on the outskirts of the city has been acquired for hostels for men and women students.

An OLD STUDENTS' ASSOCN. was formed in 1923.

UNIVERSITY EXTENSION. Lecture courses and Tutorial classes are provided in co-operation with the Workers' Educnl. Asscn. and Local Education Authorities, and an Annual Summer School in connexion therewith was instituted in 1919.

Summer Schools are arranged from time to time. History at York in 1927.

In connexion with the Agric. Dept. a considerable part of the time of lecturers of the Univ. is devoted to work in local centres.

PUBLICATIONS. *Calendar* (Sept.), 4s.; *The Training of Professional Engineers*; Annual Reports of the Univ. and of Tech. Depts.; *Gryphon*, 3s. annually (students' magazine); *Union Handbook*; General prospectus and prospectuses of various Depts.

THE YEAR 1925-26

BENEFACTIONS. Donations and promises amounting to £288,785 in response to appeal for half-a-million for new buildings; £197:10:6 from the Committee of the Prof. J. B. Cohen Testimonial Fund for endowment of Prize in Pure Chemistry; £2000 from Miners' Welfare District Fund for Mining equipment; £100 from British Wool Federation and £25 from Worsted Spinners' Federation, Ltd., towards cost of Wensleydale Sheep-breeding experiments; many gifts to Library (including collection of 1100 vols. from All Souls' College), and machinery, apparatus, materials, etc., to various Depts.

NEW BUILDINGS AND EQUIPMENT. Extension of two hostels for women; new lay-out for athletic grounds, new Dental School and hospital; temporary premises for Cancer Research; extension of University Working Men's Club; various adjustments of accommodation to relieve existing Depts. and Library. Purchase of property for increase of site.

NEW POSTS. Chair of Experimental Pathology (Director of Cancer Research) and Electrical Engineering; Reader in Colloid Chemistry; Lecturer in Pathology; Asst. Lectureships in French, Spanish, Organic Chemistry, Mining and Poultry-Keeping. Demonstratorships in Chemistry, Physical Chemistry and Botany; Research Asst. in Physics, Instructor in Bee-keeping, and three assistant Librarians.

CHANGES IN REGULATIONS, ETC. M.Com. degree instituted; medical curriculum revised and extended to 5½ or 6 years; Russian added to subjects for Hons. in Mod. Langs.

UNIVERSITY EXTENSION COURSES at 13 centres, 45 Tutorial Classes; and Tutorial Class Summer School at Ambleside. Summer Course in Educational Administration in August; 4 courses of public lectures in Univ.; 14 single public lectures and 10 music recitals.

OTHER DEVELOPMENTS AND SPECIAL EVENTS. Establishment of Dept. of Cancer Research with help of Yorks. Council for the Cancer Campaign; institution of fund for necessitous students. Appeal for £500,000 for new buildings inaugurated by H.R.H. the Duke of York on Oct. 23.

VISITS OR INTERCHANGES. Prof. of Pathology (Prof. Stewart) visited Canada and U.S.A. to inspect laboratories, etc. Prof. of Textile Industries (Prof. Barker) visited Peru to report on wool-growing—Dr. Pearsall (Reader in Botany) exchanging for a session with Prof. Curtis of Cornell Univ., New York.

CHANGES IN PROFESSORIAL STAFF. Prof. E. V. Gordon (English) in

GENERAL INFORMATION

University College, Liverpool, founded by Royal Charter 1881, was admitted into the Victoria University, Manchester, in 1884. In 1903 the University of Liverpool was established by Royal Charter and the College was absorbed in it.

LIBRARY, MUSEUMS, ETC. The library of the Univ. contains about 100,000 vols., and includes among special collections great series, such as Migne, Pertz, Muratori, and *Acta Sanctorum*. Among rarer possessions are the Rylands collection of early works on Geography and Astronomy, a collection of works by and about William Blake, sets of the *Roxburghe*, *Bannatyne*, and *Maitland Clubs*, a unique number of Aldines, and over 100 incunabula, among them the final sheets of the *Constitutiones* of Clement V. printed at Mainz in 1460. Special bibliographies have been issued. In addition there are twenty-three Class Libraries in the Faculty of Arts and External Departmental Libraries for the Medical and Science Departments.

The following are the principal **MUSEUMS AND LABORATORIES**: Anat., Archaeol. (including a unique Hittite collection), Archit., Bact., Bio-Chem., Bot., Chem., Physical and Electro-Chem., Electricity (Applied), Embryol. and Genetics, Engin. (including facilities for aerial motor and propeller testing and other wind experiments), Geol., Hygiene, Laryngology, *Materia Medica*, Expl. Med., Trop. Med. (including museum, animal houses, and specially warmed glass insectarium, and research labs. at Liverpool, Sierra Leone and Manaos), Obst. and Gynæc., Oceanog., Opth., Path., Physics, Physiol. and Histol., Surg. Path., Tidal Research, Toxicology, Vet. Anat. and Path., Zool. The Port Erin (Isle of Man) Marine Biol. Lab. has been transferred to the Univ. by an Act of Tynwald. **HOSPITALS** available for Clinics, 4 general and 6 special, containing 1445 beds, which together constitute the clinical school. The trade of the port ensures frequent importations of infection. Special wards for Trop. Diseases. Expeditions to Tropical countries organized for investigation or advice. Suitably qualified persons may enter the Laboratories for research work at prescribed fees.

FACULTIES. (1) Arts (with Schools of Archit., Social Sciences and Administration, including Economics, Commerce, Geography, and Social Science, Local History and Records, Russian Studies; Departments of Civic Design and Educn.); (2) Science; (3) Medicine (with Schools of Dent. Surg., Hygiene, Trop. Med., Vet. Sc.); (4) Law; (5) Engineering. **Deans**: (1) W. Garmon Jones (Hist.), (2) Prof. Dakin (Zool.), (3) W. J. Dilling (Pharmacology), (4) Prof. Batt (Commercial Law), and (5) Prof. Bannister (Metallurgy). Director of Dental Educn., Prof. Gilmour; of Veterinary studies, Prof. J. Share-Jones.

MATRICULATION. See Appendices XXI. and XXIII.

DEGREE COURSES: 3 yrs., B.A., B.Com., B.Sc., LL.B.; 3 or 4 yrs., B.Eng. (*plus* 2 yrs.' app'r'ship); 5 yrs., B. Arch., M.B., Ch.B., B.D.S., B.V.Sc.

The B.Com. courses include (1) General Business; (2) Banking, Insurance, Accounting; (3) Transport, Railways, Shipping; (4) Consular Service.

The LL.B. courses prepare for the Bar and solicitors' examns. as well as for the Degree. The B.V.Sc. may be taken concurrently with the M.R.C.V.S.

HIGHER DEGREES: Ph.D., v. p. 18. (1) *Graduates of Liverpool in Faculty concerned.* Obtainable after Bachelorship: 1 yr., (after Hons. B.Sc.) M.Sc.; 15 mos., M.Ch. Orth.; 2 yrs., M.A., M.Com. (after ord. B.Sc.) M.Sc., M.D., Ch.M., M.H. (Hygiene), M.D.S., M.V.Sc., LL.M., M.Eng. After Mastership: 5 yrs., D.Litt., D.V.Sc., LL.D. After Mastership or Ph.D.: 5 yrs., D.Sc., D.Eng.; 10 yrs., after B.Arch., on distinguished archit. work, M.Arch. (2) *Graduates of approved Univs.* After Bachelorship and 2 yrs.' higher study or research in Liv. Univ.: M.A. (1 yr. elsewhere), M.Com., M.Sc., M.D., M.H., M.V.Sc., LL.M., M.Eng. The M.A. and M.Com. are also open under certain conditions, to B.Arch. and grads. in Liv. Univ. of a Faculty other than Arts. (3) *Non-Graduates.* After 3 yrs.' higher study or research in Liv. Univ.: M.A. (1 yr. elsewhere), M.Sc., LL.M., M.Eng.

The M.Ch. Orth. is open to grads., other than Med., of this or approved Univs. who are F.R.C.S. (Eng., Ed., or I.) or Fellows of the American Coll. of Surg.

DIPLOMAS. Archæol., 1 yr. course; Archit., 5 yrs.; Civic Design, 1 yr.; Commerce, 3 yrs.; Social Science, 1 or 2 yrs.; Educn. (for grads.), 1 yr.; Geography, 2 yrs.; L.D.S., 4 yrs.; D.P.H., 1 yr.; D.T.M., 3 mos.; D.T.H., 3 mos. (after taking D.T.M.); D.M.R.E., 2 terms; D.V.H., 6 mos.; Engin., 2 yrs. after final examn. for Certif.

CERTIFICATES. Archæology, 2 yrs.' course; separate Arts subjects, 2 yrs.; Architectural Design, 1 yr.; Civic Design, 2 terms of 2 Sessions; Social Science, 1 or 2 yrs. (qualification for entry lower than for Diploma course); Educn., 1 yr.; Engin., 3 yrs.; Univ. extension courses, 3 yrs.

FEES. For Matricn., £2. Guild of Undergrads., £2:7:6 p.a. **DEGREE COURSES:** B.A., or B.Com. (3 yrs.), £90; M.A. or M.Com. (sessional), £5; B.Arch. (5 yrs.), £150; B.Sc. GENERAL INFORMATION

[NOTE. *The University authorities desire that it should be clearly understood that they can accept no responsibility for any information concerning examns. or procedure except such as is contained in their own official Regns. These can always be obtained on application at the Univ. offices.*]

Central offices—South Kensington, S.W.7. Telegraphic address—University, Southkens, London. Telephone—Kensington 7000.

The Univ. was constituted by Royal Charter in 1836 as a body empowered to grant degrees to students of approved institutions after examination, and, until 1900, its work was confined to the examination of students. The system whereby entrance to its examns. was restricted to students of certain affiliated Colleges was abolished, except for examns. in Medicine, in 1858. In 1878 its degrees were thrown open to women, London being the first of the Univs. of Great Britain to adopt this policy.

In 1900 the Univ. was reconstituted so as to strengthen the ties between it and the institutions engaged in Higher Education within a radius of 30 miles. The Senate is empowered to admit as *Schools of the University* institutions situated within the administrative county of London and not carried on for the private gain or profit of the owners which provide education of Univ. standard, and is required to obtain reports at prescribed intervals on the efficiency of such schools. A special form of recognition may be given to an institution within the same area founded for research or the cultivation of any special branch of science or learning, and the Lister Institute of Preventive Medicine, the Maudsley Hospital, the Bethlem Royal Hospital, the School of Pharmacy, and the School of Oriental Studies have been admitted in this category.

The Senate has the power also to recognize as Teachers of the Univ. any members of the teaching staff of public educational institutions within a radius of 30 miles, whether Schools of the Univ. or not. Matriculated students of Schools of the Univ. or studying under such *Recognized Teachers* are eligible under certain conditions for registration as *Internal Students*, and are allowed, after pursuing Approved Courses of Study, to enter for the "Internal" examns. of the Univ. *External Students* may pursue their studies where and how they please, and are admitted, without any conditions as to attendance at Approved Courses, to examns. for degrees in all subjects except Medicine, Mining, and Architecture. The examns. for Internal and External students are in some cases separate, in others identical, but the statutes require that "the degrees conferred on both classes of students shall represent as far as possible the same standard of knowledge and attainments."

Since the reconstitution of the Univ., its two original colleges, University Coll. in 1905 and King's Coll. in 1908, have been incorporated in it, the Senate,

which is the supreme Univ. body, taking over the responsibility for their administration.

LIBRARIES. The Libraries belonging to and connected with the Univ. contain in the aggregate about half a million volumes, distributed over every branch of knowledge. The Univ. Library in the Central Building, S. Kensington, contains about 170,000 volumes and pamphlets. It provides well-equipped special collections to promote research work and also serves as a lending library from which students can borrow expensive works for home study. It includes the Goldsmiths' Library of Economic Literature (50,000 vols.), which is restricted to purposes of research and reference. The British Library of Political Science at the London School of Economics has 700,000 items. There are, in addition, large departmental libraries in the several Colleges and various collections of books on special subjects, too numerous for mention. Access can also be obtained to the library of the British Museum (3 million printed books), the Public Record Office (40 million items), the Royal Colonial Institute Library (164,000 vols. and pamphlets relating to the Empire overseas, including India), and other collections described in *The Libraries of London* (v. *infra*—Publications).

MUSEUMS. Among the many Museums which, in addition to those belonging to the Schools and Institns. of the Univ., are accessible to students in London are the British Museum (Antiq. and Nat. Hist.) ; Horniman (Anthrop. and Zool.) ; London ; Parkes (Sanitary Science) ; Practical Geol. ; Roy. Archit. Soc.'s ; Roy. Coll. of Surgeons' ; Science, S. Kensington (Mech., Nav., and Struct. Engin., Phys., Maths., Chem., Physiog., Geol., and Biol.) ; Sir John Soane's (Art and Antiquarian) ; Victoria and Albert, S. Kensington (Archit. and Sculpture, etc.).

LABORATORIES. The most important are mentioned in the sub-sections relating to the several colleges. The following are not attached to any college :

The Brown Animal Sanatory Institution, 149 Wandsworth Rd., Vauxhall, S.W.8. Superintendent—F. W. Twort, M.R.C.S., L.R.C.P. Established in 1871 for "investigating, studying, and, without charge beyond immediate expenses, endeavouring to cure maladies, distempers, and injuries, any quadrupeds or birds useful to man may be found subject to." It contains a Hospital, in which the diseases and injuries of animals are treated, and a Laboratory, where the investigation and study of diseases of animals are carried on. Both In- and Out-Patients (some 5 or 6 thousand per annum) are treated. Clin. students may be admitted to the Vet. Depts., and Research students are received in the Lab.

The Institute of Historical Research, Malet St., W.C.1, is the University Laboratory of History, devoted exclusively to post-graduate and research work. It is situated close to the British Museum, and consists of a systematically planned series of seminar libraries, provided with the books containing or describing the main sources of mediæval and modern history (especially those whose manuscript originals are in the Record Office and other London Archives). It is open not only to every professor, reader, or other teacher of history in the Univ., and his research students, but to historians, archivists, and teachers and research students from other Univs., approved by the Committee. *Chairman of Committee*, A. F. Pollard, M.A., Litt.D., F.B.A., Prof. of Engl. Hist. ; *Secretary and Librarian*, H. W. Meikle, M.A., D.Litt., Advisor to External Research Students in History.

FACULTIES. 1. Theology. 2. Arts. 3. Laws. 4. Music. 5. Medicine. 6. Science. 7. Engineering. 8. Economics and Political Science. Deans : 1. Bishop Gore (see p. 158). 2. Prof. Atkins (p. 125). 3. Prof. Jenks (p. 175).

4. Dr. Stewart Macpherson of the R.A.M. 5. Sir Cuthbert Wallace (p. 169). 6. Prof. Filon (p. 123). 7. Prof. Lamb (East Lond. Coll.). 8. Prof. Gregory (Lond. Sch. of Ec.).

Standing Committees of the Senate. The more important are—The Academic Council, the Council for External Students, the Board to Promote the Extension of Univ. Teaching, the Matricn. Board, the Establ. and Genl. Purposes, Finance, Library, and Scholarships Committees. There are 26 other Committees besides the 44 Boards of Studies.

TERMS for Univ. and Inter-collegiate courses, 1926-27: Oct. 7-Dec. 17, Jan. 13-March 23, April 28-June 30.

DEGREES. B.D., D.D.; B.A., M.A., D.Lit.; LL.B., LL.M., LL.D.; B.Mus., D.Mus.; M.B., B.S., M.D., M.S.; B.D.S.; B.Pharm.; B.Sc., M.Sc., D.Sc.; B.Com., M.Com.; Ph.D. (in Faculties of Theol., Arts, Music, Science, Engin., and Econ.).

The B.Sc. and D.Sc. are granted in the Faculties of Science (including Pure Sc., Agric., Hortic., Vet. Sc., and, for External students, Estate Management, and, for Internal students, Household and Social Science—B.Sc. only), Engineering, and Economics; the M.Sc. in Science (including Agric., Vet. Sc., and, for Internal students, Hortic. and Household and Social Science), Engineering and Economics.

ADMISSION. The Univ. holds 3 times a year in London and twice a year in certain Provincial centres a Matricn. examn. open to all persons of 16 yrs. of age and upwards. The examn. can also be held by special arrangement in any of the British Colonies or Dominions. Candidates are required to pass on one and the same occasion in 5 subjects: English, Maths., Latin or Greek or a scientific subject, 2 other subjects of which one must, if neither Latin nor Greek is chosen for 3rd subject, be a language. The General School examn. (v. p. 117), if passed in a combination required for Matricn., is equivalent to the Matricn. examn., and several other examns. are also accepted on conditions as exempting from it, namely, those numbered 2, 6, 7, 8(a), 8(b), 9, 10, 12, 19, in Appendix XX., and School-leaving examns. of the Univs. of Adelaide, Melb., W. Aust., and Transvaal Secondary School Examn.

STUDENTS FROM OTHER UNIVERSITIES.—The graduates of any of the Univs. of the United Kingdom and of some overseas Univs.* can also claim exemption. Other students of 19 yrs. of age and upwards who present certificates of Matricn. in Colonial Univs. or Indian or foreign certifs. from educational authorities indicating an education equivalent in their own country to that required in England for the Matricn. examn. may apply for *examination under Statute 116* (in lieu of taking the Matricn. examn.) with special reference to the line of study they propose to follow. This examn., which it has been the practice to hold four times a year, is described on p. 668. Students who do not propose to proceed to a degree are not required to pass any Univ. examn., but must submit evidence that they are sufficiently advanced in their studies.

PERSONS OVER 25 YEARS OF AGE who in virtue of professional qualifications or otherwise are specially qualified to proceed to a Degree course may apply for examn. under Statute 116. See the preceding paragraph.

* In Canada—Acadia, Alb., Br. Columbia, Dal., King's, Laval, McG., McM. (B.A. only), Manit., Montreal, Queen's, Tor., Vict.; Australasia—Adel., Melb. Qld., Syd., Tas., W.A. (Arts, Sc., Agr., Eng.), N.Z.; S. Africa—Cape, Cape Town, S. Afr., Stell., Witw.; India—Aligarh, All., Benares, Bom. (L.M. and S. also recognized), Calc., Dacca, Delhi, Lucknow, Mad., Mys., Nagpur, Panj., Rang.; Hong-Kong.

EXTERNAL students preparing for the Bachelorship undergo Intermediate and Final examns. at intervals prescribed in the Regns., and approximating (except in Med., Dental Surgery, and Vet. Sc.) to 3 yrs. in all. Copies of all Regns. may be obtained gratis and post free from the External Registrar.

EXAMINATIONS IN THE OVERSEAS DOMINIONS. Certain of the examns. of the Univ. for External students are held not only in London and at Provincial centres within Great Britain, but also in certain of the overseas Dominions of the Empire. In India only the examns. in the Faculty of Theol. are thus held, but the Matricn. examn. and the examns. in Theol., in Arts, in Laws, and in Economics have been held at 70 Colonial centres. In Ceylon the Univ. examns. in Science and Arts have also been held under special arrangement; in this latter case with certain modifications of the Regns., such as have made them suitable for the special needs of the Colony in question; with the result that the Ceylon Govt. now awards its scholarships upon the results of these Univ. examns.

An INTERNAL student before being allowed to enter as such for any examn. must, unless specially exempted, have attended Instruction courses in all the subjects thereof. For a first Degree in any Faculty he must have completed an Approved Course of Study extending over at least 3 yrs. which must, ordinarily, have been continuously pursued, but not necessarily all at one institution. A minimum number of hours of attendance is as a rule prescribed for each course, and a reduction is allowed in the case of an evening student who is certified by an employer to be engaged in his service for not less than 25 hours a week. The Intern. course generally extends over 1 yr. As a general rule, Honours may be taken at the Final examns. A course of study extending over not more than 1 yr. taken in another Univ. approved for the purpose subsequently to a student's passing the Intern. may be accepted subject to regns. in lieu of a course taken in this Univ.

Any person who has passed the Intern. examn. as an *External* student may be allowed to take the final examn. for the first degree after having attended for 2 years as an Internal student an approved course of study for it, but the degree will not be conferred until a further year's course of approved study has been pursued.

ARTS. In both Intern. and Final (Pass) examns. 2 langs. must be taken, including either Latin with Rom. Hist., or Greek with Greek Hist. Natives of Asia or Africa may apply for permission to substitute for Latin or Greek—Classical Arabic, Sanskrit, Pali, Classical Hebrew, or Classical Chinese. The Honours subjects for the Final examn. are Archæol., Chinese, Classics, Hebrew and Aramaic (including Syriac), Hist., Geog., Maths., Philos., Psych., Engl., French, Ger., Ital., Portuguese, Span., Slavonic Studies, Indo-Aryan, Arabic, Persian, Japanese, also Celtic for External students, and, for Internal students, Greek, Latin, Dutch, Scandinavian Langs., Anthropology, Sociology.

The B.A. course in Archit. extends over 5 yrs., but graduates of approved Univs. may be exempted from such part of the earlier years' courses of study and examns. as the Senate may determine.

The M.A. is conferred in Archæol., Class., Hist., Maths., Mediæval and Mod. Langs., Oriental Langs., Philos., Educn., Geog., and, for Internal students only, in Comp. Philol., Psychol., Slavonic Studies, and Sociology. Internal students are required (except in Maths.) to submit a thesis. In some cases candidates must have taken Honours at the B.A. examn. External students may take the M.A. examn. 2 yrs. after graduation in Arts. Candidates may only take 1 branch or section at a time. In most there is a *viva-voce* examn.

The D.Lit. is open to M.A.'s and Ph.D.'s only (except as regards students

excluded under Statutes 113 and 129—v. p. 114), and is conferred for original work; minimum age—30, or 5 yrs. after passing Ph.D. or M.A. examn.

Diplomas. Teacher's, 1 yr. course for graduates and others similarly qualified (also for External students); Fine Art (3 yrs.); Dramatic Art (2 yrs.); Slavonic studies (2 yrs.); History (4 yrs. part-time or 1 yr. full-time); History of Art (4 yrs. part-time or 2 yrs. more intensive); Anthropology (2 yrs.); Journalism (2 yrs.); Literature (4 yrs. part-time or 1 yr. full-time); Town Planning and Civic Archit. or Civic Engin. (2 evenings a week for 2 terms or 1 day a week for 3 terms); Academic Dip. in Geog. (180 hours); External Dip. in Geog.; Sociol., etc. (v. *infra*, Econ.); Librarianship (2 yrs. for day students, 3-5 yrs. for evening students); Academic Dip. in Psychology; Academic Dip. in Theology.

SCIENCE. For the Interm. examn. Pure or Applied Maths. or Physics must be taken with 3 other subjects. For Final (General) examn. any 3 of the following may be selected: Pure Maths., App. Maths., Astron., Physics, Chem., Geol., Bot., Zool., Physiol., Psych., Anthropol., Milit. Studies, Logic and Method (Ext. students), Statistics (Int. students). For B.Sc. (Special) examn. a student selects 1 principal and (except in case of Human Anatomy and Morphology or Maths.) 1 subsidiary subject. Honours may be awarded at both B.Sc. (General) and B.Sc. (Special) examn. Internal students may take the B.Sc. "by research" (v. p. 114). For the M.Sc. for Internal students a thesis is required except in Maths.

Among other subjects of advanced study which may be offered by candidates for the M.Sc. degree is "The Principles, History and Method of Science." University College, King's College, and the Imperial College co-operate in providing a course in this subject.

For the Degree in Agric. the Interm. examn. includes Chemistry, Botany, Zoology, and Physics; the Final—Agric., Bio-Chem., Agric. Bot., and Agric. Engin. In Horticulture the subjects for the Interm. are Chem., Bot., Zool., Physics, Geol., and Surveying; for the Final, Practice of Hort., Book-keeping, Principles of Hort., and Entom. For the Degree in Vet. Sc. there are 4 examns. to be taken in their proper order: Prelim. (Inorganic Chem. and Physics), Interm. Pt. I. (Organic Chem., General Biol., and Vet. Anat.), Pt. II. (Vet. Physiol.), and Final (Vet. Pathol. and Vet. Hyg.). There is no Doctorate in Agric. or in Vet. Sc., Bachelors of Science (Agric. or Vet. Sc.) being held to be eligible for the ordinary D.Sc. For the Degree in Household and Social Science there are 3 examns.: 1st Interm. (Phys., Inorg. Chem., Biol., and Social and Econ. Hist.); 2nd (Chem.—Org. and Phys., Gen. and Econ. Biol., Principles of Econ.); and Final (App. Chem., Physiol. and Bio-Chem., Hygiene and Bacteriol., and Household Work). For the Degree in Estate Management there are 2 examns., Interm. and Final. Interm.: Pt. I.—Surveying, Econ., and Agric. or Town Planning; Pt. II.—Accounting and Land Law; (Pts. I. and II. may be taken separately). Final: Pt. I.—Land and Buildings Valuation, Taxation and Tithe, Land Law; Pt. II.—Building Construction, and *either* A (Agric., Forestry, Agric. Law) *or* B (Town Planning, Urban Pub. Sanitation, Munic. and Local Govt. Law). Pts. I. and II. may be taken separately.

THEOLOGY. The Interm. course is in Bibl. Langs., Greek, Lat., and Psych. and Ethics; the Final in Old Test., New Test., Bibl. and Hist. Theol., Church Hist., Philos. Introdn. to Theol., and a selected subject. The Honours examn. is distinct from the Pass, and may be taken 1 yr. after graduation in Div.; the subjects are Hebrew and Aramaic, including Syriac, Greek N.T. and Apocrypha, Church Hist., Bibl. and Hist. Theol., Study of Religion. Candidates for the D.D. degree must have taken Honours in Theol. in this Univ.

LAWS. The subjects of the Intern. course are Rom. Law, Engl. Const. Law and its Hist., Jurispr., and Crim. Law and Crim. Procedure, *or* Indian Penal Code and Crim. Procedure. Candidates for the LL.M. degree are examined in two selected subjects. Candidates for the LL.D. degree before 1929 must have taken Honours at the LL.B. examn. or subsequently unless specially exempted.

MEDICINE. The course extends normally over $5\frac{1}{2}$ yrs. In the first yr. courses in Inorg. Chem., Phys., and Genl. Biol. in preparation for the 1st examn. for Med. degrees are taken. The 2nd and 3rd yrs. are devoted to Org. Chem. (the only subject at Pt. I. of the 2nd examn.), Hum. Anat. and Embryol., Physiol., Pharmacol. Pt. II. of the 2nd examn. is normally taken 18 mos. after passing the 1st. In the Final course for the M.B., B.S. degrees the subjects are divided into 2 groups as follows: Group I.—Med., Path., For. Med. and Hyg.; Group II.—Surg., and Obstetrics and Gynæcology. The groups may be taken separately or together, but degrees are not conferred until candidates have passed in both groups.

Institutions outside the U.K. certificates from which for the complete course of Med. educn., including Clin. Med. and Surg. preparatory to the M.B., B.S. degrees, are accepted by the Univ. of London: Univs. of Bishop's Coll., McGill, Adel. (with Infirmary), Melb. (with Melb. and Alfred Hospls.), Syd. (with Infirmary and Prince Alfred Hospl.), N.Z. (with Dunedin Hospl.); following Indian Med. Colleges—Grant (Bombay), Bengal (Calcutta), Lahore, Madras; Med. Coll., Colombo; Univ. of Malta; Sch. of Med., Cairo.

The M.D. may be taken in any of the following: Med., Path., Psych. Med., Midw. and Dis. of Women, State Med., Trop. Med.

The M.S. may be taken in Surg., Dent. Surg., Ophth., or Laryn., Ot., and Rhin.

For the M.D. or M.S. a thesis or published work may be submitted.

The course for the B.D.S. extends normally over 5 years—there are four examns. The subjects of the Final examn. are Dental Surgery, Operative D.S. and Orthodontics.

B.Pharm. The Intermediate subjects are Botany, Chemistry, Physics, and Zoology, and the Final subjects are Botany, Chemistry, Pharmacognosy, and Pharmacy.

Diplomas. Psychological Medicine; Nursing.

MUSIC. The subjects for the Intern. examn. are Harmony and Counterpoint, Form and Analysis, and Hist. of Mus. For the B.Mus. the subjects of examn. are Composition, Hist. and Criticism of Music. Every candidate for the B.Mus. must submit a musical exercise. For the D.Mus. there is a written examn., and a musical exercise is also required.

ENGINEERING. Intern. examn. subjects: Pure Maths. and Applied Maths., Heat, Elec. and Magn., Engin. Drawing and Design, and either Sound and Optics or Chem. or Geol. In the Final examn. in *Engin.* not less than 5 subjects are taken, a wide choice being allowed; in *Mining* 6, of which Mining Geol. and Mineral., Mining, Mine Surveying, Mineral Dressing, and Assaying are compulsory; in *Metall.* 6, of which Metall., Metall. Analysis, Metallography and Pyrometry, Electro-Metall., and Fuel and Refractory Materials, are compulsory. For an Honours degree in Engin., Mining, or Metall. at least 1 extra subject must be taken at the Final examn. and a higher standard reached in all the subjects taken.

ECONOMICS. The Intern. examn. for B.Sc. (Econ.) is in 2 parts, which may be taken together or on different occasions. Pt. I.—Elements of Econ., Geog., Mathematics or Logic or French or German. Pt. II.—English Econ. Hist.,

British Constitution or Elements of English Law. For the Final—Econ., Hist. of the Great Powers, Political Sc., and a selected subject. Passages are set from French and German works for translation and comment.

For the B.Com. the Intern. examn. is in 2 parts, which may be taken together or on different occasions. Pt. I.—Elements of Econ., Geog., an approved Modern Lang. Pt. II.—English Econ. Hist., accounting as applied to Traders and Trading Companies, or a subsidiary Approved Mod. Foreign Lang. The B.Com. examn. is in 2 parts: I.—the Present Organization of Industry, Banking, Trade, and Transport; Econ. Development of the Empire; Elements of Comm. Law; Statistical Method; II.—A selected group of subjects.

Diplomas. Academic Dip. in Sociology and Social Administration (2 yrs.' course, at least 150 hours in each); Dip. in Economics and Social Sc. (4 yrs.' part-time or shorter full-time course).

MILITARY EDUCATION. See Appendix I. Military Studies is one of the optional subjects for the Intern. and Final B.A. (Pass) and B.Sc. (General) exams. The Officers' Training Corps Contingent supplied 4200 officers for the war, of whom 650 are known to have fallen.

POST-GRADUATE STUDY AND RESEARCH. In most of the Colleges and Schools of the Univ. special arrangements are made for Research students, and the facilities offered are not restricted to Internal graduates of the Univ. Under Statutes 113, 113a, and 129 External graduates and graduates of, and persons who have passed the degree examns. of, other approved Univs. are allowed, under certain conditions, to enter as Internal students for the degree of Bachelor or Doctor in the several Faculties (but not in Medicine and Surgery), and for the degree of Master of Arts, of Laws, or of Science. Application for registration may be submitted with evidence of graduation, etc., through the authorities of the College, School, or Institution at which the applicant proposes to study, and supported by their certificate of his fitness to undertake a course of study or research with a view to the proposed degree, and that they are willing to supervise his work. An Overseas student may himself submit an application on the prescribed form, and the Univ. will, if so requested, advise as to the selection of the College, School, or Institution at which, and Teacher under whom, he should study. Application for such advice should be addressed to the Academic Registrar. Overseas students should apply for registration before coming to London, and their applications should reach the Univ. by May 1, or, if from Australia or New Zealand, March 1, to enable them, should their applications be successful, to enter upon their course of study in Oct., *i.e.* at the beginning of the Session. Students whose applications are approved are required to pursue a course extending over at least 2 yrs. (v. *infra*—Publications).

An Internal student who is a candidate for the Ph.D. degree must have graduated in the Univ. in the faculty of Theology, Arts, Music, Science, Engineering, or Economics, or have been registered as a candidate for the degree under Statute 113 or 129. An Internal student is further required to pursue a course of study of not less than two years' full-time, or four years' part-time, training in research and research methods. Any graduate of the Univ. may become a Candidate for the Ph.D. degree as an External Student on receiving the approval of the Council for External Students.

The B.Sc. degree, in the Faculties of Science and Econ., may also be taken "by Research" by Internal students under Statute 112. Candidates must have attained the age of 19 and must have passed the Intern. examn. The research must extend over at least 2 yrs.

FEES.—Matricn.—2½ gs.; Examn. and Graduation—15 gs. (Med., 29 gs.) for first Degree. Other Degree fees, 10 to 20 gs. Tuition, see the sections relating to the several colleges.

STUDENTSHIPS AND SCHOLARSHIPS. Studentships are awarded by the Senate in aid of advanced work or research. These include one of £50 p.a. for 1 or 2 yrs., open to students of Univ. Coll. in Maths.; one of £100 in Archaeology; one of £50 in Physiology; £100 and £140 in Arts; £100 in Econ.; £200 for the man or woman who, being resident in London and a graduate of the Univ., has done most in the preceding 5 yrs. to advance Medical Art or Science; £200 for a graduate of a British Univ. for the promotion of post-graduate research; 2 Univ. *Travelling Scholarships* of £275 each, open to Internal and External graduates in all faculties, and 3 Univ. studentships of £150 each, open to Int. and Ext. graduates in Theol., Arts, Laws, Music, and Engineering. The Gilchrist Trustees provide funds for two Studentships, viz. one of £100 for a woman graduate preparing for a profession; and one in Mod. Langs., £80, open to a B.A. who took Honours in French or German, for a course of study abroad with a view to the profession of teaching. Three Scholarships of £50 each for 1 yr. are awarded annually for proficiency in Oriental Langs. The Scholarships Pamphlet obtainable post free on application to the Univ. gives details of many others. See also next para.

THE COMMERCE DEGREE BUREAU exists to help in their studies External (especially extra-London) students proposing to take the Commerce Degree exams., to assist in the employment of Commerce Degree students and graduates at home and abroad, to provide a reference and lending library for students, and generally to promote the value and usefulness of the Commerce degree. Offices were opened in 1922 under a Board of Governors at 46 Russell Square, W.C.1, where the work of the Bureau is associated with the general UNIVERSITY APPOINTMENTS BOARD work. There is a Bureau Educational Advisory Staff (Chief Advisor: Prof. A. J. Sargent, M.A.). Prospectus and enquiry forms obtainable on application to the Secretary, H. J. Crawford, B.A.

The *Sir Ernest Cassel Travelling Scholarships* (4) of £200 to £300 each, open to British students who pass Part I. of Final Examn. in Commerce in 1925, and propose to pursue study of Commerce abroad.

RESIDENCE. Hostels recognized by the Senate: Univ. Hall of Residence, 10 and 11 Carlyle Square, Chelsea; Univ. Coll. Hall, Ealing, for 52 men students (fees for residence, 30s. to £3 a week); College Hall, Byng Place, Gordon Square, W.C., for women students; King's Coll. Theological Hostel, Vincent Square; The Platanes, Denmark Hill, S.E., for King's Coll. and its Med. School. Residence is also provided at or in connexion with the S.E. Agric. Coll., Wye, Bart's, Guy's and Middlesex Hospl. Med. Schools, the Theological Colleges at Hainpstead and Highbury, and the Women's Colleges.

A UNION SOCIETY on the lines of those of Oxford and Cambridge was founded in March 1921. Address—University Union, Malet St., W.C.1. There is also an ASSOCN. OF LONDON GRADUATES. A UNIVERSITY COUNTRY CLUB at Chequers was formed (by a private company) in 1924.

UNIVERSITY EXTENSION DEPARTMENT. The work of the *Board to Promote the Extension of Univ. Teaching* falls under the following heads: (a) Univ. Extension Lectures and Tutorial Classes for Working-people; (b) Holiday Courses for Foreigners; (c) Inspection and Examn. of Schools; (d) Examn. for the Certif. in Religious Knowledge; (e) Examn. for Certificate of Proficiency in English and examsns. for the Certifs. in Danish, French, German, Italian, Norwegian, Russian, Spanish, and Swedish; (f) Examns. for Diplomas

in History, Literature, Economics and Social Science, History of Art; (g) Examn. for Diploma in Psychological Medicine; (h) Examn. for Diploma in Dramatic Art; (i) Examn. for Diploma in Nursing.

(a) *Univ. Extension Lectures* have been carried on by the Board since 1902 (prior to that, since 1876, by the London Society for the Extension of Univ. Teaching). The work is restricted to the area within 30 miles of the Central Offices of the University. Courses are held, at about 60 centres, on Hist., Lit., Art, Econ. and Social Sc., Philos., Psychology, and Nat. Sc. A class is held in connexion with each lecture, and students are encouraged to do regular paper-work for the lectr. An examn. for certifs. may be held at the end of each Sessional (24 or 25 lectures) or Terminal (10 or 12 lectures) course. A few short courses (5 or 6 lectures) of a *pioneer* or illustrative kind are arranged; in connexion with these there is no examn. Continuous study over several years is encouraged by the Vice-Chancellor's Certif. of Continuous Study (awarded to students who obtain 4 Sessional Certifs. in subjects chosen from certain groups) and by the *Diplomas in the Humanities* (Hist., Lit., Econ. and Social Science, Hist. of Art), awarded, under the Seal of the Univ., to students who carry on an approved co-ordinated course of study covering 4 yrs., and pass the required examns. *Diplomas in History and Literature* are also awarded on the result of One Year Full-time study.

The *Tutorial Classes for Working-people* are under the immediate direction of a Joint Committee of 7 members nominated by the Board and 7 nominated by the Workers' Educational Association. The classes extend over 3 consecutive years, and membership is usually limited to about 24 students, who undertake to attend regularly and to do regular paper-work for the tutor. Certifs. are not awarded. There were 48 classes in 1925-26.

(b) A *Holiday Course* for Foreigners is held annually in London during four weeks from the middle of July. Special stress is laid upon Phonetic teaching. The course is designed to widen the student's knowledge not only of the Engl. Lang., but of English customs, institns., and art, by means of lectures, classes, excursions, etc. The total number of students admitted to the course is limited to about 260, and the number in each class to 8. During the 19 years 1904-1914 and 1919-1926 the course was attended by 4490 students from 42 countries.

(c) *Inspection and Examination of Schools.* A close relationship between examination and inspection has been carefully and continuously developed by the Univ. Extension Board. The County Councils of Surrey and Middlesex have placed their Secondary Schools to the number of 66 under the Univ. for regular inspection and for the holding of the School examns., the local authority in each case making a special financial arrangement with the Univ. The Board of Educn. and the Univ. inspect alternately and exchange Reports.

Inspection may include either a general inspection of the whole school or a special inspection of certain subjects or groups of subjects. It may be so combined with the Certificate examns. that these form an integral part of it. It may also include an examn. carried on by the Inspectors and the Staff of the school in co-operation. This system of combined inspection and examn. is known as *Examinational Inspection*, and is capable of considerable variation to meet the requirements of any particular school.

The *Examinations for School Certificates* are held only in Schools inspected by the Univ. or under other approved inspection; the course of study in the school must also be approved. The examns. are of 3 grades: I. Higher, II. General, and III. Junior; for I. the (a) Higher School, (b) Intermediate (Arts or Science or Commerce or Economics) Certificate; II. the (a) School,

(b) *Matricn.*, or (c) *School Commercial Certif.*; and III. the *Junior School Certif.*, respectively. *Certifs. I. (a), II. (a), and II. (c)* are not awarded until the pupil leaves school. The examn. fees are from 1 to 3 gs.; or 6 gs. if for *Intermediate Cert.*

The *Higher and General School Examinations* are recognized by the Board of Education as "Second" and "First" examns. (v. p. 4) respectively, and the *Certifs. I. (a) and II. (a)* awarded to candidates attending schools recognized by it as efficient Secondary Schools are attested by it. A candidate who takes the *Higher* with a view to qualifying for an *External Intermediate Certif.* offers for examn. the same syllabuses as those of the *Ext. Intern. examns.* The combination of subjects that may be taken at the *General School examn.* offers greater variety than is the case in the *Matricn. examn.*, and a pupil who reaches the necessary standard at one and the same examn. in a combination required for *Matricn.* is entitled on payment of the registration fee of 17s. 6d. to be registered as a *Matriculated student* of the Univ., if or when he has attained the prescribed age.

The *Junior School Examination* is intended for pupils about the age of 15.

In the case of each of the *School examns.* an Inspector visits the school for the purpose of conducting an oral examn. in such *Mod. Langs.* as are taken. *Practical examns. in Science* are optional, except in the case of grade I., in which they form an essential part of the examn.

(d) The *Examination for the Certificate in Religious Knowledge*, instituted in 1909, is held once a year in June. It may be held at certain of the *Provincial centres* at which the *June Matricn. examn.* is appointed to be held, as well as in London.

(e) *Examinations for the Certificates in French and in German* (instituted in 1913), in *Italian, Russian, and Spanish* (instituted in 1919), and in *Danish, Norwegian, and Swedish* (instituted in 1921), are held in July or as may be arranged; in *English* ((1) for foreigners, (2) for English born; instituted in 1920) in Aug. or as may be arranged. They are intended primarily for teachers who are not specialists in, but who require a *Certif. testifying* to their practical working knowledge of, the language, both spoken and written.

(f) The *Examinations for the Diplomas in History; Literature—English Lang. and Lit. or General Lit.; Economics and Social Science; History of Art*—are held once a year for students who have followed a recognized course of study for 4 yrs. as part-time students or for a shorter period as full-time students.

(g) The *Examn. for the Diploma in Psychological Medicine* is held twice a year, in March and Apr. and in Oct. and Nov., and is open to candidates whose names are in the *Medical Register*. There are two varieties of this *Dip.*, for those desiring to specialize in *Mental Diseases* and in *Mental Deficiency* respectively.

(h) The *Examn. for the Diploma in Dramatic Art* is held once a year, in July, and is open to students of not less than 17 years whose general education satisfies the Board and who have studied at least two years at *Training Schools* or *Institutions* where courses have been approved.

(i) The *Examn. for the Diploma in Nursing* is held once a year in October and November, and is open to *Registered Nurses* (or *Nurses eligible to sit for the prescribed examn. for registration*) whose general education satisfies the Board, subject to certain specified conditions with regard to *Part B of the Examn.*

[Further information and copies of the *Regns.* may be obtained from the *University Extension Registrar, University of London, South Kensington, S.W. 7.]*

THE YEAR 1925-26

BENEFACTIONS. Parliamentary grant increased from £377,695 to £462,150 ; Sir Daniel Stevenson, £20,000 for a (part-time) Chair of International History and for development of a department connected with it ; Miss S. L. Gibbs bequest, £150 p.a. for studentship for cancer research.

NEW POSTS. Samuel Davidson Chair of Old Testament Studies. University Chair of Military Studies. At University College : Readership in Physiology. At King's College : Chair of French Language and Literature ; Readerships in Civil and in Mechanical Engineering. At London School of Economics : Chair of Political Science. At Westfield College : Readership in English. At Birkbeck College : Readership in Classics. At Univ. Coll. Hosp. Medical School : Chair of Obstetric Medicine. At London School of Hygiene and Tropical Medicine : Chairs of Bacteriology and Immunology and of Epidemiology and Vital Statistics ; Readership in Medical Entomology.

OTHER DEVELOPMENTS. Music and Law were placed on the list of optional subjects for the Intermediate Examination in Arts and the B.A. Pass Examination. M.A. degrees in Slavonic Studies for Internal and in Geography for External students, LL.M. degree, an Academic Diploma in Anthropology and a Diploma in Nursing were instituted. Arrangements were made for holding at the Medical Schools the practical tests in certain subjects of the Second M.B. Examination, and for conducting the practical examinations in Botany, Chemistry, Physics, and Zoology for the final examinations in Arts (Pass) and Science at Colleges and Schools. A scheme was approved for the conduct of the Final B.Sc. (Special) and B.Sc. (Engin.) Examns. for internal students at the Imperial College.

The Senate adopted the principle that the minimum salary of a University Professor should, ordinarily, be £1000 p.a. and that of a University Reader £500.

The courses in Journalism were increasingly popular (enrolment 74), and were strengthened on their practical side.

Land for a Sports ground was purchased and progress was made towards acquiring a Boat-house.

The report of the Departmental Committee on the reorganization of the University was accepted by Government, and preparations for giving effect to it by legislation were made.

STUDENTS. Total admissions in the year 1925 were 8760, of whom 2092 were exempted from the ordinary matriculation examination : 321 as graduates of other Universities, 1546 as holders of approved certificates, and 225 after examination under Statute 116. Of 4228 candidates for first degrees, 2503 were internal and 1725 external. The total number of internal students on the rolls was 9400.

UNIVERSITY EXTENSION. Number of Lecture Courses : Sessional (24 or 25 Lectures), 39 ; Terminal (10 or 12 Lectures), 33 ; Short (5 or 6 Lectures), 44. Terminal entries of Students for all Courses, 13,697. Humanities Diploma Students, 524. Number of University Tutorial Class Students, 887.

The Holiday Course for Foreigners was more popular than ever—400 applications for admission had to be refused. There were 256 students, representing 22 nationalities.

COURSES. Arts, Laws, Science, Engineering, Medical Prelim. and Intermediate, Hygiene. Open to students of both sexes. The Arts Faculty includes Slade School of Fine Art, School of Librarianship, School of Journalism, and Bartlett School of Archit. The Engineering Faculty includes Departments of Civil and Mechanical (with sub-depts. of Graphics, Surveying, and Heating and Ventilating), Electrical and Municipal Engineering. A *Diploma* in Engin. is given after a 3 yrs.' course, and *Certificates* in Engin. (2 yrs.); a *Diploma* in Archit. (5 yrs.) and a *Certificate* in Archit. (3 yrs.).

All departments of the College are available for **POST-GRADUATION AND RESEARCH WORK**, and the respective Professors are always prepared to advise such students desirous of undertaking research, whether for higher degrees or otherwise.

DEPARTMENT OF APPLIED STATISTICS. The *Francis Galton Laboratory for National Eugenics* was founded in 1904 for the study of those agencies under social control that may improve or impair the racial qualities of future generations, either physically or mentally. It is open to Research students in Eugenics of both sexes. The *Drapers' Company's Biometric Laboratory*, founded 1895, for the statistical study of biological problems, possesses a good collection of calculating machines, integrating mechanisms, moment-finders, as well as a large series of statistical models, measuring instruments, etc. Research workers can start any time during the session, but, unless attending the lectures in the Dept., are expected to have a preliminary training either in Biology or Maths.

Courses of Instruction are given on Statistics and cognate subjects, and also short courses of popular lectures. Fees (for Research workers): per

Term, £4 : 14 : 6. A Fee of 17 gs. per session admits to the Eugenic and Biometric Labs. on all days and to all lectures, as well as to the use of the Library and of the material in the Archives. Fee for use of calculating machines, 1½ gs. per term. For list of publications, v. *infra*.

THE BARTLETT SCHOOL OF ARCHITECTURE was established by the combination of the Archit. Schools of University and King's Colleges. The Certificate (3 yrs.) and Diploma (5 yrs.) courses are recognized by the R.I.B.A. as exempting from the R.I.B.A. Intermediate and Final exams. respectively. The accommodation includes three large Studios, a Museum, a Cast Gallery, a Library, a Lecture Theatre, and a Class Room. Rooms are also provided for the Department of Town-Planning instituted in Oct. 1914. The day work is supplemented by evening classes in design. There is an Atelier for graduates and advanced students.

FOREIGN STUDENTS are admitted to the College on the same terms as British. They are expected to produce identification papers. In August a *Vacation Course* is held in Phonetics and Spoken English (Director : Prof. Daniel Jones). Men attending that Course can reside at University College Hall, Ealing. Special courses in Aspects of British Life and Civilization take place *throughout the session*. The Secretary will always advise foreign students by correspondence or personal interview as to the cost of residence in London and as to suitable houses. The Ramsay Memorial Fellowships in Chemical Science founded by certain Foreign Governments are tenable at Univ. Coll., London, among other places ; four Fellows from overseas are now working there.

FEES. Composition for 3 sessions' course in Arts—98 to 105 gs. ; 5 sessions' course in Archit.—228 gs. ; B.Sc.—135 to 140 gs. ; Engin.—168 gs. ; Econ.—21 gs. per session ; Med. for 1st examn.—35, 2nd—80 gs. ; Laws—Day 24 gs., Evening 18 gs. per session ; Fine Art—28 gs. per session ; for Higher Civil Service—50 gs. (35 gs. to those who have taken undergraduate course at the College).

SCHOLARSHIPS, ETC. Annual value, about £3200 (including £750, Entrance Scholarships).

RESIDENCE. A Hall for 52 men at Ealing, £2 to £3 a week. One for women in Byng Place, W.C.1.

GENERAL INFORMATION

Address—Strand, W.C.2. Telephone—0207 Gerrard.

Founded by Royal Charter in 1829 for "instruction in the various branches of Literature and Science and the doctrines and duties of Christianity," King's College consisted at first of a School and Departments of General Literature, Science, and Medicine, to which were added successively Engineering, Theological, and Oriental Depts. The Hospital was built in 1839; the Evening Classes were started in 1856, and a Women's Dept. in 1881. In 1910 the College School became a separate Corporation, the Hospl. and Advanced Med. School were made independent, the other Depts. (except the Theological) doing work of University standard were incorporated in the Univ. of London, while the Council remained the governing body of the Theol. Dept., which became a School of the Univ. In 1915 the Arts and Science Departments of King's College for Women, previously housed in South Kensington, were transferred to the buildings of King's College, and the Household and Social Science Department to new buildings on Campden Hill. In 1925 the School of Slavonic Studies and the Slavonic Library were transferred to rooms in the Institute of Historical Research (Malet Street).

LIBRARY, 70,000 vols., including the Marsden (Philol. and Oriental), Skeat and Furnivall (English), Wheatstone (Electricity, etc.), Slavonic, and Byzantine and Modern Greek collections.

LABORATORIES AND MUSEUMS. Anat. (Hughes Collection), Comp. Anat., Biol., Bot., Chem., Engin., Geol. and Mineral., Mat. Med., Metall., Pharmacol., Physics, Physiol. (including Bio-Chem. and Histol.), Psych., Zool.

FACULTIES. Arts, Laws, Natural Science, Medical Science, Engineering, Theology. Deans: Prof. Atkins (German), H. J. H. Mackay, Prof. White (Maths.), Prof. Barclay-Smith (Anat.), Prof. Cook, Rev. W. R. Matthews.

Evening Class Department (classes in connexion with faculties of Theology, Arts, Laws, and Science). Dean, Prof. Sir Israel Gollancz.

DEGREE COURSES in Arts, Science, Laws, Engineering. Prelim. and Interm. courses in Medicine, and courses for the First and Second Examns. for Dental Degrees. Day Training College under the Board of Education. Dept. for training secondary Teachers (men and women).

Engineering students receive preliminary workshop training in their first year. Facilities are provided for spending half of each summer vacation in engineering works. Those taking 4-years' course spend part of each year (18 months in all) in practical training.

College Diploma course in Engineering, ordinarily 3 yrs. The *Associateship*, open to men and women who have graduated after a three-years' course and have also attended a prescribed course in Divinity. *Certificates* in Palæography, Italian, Hebrew, Spanish, Portuguese, Russian, Czecho-Slovak, Serbo-Croat, and Polish.

THE HOUSEHOLD AND SOCIAL SCIENCE DEPARTMENT (Warden—Miss Helene Reynard, M.A.) at Campden Hill Road, W.8, continues to be a Department of

King's College for Women, though in the main practically separate. It provides full degree courses for the B.Sc. in H. and S.Sc. Tuition fees, 45 gs. per session. Residence from 75 to 93 gs. Number of full-time students in 1926, 147.

NEW BUILDINGS, ETC. A mezzanine floor built across the Wheatstone Laboratory and George III. Museum, providing 3000 feet of additional accommodation for the Department of Physics, at a cost of £4500. Rooms on the top floor of what was once the Principal's House reconstructed to accommodate the Psychological Department, at a cost of £1200.

OTHER NEW DEVELOPMENTS. House libraries instituted at each of the College Hostels. The Koraes Chair re-established. College Professorships of French and German made full University Chairs. New Readerships in Diplomatic and English Archives, in English Law and in Mechanical Engineering, new Lectureship and Asst. Lectureship in Education. A day course in the Faculty of Laws.

INTERCHANGE OF TEACHERS. Prof. Wildon Carr spent the session in the Univ. of California, and Prof. Gordon delivered courses of lectures in the Univ. of Toronto and Chicago during the Long Vacation. Among visitors who lectured at King's College were: Dr. Edward Benes, Foreign Minister of the Czecho-slovak Republic, Herr Rudolf Binding, M. Paul Fort, Prof. Andreades of Athens, Prof. Salvemini of Florence, Prof. Louis Eisenmann of the Institut d'Études Slaves at Paris, Prof. Delattre of Lille, Prof. Gressmann of Berlin. Miss M. E. Cranswick was awarded a Commonwealth Fund Fellowship; Miss N. Edmed won a Senior Fellowship at Smith College, Mass.

RESIGNATIONS. F. S. Shears (appointed Prof. of French, Univ. of Aberdeen); W. E. Curtis (Prof. of Physics, Armstrong College); C. A. Geneve (Prof. at Royal School of Engineering, Giza, Egypt); Dr. Hemingway (Senior Asst. in Physiology, Univ. Coll.); Dr. Reeves (appointment at St. Bartholomew's Hosp. Med. School); G. Patchin (Principal of Sir John Cass Technical Institute). *Retirements*: Prof. V. Spiers, Dr. C. D. Webb.

STUDENTS. Full-time: total, 1236 (including 411 women); graduates, Arts and Pure Science, 112 (w. 31), Law 2, Engin. 6; preparing for first degree in Arts and Pure Sc. 526 (w. 273), Medicine 127 (w. 38), Law 13, Engin. 99, Theol. 24 (w. 4); other full-time, Arts and Pure Sc. 139 (w. 50), Med. 82 (w. 15), Engin. 22, Theol. 84. Residing in hostels, 126 (w. 63). From other countries, 40.

Part-time: total, 3358 (w. 851); graduates, Arts and Pure Sc. 91 (w. 26), Med. 7, Engin. 28, Theol. 14; degree students, Arts and Pure Sc. 131 (w. 66), Law 35 (w. 6); diploma, Arts and Pure Sc. 200 (w. 140), Med. 160 (w. 100), Theol. 46 (w. 10); Occasional, Arts and Pure Sc. 605 (w. 410), Med. 38 (w. 3), Law 1911 (w. 30), Engin. 9, Theol. 83 (w. 60).

Pre-matriculation: 119 (w. 24), including Theol. 53 (w. 13).

DEGREES OBTAINED: B.A., 83 (w. 60); B.Sc., 86 (w. 24); B.Sc.Eng., 31; LL.B., 8 (w. 1); D.Lit., 1 (w.); Ph.D., 12 (w. 2); M.A., 12 (w. 6); M.Sc., 8 (w. 1).

GENERAL INFORMATION

Address—Imperial Institute Road, S. Kensington, S.W.7.

Telegrams—Scientist, Southkens, London. Telephone—6444 Kensington.

Founded by Royal Charter in 1907 for the purpose of giving the highest specialized instruction and providing the fullest equipment for the most advanced training and research in various branches of Science, especially in its application to Industry, the Imperial College includes as integral parts the following Associated Colleges :

The Royal College of Science.

The Royal School of Mines.

The City and Guilds (Engineering) College.

The departments and (in brackets) sub-departments are: Aeronautics (Aerodynamics, Meteorology), Botany (Bio-Chemistry, Plant Physiology and Pathology, Technology of Woods and Fibres), Chemical Technology (Chemical Engineering, and Fuel and Refractory Materials), Chemistry (Inorganic, Organic, and Physical), Engineering—Civil and Surveying, Electrical, Mechanical, and Motive Power, Geology (Economic Mineralogy, Mining Geology, Technology of Oil), Mathematics and Mechanics, Metallurgy, Mining (Mining Geology, Mining Surveying), Technical Optics (Optical Design, Instrument Design), Physics (Astro-physics), Zoology (Entomology).

The total staff exceeds 200. For the purpose of internal degrees of the Univ. the College is a School of the University in Science and Engineering. Students who are registered as candidates for one of the Associateships awarded following a course satisfactorily completed at the College, and who have matriculated at the University of London by examination or exemption, are eligible to proceed to the B.Sc. (Special) Degree of the University, in the Faculties of Science or Engineering, on the examinations for the relative Associateship, provided the University's regulations are complied with. This arrangement is subject to review after five years from the date of its commencement (1927). The buildings occupy about 8 acres and cost with equipment over £1,000,000.

The courses of study are designed for students of University standard whose occupations in life will be concerned with the scientific aspects of industries.

LIBRARIES, ETC. The Library of the Science Museum is available for the use of Students, and each Dept. is provided with a special Library, **RESEARCH LABORATORIES**, and full facilities for advanced study.

ADMISSION. The conditions of admission are as under, but the College reserves power to admit in special cases candidates whose qualifications do not in every respect coincide with those prescribed, but whose previous training fits them to take full advantage of the course proposed; the prescribed qualifications give no right to admission, but will be considered with others of which the candidate may give evidence. (i.) *R.C.S.* and *R.S.M.* A candidate for admission must be as a rule not less than 17 yrs. of age. For admission to 1st yr. Assoc. courses an Entrance examn. in Maths. and Mechanics, Chem. Physics, Engl., French or German or Spanish or Italian, and Geometrical or Freehand Drawing, must be passed, unless equivalent examns. have been passed elsewhere. (The Matricn. examn. of the Univ. is considered equivalent provided the student has passed in "More Advanced Maths." and "Elem. Mechanics," and in the other subjects prescribed for the Entrance examn.) Candidates for admission to a 2nd yr. must pass the College Entrance examn. in more advanced Maths., Mechanics, Chem., and Physics, unless equivalent examns. have been passed elsewhere. For admission to a 3rd yr. candidates must have reached a standard correspondingly higher. (ii.) *City and Guilds.* A candidate desiring to enter for the 1st yr. of the Assoc'ship course must be at least 16 yrs. of age and must pass entrance examn. in Maths. and Mechanics, Geom. Drawing, Phys., or Chem., Engl., and French or German or Italian or Spanish, unless he has passed the Matricn. examn. of the Univ., taking certain specified subjects, including More Advanced Maths. For admission to the 2nd yr. course candidates must take the easier and more advanced papers, Geometrical and Machine Drawing, and practical Chem. in the College

examn., or they must have passed the Interm. B.Sc. (Eng.) in the Univ. in Maths., Pure and Applied, Heat, Electricity and Magnetism, Engineering, Drawing and Design, and Chemistry. Candidates for admission to advanced or research work in the R.C.S., R.S.M., or C. and G. are admitted on satisfying the Coll. authorities as to their previous training.

DIPLOMA AND OTHER COURSES. Associateship of each of the 3 associated Colls., 3 or 4 yrs.; specially arranged courses in Advanced Science or Technology, 1 or more yrs., leading to the Diploma of the Imperial Coll.; short courses dealing with special subjects for graduates or persons engaged in scientific industrial pursuits; occasional courses to suit individual needs.

FEES. Entrance, £2; Tuition, per session, for full-time Associateship or Post-Associateship courses of study, £62 : 10s. (including Union fees); for less than full-time courses, *pro rata*; for Research Work the fee is £22 : 10s. per session (including Union fees), but an additional charge may be made for expensive apparatus or chemicals. Graduates from other Institutions taking the 4th year Associateship course in Botany will be charged fees at the Research rate of £22 : 10s.

SCHOLARSHIPS for post-grad. work: Beit Fellowship for Research, v. Appendix XXIV. (iv.); £300 Plimmer Fellowship in Pathology; £100 in Botany; and many others (v. *Calendar*).

AFFILIATION, ETC. The Univ. of Sheffield is associated with the Coll. for Advanced Studies in the Metallurgy of Iron and Steel. Students of Huddersfield Technical Coll. may be admitted, subject to certain conditions, without examn.

PUBLICATIONS. *Calendar*; *Annual Report*, with list of members publ. by members of the Coll.

THE YEAR 1925-26

A RESIDENTIAL HOSTEL for 50 students was opened in April 1926.

NEW POST. Professorship of Chemical Engineering (in place of Asst. Professorship).

UNIVERSITY DEGREES. By an arrangement with the University, which is tentative for five years, students who have matriculated in the Univ. and who complete one of the recognized College Associateship Courses and pass the Examns. on the completion of each part of the Course, will become eligible for the degree of B.Sc. with honours.

PROFESSORIAL STAFF. Mr. F. Balfour-Browne, M.A. (formerly Lecturer in Entomology in Cambridge), was appointed to the Chair of Entomology, vice Prof. H. Maxwell Lefroy (deceased). Asst. Prof. J. W. Hinchley was appointed to the new Chair of Chemical Engineering.

RESIGNATIONS. Dr. H. Graham Cannon, Lecturer in Zoology, was appointed to the Chair of Zoology in Sheffield; A. F. Wickenden, Lecturer in Civil Engineering and Surveying, was appointed to the Chair of Architecture under the Egyptian Ministry of Education.

DIPLOMAS GRANTED. A.R.C.S., 76; A.R.S.M., 32; A.C.G.I., 93; D.I.C., 92. Total, 293, including 3 women.

STUDENTS. Full-time: total, 945 (including 36 women); graduates, 245 (w. 24); preparing for first diploma, 700 (w. 12). Residing in hostel, 44. Part-time: total, 97 (w. 10); graduates 56 (w. 7); preparing for first diploma 13 (w. 1); occasional 28 (w. 2). **DEGREES OBTAINED:** B.Sc. in Science, 79 (w. 4), in Engineering 86, higher degrees in Science 47 (w. 6), in Engineering 3 (w. 1).

GENERAL INFORMATION

Address—Houghton St., Aldwych, W.C.2.

Telegrams—"Poleconics, Estrand." Telephone 5671 Holborn.

Founded 1895. A School of the Univ. recognized in the Faculties of Economics and Political Science (including Commerce and Industry), of Laws, and of Arts (in certain subjects only).

Matriculated students are registered as Internal students of the Univ. with a view to the B.Sc. Econ., B.Com., LL.B., and B.A. (with Honours in Geog., Sociology, Anthropol., or History, or the Pass degree with Geog.), or to Higher degrees. Non-matriculated students can be registered for the Academic Diplomas in Geography, Psychology, Journalism, and Social Science and Administration, and for the School Certificates in Social Science and in International and Diplomatic Studies.

The lectures and classes at the School are open also to those who have not matriculated and do not wish to pursue a full University course—in particular to those engaged in banking, accounting, railway and other transport, commerce and industry, to civil servants and municipal officials, to teachers, and to those engaged in or qualifying for social work. To all these the School affords, by day or evening, the opportunity of specialized or advanced study on particular topics. The School is open on the same terms to men and to women, and classes and lectures are given both in the day and in the evening.

The School offers special facilities for post-graduate research, under the supervision of professors or otherwise. The *British Library of Political and Economic Science*, which includes the British Library of Political Science, the Fry Library of *International Law*, the Cobden Library of *International Commerce and Peace*, and the Schuster Library of *Comparative Legislation*, is open not only to those who are taking courses at the School, but, by permission of the Director, to any person desiring to utilize it for research or consultation. The Ratan Tata Foundation for research into social conditions is administered by the School, which maintains in connexion with it a Dept. of Social Science and Administration.

The fee for a day course in Economics or Commerce is £22 : 1s. a year, in Law £25 : 4s. a year, and in Arts about £35 a year. In the case of evening students considerable reductions in these fees are made. The fees include privileges of Students' Common Rooms and Athletic Societies. Playing fields at Malden are available for members of the Students' Union.

Research Studentships, £200, in addition to fees, are offered from time to time. Scholarships are awarded on the results of the University Intermediate Exams. There are entrance scholarships and prizes.

Publications : *Studies in Econ. and Pol. Sc.* ; *Economica*, thrice annually, 2s. 6d. ; *Bulletin of the British Library of Political and Economic Science*,

quarterly, 2s. per annum; *Clare Market Review* (Students, once a term). *Bulletin*—with supplements—of the *London and Cambridge Economic Service* of Statistics and Memoranda, bearing on the current economic position, is maintained by the School, in co-operation with the Univ. of Cambridge and Harvard Univ. Subs. £6 p.a. *School Calendar*, 2s. 6d. or (cloth) 3s. 6d. *Summary programmes* free.

THE YEAR 1925-26

BENEFACTIONS. Carnegie United Kingdom Trust and Laura Spelman Rockefeller Memorial, £3000 each towards cost of Library catalogue. An old student of the School endowed a Women's Studentship of £150 p.a. for research in Econ. History.

ASSOCIATED COLLEGES

THE COLLEGE OF TECHNOLOGY originated in the Mechanics' Institution, founded in 1824, and developed between 1879 and 1912 under the direction of J. H. Reynolds as the Technical School (1883) and Municipal School of Technology (1901). In 1903 were completed, with the help of benefactions from the estate of Sir Joseph Whitworth, buildings covering 7300 sq. yards in the centre of the city and worth with their equipment £400,000. It became connected with the Univ. of Manchester in 1905 through the constitution of a Faculty of Technology, the greater part of the work of which is conducted in the College, whose Principal is Dean of the Faculty. The work of the College includes advanced study and research in the subjects specified in the above list of Professors and Lecturers and hydraulic experimental work, motor-car engineering, and india-rubber technology.

GENERAL INFORMATION

Owens College, named after a Manchester merchant who bequeathed £96,000 for its foundation, was opened in 1851. The Manchester School of Medicine was united with it in 1872. The Charter of 1880 by which the Victoria

Univ. was founded established a federal constitution and made Owens a constituent Coll. of the Univ. Subsequently Univ. Coll., Liverpool, and Yorkshire Coll., Leeds, were admitted as constituent Colls. A new Charter was issued on July 15, 1903, reconstituting the Univ. under the name of the Vict. Univ. of Manchester and freeing it from liability to admit or remain in association with any Coll. other than Owens, and on June 24, 1904, the Act for the incorporation of Owens Coll. with the Univ. was passed. The Univ. Press was established in 1902.

In 1905, on the establishment of the Faculty of Technology, the work of Univ. standard at the Municipal School (now College) of Tech. was included in the Univ.

Most of the buildings, arranged in two quadrangles, and erected from time to time during the past 50 years, are situate in the city. The athletic ground (30 acres) is at Fallowfield, about $1\frac{1}{2}$ miles distant.

LIBRARIES. The main (Christie) library (over 205,000) includes the private collections of Profs. Freeman and Stanley Jevons and Dr. Christie. Scientific periodicals are taken in by the Univ. in co-operation with the Manchester Literary and Philosophical Society, so that between them all the most important are available for both. The Medical Society's and the Radford Library (47,000) are housed in the Medical School, and are available for students. The John Rylands (310,000) includes the Althorp Library and the Crawford collection of MSS. It contains one of the most important collections of early printed books in existence. The ancient Chetham Library (100,000) has valuable mediæval MSS. and printed books of seventeenth and eighteenth centuries and a collection of volumes dealing with local history. The Municipal Reference Library (200,000) is valuable for more recent books and periodicals, and in connexion with it a Technical and Science Library (40,000) has recently been formed.

LABORATORIES, ETC. Ample equipment for advanced study and research in all departments; special provision for Electro-Technics, Economic Zoology (including Agric. Entom.) and Botany, Radio-activity, Ionization of Gases, Colloids, and Cancer. The Fielden School is organized mainly for demonstration, training, and research in Educn. The Manchester *Museum*, forming part of the Univ. buildings, and containing among other special depts. the Plinders Petrie Egyptol. Collection, is utilized for Univ. teaching in Zool., Bot., and Geol.; it is also used for systematic instruction of Elem. school children. Available for clinical instruction are 4 general *Hospitals*, 1 Dental and 7 other special hospls., including the Christie Cancer Pavilion. The Howard Estate *Observatory* in the Peak District is for investigation of the Upper Atmosphere.

CONSTITUTION. The *Congregation of the University* consists mainly of the teaching and administrative elements in the Univ. and Colleges. It is the principal legislative body in the Univ. and, subject to the postponing power of Convocation explained below, can adopt, reject or amend legislative proposals submitted by the Hebdomadal Council. *Convocation*, a larger body consisting of all Masters of Arts and Doctors of the Faculties of Divinity, Civil Law, and Medicine, who have their names on the Univ. books, has the power of postponing, but not of rejecting or amending, Statutes or Decrees which have been passed by the vote of less than two-thirds of the members of Congregation present and voting. It also confers honorary degrees and degrees granted by Decree or Diploma. It sanctions petitions to Parliament, authorises the affixing of the Univ. seal when necessary, and its members elect the Univ. representatives in Parliament. The *Hebdomadal Council* consists of the Chancellor, Vice-Chancellor, immediate ex-Vice-Chancellor (for a certain period after the expiry of his term of office), the Proctors, and 18 members elected by Congregation. It takes the initiative in all legislation of the Univ. and forms the central administrative body. Other important bodies, endowed with considerable powers and responsibilities, are the *General Board of the Faculties* and the *Curators of the University Chest*.

The Chancellor, elected for life by Convocation, is a non-resident Officer. The executive power is chiefly in the hands of his Deputy, the Vice-Chancellor, who is annually nominated by him from among the Heads of Colleges, and the Proctors annually elected by the Colleges and Halls in rotation.

The Colleges are corporate bodies distinct from the Univ. They manage their own property, and elect their own officers; and the Proctors have no power within their walls. Their Statutes, however, render them subject to certain Univ. Statutes which deal, among other things, with reservation of a proportion of Fellowships for Univ. teachers and officers, the assignment of Fellowships to University Professorships, the admission of undergraduates, contributions for Univ. purposes, the presentation and audit of accounts, and the special examination of catering accounts. The relation between the Univ. and the Colleges is intimate. The great majority of the members of the Univ. belong to the Colleges, and all who belong to the various Colleges are at the same time members of the Univ. Teaching is given partly by Univ. Profs., Readers, Lecturers, and Demonstrators, partly by the more numerous body of College Tutors and Lectrs.

FACULTIES. Theology, Law, Medicine, Literæ Humaniores, Modern History, English Language and Literature, Mediæval and Modern Languages, Oriental Languages, Physical Sciences (including Mathematics), Biological Sciences. For Music and for Philosophy, Politics, and Economics, there are Boards of Studies.

ADMISSION to the Univ. ("Matriculation") is without respect of sex, birth, age, nationality, or creed, and follows upon admission to a College or Hall or to the Society of Non-Coll. Students, or Society of Home-Students. No one can become a member of the Univ. unless he first becomes a member of one of these Societies. An application for admission must therefore be addressed, not to any officer of the Univ., but to the proper officer * of the Society to which admission is desired; it should be made, if possible, a year or more before residence is contemplated, especially if rooms within the College walls are desired. Except for certain classes of persons the passing of an entrance examn. is a condition of admission to matriculation.

The Colleges and Halls and the Society of Non-Coll. Students require certain qualifications of character and intellectual attainment in which the passing of *Responsions* or some equivalent examn. is necessarily included.

Students from abroad (v. also Appendix XXIII.). The Secretary (H. S. Williamson, M.A., Indian Institute) of the *Delegacy for Oriental Students* is prepared to advise Indian and other oriental students, who should apply for admission through him.

To deal with enquiries from other students who wish to become members of the Univ. and whose home residence is outside Great Britain an *Adviser to Colonial and Foreign Students* (R. Truslove, M.A., 40 Broad St.) is attached to the Univ. Registry. Applications for admission may be made through him.

Permission to attend lectures given by Professors and University Readers and by Lecturers in English Language and Literature can be obtained by persons who are not members of the Univ. on payment of a fee of £3 a term at the office of the University Chest, Clarendon Building, Broad Street.

Lectures and classes in Modern Foreign Languages may be attended by external students on payment of fees varying from 15s. to 10s. for one hour a week. Application should be made to the Clerk to the Curators, Taylor Institution.

INCORPORATION. Members of the Univs. of Cambridge and Dublin can be, under certain conditions, "incorporated" into this Univ., *i.e.* admitted to

* Balliol—The Tutor for Admissions; Qu.—The Pro-Provost; Non.-Coll. —The Censor, Non-Collegiate Buildings; in other cases—The head of the Society (v. *supra*).

the same status and degree which they hold in their own Univ. Notice of intention to incorporate as an undergraduate must be sent to the Registrar through the Head of a College or the Censor of Non-Coll. Students. The privileges of incorporation as a graduate are limited to B.A., M.A., Litt.D., B.D., D.D., and D.Sc. of those Univs. Any applicant for incorporation must have kept by residence at his Univ. before taking his degree the same number of terms that he would have been required to keep at Oxford for the corresponding degree. While an undergraduate is allowed to incorporate as a matter of course, a graduate must first satisfy the Hebdomadal Council that there are adequate reasons.

In 1910 a Delegacy for WOMEN STUDENTS was constituted, and provision made for recognition by the Univ. of Societies for their reception for academical study, students on the books of such Recognized Societies being accorded a privileged status. Under the provisions of a Statute approved by Convocation on May 11, 1920, which came into force on Oct. 7, 1920, women may be matriculated and admitted to degrees in the Univ. Previous to matricn. a woman must have been admitted as a member of one of the 5 Societies of Women Students. A woman may be admitted to *Responsions* before matricn. provided her name is sent in to the Asst. Registrar by the Head or a Tutor of a Soc. to which she *bona fide* desires admission. Women members of the Univ. are admitted to all degrees (except B.D. and D.D.) under the same conditions as those prescribed for men as regards standing, examns., course of study, exercises, and fees, and under analogous conditions as regards residence. A Women Students' Property Committee administers all property vested in the Univ. for the benefit of women members of the Univ. generally, and in particular the Nettleship Library and Bertha Johnson Loan Fund. The Delegacy for Women Students has been abolished.

The number of resident undergraduate members of the Society of Home Students (who keep statutable residence in houses approved by the Delegates for Lodgings) is limited at present to 220, exclusive of "Advanced students," and of an additional number not exceeding 5 in any term as may for exceptional reasons be given permission to reside. Preference is given to those applicants for admission to the Society whose homes are in Oxford.

ADMISSION TO PRIVILEGED STANDING OF STUDENTS FROM OTHER INSTITUTIONS: "JUNIOR" AND "SENIOR" STUDENTS. I. *Universities other than Indian.*—(a) Any student who shall have pursued at his Univ. a prescribed course extending over 2 years may be admitted as a "Junior Student" provided that his course and the standard attained by him in any examns. proper to it shall have been approved. No course will be approved which does not include the study of 2 languages other than English, of which languages one must be either Latin or Greek. (b) Any person who has obtained a degree at his Univ., Degree and Univ. having been approved, may be admitted as a "Senior Student," provided that he shall have pursued at that Univ., or, if approved, at more than one Univ., a course extending over 3 years.

II. *Indian Universities.*—(a) Any student who shall have pursued at his Univ. a prescribed course extending over 2 years, and obtained the Degree of B.A. or B.Sc., may be admitted as a "Junior Student," provided that Degree and Univ. have been approved. No Degree will be approved which does not include the study of English and in addition of 2 of the following languages, Latin, Greek, French, German, Sanskrit, Arabic, Persian, Pali, Classical Chinese, of which 2 either Latin or Greek or French or German must be one. (b) Any student who shall have pursued at his Univ. or, should the Hebdomadal Council in his case approve, at more than one Univ. a prescribed course extending over 3 years and obtained a Degree with 1st or 2nd Class

Honours, may be admitted as a "Senior Student," provided that Degree and Univ. have been approved.

III. A *Junior Student*: (a) may reckon his 1st term as his 4th; (b) is not required to pass Responsions; (c) is entitled to supplicate for Degree of B.A. after having resided 6 terms and passed the 1st Public Examn. and either (1) obtained a place in the Class List of an Honour School of the 2nd Public Examn. or been allowed "ægrotat"; or (2) satisfied the Examiners in the 2nd Public Examn. in the Final Honour School of Nat. Sc. in Chem., Pt. I., or in the Final School of Agric. or of Forestry; or (3) obtained Honours in the 1st Public Examn., and subsequently passed the 2nd Public Examn.; or (4) if disqualified by standing from obtaining such Honours, shown such merit as would otherwise have entitled him to a place on the Class List.

A *Senior Student*: (a) may reckon his 1st term as his 4th; (b) is not required to pass Responsions or any part of the 1st Public Examn. or any Preliminary or Previous Examn. of the 2nd Public Examn.; (c) is entitled to supplicate for the Degree of B.A. after having kept statutable residence for 6 terms, and having either (i.)—as above—(c) (1); or (ii.)—as above—(c) (4); or (iii.) satisfied the Examiners in the Final Honour School of Chemistry, Part I.; or (iv.) passed the Prel. Examn. in Agriculture or Forestry and also the Final Examn. in Agriculture or Forestry.

No Junior or Senior Student will be entitled to supplicate for the Degree of B.A. except as above.

Members of the following AFFILIATED COLLEGES may claim the status of Affiliated Junior Student if they have pursued a 2 yrs.' course of study at their Coll. and taken Honours in an examn. thereon: St. David's Coll., Lampeter (3 yrs.' course with Honours may give admission to status of Senr. student); Univ. Colls., Nottingham, Southampton, Exeter; Exeter Diocesan Training Coll. The privileges of an Affiliated Junior Student are similar to but not identically the same as those of a "Junior Student."

TERMS. The Academical year, which begins in Oct. and ends in June, consists of 3 terms, Michaelmas, Hilary (or Lent), and Trinity, beginning, respectively, on Oct. 10, Jan. 14, and the Wednesday after Easter Day, and ending Dec. 17, the day before Palm Sunday, and (usually) the Saturday after the first Tuesday in July. Residence within the walls of a College or Hall, or in licensed lodgings,* during a certain number of terms, usually 9, and never less than 6, is a condition of admission to any degree except in Music. Full terms begin May 1 and Oct. 16, 1927, and Jan. 22 and April 29, 1928, and end June 25 and Dec. 10, 1927, and March 17 and June 23, 1928.

DEGREES. B.A., M.A., B.Litt., D.Litt.; B.Sc., D.Sc.; D.Phil.; B.D., D.D.; B.C.L., D.C.L.; B.M., B.Ch., D.M., M.Ch.; B.Mus., D.Mus.

The degrees which are open to graduate students of other Univs. who are qualified for matricn. at Oxford are those of B.Litt., B.Sc., D.Phil., B.C.L., and B.D.

ARTS. Examns. in Arts, more usually called "Schools," are sharply divided into Pass and Honour examns.; in the former there is but one standard, in the latter successful candidates are distributed into 3 or 4 classes. No one is admitted to a place in the Class Lists who has exceeded a certain number of terms reckoned from Matricn. No conditions of residence are attached by the Univ. to either Pass or Honour examns.; it is simply for the attainment of the degree of B.A. that residence is obligatory. Every Coll. and Hall,

* In special circumstances leave to reside in a house which has not been licensed may sometimes be obtained.

however, as well as the Delegacy of Non-Coll. Students, has its own rules with regard to both residence and the entry for examns. A candidate for the degree of B.A. must (1) reside at the Univ. as a matriculated member during 9 terms, unless he is privileged as a member of another Univ. or as a "Service" Student; (2) pass or obtain Honours in the following examns., namely:

(a) *Responsions*. This is the Entrance Examination to the University. It must be passed, or some examn. accepted as equivalent to it, before matriculation. Names of candidates must be entered through an officer of the Society to which they intend to belong. The examn. includes 3 groups: I. (a) Latin, (b) Greek; II. (a) English, (b) French, (c) German, (d) Italian, (e) Spanish; III. (a) Maths., (b) Nat. Sc. In order to be deemed to have passed *Responsions* it is necessary to have passed either in both subjects of Group I. and in the 2 subjects in Group III., or else in one subject at least in each group, and in 4 subjects in all, including two languages other than English. See also Appendix XXI.

(b) *The 1st Public Examn.* This consists of (1) Examn. in Holy Scripture, (2) Honour Classical Moderations, (3) Hon. Math. Modns., (4) Pass Modns., (5) Prelim. Jurisprudence, (6) Prelim. Mod. Hist., (7) Prelim. N.Sc., (8) Prelim. Agr., and (9) Prelim. Forestry. In order to pass the Examn. a candidate must pass in (1) and in one of the other subjects.

(c) *The 2nd Public Examn.* This consists of (a) a Pass School and (b) an Honour School. (a) contains a large variety of subjects, and candidates taking it are required to pass in 3 of these, of which one must be a language-subject other than English. There is also a homogeneous course in either *Agriculture* or *Forestry*. (b) includes the following, a class in any one of which is sufficient: Literæ Humaniores (Philos. and Ancient Hist.); Maths.; Nat. Science (Phys., Chem., Physiol., Zool., Bot., Geol., Astron., or Engin.); Jurispr.; Mod. Hist.; Theol.; Oriental Studies (Sanskrit, Arabic, Hebrew, Persian, or Egyptian); Engl. Lang. and Lit.; Mod. Langs. (French, Ger., Ital., Span., Russ., or Mediæval and Mod. Greek); Philos., Politics, and Economics.

Under certain conditions members of other Univs. and officers not under 21 years of age who have held for not less than 3 years a Commission in H.M. Regular Forces, and been seconded or specially relieved from active duty by the Admiralty, War Office, Air Ministry, or India Office for the purpose of attending an academic course of not less than 2 yrs., may be admitted to the status of "Service Student," and obtain exemption from *Responsions* and, under further conditions, from the 1st Public examn., as well as a remission of 3 terms of the necessary residence (v. *supra*, p. 215). Analogous concessions are made in favour of Probationers for Forest Services in the British Empire who have obtained an approved degree at an approved Univ. and been admitted to the status of "Imperial Forest Service Student." Natives of Asia, Egypt, or the Sudan, born of non-European parents, can apply for permission to offer a substitute for Latin or Greek in *Responsions* and the 1st Public examn.

ADVANCED STUDY AND RESEARCH. The DEGREES B.LITT. AND B.SC., instituted in 1895 in order to encourage special study and research, are granted upon the satisfactory completion of an approved course of special study or research pursued under supervision and for the most part at Oxford. Application to enter upon such a course may be made by any person who produces sufficient evidence of his ability and (1) is a member of the Univ. who has passed the examns. for the degree of B.A., or (2) has taken an approved degree at an approved Univ., or (for the B.Litt), not being a member of the Univ. of Oxford, (3) has obtained an Oxford diploma with distinction, or is held by the Board of the Faculty to be fully qualified to engage in research. Applications must in all cases be made to the Secy. of Faculties through an officer of the Society

to which the candidate belongs or desires to belong. Residence as a member of the Univ. for 6 terms is a necessary condition for either degree. A candidate for the B.Litt. must first undergo a course of training in research methods and then do a special piece of research work and write a thesis, and may be required to pass a written examn. For the B.Sc., which is confined to the faculties of science and medicine, no probationary period is prescribed.

Of a similar nature but of a much higher standard is the degree of DOCTOR OF PHILOSOPHY instituted in 1918 (v. p. 18).

To a student who, having kept residence for a period of not less than 3 terms, has completed a course of study or research for the B.Litt. or B.Sc. and embodied the results in a dissertation, or has pursued during such residence a course of study or research under the direction of the COMMITTEE FOR ADVANCED STUDIES, a *Certificate* may be granted by the Board of the Faculty or Board of Studies concerned or by the Committee for Advanced Studies, as the case may be.

The higher degrees, D.LITT. AND D.Sc., instituted in 1900, are awarded for published work of sufficient merit.

THEOLOGY. The B.D. degree is open to candidates of over 21 yrs. of age who have passed a Qualifying examn. in Christian Theology, pursued a course of study therein extending over 6 terms, resided for 6 terms, and submitted a thesis of sufficient merit in some branch of the subject. No candidate may present a thesis until he has passed the Qualifying examn., which is open to Oxford M.A.'s, to persons who have, not less than 5 terms previously, passed all examns. for the Oxford B.A., and, under certain conditions, graduates of other univs. First-class hon. in School of Theol. exempts from this examn.

The degree of D.D. is open to those who have been admitted to the degree of B.D. subject to certain conditions of standing, provided they have submitted a thesis, or published work, of sufficient merit in some branch of Christian Theology.

LAW. The examn. for the B.C.L. degree is open either (1) to B.A.'s of the Univ. or (2) under certain conditions (including residence for 6 terms) to graduates in Arts, Philos., Science, or Law of other Univs. The subjects are Jurispr., Roman, Engl., Roman-Dutch, and Internat. Law.

MEDICINE. The B.M. degree is open only to B.A.'s of the Univ. who have passed certain examns. in Med. and Nat. Science. The total period of study for the degree (including the scientific subjects studied in the Arts course) is generally about 7 or 8 years, of which three are usually spent in London in preparation for the more strictly professional subjects of the 2nd B.M. examn. The M.Ch. degree is open to candidates who have passed all the examns. for the B.M. and B.Ch., and either are members of the Surgical staff of a recognized hospital or have acted in such a hospital as Dresser or House Surgeon for 6 mos. A candidate for the D.M. must be a B.M., and have entered on the 30th term from matricn. and had his name on the books of some Coll. or Hall or on the Register of Non-Coll. Students for 20 terms.

Affiliated Colonial or Indian Senior Students may be exempted from the preliminary examn. in Physics, Chemistry, Zoology, and Botany, in consideration of equivalent examns. passed at their previous Universities.

MUSIC. The degree of B.Mus. is open to candidates who *either* (a) have been admitted to the degree of B.A. *or* (b) have (1) passed Responsions or an equivalent or a special Prelim. examn. for students of music, (2) satisfied the examiners in English or 1 of 6 language subjects in the Final Pass School, and (3) pursued either at the Univ. or at some approved instn. a course of musical study, approved by the Board of Studies for Music, extending over at least

2 yearly courses. All candidates must also pass 3 examns. in Music (the subject of one of which is the composition of a Musical Exercise) under conditions laid down by Statute. There is no residential qualification for the degree of B.Mus., but the conditions of admission to the various examns. make it necessary that the candidate's name should be on the books of his Coll. or Hall or of the Society of Non-Coll. Students for at least 9 terms. A B.Mus. may qualify for the degree of D.Mus. by submitting a musical composition for approval and passing a further examn. in Music, but cannot submit a composition until the 9th term after his admission to the Baccalaureate.

DIPLOMAS. Most of these are open to persons who are not members of the Univ. Minimum courses and addresses of Secretaries from whom particulars can be obtained :

The following has been approved as a Society for higher study at Oxford, the members of which may have their names entered in the Univ. Register of Diploma students although they are not members of the Univ. : *Ruskin College*.

COMMISSIONS IN H.M. FORCES, v. Appendix I. Candidates must have resided for 3 yrs. at the Univ. and be in possession of a degree. Office of the Secy. to the Delegacy for Military Instruction—20 St. Michael's St.

INDIAN CIVIL SERVICE. Studies of selected candidates are superintended by a Delegacy.

The Department for the **TRAINING OF TEACHERS** (address—15 Norham Gardens), established in 1919, is under the general direction of a Delegacy. For staff, see p. 198—Education. For the Univ. Dipl. in Educn. there is a 1 yr. post-grad. course, theoretical and practical. Undergraduates are admissible on certain conditions. One or, under certain conditions, two terms may be spent at a secondary school away from Oxford. Students are also accepted for a 4 yrs.' course (v. Appendix XIX.).

A *vacation course* of 4 weeks (fee £7 : 10s.) is held annually in August, open without restriction to men and women. Students of this course who are graduates and who are teachers with 7 yrs.' experience may obtain the Univ. Diploma without further residence.

SCHOLARSHIPS. College Entrance scholarships are very numerous and valuable. The Univ. scholarships are usually open only to members of

specified standing. Of those open to graduates, 16, of the aggregate value of £1130 p.a., are for Engl., Greek, and Latin; 1 (£100) is for Ment. and Mor. Philos.; 2 (£80) for Maths.; 8 (£1340) for Med. and Nat. Science; 4 (£440) for Law; 3 (£300) for Theol.; 13 (£760) for Oriental Studies. There are several College Research Fellowships tenable by persons distinguished in Science or Lit. (who may be elected without examn.) on condition of prosecuting some definite work.

The General Board of Faculties has power to award studentships for advanced study and research; and there are certain funds, such as the Craven and Ireland, from which grants for the furtherance of particular studies may be made.

The **Rhodes Scholarships** were founded in 1902 under the will of the late Cecil John Rhodes. The value of each is £400 a year, tenable at Oxford for 3 years, subject to approval from year to year by his College of the Scholar's progress and conduct. The conditions of the competition in each country or community are fixed from time to time by the Trustees.

In his will, Mr. Rhodes expressed the wish that "in the election of a student to a Scholarship, regard shall be had to (1) his literary and scholastic attainments; (2) his fondness for and success in manly outdoor sports, such as cricket, football, and the like; (3) his qualities of manhood, truth, courage, devotion to duty, sympathy for and protection of the weak, kindliness, unselfishness, and fellowship; and (4) his exhibition during school-days of moral force of character, and of instincts to lead and to take an interest in his school-mates."

The Dominions and Colonies. An annual Scholarship is assigned to each Province* of the Dominion of Canada; to each State of the Australian Commonwealth; to the Dominion of New Zealand (2); in South Africa to the Province of Natal, the Transvaal, the Orange Free State, the Cape Province, the S.A. College School in Cape Town, the Diocesan College School of Rondebosch, the Boys' High School, Stellenbosch, and the St. Andrew's College School at Grahamstown, in alternate years to the towns of Kimberley and Port Elizabeth, and not more than three annually to Rhodesia. The Colonies of Jamaica, Newfoundland, and Bermuda have each an annual Scholarship. A single Scholarship was for the first time allotted to the Island of Malta in 1921, and is awarded once in 3 years.

In founding these Scholarships, Mr. Rhodes stated that he did so because he believed that the education of young Colonists at one of our residential universities will "broaden their view," "instruct them in life and manners," and "instil into their minds the advantage to the Colonies as well as to the United Kingdom of the retention of the unity of the Empire."

United States of America. Two Scholarships are assigned under the will to each State. As the Scholarship is tenable for 3 years, there must be for each State 1 year out of every 3 in which there is no election. Of the 48 States, 32 elect each year, the remaining 16 holding no election. The reason given by Mr. Rhodes for founding the American Scholarships is his "desire to encourage and foster an appreciation of the advantages which I implicitly believe will result from the union of the English-speaking people throughout the world, and to encourage in the students from the U.S. . . . an attachment to the country from which they have sprung, but without I hope withdrawing them or their sympathies from the land of their adoption and birth." *The American Oxonian*, the official magazine of the Alumni Asscn. of American Rhodes Scholars, is published quarterly by E. D. Keith, 310 Prospect Street, New Haven, Connecticut.

* Two each to Quebec and Ontario.

Number actually in residence, 1925-26 (whole or part), 188—Studying Law, 54; Nat. Sc. and Med., 42; History, 20; Econ. (Diploma and B.Litt. or D.Phil.), 4; Litt. Hum., 11; Engl., 19; Theol., 5; Maths., 3; School of Phil., Polit. and Econ., 16; other subjects, 14.

Professions followed by Rhodes Scholars since leaving Oxford. Education, 351; Law, 278; Business, Industry, and Mining, 123; Government Service, 57; Medicine, 85; Ministry and Social Work, 43; Farming, 19; Journalism and Publishing, 32; Engineering, 18; Army, Navy, or Air Service, 6; Miscellaneous, 25.

General. Provision is now made under the Trust for the continuous residence at Oxford of between 190 and 200 scholars. Candidates must be between 19 and 25 years of age and unmarried. They must be citizens of the country from which they come—usually with 5 years' domicile; and must have at least 2 years' standing at a regular degree-granting College or Univ., except in a few small communities which have no such institution. Detailed information for each country may be obtained from the offices of the Trust, Seymour House, Waterloo Place, London, S.W.1.

Among books dealing with the subject are: *The Rhodes Scholarships*, by Sir G. Parkin, Houghton, Mifflin & Co., Boston, and Constable, London, 1913, and *Oxford of To-day*, a manual for prospective Rhodes Scholars, Oxford Univ. Press, 1922.

Secretary to the Rhodes Trustees—Philip Henry Kerr, C.H., Seymour House, Waterloo Place, London, S.W.1. Local Secretaries: Oxford—F. J. Wylie, Esq., 9 South Parks Road, Oxford; U.S.A.—President Frank Aydelotte, Swarthmore College, Swarthmore, Pa.; Canada—J. M. Macdonnell, Esq., 153 St. James St., Montreal; Australia—J. C. V. Behan, Esq., Warden's Lodge, Trinity College, Melbourne; S. Africa—P. T. Lewis, Esq., Court Chambers, Keerom St., Cape Town.

THE RHODES TRAVELLING FELLOWSHIPS, founded in 1926, are to enable resident Fellows and Tutors at Oxford to travel, study, or undertake research in the British Commonwealth and the United States, and especially in those territories from which Rhodes Scholars are derived. A candidate must have spent at least 5 years as a resident Fellow in Oxford, and will be expected to return to Oxford and teach there for at least 5 years thereafter. The value of the Fellowship is £100 a month for from 6 to 12 months.

THE APPOINTMENTS COMMITTEE, together with its Consultative Committee, contains representatives of every College. It receives notice of (1) scholastic appointments; (2) Government appointments; (3) openings in Banking, Industrial and Commercial firms; (4) miscellaneous posts. The Secy. is R. Truslove, M.A., Acland House, 40 Broad St. Telegraphic address—Appointments, Oxford; Telephone, 225 Oxford.

LIBRARIES AND MUSEUMS. The *Bodleian Library*, founded by Sir Thomas Bodley in 1602, which is also the general library of the Univ., contains over 1,250,000 vols. (representing more than 2,500,000 separate literary pieces) and 40,000 MSS. Persons, other than graduates of the Univ., are admitted on presenting a recommendation from some one in a responsible position. The *Manual for Readers* (obtainable from the Librarian) contains full information about the contents and catalogues of the Library. The chief books relating to it are: Macray, W. D., *Annals* (Clar. Press, 1890, 25s.); Clark, A., *Guide for Visitors* (Clar. Press, 1906, 1s. 6d.); Gibson, S., *Some Oxford Libraries* (Clar. Press, 1914, 2s. 6d.); Madan, F., *The Bodleian Library*, London, 1921, 2s. 6d.; *The Bodleian Quarterly Record* (1s. quarterly, obtainable from the Libn.).

Two Bodleian departmental libraries are housed in the Examination

Schools: one of *Law*, the other of *Social and Legal History* (Maitland Library).

The Taylorian Library of *Modern Languages and Literature*, 50,000 vols., comprises the chief philological, literary, and historical works of the principal European languages and nearly all respective Reviews, Literary periodicals, etc., of Continental Societies of importance. The Radcliffe (Univ. Museum) consists very largely of books on Mathematics, Natural Science, and Medicine, and the Tylor *Anthropological* collection.

The Codrington Library (All Souls College) is especially rich in works bearing upon *Modern History and Law*. The Brand Library, also at All Souls, is a collection of books on *Political Economy and Science*. There are also the following: the Beit Library (*Colonial History*) and the Library of the *English School* at the Examination Schools; a *Geographical Library* (5000 vols.) and *Maps* (13,000 sheets) in Mansfield Rd.; and a Library of *Economics and Politics* at Barnett House.

The *Indian Institute* has 60,000 vols. representing ancient, mediæval, and modern India and including also Arabic, Armenian, Georgian, Turkish, Egyptian, Burmese, and Chinese works; Sanskrit and Prakrit MSS. (printed catalogue); all the leading Oriental journals in English, French, and German; and a Museum giving an historical synopsis of Indian life and customs.

The *College Libraries* include many important collections, such as the *Russian and other Slavonic* books, 5000 vols., of Queen's; *History and Literature* MSS. of 17th Century, of Worcester; *Music and Early Scandinavian* collections of Christ Church; the Hastings Rashdall collection of books and pamphlets dealing with the *history of universities*. The MSS. in the College Libraries are described in Coxe's Catalogue, published at the Clarendon Press.

Art and Archaeology. The Ashmolean, the earliest English Museum, formed 1600-1650, contains, in addition to a Library of *Art and Archaeology*, the Parian and other marbles, Egyptian and Oriental, Classical, Prehistoric, Anglo-Saxon and local antiquities, 60,000 coins and medals (published catalogue of Mohammedan coins), and a special collection of Drawings and Engravings by Ruskin.

The Pitt-Rivers Museum has an *Anthropological* collection illustrating evolutionary history of material arts.

Zoology, Geology, Mineralogy (17,000 spec.), *Entomology* (Lepidoptera Collection illustrating mimicry, etc.), are all represented in the Univ. Museum.

LABORATORIES: Electrical; Clarendon (chiefly for study and research in Heat, Optics, and Acoustics); Chemistry, Organic and Inorganic (several Colleges have labs. of their own, e.g., Ch. Ch., Magd.—Analyt. Chem.; Ball. and Trin.—Phys. Chem.; Jes.—Inorganic; Queen's); Physiology; Biochemistry; Zoology; Entomology, with extensive Collections and Library; Botany (Garden with Collections and Library); Geology (special equipment for study of fossils by serial sections); Mineralogy (special facilities for research in Crystallography); Engineering; Forestry (expl. plantations and forest garden); Model Farm; Human Anatomy; Pathology and Bacteriology; two *Observatories*.

An *Imperial Forestry Institute* was established in 1924. It is controlled by a Board of Governors representing the Univ. and the Government departments (Colonial Office, Forestry Commission, etc.) concerned. It provides post-graduation and specialized training, as well as revision courses for forest officers already serving, and forms a centre for research in regard to forest production. Practical instruction is provided in various forest centres on the Continent.

There is an Institute for Research in *Agricultural Economics* which has

prepared an Agr. Atlas of England and Wales, published by Ordnance Survey Dept. The Director edits the *Journal* of the R.A.S., England. The *School of Rural Economy* has been recognized by the Ministry of Agric. as an Advisory Centre for a Province which includes 3 counties. A survey of *Rural Industries* of England and Wales was completed by the School of Rural Economy in 1923. An Institute for Research in *Agricultural Engineering* has been provided in Oxford by the Ministry of Agric.

THE OXFORD AND CAMBRIDGE SCHOOLS EXAMN. BOARD, established 1873, examines or inspects and reports on the work of schools which provide education of the highest grade. It also holds yearly examns. and awards certificates—Higher, School, and Lower. The two former exempt the holder, under certain conditions, from Responsions and the Previous Examination, the Matricn. examns. of London and of the Northern English Univs., and the Preliminary examns. of various professional bodies, etc. The Regulations of the Board are published by the Ox. and Camb. Univ. Presses (post free 1s. 3d.). Secretaries: at Oxford—C. H. Wilkinson, M.A., Examination Schools; at Cambridge—T. G. Bedford, M.A., 61A St. Andrew's St.

LOCAL EXAMINATIONS are held in March, July, and Dec. at Oxford and elsewhere. Candidates successful in the School Certificate or Higher Local examns., or in the Higher School Certificate examn., are on certain conditions exempted from Responsions. The regns. may be obtained from the Secy. of Local Examns., Merton St. All the examns. are open to persons of both sexes.

EXTRA-MURAL STUDIES. There is a Department for the non-vocational education of adult persons beyond the limits of the Univ. The Delegacy controlling the Dept. has two Committees, one for Univ. Extension Lectures and one for Univ. Tutorial Classes.

Univ. Extension Lectures. The system begun in Camb. was adopted by Ox. in 1878. Up to the end of the session 1925–26 the number of persons attending courses was over 667,000, and the number of students examined 30,380; 22 summer meetings had been held. Reading University partly owes its origin to extension work. The following certifs. are issued under the sanction of the Delegacy: Terminal, on courses of 10 or 12 lectures; Sessional, on 24; Sessional in Honours, implying distinction and a special essay; affiliation or Higher Certif. of Systematic Study, on a sequence of courses comprising 96 lectures *plus* a general examn.; Vice-Chancellor's on same, conditions as affiliation *plus* examn. in Elem. Maths. and 2 languages. The majority of the lectures are on historical, scientific, or literary subjects. Further information can be obtained from the Secy. to the Delegates for Extra-mural Studies, Acland House, Oxford (Rev. F. E. Hutchinson, M.A.). The next (biennial) Oxford Summer Meeting will be in Aug. 1927. The main subject of study will be Shakespeare and the England of his time.

Tutorial Classes are held in working-class districts under the supervision of the above-mentioned Committee. Students pledge themselves to a 3 yrs.' course. The classes meet once a week for 2 hrs. from Sept. to April, and each student writes an essay about once a fortnight. The Organizing Secy. is E. S. Cartwright, M.A., Barnett House, Oxford.

A *Vacation Course for Foreign Students* is held biennially, and will take place in August 1928. An experimental course on more advanced lines (in Mediæval History) for English and American students of history was held in 1924.

PUBLICATIONS. *Calendar* (Nov.), 12s. 6d. net (includes Honours of each year since Oct. 1911. Earlier Honours given in *Historical Register* 1900, 10s. 6d. net, and its *Supplement*, 1900–1920, 10s. 6d. net, giving, in addition

EXPENSES. "It is not possible to make any general estimate of the cost of a University course, which varies at different colleges, and depends upon the student's own means and tastes. It must suffice here to enumerate certain items common to all undergraduates, and to recommend persons anxious for further details to consult the authorities of the Society which they wish to join. . . . The total cost of living in college might perhaps be estimated at about £60 a term for a man who exercises reasonable care in his expenditure. At Keble College there is a fixed annual charge (at present £150), covering tuition, the rent of furnished rooms, board, and service. The necessary expenses of a non-collegiate student have been estimated at from £90-£100 per annum, inclusive of board, lodging, fees, and subscription. At the residential Societies for Women Students an inclusive terminal fee is charged. This is about £50 a term, but varies slightly at the different Societies."—Extract from *General Information* pamphlet mentioned in preceding paragraph. The items specified are:—(1) Annual: Univ. dues, £4 : 10s.; College tuition fee, £24 to £31 : 10s.; room rent, £15 to £18; hire of furniture, £6; College clubs, £6; rates and taxes on the rooms occupied, College dues and establishment charges and servants' wages, kitchen and buttery bills, fuel, laundry, lighting, etc. (amounts not separately estimated). (2) Initial: matricn., £4; College admission fee (usually £5); College caution-money, £10 to £30 (returned when name is removed from the books, and often in part on taking a degree). (3) Occasional: examn. fees, about £9 for B.A. (exclusive of Responsions, £3); degree fees (B.A., B.Litt., or B.Sc., £7 : 10s.).

What has been stated above regarding the difficulty of estimating expenses at Oxford applies equally to Cambridge. The *Student's Handbook to Cam-*

bridge, 1924-25 (Cambridge University Press, 7s. 6d.), deals with the subject of expenses very fully, and concludes with the following remarks: "The total annual expenditure of a student, *exclusive of initial, occasional, and additional expenses*, may be fairly estimated at about £235, although on the one hand it is possible by great care to live upon less, and on the other hand a larger expenditure will often enable the student to obtain greater advantages from a University career. . . . It is of the utmost importance that the foregoing estimates should not be taken for more than they are worth. . . . The only safe guide to a student's expenditure is information supplied by the college itself at which he decides to enter." The detailed statements on which the above estimate of annual expenditure is based include "guesses" as to personal expenses which the Oxford estimate leaves out of account. The items are:—Univ. fees (capitation tax), £5 : 5s.; College fees, £54 (tuition, £24 to £30; establishment charge, £18 to £21; College dues, £4 to £10); board and lodging, £110 (rooms and service, £21 to £50; food expenses, £38 to £87; fuel, £5 to £7; laundry, £4 : 10s. to £9); personal expenses, £67 (books, travelling, tradesmen—including tailor, etc., clubs, and societies). The excluded initial expenses are caution-money, College admission fee (£2 to £5), matricn. £5, furniture, linen, china, etc., and (£2 to £4 : 10s.) cap, gown, and surplice. The "occasional" fees are for examns. £8 (medical, £16 : 8s.), and degree fees, £5. The "additional" expenses (which may be heavy, especially if much private tuition has to be allowed for) are additional lecture and laboratory fees, long vacation expenses, and private tuition.

THE YEAR 1925-26

Under the Universities of Oxford and Cambridge Act 1923, which set up a Statutory Commission for Oxford, new Statutes were made for the University and for the Colleges. These Statutes were laid before Parliament and received the approval of the King in Council. For the following summary of the most noteworthy changes embodied in them the Editor is indebted to Sir Henry Sharp, K.C.I.E., the Secretary to the Commission.

I. THE UNIVERSITY.—*Governing Bodies.* The composition of some of the governing bodies of the University has been modified. Residence alone no longer qualifies a member of Convocation for membership of Congregation. The eighteen elected members of the Hebdomadal Council are now chosen without any limitation of classes (*i.e.* Heads of Colleges and Professors). Representatives of the Council are now included in the General Board of the Faculties; and the representatives of the Faculties thereon are elected no longer by individual Faculties, but by the collective votes of two groups of Faculties (Literary and Scientific). Changes in the composition of the body of Curators of the Chest likewise secure greater influence to the Hebdomadal Council.

Legislation. The legislative power of Convocation has been reduced to one of postponement. The adoption of a proposal by not less than two-thirds of the members of Congregation present and voting is sufficient to confirm the proposal as a Statute or a Decree. If adopted only by a smaller majority, the proposal is laid before Convocation, and if then rejected, may after an interval be brought again before Congregation and is then made operative by a bare majority. (Decrees of minor importance, even if passed by a bare majority in Congregation, are not brought before Convocation.)

The power of initiative vested in the Hebdomadal Council has been strengthened by depriving the General Board of the Faculties of the right to introduce proposals in Congregation; but provision is made for reference to

a joint Committee in cases where the Council refuses to put forward proposals recommended by the General Board.

Organization of Teaching and Research. The composition of the Boards of Faculties has been modified and their functions defined. The position of Inter-Collegiate Lecturers is further recognized by the creation for them of a number of University Lectureships carrying stipends. The definitions of the duties of Professors have been made more elastic.

Entrance Examination. No candidate may now be admitted to matriculation unless he has passed a qualifying examination or has obtained special exemption.

Pensions. All teachers and officers of the University are brought within the Federated Superannuation System for Universities, and ages of retirement have been fixed.

Other Points. The development of Extra-Mural teaching is encouraged by grants and a more suitable organization. Additional grants are also made for the Non-Collegiate Body.

II. THE COLLEGES. *Fellowships.* Categories of Fellowships (according to duties, etc.) have been laid down. A certain proportion of Official Fellowships is reserved for teachers or officers engaged in University work; University Professorships are attached to College Fellowships, and distributed among Colleges in a ratio which is generally dependent on the total number of their fellowships. Age-limits are fixed for Heads of Colleges and Fellows; the scales of stipends have been revised.

Scholarships and Cost of Living. The stipends attached to open Scholarships have been placed upon an eleemosynary basis. An advisory Committee has been established for the furtherance of this principle; and, in conjunction with the Board of Education, a scheme has been formulated for the co-ordination of assistance for needy students drawn from various sources. A single age-limit for the winning of Scholarships has been laid down. Arrangements have been made for the examination of catering accounts and for economy in living-expenses. The system of general accounts has been overhauled.

Pensions. The provision of pensions is made universal; and almost all Colleges have been brought within the Federated Superannuation System for Universities.

Contributions. The Statute governing the large contributions made by Colleges for University purposes has been altered so as to produce a more equitable incidence of taxation and slightly to increase the amount so contributed.

Women's Colleges. In view of the grant now made to Women's Colleges, certain alterations have been necessitated in the University Statutes; and (though this did not form one of the Royal Commission's recommendations) Royal Charters have been granted to them.

III. GENERAL RESULT. These changes tend to place a larger measure of authority in the hands of the Hebdomadal Council and to produce closer co-ordination among the governing bodies of the University; to organize the teaching arrangements on a more satisfactory basis; to facilitate the admission of poor students; and, without infringing the autonomy of Colleges, to place them in closer touch with the Professoriate, regularize admissions of undergraduates, utilize Scholarship funds where they are needed, and economize the resources of the Colleges and of undergraduates.

BENEFACTIONS. Cassel Educational Trust, £10,000 to the Society of Oxford Home Students: Constance Jenkinson bequest, £2216 for lectureship

in Embryology; Mrs. Noble, £800 for Scholarship (De Paravicini) in Latin; Sir Sidney Lee bequest, copyright of his *Life of Shakespeare*.

LEGISLATION. The passing of an Entrance examn. was made a condition of admission to matriculation for all but certain classes of students and those to whom special dispensation may be granted by a committee constituted for the purpose. By the division of the Faculty of Mediæval and Modern Languages into English Language and Literature and Mediæval and Modern European Languages other than English, and by the division of the Faculty of Natural Science into Physical Sciences (including Mathematics) and Biological Sciences, the number of Faculties was increased to ten. See also note above on the New Statutes.

STATE GRANT. The Royal Commission was of opinion that a State grant of £110,000 a year was necessary for meeting the most pressing needs of the Univ. The annual Government grant was, however, increased only from £60,000 to £85,000 (exclusive of the old department grants), and practically the whole of the latter sum has been allocated to specific purposes. The great bulk of the expenditure is upon objects directly recommended in the Royal Commission's report, *e.g.* additions to the stipends of Professors, Readers, Demonstrators, etc.; the creation of a pension scheme under the Federated Superannuation System for Universities; further support for the Bodleian Library and the Ashmolean Museum; the extra-mural activities of the University; Women's Colleges; the encouragement of research by the establishment of Senior Scholarships and grants for young University teachers; assistance to Non-Collegiate Students (including the Society of Oxford Home-Students); and the development of the English and Modern Languages Schools.

A **CECIL RHODES MEMORIAL LECTURESHIP** was established by the Rhodes Trustees, to be awarded to a man or woman, usually residing outside Britain, of outstanding distinction in public life, science, scholarship, letters, or business. The Fellow will give two or more public lectures and reside in Oxford for at least one whole term. Sir Robert Borden will be the first Rhodes Lecturer. After the close of the year a scheme for RHODES TRAVELLING FELLOWSHIPS was brought into operation.

RESEARCH STUDENTSHIPS. Provision was made (from a Government grant for senior studentships) for awarding annually two of £250 p.a., each tenable for 2 years.

ALLOWANCE IN LIEU OF FEES. The payment of £200 a year to heads of scientific departments was sanctioned on condition of waiving their right to retain students' fees.

LIBRARY ACCOMMODATION. Alternative solutions of the urgent problem of how to provide for the annual accessions, 20,000 to 25,000 volumes, to the Bodleian, were discussed without reaching a decision. The *Friends of the Bodleian* Society was formed.

A **DEPARTMENT OF SPANISH STUDIES** endowment fund was established.

THE WOMEN'S COLLEGES. Royal Charters were granted to Lady Margaret Hall, Somerville College, St. Hilda's Hall (now St. Hilda's College), and St. Hugh's College. St. Hugh's received intimation of a bequest of £36,000 by the late Miss Allen.

THE CATHOLIC WORKERS COLLEGE was recognized as a society for higher study, members of which (like those of Ruskin College) may be Diploma Students.

HONORARY DEGREES. *D.C.L.*—J. Wells, J. H. Whitley, Marquess of Salisbury, Duchess of Atholl, Marquess of Reading, Earl of Cavan, Viscount Dunedin, Lord Forster, Lord Dawson of Penn, Lord Ernle, Lord Hewart, Sir Austin Chamberlain, Sir James Craig, Sir John Simon, Sir Hugh Trenchard, Sir Charles Oman, Sir Francis Dicksee, Rev. PROFESSOR EMERITUS: Wm. Somerville, Sibthorpean Prof. of Rural Economy, 1906 to 1925.

SPECIAL ANNUAL LECTURES. The Romanes Lecture was given by Dr. G. M. Trevelyan on "The Two-party System in English Political History"; the Sidney Ball by Lord Hugh Cecil, on "Natural Instinct the Basis of Social Institutions"; the Herbert Spencer by Dr. W. R. Sorley, on "Tradition"; the Frazer (delivered annually at the Univs. of Oxford, Cambridge, Glasgow, and Liverpool in turn) by Prof. A. Moret, of the Collège de France, on "Le Dieu qui meurt, en Egypte"; the Sir Basil Zaharoff by Prof. H. Delacroix, of the Sorbonne, on "La Psychologie du Langage"; the Halley by G. M. B. Dobson, on "The Uppermost Regions of the Earth's Atmosphere"; the Taylorian by Dr. Emile Legouis, Prof. at the Univ. of Paris.

VISITORS FROM ABROAD. The seminar class of the late Sir Paul Vinogradoff, Prof. of Jurisprudence, was continued during four weeks by Prof. G. Le Bras of Strasbourg. Lectures were delivered by (among others) Profs. Martin Dibelius (New Testament Exegesis), of Heidelberg; Zielinski, of Warsaw; Ispir, of Bucharest; E. de Martonne, of Paris; T. H. Reed, of Michigan; Salvemini, of Florence; R. B. Merriman, of Harvard.

DEATHS. F. J. Hall, 24.8.25; E. G. Hardy, 26.10.25; T. Case, 31.10.25; Sir Paul Vinogradoff, 19.12.25; Sir Sidney Lee, 3.3.26; W. J. Lewis, 16.4.26; W. A. B. Coolidge, 8.5.26; B. P. Grenfell, 18.5.26; Sir T. E. Holland, 24.5.26; F. D. Morice, 21.9.26.

STUDENTS. Full-time: total, 4353 (including 820 women); graduate students, in Arts and Pure Science 214 (w. 37), in Medicine 4 (w. 2); other faculties 4 (w. 1); preparing for first degree, in Arts, etc. 3654 (w. 681), Med. 94 (w. 12); other faculties 129 (w. 2); other full-time students 254 (w. 85). Resident in colleges or hostels, 2483 (w. 479). Students from abroad, 533. Matriculations 1544 (w. 324).

Extra-mural tutorial classes 24, advanced classes 3, preparatory 6. Average attendance, 462.

University extension lectures 593, distributed in 94 courses at 68 centres, regularly attended by over 9000 persons. Of these courses 24 were in History, 44 in Literature, 2 in Economics, 4 in Art and Archæology, 12 in Natural Science, 7 in Music, 1 in Political Science.

The sixth Vacation Course for Foreign Students was held in Aug. 1926,

and was attended by 261 students (118 men and 143 women), who came from 21 European countries and from Japan (11 men). The largest numbers came from Germany, Austria, Switzerland, and Holland. The postponement of the course to a later date on account of the British Association meeting adversely affected the attendances from the Scandinavian countries which have generally supplied a large number of students. Finland, Poland, and the Baltic States were all represented. 59 students took the general examn., 8 of them receiving Distinction, and 15 took the examn. in Phonetics, 5 receiving Distinction.

DEGREES (other than honorary). D.D., 3 ; D.C.L., 1 ; D.M., 5 ; M.Ch., 1 ; B.D., 2 ; B.C.L., 23 ; B.M., 32 (women 4) ; D.Sc., 2 ; D.Phil., 11 (w. 1) ; B.Litt., 33 (w. 3) ; B.Sc., 9 (w. 1) ; M.A., 571 (w. 65) ; B.A., 1043 (w. 215) ; D.Mus., 3 ; B.Mus., 5.

BRITISH DAIRY INSTITUTE (occupying a building on the University site and controlled by a committee representing the British Dairy Farmers' Assocn. and the University). Manager and Chief Instructor—A. Todd. 2 Asst. Instrs.

THE NATIONAL INSTITUTE FOR RESEARCH IN DAIRYING, Shinfield, near Reading, established by the Ministry of Agric. and Fisheries in 1912, forms part of the University. It is governed by a Board consisting of representatives of the Ministries of Agric. and Health, R.A.S. of England, British Dairy Farmers' Assocn., Nat. Farmers' Union, etc. It has three Depts.—Dairy Bacteriology, Dairy Chemistry, and Dairy Husbandry.

GENERAL INFORMATION

Based upon the local Oxford University Extension Centre and the local Schools of Science and Art, and deriving its first impetus largely from Christ Church, Oxford, a University Extension College was opened at Reading in 1892. In 1902 it established a claim to a State grant as a University College. In 1904 and 1905 it received endowments of land and money (£30,000) from the Palmer family. In 1908 Lady Wantage endowed Wantage Hall as a residence for 78 men students, thus giving an important impetus to the already declared policy of the Council to make residence in a Hall the rule and not the exception. In 1911 an Endowment Fund of £200,000 was subscribed by the aforesaid benefactors. The University dates from March 17, 1926, when a Royal Charter was granted.

LIBRARY, 40,000 vols., including Overstone collection (7500 vols.) of books on Polit. Econ. (pubd. before 1850), English and French thought during eighteenth century, and topography (especially Northamptonshire); 10,000 pamphlets. 136 periodicals are received. **MUSEUMS**: Zool. and Hist. and Archæol. **LABORATORIES**: Bot., Chem., Geol., Physics, Psych., Zool. Fine Art Studios. School of Music. Gymnasium. Two farms (359 and 141 acres) and Horticultural Station.

FACULTIES: (1) Letters, (2) Science, (3) Agric. and Horticulture (associated with which are the National Inst. for Research in Dairying and British Dairy Inst.).

DEANS: (1) Prof. de Burgh (Philos.); (2) Prof. Bassett (Chem.); (3) Prof. Neville (Ag. Chem.).

DEPARTMENTS: Fine Arts, Music, Domestic subjects.

ADMISSION. Candidates for Degree courses must matriculate before admission (see Appendix XXI., p. 656). Entrance examn. for Diploma courses in Agric., Dairying, Hortic., Domestic subjects.

DEGREES: B.A., M.A., D.Litt.; B.Sc., M.Sc., D.Sc.; B.Sc. (Agric.), B.Sc. (Dairying), B.Sc. (Hortic.); Ph.D. The M.Sc. and D.Sc. are obtainable in the Faculty of Agriculture and Horticulture as well as in the Faculty of Science. The Senate may decline to admit to a degree course a person whose place of residence during term is at too great a distance from Reading, and the degree of Bachelor may not be granted to a candidate whose record as a student of the University is not deemed satisfactory.

The Charter provides that degrees representing proficiency in technical subjects shall not be conferred without proper security for testing the scientific or general knowledge underlying technical attainments.

An *oral examination* forms part of the Final examn. for a B.A. degree with honours, except in Mathematics, and, at the discretion of the Examiners, may form part of the Intermediate or of the Final Examn. for a Pass B.A. degree, or of the Intermediate or Final Examn. for the B.Sc. In the Final Examn. for the B.Sc. candidates are examined upon either a *General Course of study* (3 subjects) or a special course; honours can be obtained in either case. The Final Examn. (Special) is ordinarily taken after passing the Final Examn. (General). The course for the degree with honours extends over 4 years in Agriculture and in certain cases in Arts and in Science.

UNIVERSITY DIPLOMA COURSES are as follows: 2 yrs.—Agric., Commerce, Dairying, Domestic subjects, Educl. Handicrafts, Hortic., Letters; 3 yrs.—Fine Art, Music, Distinction in Agric., Dairying, Domestic subjects, or Hortic. Univ. Diploma Course (post-graduation) in Education (1 yr.).

OTHER COURSES for Univ. Certifs. in Agric., Dairying (6 mos.), Commerce, Domestic subjects, Geography, Horticulture, Secretarial subjects (1 yr.), Fine Art, Metal Work, Wood Carving, Embroidery, Leather Work, Weaving, Writing and Illumination (2 yrs.), Dairy Factory Management, Poultry-keeping (10 weeks); for the Pre-Medical examn. of the R.C.P. and R.C.S. (1 yr.), British Dairy Farmers' Assocn. examns. (6 mos.), L.R.A.M., A.R.C.M., etc.; Special course in Illustration.

TUTORIAL SUPERVISION. Every student following one of the organized day courses or a specially arranged day course involving frequent attendance at the Univ. for at least 2 terms is placed under the supervision of a tutor, and (unless specially exempted) undergoes an annual examn. ("Easter Collections") at end of Lent term.

A RESEARCH BOARD promotes research and original work in the Univ. (apart from the National Institute for Research in Dairying). It administers funds entrusted to it for the purpose, and issues an annual record and report.

TERMS. 3, each of 10 weeks, the first beginning on the first Friday after Oct. 3. Vacations of 4 weeks at Christmas and 5 weeks at Easter.

RESIDENCE. All students following full courses of day study, unless residing with parents or guardians, are ordinarily required to reside in a University Hall of Residence. There are two Halls (Wantage and St. Patrick's) for men, and four (St. Andrew's, Wessex, St. George's, and Cintra Lodge) for women students. Full-time day students living in recognized houses, or at home in or near Reading, are associated in St. David's Hall, a non-residential club.

SCHOLARSHIPS OPEN TO GRADUATES. Offered from time to time by the Univ.—£100; "Ernest Ridley"—£40 plus tuition fees, for one year, renewable for a second year.

FEES. For Tuition: Degree or Diploma course—Arts, £25 p.a., Sc., £30 p.a. (Dairying, £35 for 1st, £41 for 2nd year; Fine Arts, £18); Certif. course—£18 to £30.

EXPENSES. Total average necessary yearly expenses (excluding travelling, clothing, and personal laundry) about £120 p.a., namely: (i.) Registration, matriculation, cap and gown, instruction, examination, and graduation, average £38 p.a. for a degree student; for diploma or certificate student somewhat less. (ii.) Maintenance, including board and lodging in Halls or lodgings and sanatorium fee, maximum for 30 weeks about £77 for a man and £69 for a woman student. (iii.) Personal, including subscription to Union (3 gs. p.a.), and cost of books and stationery, widely variable, say £6 p.a.

Courses of lectures open to the public are ordinarily charged for at 15s. per term (30s. per session) for each subject (one hour per week).

STUDENT ORGANIZATIONS: Students' Union and Representative Council. An Old Students' Association meets annually at the Univ. at Whitsuntide.

UNIVERSITY EXTENSION, ETC. Agriculturists are helped by correspondence, visits, local lectures, examination of diseased plants, etc. Evening classes are held in Machine and Building Constrn., Builders' Quantities, and most of the subjects in which Day courses are provided. Tutorial classes are held in connexion with the W.E.A.

PUBLICATIONS. *Calendar*; General Prospectus (including illustrations and plans); Departmental Prospectuses (Degree courses, Training of Teachers, Diploma courses in Letters and Educational Handicrafts, Commerce, and Secretarial, Agriculture, etc., Fine Arts and Handicrafts, Music, Domestic subjects); Scholarships and Exhibitions; Guide to Evening Classes, 2d.; *The New University of Reading: some Ideas for which it Stands*, by Principal W. M. Childs, 1926.

THE YEAR 1925-26

On March 17, 1926, a Royal Charter, constituting and incorporating University College, Reading, as the University of Reading, was received. On Aug. 4, 1926, an Act to dissolve the College and to transfer all its property and liabilities to the Univ. received the Royal Assent.

BENEFACTIONS. A piece of woodland adjacent to Wantage Hall of Resi-

dence for men was presented by Mrs. G. W. Palmer, together with a cheque for £100 to cover the cost of fencing. The whole equipment of furniture at St. Andrew's Hall for 130 women students was presented to the Hall by Mr. Alfred Palmer. Nearly £1000 was subscribed towards purchase of additional land for St. Patrick's Hall. The Mayor of Reading presented a silver Mace to the Univ.

NEW BUILDINGS, ETC. Erection of an Agricultural Machinery Hall for exhibition and demonstration purposes, with a floor capacity of 2400 sq. ft., was begun. Purchase of $22\frac{1}{4}$ acres of grassland near St. Patrick's Hall of Residence for men students was sanctioned.

OTHER DEVELOPMENTS. The department of Geography was reorganized and 2 full-time lecturers appointed—for Physical and Historical Geography—in place of 2 part-time lecturers.

STUDENTS. Full-time: total, 543 (including 384 women); graduate students, in Arts and Pure Science 9 (women 6), Agric. 3; preparing for a first degree, Arts, etc. 259 (w. 189), Agric. 21 (w. 5), Hortic. 9 (w. 7); other full-time students, Arts, etc. 146 (w. 117), Agric. 89 (w. 38), Technology 22 (w.). Resident in hostels, 407 (w. 278). Students from abroad, 15. Extra-mural students in Arts, etc. 29 (w. 11), Agric. 5 (w. 3). Degrees obtained: First degrees, 82 (w. 53); higher, 1 (w.).

AFFILIATED INSTITUTIONS

BARNSELY TECHNICAL SCHOOL, SCUNTHORPE CENTRAL SCHOOL AND EVENING TECHNICAL SCHOOL, AND LINCOLN MUNICIPAL TECHNICAL SCHOOL. Students proceeding from "Affiliated Institutions" to the Univ. to take courses for an Honours degree or Associateship in Engineering or Metallurgy may receive certain concessions.

GENERAL INFORMATION

University College, Sheffield, incorporated by Royal Charter in 1897, was in 1905 merged in the University of Sheffield constituted by Royal Charter in that year. The city being an important centre of steel, electro-plate, glass, and other manufacturing industries, and in the heart of an extensive coal-mining area, students of Engineering, Metallurgy, Mining, Fuel Technology, and Glass Technology have exceptional opportunities.

LIBRARY, 83,000 vols. and pamphlets, including collections of books on alchemy and early history of chemistry (J. Spear Parker's), facsimiles of Greek papyri (J. H. Moulton's), literature relating to Polychæte worms (A. T. Watson's), and seventeenth century tracts, plays, etc. (Sir Chas. Firth's); 340 current periodicals. Also Special Applied Science and Glass Technology departmental collections.

RESEARCH DEPARTMENT LABORATORIES include Engineering (mech., elec., civ., and mining), with power-plant, air-compressors, hydraulic appliances, testing machines, special apparatus for high temperature and repeated stress testing, the testing of cement and concrete and for measuring earth pressures, high-speed steel tool-testing lathe, etc., the machine-tool branch being a

special feature ; Jonas laboratory specially equipped for researches in connexion with materials ; Edgar Allen laboratory specially equipped for electrical and magnetic research work ; laboratories equipped with alternating current and direct current motors and generators, apparatus for magnetic, photometric, and meter testing ; high-frequency oscillographs ; wireless laboratory ; Electro-tech. (lighting, traction, power transmission, mining, electro-chem.), all provided with continuous and alternating currents, provision being made for 12 different combinations for parallel-running ; Metallurgical, with plant for experimental melting of steel, including 2-ton Siemens open hearth furnace ; $\frac{1}{2}$ -ton electric arc furnace, cupola, Kjellin induction furnace, and Ajax-Northrup high-frequency induction furnace, crucible steel-melting house, and equipment for thermal, micrographic, X-ray, and other physical investigations, specially equipped laboratory for electro-deposition of metals ; Non-Ferrous, equipped for the lighter Sheffield trades ; Glass Technology, large-scale furnaces and equipment for melting and working glass and laboratories specially fitted up for systematic research on it ; Fuel Technology, including an experimental gas-producer, run in connexion with the steel-melting furnace of the metallurgical department, coke-testing apparatus, and specially equipped laboratories for research on coal, coke, and gaseous explosions.

OBSERVATORY with 6 $\frac{1}{2}$ " equatorial telescope. **HOSPITALS** available for clinics include 2 general (818 beds), 3 special (843), and Lunatic Asylum (1740 beds).

FACULTIES. (1) Arts, (2) Pure Science, (3) Medicine (including the Dental Department), (4) Law, (5) Engineering (Depts. of Mech., Elec., Civ., and Mining E., Fuel Tech., Glass Tech.), and (6) Metallurgy (Ferrous and Non-Ferrous). Deans : (1) Prof. Forster (Greek), (2) Prof. Wynne (Chemistry), (3) Prof. Douglas (Pathology), (4) Prof. Trotter (Law), (5) Prof. F. C. Lea (Mech. Engineering), (6) Prof. Desch (Metallurgy). There is a University Training College Department for Teachers for elementary, secondary, and continuation schools.

MATRICULATION. See Appendix XXI.

DEGREE COURSES. 3 yrs.—B.A. (with Honours in Archit.—5 yrs., including 2 in an Architect's office), B.Sc., LL.B., B.Met. (3 yrs.' evening courses may be taken by students of 20 yrs. of age in lieu of the 2nd and 3rd yrs.' day courses), B.Eng. ("Sandwich" course 4 yrs.), B.Sc.Tech. ("Sandwich" course 4 yrs.) ; 5 yrs. (including 3 in the Univ.)—M.B., Ch.B. ; 5 $\frac{1}{2}$ years—B.D.S. Graduates of a Univ. of the U.K. who wish to qualify for B.A. or B.Sc. with Honours, or LL.B., need, under certain conditions, only attend courses for 2 yrs., if they have pursued a course for 2 yrs. at some approved institution. Graduates of a Univ. of the British Empire who wish to qualify for B.Met., B.Eng., B.Sc.Tech. need, under certain conditions, only attend courses for 2 years (for B.Met. pass degree, one year) if they have pursued a course for 2 years at some approved institution.

Attendance on approved courses at a Univ. or Coll. recognized for the purpose may be accepted as equivalent to such courses in the Univ. The Univs. of Paris, Caen, Besançon, Grenoble, Leipsic, Freiburg, and Giessen have been recognized in the Faculty of Arts, and the Univ. contributes towards expenses of undergraduates spending a term there. Courses in Chem., Phys., and Zool. at Univ. Coll., Nottingham, qualify for entrance for the 1st M.B., Ch.B.

A Secondary Schools Council, including, in addition to members of the Univ. staff, representatives of local education authorities and school staffs, keeps the Univ. in touch with secondary educn.

HIGHER DEGREES. Obtainable by Bachelors of 1 yr.'s standing—M.A., M.Sc., LL.M., M.Eng., M.Sc.Tech., M.Met., M.D., Ch.M., M.D.S.; 5 yrs.—Litt.D., D.Sc., LL.D., D.Eng., D.Sc.Tech., D.Met.; open to graduates in Arts of any Univ. of the U.K. after 2 yrs., to graduates of Faculties other than Arts after 3 yrs., of advanced study or research in Sheffield—M.A.; open to graduates in Science of any Univ. of the U.K. after 2 yrs. of advanced study or research in Sheffield—M.Sc.; Ph.D., v. p. 18.

DIPLOMAS. Archit., 5 yrs. (including time spent in an Architect's office); Modern Lang. Teaching (graduates in Arts or others of similar attainments in the Lang.), 1 yr. course; Educn. (after graduation), 1 yr. (special facilities for Pedagogical research); Domestic Science, 2 yrs.; L.D.S., 4 yrs.; Glass Technology, 3 yrs. (for those with 2 yrs.' practical experience, 2 yrs.); Associateship in Engin., 3 yrs. (Works Pupils and Evening students, 4 yrs.); Associateship in Iron and Steel or Non-Ferrous Metallurgy, 3 yrs. (evening students, 4 yrs.); Mining, 4 yrs. (1st year, full-time at the University, October to June inclusive; other years 6 mos. in Colliery and 6 in Univ.; exemption from first yr. obtainable through examn. The Dipl. enables a student to sit for the examn. for a colliery manager's certif. after 5 yrs.' total training, including the time spent in the Univ.); Fuel, 4 yrs. (for those with 1 yr.'s experience in a Works Fuel Dept., 3 yrs); exemption from first yr. in special cases.

Certificates in Architecture (3 yrs.); Works Pupils in Engineering (3 yrs.); Electricity applied to Mining (2 yrs. Saturday afternoons); Glass Technology (3 yrs.).

FEES. Matricn. £2. Registn. 21s. or 25s. Tuition for degree courses (approximate): B.A., £23: 15s. p.a.; B.Sc., £30 p.a.; LL.B., about 11 gs. p.a.; B.Eng., B.Met., B.Sc.Tech. GENERAL INFORMATION

The Univ. was founded by Charter, 1893. The teaching for initial degrees is undertaken by the constituent and associated Colleges, and matriculation in the Univ. is open only to students of those Colleges : in the case of an associated College, only to students who are graduates of a Univ. of the United Kingdom or of *St. David's College, Lampeter*. The Univ. prescribes conditions under which it awards initial degrees to students of the Colleges and conducts the final exams. An Academic Advisory Committee deals with the conditions on which School Leaving certificates are accepted by the Univ. for matriculation, and as relieving a student from repeating in College work done in Secondary Schools, and with other matters lying in the borderland between School and Univ.

As the result of an inquiry held by a Royal Commission in 1916–1918, a Supplemental Charter was granted to the Univ. in 1920, which introduced many important changes, including : reconstruction of the Univ. Court, a deliberative and legislative body, with 263 members, of whom a little over a half are representatives of Local Education Authorities ; institution of a Univ. Council, as the executive and administrative body of the Univ., controlling the finance and distributing all the funds provided for Univ. education ; provision of such funds from a penny rate levied throughout Wales and Monmouthshire, supplemented by an equivalent grant from the Treasury ; larger freedom for the constituent Colleges (increased to four, by the inclusion of Swansea) in the control of the Courses of Study and in the conduct of their own exams. for initial degrees, Univ. Examiners now taking part only at the final stages ; development of a National School of Medicine in connexion with Cardiff College ; new Boards for special studies, such as the Board of Celtic Studies and the Council of Music ; Univ. Press Board ; Univ. Extension Board providing an enlarged scheme for extra-mural instruction ; Appointments Board.

DEGREES. B.A., M.A., D.Litt. ; B.Sc., M.Sc., D.Sc. ; B.Tech. ; B.Mus., M.Mus., D.Mus. ; LL.B., LL.M., LL.D. ; M.B., B.Ch., M.D., M.Ch. ; B.D., D.D. ; Ph.D.

For a first degree 3 yrs. of study are required ; in Technology 1 yr. is in an approved technological institution. The degree in Med. is only open to a graduate in Arts or Science of some British or approved colonial or foreign Univ. ; the period of qualification for it is 6 yrs., of which the last 3 may be spent in an approved School of Med. in the U.K. or in one of the Univs. of Paris, Berlin, Vienna, or the Johns Hopkins Univ. The degree of B.D. (3 yrs.' course) is post-graduate ; the scheme of study is pursued in one of the Associated Theol. Colls. (v. *supra*). The scheme of study for an Honours degree in Arts, Science, or Law ordinarily covers 4 years. The M.A., M.Sc., and LL.M. may be awarded to graduates of other Univs. approved for this purpose who pursue a scheme of research for at least 2 yrs. in one of the constituent Colls. As regards Ph.D., see p. 18.

Diplomas in Educn. (post-grad. Certif. and Diploma) ; Public Health (D.P.H.) ; Tuberculous Diseases (T.D.D.).

FEES: Matricn., £2; examns. qualifying for Bachelor degree, from £6:15s.; Master, £8; Ph.D., £12; higher Doctorates, £20.

SCHOLARSHIPS, ETC., FOR GRADUATES. The Univ. has funds amounting to £4000 p.a. for the encouragement of research. In addition to 5 Fellowships (annual value £200 each) tenable for two years, it awards 12 studentships on the nomination of the Colls. to students who after graduation engage in work preparatory to research for 2 yrs. Grants to assist research into Welsh language, institutions, etc., are made, preferably to members of the Univ., from T. Ellis Memorial Fund (capital £1563). Grants, prizes, or exhibitions to encourage advanced study are made, for research in Law from the Sir Samuel Evans Memorial Fund (capital £1060), for research in tuberculosis from the Cecil Prosser Research Scholarship Fund (capital £2000), and for research in problems connected with midwifery from the Ewen Maclean Scholarship Fund (capital £3000).

PUBLICATIONS: *Calendar* (Oct.), 4s.; *Diary*, 2s. Courses in Div. and in Mus., and Matricn. and Degree Regns., free. Matricn. Examn. Papers, 6d. B.D. Questions, 6d. Degree Papers, Arts 6s., Science 5s. Bulletin of Board of Celtic Studies, 5s. Publns. of the Council of Music. The best account of the early history of the Univ. is in *The University of Wales*, by W. Cadwaladr Davies and W. Lewis Jones (F. E. Robinson & Co.). This is brought up to date in the introduction to the Report of the Royal Commission on Univ. Education in Wales, 1918, 1s.

THE YEAR 1925-26

BENEFACTION. G. Leighton Seager, £600 for medals in medicine and surgery.

NEW DEVELOPMENTS. A Faculty of Rural Science. Scheme for B.Sc. with Honours in Agric. Cardiff Technical College recognized for one of the 3 years of study required for the newly instituted B.Tech. in Mech. Engineering and in Industrial Chemistry. Steps taken for separation of the Medical School from Univ. College, Cardiff. Provision for Honours in Music and double degree in Arts and Music. Examns. in Part I. of scheme for B.D. will in future be conducted by the Associated Theol. Colleges. Decision to hold examns. for M.B. and Ch.B. twice a year. Conferences for arranging a scheme of co-operation between the Univ. and the Central Welsh Board for award of State Scholarships and recognition of Higher Certificate of the Board as exempting from first year courses in the Univ.

GENERAL INFORMATION (v. also p. 245)

This College, constituted by Royal Charter in 1885, was made a constituent College of the University in 1893. Until 1911 the Arts and the Science Departments were all housed in an old roomy hotel, but in 1911 the Arts Departments and the Library were moved to new buildings on a site in the heart of the city of over ten acres given by the City Corporation. The Science Departments remained in the old buildings until 1926, when they were moved to new (War Memorial) Buildings.

LIBRARIES. General, 50,000 vols. (Theology a strong feature). Welsh, 15,000, including the largest and best-equipped collection of Welsh periodicals in existence. **MUSEUMS** include special collections of fish, shell-fish, and fishing gear, Welsh antiquities, and Roman finds from Segontium (Roman fort at Carnarvon). **FARM**, 675 acres, chiefly sheep pasturage. **Dairy.**

Special facilities are offered for research in Welsh Language and Literature, Political, Social, Economic, and Religious History of Wales, and allied subjects.

COURSES. B.A. degree courses include among others a "special scheme of study based on the idea of citizenship." GENERAL INFORMATION (v. also p. 245)

Opened in 1883 and incorporated by Royal Charter in 1884, this is now one of the constituent Colleges of the Univ. The Medical School was opened in 1894, the Engineering School in 1896. New College Buildings, containing the Arts and Administrative Blocks and the Drapers' Company's Library, were opened in Cathays Park (wherein the Univ. Offices are also located) in 1909, the Viriamu Jones Memorial Physical Research Laboratory in 1912. Physiological Dept. Buildings were completed and occupied in 1919, and formally opened in June 1921 by the Prince of Wales, who at the same time laid the foundation-stone of the buildings of the Dept. of Public Health and School of Preventive Medicine. In Oct. 1921 the development of the Medical School into the "Welsh National School of Medicine" enabled provision to be made for complete courses for a Degree or other qualification to practise Medicine.

LIBRARY: Drapers' Company's, 58,000 vols. **MUSEUMS:** Anat., Mat. Med., Path., Zool. The National Museum of Wales (Art, Archæol., Zool., Geol., Bot.) is located in an adjoining building. **LABORATORIES:** Physical Research, with liquid-air plant, etc.; Engineering (including 100-ton testing machine); and usual Science and Medical teaching and Research labs. The Cardiff Royal Infirmary (between 300 and 400 beds), in which the final studies of the Welsh National School of Medicine take place, is within five minutes' walk of the College. Clinical facilities are available also in other local hospitals.

FACULTIES. Arts, Science, Medicine (Welsh National School of Medicine). **Departments:** Music, Applied Science and Technology, Teaching (Elem. and Secondary); Advisory and Research Dept. in Agric.

COLLEGE DIPLOMAS. Engineering, Metalliferous Mining, Metallurgy; Welsh Lang. and Lit.; Economics and allied subjects; Music; Social Study and Training. In the Applied Science subjects the qualifying scheme of study covers 3 years; in the other subjects, 2 yrs. A Diploma in Biology is awarded after a one-year's course. A Joint Diploma in Coal Mining is granted by the Coll. and the S.W. and Monmouthshire School of Mines, 4 yrs.' residence being required. After a 4 yrs.' course students who desire to specialize in certain subjects can take a post diploma course. A Joint Diploma in Mech. Engin., Marine Engin., or Industr. Chem. is granted by this Coll. and the Cardiff Tech. Coll. after a 3 yrs.' course.

MEDICAL DIPLOMAS. Post-graduation courses are provided leading to the D.P.H. (1 year) and T.D.D. (Tuberculous Diseases) (3 to 6 months). Short courses are provided in Sanitary Science (leading to a Testamus given jointly by the Colleges and the Cardiff Technical College) (1 year), and in Midwifery for Midwives.

SCHOLARSHIPS (Prospectus obtainable from the Registrar). One of £60 is offered for research by a woman in any faculty, one of £50 (which may be increased by a bonus) for Science research. *See also* under Univ.

FEES. Annual Composition for tuition—Arts, £15; Science, £20; Music,

£15 ; Applied Science, £20 (Non-associated Counties, £30) ; Medical, £25 to £35 ; Hospital practice, Perpetual Hospital ticket, £12 : 12s. ; Teacher Training, £15 to £20 ; Research, 6 to 10 gs. ; Registration, 1 g. p.a.

RESIDENCE. 2 Hostels for women. Sessional Fees, £65 to £75. Board and lodging in the City can be obtained at about £2 per week.

PHYSICAL WELFARE OF STUDENTS. An Asst. Lectr. in Physical Training has been appointed, who also acts as College Director of Physical Training and Games.

GENERAL INFORMATION (v. also p. 245)

Incorporated by Royal Charter, dated Jan. 21, 1920, the College was made a constituent College of the Univ. of Wales under the terms of a Supplemental Charter granted to the Univ. on Aug. 13, 1920. The administrative offices, assembly hall, common rooms, and refectory, in addition to some of the Science departments, are accommodated in a mansion in Singleton Park, presented, together with 19 acres of land surrounding it and 15 acres for playing-fields, by the Corporation of Swansea, which also gave £50,000 towards the cost of Science buildings. Extensive laboratories have been erected in the Park, on a site adjacent to the main College building, for the departments of Metallurgy, Engineering, Chemistry, and Physics, and a building has been erected in the Park to accommodate the Arts Departments and Library.

Situated in the heart of a district possessing a long and interesting metallurgical history and presenting an unrivalled variety of present-day metallurgical practice, the College offers exceptional advantages for preparation for professional careers in the metallurgical industry. The manufacturers of the district, who contribute largely to the support of the College, give the staff and students ample opportunities of keeping in close practical touch with manufacturing processes in the works. To ensure the closest possible co-operation with the local industries, Advisory Committees in Metallurgy and Engineering have been set up. All of the College laboratories (Physics, Chem., Geol., Biol., Metall., Engin.) are new and well-equipped. They include exceptionally fine experimental plant for instruction and research in combustion engineering.

FACULTIES. Science and Arts. Departments: Metallurgy and Engineering, and Training of Teachers (men and women) for Elem. and Sec. Schools.

COURSES FOR DEGREES, ETC. Courses (3 years) of study are provided in preparation for the degrees of the Univ. in Pure and Applied Science and Arts; also in preparation for the College diplomas in Metallurgy and in Engineering; also complete Prelim. Science Course for medical students and classes in Law for articulated clerks. Engineering students are expected, and, where necessary, helped, to obtain practical experience in works during the greater part of the summer vacation. Afternoon visits to works are arranged frequently throughout the session. Occasional lectures are given by experts on the business, administration and managerial side of industrial undertakings.

FEES. For tuition in Pure or Applied Science, £20; Arts, £15; Registration, £1: 1s. p.a.; for Research, from 6 to 10 gs.

RESIDENCE. Hostel for women students. A list of Registered Lodgings is kept by the Registrar.

THE YEAR 1925-26. *Benefactions:* Towards cost of Engineering Buildings, etc.: Coal Owners' Univ. Trust Fund, £2630. For special work on Yellow Metal in the Department of Metallurgy: British Copper Manufacturers, Ltd., £100. For research in Dept. of Metallurgy: Welsh Plate and Sheet Manufcs'. Asscn., £500. For Dept. of Engineering: National Oil Refineries, Ltd., £50. For General Purposes: Neath Steel Sheet and Galvanizing Co., Ltd., £50. *Annual Subscriptions:* £5290. *New Chair of History* was established (in place of Lectureship). *Resignations:* T. Franklin Sibly, on appointment as Principal Officer of the Univ. of London; P. Macnair (Metallurgy). *Students:* Full-time, 389 (including 146 women). Preparing for a first degree: full-time, in Arts and Pure Sc. 287 (w. 125), Med. 2 (w. 1), Applied Sc. 32; part-time, 5 (w. 1). Graduate students: full-time, 24 (w. 5); part-time, 2. Law diploma students, part-time, 19. Occasional students, 37 (w. 11). Taking courses not of a University standard, full-time, 44 (w. 15); part-time, 19. *Degrees obtained:* B.A., 39 (w. 17); B.Sc., 31 (w. 4); M.A., 1; M.Sc., 6 (w. 1). *University Extension Work:* 17 Univ. Tutorial Classes and 5 Pioneer Classes with 538 students. Four courses of 3 lectures each and many single lectures were given by members of the college staff in Swansea and elsewhere. Four special lectures to students, open to the public, were delivered in the College by members of the Staff and others. The Coal Owners' Univ. Trust Fund provided for 1 Tutorial Class and two short courses of lectures.

GENERAL INFORMATION

Founded 1865. Organized as University College, 1901. Incorporated 1922.

Classes in Arts, Science, Economics, Law, Music, Agr. and Horticulture prepare for London Univ. degrees. Courses are provided for Elementary and Secondary teachers, for entrance into Civil Service, and for the first year of Medical study. The Training Department is recognized as a Training College for Elem. and Secondary teachers. The Royal Albert Memorial Library (60,000 vols.) and Museum are closely associated with the College, and the important collections of books and scientific material are freely available for advanced students of the College. A Dept. of Music was opened in Oct. 1924. A Dept. of Commerce was inaugurated at the Plymouth Technical School in Oct. 1926.

ADMISSION. Minimum age, 17: though relaxation may be made under special circumstances.

TUTORIAL BOARDS in Arts and Science and a Committee for Economics have been appointed to supervise the studies of students.

FEES. Sessional : Intermediate course, 16 to 20 gs. ; final course in Arts, 20 gs. ; Science, £25 ; Law, 6 to 12 gs. ; Research, 8 to 10 gs. ; Teachers' Training Dept. (Elem. and Sec.), £10 ; Registration, £1.

AFFILIATION. The College is affiliated to the Univs. of Ox. and Camb. It is recognized by the Camb. Special Board for Med., and the Conjoint Med. Board as a place of instruction in Chem., Physics, and Biol., and by the Institute of Chemistry for instruction in preparation for the Associateship Examn.

RESIDENTIAL FACILITIES. For *women*—(a) Hope Hall (36); (b) Bradninch Hall (68), sessional fee, £50-£55 ; (c) Sandford Hall (30). For *men*—(a)

Reed Hall (70), sessional fee, £66-£70; (b) Grendon House (40), £60. All students not living at home must reside in one of the Halls of Residence.

SCHOLARSHIPS for graduates: one or two in Science awarded annually from Andrew Simons Scholarship Fund.

PUBLICATIONS. *Prospectus*, issued (free) in July; the *Ram*, College Magazine (terminally); the *College Field Club Proceedings*; Guild of Undergraduates' *Handbook*.

THE YEAR 1925-26

BENEFACTIONS. An appeal for funds for the erection of new College buildings was launched in Oct. 1925. £35,000 has been subscribed. £82 subscribed on retirement of A. Dufton was handed to the College by him for the encouragement of Music.

NEW DEPARTMENTS AND POSTS. In co-operation with the Plymouth Education Authority under a scheme adopted in 1924, a Department of Commerce was established at Plymouth. Besides preparation for the B.Com. Degree, the Department admits students engaged in banking, accountancy, transport, commerce, industry, public administration, etc., preparing for professional examinations. Economics, which was formerly treated as a Sub-Department of History, was made a separate and independent Department. New posts: Vice-Principal, Independent Lectr. in International Politics, Asst.-Lectrs. in Geography and Commerce, Part-time Asst. in Maths., Prof. of Modern Langs. (instead of Lectr.), Lectr. and (tempy.) Head of Dept. of Econ. and Comm.

PRINCIPALSHIP. Upon election to the Vice-Chancellorship of the Univ. of Manchester, Principal W. H. Moberly resigned as from Sept. 30, 1926. He was succeeded by John Murray, M.A. (Oxon), sometime Fellow of Merton, Tutor and Censor at Christ Church, and M.P. (1918-23) for West Leeds.

RESEARCH. A Special Research Fund, to which £160 was voted for 1925-26, was established for purchase of special apparatus and books. The Royal Society granted a further £130 to the Prof. of Physics for research in Spectroscopy. On behalf of the Ministry of Agric. and Fisheries the Chemistry Dept. continues to carry out investigations upon the suitability of the Rivers Exe and Teign for fish life, etc. At request of the Dept. of Sc. and Indust. Research, the Dept. of Physics is undertaking certain research on Radio Signals.

UNIVERSITY EXTENSION. 13 courses of Extension lectures were given during 1925-26, as against four in 1924-25.

CONFERENCES AND VISITS. The College received visits from Conferences of the Geographical Asscn. and the Asscn. of Univ. Teachers, and provided accommodation for the Annual Conference of the Organists' Asscn.

RECOGNITION OF COURSE. A One-Year Music Teachers' Course for students holding recognized degrees or diplomas, who may become Registered Teachers of Music on the course's completion, has been approved by the Teachers' Registration Council.

STUDENTS. Full-time: total, 329 (including 167 women); graduates 28 (w. 11); preparing for first degree, in Arts or Pure Science 188 (w. 95), Economics 18 (w. 4), Law 11 (w. 1), Med. 2; other full-time students, 82 (w. 56).

Part-time: total, 87 (w. 26); graduates 4 (w. 1); degree students 8 (w. 3); diploma in Law 27, Music 12 (w. 8), Tech. 5, Educn. 3 (w.); occasional, 28 (w. 11).

Pre-matriculation (included in above): 106 (w. 52).

Extra-mural: Tutorial class students, 137 (w. 61).

Degrees obtained: B.A. 28 (w. 17), B.Sc. 21 (w. 1), B.Sc.(Econ.) 1, M.A. 1 (w.).

GENERAL INFORMATION

Founded 1850 ; opened as the Hartley Institution, 1862. Incorporated as the Hartley University College in accordance with a scheme of the Board of Education, 1902.

The Library, 41,000 vols., includes the Cope collection of Hampshire books, pamphlets, and broadsheets.

Classes in Arts, Science, Commerce, Engineering (Civ., Mech., and Elec.), Music, and Law prepare for the degrees of the Univ. of London. It provides courses for Elementary and Secondary Teachers, for entrance into the Civil Service, the first year of Med. Study, Pharmacy, Surveying, etc. It is recognized as a Training College for Elementary and Secondary Teachers. Through its Evening Classes (attended by upwards of 400 students) it performs the function of a Technical Institute. A Dept. of Law, instituted in 1923, is recognized as a Law School under the Solrs.' Act. The *Associateship* (Assoc. U.C.S.) implies, unless honorary, attendance at day or evening classes during at least one full session. *Diplomas* are awarded in Commerce, Engineering, Engin. Research, Geography, Advanced Geog., Law, and Music. Special Diploma in English for *foreign students*.

ADMISSION. The minimum age for both Day and Evening students is 16. Each full-time student is placed under the supervision of a member of the Staff, who acts as his Tutor.

FEES. The sessional fee is £25 for Courses in Arts, Commerce, and Music, £30 for Courses in Science, Engineering, and Teachers' Diploma (students whose parents are ratepayers within County Borough, Southampton—£18 : 15s. and £22 : 10s.).

SCHOLARSHIPS FOR GRADUATES. One of £60 for Research. One of instruction fees in Educn. Loan fund for senior students.

RESIDENTIAL FACILITIES. South Stoneham Hall of Residence for men; Warden—Prof. A. A. Cock, B.A. Highfield Hall, a Hall of Residence for Women; Warden—Miss E. R. Aubrey, M.A. South Hill, Hall of Residence for Women; Warden—Mrs. Ashdown.

REPRESENTATIVES IN PARLIAMENT

Sir GEORGE A. BERRY, M.B., LL.D.; DUGALD M'COIG COWAN, M.A.;
Rt. Hon. Sir HENRY CRAIK, Bart., K.C.B., M.A., LL.D.

IN CONSTITUTION these 4 Universities have under the operation of the Univs. (Scotland) Acts, 1858 and 1889, been to a great extent assimilated. By the former Act 2 new bodies, called the Univ. Court and General Council, were instituted; by the latter a Committee of H.M.'s Privy Council was constituted, and an Executive Commission was created with extensive powers, which it continued to exercise till the end of 1897. These Commissioners issued ordinances, *inter alia*, for degrees, for the instruction and graduation of women, for special study and research, and for the constitution of a Students' Representative Council with power to petition the Senatus Academicus and the Univ. Court.

The *Chancellor* is elected (for life) by the General Council, of which he is President. He is empowered to nominate a *Vice-Chancellor*, who may confer degrees in his absence, but cannot discharge any other of his duties. The Vice-Chancellorship is at the present time held in each Univ. on the Chancellor's nomination by the *Principal*, who is appointed by the Crown (except in Edinburgh) and is President of the Senatus Academicus, and, in the absence of the Rector, of the Univ. Court. The *Rector* is elected every 3 years by the matriculated students. He is the official President of the Univ. Court.

The *University Court* consists of the Rector, Principal, the Lord Provost of the City (in St. And. the Provost of St. Andrews and Lord Provost of Dundee), and Assessors appointed by the Rector, Chancellor, Senatus, General Council, and (except in St. Andrews) Town Council. In St. Andrews the Principals of St. Mary's Coll. and Univ. Coll., Dundee, are also included in it. There is provision for the representation of other affiliated Colleges. The Court, a body corporate with full power to administer the property belonging to the Univ., is a Court of Appeal from the Senatus and has power, since the expiration of the powers of the Commrs. under the Act of 1889, to found new chairs with the approval of the Univs. Committee and make other ordinances with the approval of H.M. in Council. It has, *inter alia*, powers to appoint professors whose chairs are in the patronage of the Univ., examiners and lecturers; to define the nature and limits of a professor's duties under his commission; and to recognize for graduation purposes the teaching of any College or individual teacher, under the regns. providing for such recognition.

The *Senatus Academicus*, consisting of the Principal, the whole of the Profs., and certain Readers and Lecturers, is entrusted with the regulation and superintendence of the teaching and discipline of the Univ. The administration of the Libraries and Museums is entrusted to Joint Committees elected two-thirds by the *Senatus* and one-third by the Court.

The *General Council* consists of the Chancellor, the members of the Univ. Court, the Profs., such Lecturers and Readers as have held office for a year, and the Graduates of the Univ. It meets twice a year and may hold special meetings at the instance of the Chancellor. Proposed improvements in the arrangements of the Univ. must be submitted to the Council for their consideration.

The General Councils of the four Universities elect three *Members of Parliament*.

FACULTIES. In all the Univs.—Arts, Science, Divinity, Medicine. In all except St. Andrews—Law. In Edin. only—Music. In Glas. and Aberd.—Engineering (Edin. and St. And. have departments and offer degrees in Engineering, although not a separate Faculty).

TERMS. The academic year is divided into three terms—Oct. to Christmas, Jan. to latter part of March, April to end of June or early July.

ADMISSION (v. also pp. 5, 662). The Regulations for admission to a graduating course in a Univ. prescribe that a candidate shall have obtained a Group Leaving Certificate of the Scottish Education Department showing passes in four subjects, one of these being Mathematics or Science and another a language other than English. Two, at least, must be on the higher standard; and three on the higher standard will be required unless one of the passes is in Mathematics or Latin on the higher standard, or unless both Mathematics and Latin have been passed (either higher or lower standard). Candidates who have not obtained a Leaving Certificate may be admitted on passing a Preliminary Examn. in four subjects under similar restrictions and conditions.

Exemption (pro tanto) is granted in consideration of having passed approved equivalent examns. Candidates from abroad, whose native language is other than English, must pass a Special examn. in English (held in March, Sept., and Oct.; in set works and an oral examn.). Candidates from the British Empire overseas, whose native language is English and who have passed examns. which would admit them to Univs. or Tech. Colleges affiliated to Univs. in their own country, will be exempted. Indian students must have obtained a first-class in the Interm. examn. in Arts or Science of an Indian Univ., and must at some stage of their course have passed in Maths. or Science and English. Similarly the Baccalauréat-ès-Lettres or ès-Sciences will exempt from the Prelim. examn.; Certificates of Maturity or Grades similar to the French Baccalauréat which would entitle the holder to enter upon a regular course of study in the Univs. of his own country will similarly exempt other students from the continent of Europe; and students of the U.S.A. holding certificates which would admit to a regular

graduating course in any of the Univs. or Colleges approved by the Asscn. of American Univs. (v. Appendix XXV.) will be exempt.

N.B. A Certificate submitted as proof of title to admission to Univs. abroad should be accompanied by an authenticated declaration by a Government Official or Official of an Agency-General, Embassy, Legation, or Consulate of the country to which the applicant belongs, testifying that it has the alleged value. If in a foreign language, certificates should be accompanied by certified English translations.

Argentine Certificates giving admission to the Univ. of Buenos Ayres, the B.A. degree of St. John's, Shanghai, the first-class certificates of the Anglo-Chinese College, Amoy; and, if including Arabic, English, and Maths., the Egyptian Secondary Education Certificate, have been recognized as exempting from the Prelim. examn.

The holder of a Degree obtained otherwise than *honoris causa tantum* in any British or foreign Univ. is exempt from all Prelim. Examn.

Applications for exemption on the ground of having passed any of the above-mentioned examns., *or on other grounds*, should be addressed to the Secretary of the Entrance Board, 81 North Street, St. Andrews.

DEGREES and courses leading thereto (v. also p. 14). The *M.A.* (ordinary) course (there is no *B.A.*) extends over 3 yrs. and includes (for ordinary degree) subjects from 3 of the 4 departments of the Faculty, namely Lang. and Lit., Ment. Philos., Science, Hist. and Law. (There are further restrictions at St. Andrews, v. p. 311.) A candidate for the degree must not only have regularly attended, but also have duly performed the work of the classes in the qualifying courses. The first 2 yrs. may be taken in any of the Scottish Univs. The Senatus may accept attendance given and examns. passed at other Univs. specially recognized for the purpose, if qualifying courses for at least 2 yrs. (St. And., 1 yr.) are attended and the Degree examns. are passed in the Univ. granting the degree. For the purpose of reckoning duration of study an academic yr. is constituted by attendance on at least 1 course (Glas. and St. And., 2 courses) of study in each of the 3 terms. The degree is never conferred *honoris causa*. For *M.A.* (Hons.) 4 yrs.' study is generally required.

The *B.Phil.* and *B.Litt.* are conferred only by St. And. A candidate for either of these degrees must take the *M.A.* either before or along with it. The standard of the Final examn. is that of the *M.A.* Honours.

The *B.Com.* conferred by St. And., Aberd., and Edin. may be taken, under conditions as to place of study similar to those for the *M.A.*, after courses covering at least 9 terms.

The *Ed.B.* involves a 2 yrs.' course subsequent to the first 3 yrs. of study for a previous degree, in addition to Professional training or experience as a teacher.

The practical part of the training of students preparing for the *Teaching Profession* is provided by the several Provincial Committees, which likewise recognize attendance at Univ. classes as qualifying for their certificates.

The B.Sc. in Pure Science. The course for the ordinary degree covers 3 yrs. (Edinburgh 4 yrs.) and includes from 6 to 9 courses, of

which 4 or 5 (St. And., 2) must be taken in the Univ. which is to grant the degree. The other courses may be taken in other Univs. or Institns. approved, or under teachers recognized for this purpose, by the Univ. Court. The degree with Honours requires 4 yrs., and is of a standard not less high than that required for M.A. (Hons.).

The B.Sc. in Applied Science can be obtained as follows : Engineering (St. And., ordinary, 3 yrs. ; Edin., ordinary and honours, both 3 yrs. ; Glas., 4 yrs., the branches in which honours are obtainable being Civ., Mech., Elec., Mining, and Chemical E., and Naval Archit.; Aberd., ordinance in preparation). Mining Engineering (Edin., ordinary, 4 yrs.). Applied Chemistry (Glas., honours, 4 yrs.). Technical Chemistry (Edin., ordinary, 4 yrs.). Architecture (Glas., honours, 4 yrs.). Agric. (Aberd., Edin., and Glas., ordinary, 3 yrs. ; honours, 4 yrs.). Forestry (Aberd., ordinary, 3 yrs. ; Edin., ordinary, 3 yrs. ; honours, 4 yrs.). Pharmacy (Glas., ordinary, 3 yrs.). Public Health (Edin. and Glas., 18 months after graduation in Med.). Vet. Sc. (Edin., 4 yrs.).

Higher Degrees in Arts and Science. The D.Sc. in Pure Science, in Engin. (Edin., Glas., St. And.), Pub. Health (Edin., Glas.), Mining (Edin.), Agric. (Edin.), and Vet. Sc. (Edin.), and the D.Litt. are open to graduates of 5 yrs.' standing. A thesis is required and, except in the case of a graduate of a Scot. Univ. with an Honours degree (St. And., an Honours graduate of the Univ. granting the degree), research under supervision extending over 2 yrs. in the Univ. which is to grant the degree. These degrees are never granted *honoris causa*.

Divinity. The B.D. examn. of any of the Univs. is open to a graduate in Arts of a Scottish or other approved Univ. or the holder of any Univ. Degree or Diploma recognized as an equivalent by the Univ. Court who has completed his Theol. course (3 yrs.), of which not less than 2 yrs. has been in the Univ. in which he proposes to take the B.D. All the examns. must be passed at the Univ. granting the Degree. The D.D. is honorary. The Gifford Lectures in Natural Theology are open to the general public.

Law. The B.L. course (3 yrs.) is open to students who have passed the Prelim. or its equivalent. Candidates for the degree must produce evidence of a sufficient knowledge of Latin before entering the Class of Civil Law. The LL.B. (3 yrs.) is open to graduates in Arts of a Univ. of the U.K. or any other specially recognized.

Of the B.L. course 1 yr. and of the LL.B. 2 yrs. may be spent in any specially recognized Univ. or School of Law.

St. And. does not at present provide full courses for or grant these degrees.

The LL.D. is honorary.

Medicine. Three of the requisite 5 yrs. of medical study for the M.B. and Ch.B. may be spent in any Univ. of the U.K. or other Institn. specially recognized for the purpose or under a teacher recognized by the Univ. A candidate who has at any such Univ. completed a course and passed an examn. in Chem., Physics, or Biology qualifying for a degree in Science, Arts, or Med. may be exempted by the Senatus from the corresponding part of the M.B., Ch.B. examns. Aberd., Edin., and

St. And. extend this concession to courses and examns. in Anatomy and Physiology qualifying for a degree in Science (St. And.—or Arts or Med. ; Edin.—or Med.).

A graduate in Medicine of at least 24 yrs. of age who has, subsequent to graduation, been engaged for at least 1 yr. in attending the Med. (or Surg.) wards of a hospl., or in scientific work bearing directly on his profession, or in the Naval, Milit., Colonial (Aberd., Edin., Glas.), or, for the M.D. (St. And.—M.D. or Ch.M.), Pub. Health Med. Services, or 2 yrs. in practice not restricted to Surg. (or Med.), and passed the prescribed examn. and submitted a satisfactory thesis, may be admitted M.D. or Ch.M. as the case may be.

Ph.D. See p. 18.

FEES. The Matriculation, 2 gs. *per annum* ; inclusive Tuition fees *per annum* in Arts are 15 gs., in Science 25 to 35 gs. ; examn. fees for M.A., 7½ gs. ; B.Sc., 9 gs. ; Divinity, 7½ gs. ; Law, 9 gs. ; M.B., Ch.B., 33 gs. ; graduation, £1. Further information is given in the several Univ. sections.

RESEARCH OR SPECIAL STUDY may be prosecuted in a Univ. under supervision by persons suitably qualified, whether graduates or not, admitted by the Senatus. Access to and the use of the Univ. laboratories, etc., may be obtained on such conditions as to payment and otherwise as the Univ. Court may determine. The title of Research Fellow may be conferred with or without a stipend on specially distinguished research students.

APPOINTMENTS COMMITTEES have been constituted in all the Univs. to help students to find employment.

SCHOLARSHIPS. Provision for affording Univ. instruction and maintenance to students of small means is probably nowhere more ample than in Scotland. Besides the numerous bursaries, etc., awarded by the Univs., and the Carnegie Trust benefactions (*v. infra*), the Provincial Committees for the Training of Teachers award bursaries, according to the necessities of students, of from £5 to £25, and travelling, hostel, and other special allowances, and Secondary Education Authorities may assist any duly qualified person resident in their areas to enter or attend a Univ., Training Coll., etc.

Scholarships, etc., for Graduates. The following are open to graduates of all the Scot. Univs. : (1) Carnegie Scholarships (£150) and Fellowships (£250) and grants in aid of Research. Application forms supplied by the Carnegie Trust, 22 Hanover St., Edinburgh. (2) Ferguson—six of £80 each for 2 yrs. for graduates in Arts. Ferguson Bequest Fund, 94 Bath St., Glasgow. (3) M'Cunn—two of £200 and two of £400 for 1 yr., for medical research. M'Cunn's Trustees, 160 West George St., Glasgow. (4) Shaw Philosophical—£200 for 5 yrs. for graduates in Arts (in the Patronage of Edinburgh Univ.). (5) Blackie—in Greek, £154 for 1 yr. for graduates in Arts distinguished in the B.D. examns. (6) Hume Brown—in Scottish History, £65 for 1 yr. for graduates in Arts ; managed by the Univ. of Edin. (7) Maclean (Semitic Languages), £175 for 1 yr. for graduates in Arts preparing to enter the Ministry of the Church of Scotland ; managed by the Univ. of Glasgow. (8)

Crombie (Biblical Criticism), £50 for 1 or 2 yrs. for graduates in Arts with First Class Hons. in Classics; managed by St. Andrews. (9) Shaw Macfie Lang (Science), Income of £3000 for Hons. Graduates in Arts or Science; managed by Edinburgh.

CARNEGIE TRUST FOR THE UNIVERSITIES OF SCOTLAND. Offices at Merchants' Hall, 22 Hanover Street, Edinburgh. Secretary, Jas. Robb, LL.B.; Treasurer, Jas. Davidson.

The annual income of the Trust is about £125,000, one half of which is devoted to (A) the improvement and expansion of the Universities of Scotland in the faculties of Science, Medicine, History, and Mod. Langs., and extending opportunities for scientific study and research, and Technical or Commercial Univ. education; the other half to (B) assisting Scottish students in the payment of Univ. class fees. Any surplus not required for (B) in any year is to be devoted to (A). Institutions in Scotland recognized by the Executive Committee of the Trustees as preparing students for graduation or as providing technical or commercial education of University level are entitled to participate as regards (A) and their students as regards (B). Any surplus not required for (A) or (B) may be devoted to Univ. Extension work.

The Regulations for Assistance in the payment of Class fees provide, *inter alia*, that applicants should hold the Leaving Certif. of the Scottish Educn. Dept. bearing evidence of such preliminary education as is required by the Univs. for their respective graduating curricula. Where for satisfactory reasons such Leaving Certif. has not been obtained, the Exec. Committee may accept instead what they deem equivalent evidence of attainments, provided that no applicant will be eligible who has to pass any further prelim. examn. before completing his graduating curriculum. Class Fees paid for 1925-26: St. Andrews—£4392 for 337 beneficiaries; Glasgow—£27,455 for 2247; Aberdeen—£9294 for 792; Edinburgh—£16,071 for 1335.

The annual report of the Executive Committee contains reports of experts on the work of beneficiaries under the Research Scheme and lists of papers published by them. Research Fellowships, Scholarships, and Grants awarded for 1926-27: St. Andrews—26, value £4849; Glasgow—29, value £3795; Aberdeen—24, value £2685; Edinburgh—21, value £1551. Total—100, £12,880.

Under a Fifth Quinquennial Scheme of Distribution for the period from Oct. 1, 1925, to Sept. 30, 1930, there has been allocated a sum of £231,225, distributed thus: St. Andrews centre—£38,000; Glasgow—£73,600; Aberdeen—£46,250; Edinburgh—£73,375.

THE SCOTTISH STUDENTS' INTER-UNIVERSITIES CONFERENCE. At this Conference, which is held annually, and meets in rotation at St. Andrews, Aberdeen, Glasgow, and Edinburgh, the students of the 4 Univs. discuss matters of general interest to them all. The Students' Representative Council of each Univ. sends 4 delegates, one of whom must be a woman. The convener of the International Academic Committee (v. p. 7) also attends, and each Univ.'s Union and Students' magazine are represented. The President and Secretary of the Con-

ference are the President and Secretary of the Students' Representative Council of the Univ. at which the Conference is held. A record of the work of each Conference is printed and distributed to each of the Univs. concerned. The 33rd Conference will be held at Glasgow in 1927. The Inter-Universities International Academic Committee of the S.R.C.'s appoints "Academic Consuls" in the principal university centres overseas. The committee is glad to help students from overseas visiting Scotland. Information as to lodgings, etc. can be obtained from the International Academic Secretary, S.R.C. Office, University of Edinburgh.

ASSOCIATED COLLEGES

NORTH OF SCOTLAND COLLEGE OF AGRICULTURE.

ROBERT GORDON TECHNICAL COLLEGES. Agricultural Engineering classes
for candidates for the B.Sc. degree in Agr. are at present held here.

GENERAL INFORMATION (v. also p. 272)

The "University and King's College of Aberdeen," founded under a Papal Bull in 1494, and the "Marischal College," founded in 1593 by George Keith, Earl Marischal, were reconstituted in 1860 as "The University of Aberdeen." Certain of the original buildings remain, notably the Chapel (A.D. 1500).

The LIBRARY, founded in 1500, has 250,000 vols. and 200 Incunabula, some unique. It is especially rich in Celtic literature, and books bearing on the history, topography, and antiquities of the Scottish Highlands, and Classical Archæology. Annual budget about £3500. MUSEUMS: Anthropological (illust. cat. 1s.), Surgical (2500 specimens and 600 instruments), etc. Besides the usual LABORATORIES there is the Rowett Institute of Research in *Animal Nutrition* near Bankhead, with departments of Physiology, Biochemistry, Bacteriology and Pathology, and attached Animal Husbandry section for practical experiments in feeding, etc. It is under the management of a joint committee of the Univ. and the N. of Scotland College of Agric. Hospitals available for clinics: Infirmary, 230 beds; Children's, 85; Fever, 100; Mental Hospital, 700.

FACULTIES. Arts, Science, Divinity, Law, Medicine. Deans: Profs. Macdonald (Maths.), Findlay (Chemistry), Baird, Stuart, Shennan.

Departments: Commerce, Education.

DEGREES, ETC. (v. p. 274). For Diploma courses in Agric. (3 yrs.) and Forestry (2 yrs.) there is a preliminary examn. in English and Maths. The papers in the Final examn. in Agric. are the same as those set for the B.Sc. Agr. Diplomas are also conferred in Public Health (D.P.H.) and in Fine Art (History and Theory). A Certificate in Fine Art is also given.

The following Univs. have been recognized by the Univ. Court *pro tanto* as institutions in which 3 of the requisite 5 yrs. of medical study may be taken, provided that the prescribed conditions with reference to such study are fulfilled: Bom., Calc., Mad., Adel., Melb., Syd., N.Z., S. Africa, Dal., Queen's (Kingston), Tor., McGill, Chic., Corn., J.H.U., Harv., Stanf., Mich., Penn., Yale. Individual teachers in other Univs. may be recognized upon satisfying the Univ. Court with respect to their courses. The following have been recognized in respect of courses and examns. in Bot., Zool., Biol., Physics, and Chem. qualifying for a degree in Science or in Arts or in Med.: Bom., Calc., Mad., All., Panj., Rangoon, Melb., Syd., Adel., Queen's (Kingston), McGill, Tor., Mani., S. Africa. The courses and examn. in Anat. and Physiol. for the Science degree of the Univ. of Cape Town have been recognized.

FEES (v. also p. 276). Inclusive fees for tuition: B.D., 40 gs.; LL.B., 40 gs. (28 gs. for a M.A. of the Univ.); B.L., 30 gs.; M.A. and B.Sc. taken together, 112½ gs.; M.A. and B.Com., 75 gs.; B.Sc. and B.Com., 112½ gs.; M.B., Ch.B., 126 gs.; M.A., M.B., Ch.B., 156 gs.; B.Sc., M.B., and Ch.B., 168 gs.; M.A., B.Sc., M.B., and Ch.B., 202 gs.; M.A. (Hons.), 60 gs.; B.Com., 45 gs.; B.Sc. (Ord.), 90 gs.; B.Sc. (Hons.), 100 gs.; M.A. (Hons.) and B.Sc., 127½ gs. The total cost of the whole medical curriculum, including hospital fees, classes, matricn., and degree fees, is usually about £236. The degree fees for the Doctorates are from 10 to 20 gs. The class and examn. fees for the D.P.H. amount to 36 gs.; for the Diploma in History and Theory of Fine Art, and for the Certificate in Fine Art, to 8 gs. and 15 gs. respectively.

SCHOLARSHIPS, ETC., for graduates (v. also p. 276) about 25; aggregate annual value about £1600. *Travelling Scholarships*: Anderson, for medical graduates, about £200 p.a.; Kilgour, £250 for graduates in Natural Science or Natural History; Robbie, £100 p.a. in Maths., Nat. Philos., and Chem.

RESIDENCE. No Univ. Hostel. List of lodgings kept by Students' Repve. Council.

PHYSICAL WELFARE OF STUDENTS. There is a Director of Physical Training (who is an officer of the Army), with a woman assistant for women students.

PUBLICATIONS. *Calendar* (Sept.), 4s. 6d.; *Univ. Review*, 7s. 6d. p.a. (3 issues); *Students' Handbook* (Nov.), 1s.; *Alma Mater* (organ of S.R.C.); *Univ. Libr. Bulletin*, 2s. 6d. p.a. (2 issues).

THE YEAR 1925-26

BENEFACTIONS. Carnegie Trust, towards chairs in Forestry, French, and Bacteriology, £37,000; lect'ship in Bio-chemistry, £6000; for library, £1000. Sir George and Lady Anderson, £5000. OTHER DEGREES. In Arts—*D.Litt.* 1, *Ph.D.* 1, *M.A.* 177 (including 106 women); Science—*D.Sc.* 2, *Ph.D.* 3 (w. 1), *B.Sc.* 38 (w. 14), *B.Sc.Agr.* 8 (w. 1), *B.Sc.For.* 1, *B.Com.* 13; Div.—*Ph.D.* 1, *B.D.* 1; Law—*LL.B.* 2, *B.L.* 5; Med.—*M.D.* 10, *M.B., Ch.B.* 50 (w. 9).

NEW POSTS. The new chairs of Forestry, Bacteriology, and French were filled: Dr. Borthwick was formerly scientific adviser to the Forestry Commission; Dr. Shears was Reader in Romance Philology at King's College, London. Steps were taken towards founding a Hugh McLennan Chair of Conveyancing. An independent Lectureship in Roman Law, lectureships in Electrical and Mechanical Engineering, and an Assistantship in Engineering, with special reference to Forestry, were instituted. It was resolved to institute a Dept. of Clinical Chemistry to be situated in the Royal Infirmary buildings, and to appoint a Director of Physical Training (an officer of the Army) with a qualified woman assistant for women students.

NEW COURSES instituted: Forest mensuration for Agric. students; elementary New Testament Greek for Arts and Divinity students.

NEW BUILDINGS for the Dept. of Engineering were erected, and those occupied by the Forestry Dept. were adapted for Engineering. New buildings for the Forestry Dept. were completed. A new heating plant (£9000) was completed. New playing fields were acquired. Plans for a new Examination Hall and class-rooms were made.

GENERAL INFORMATION (v. also p. 272)

Originally the "Town's College," founded in 1583 by the Town Council under general powers granted by Royal Charter, April 14, 1582. The Old College on the site of "Kirk o' Field," the scene of the murder of Lord Darnley, was designed by Robert Adam, and completed in 1838. Newer buildings include the M'Ewan Hall (1888-97), in theatre form, which holds 2600 people and has a great electric organ; and "The King's Buildings" (1920-24) for Chemistry and other Science Departments. The Medical School of this Univ. has been famous for many generations; specially ample provision exists also for instruction and research in Theology (post-graduation school instituted 1919), Agric., Forestry, Engin., Mining, and Vet. Sc. Edinburgh is the seat of the Scottish Supreme Courts of Law.

LIBRARY, founded in 1580, 350,000 vols., 8000 MSS., includes special collections—Shakespearean, Sanskrit, Celtic, Persian, and Arabic MSS., Economics (Hodgson), Math. tables by E. Sang, transactions of Engin. Societies in Great Britain and America. **MUSEUMS**: Nat. Philos., Fine Art, Geol., Nat. Hist., Chem., Forestry, Agric., Entom. and Forest Zool. (Waterhouse collection of Coleoptera), Anat. (founded with the Monro collection in 1800; numerous specimens of Cetacea and human crania), Physiol., Mat. Med. (notable collections of medicinal and food substances, including those of Duncan and Christison), Forensic Med., Practice of Physic, Surg., Obst. (Simpson collection), Music and Musical Instruments. The Prof. of Botany is Regius Keeper of the *Royal Botanic Garden*; the Prof. of Astronomy is Astronomer Royal for Scotland and gives practical courses at the *Royal Observatory*. The **LABORATORIES** are especially well equipped for research in Anatomy, Anthropology, Bacteriology, Chemistry (the new Laboratories at King's Buildings, which were completed in 1924, have accommodation for about 400 students), Engin. (notably Hydraulics, Strength of Materials, Elec. Engin.), Mat. Med., Path., Physics, Physiol., Psych., Pub. Health (Institute built 1902, costing £21,000). The Univ. has a table at the Millport Marine Station. **HOSPITALS**: the Royal Infirmary adjoining the Univ. provides over 900 beds for clinical teaching, in addition to the Children's, Maternity, and Fever Hospls., and Lunatic Asylums. Over 50 resident posts in these are given annually to Med. graduates.

WEST OF SCOTLAND AGRICULTURAL COLLEGE.

GENERAL INFORMATION (v. also p. 272)

Founded by a Papal Bull in 1451, after the model of Bologna, the Univ. was reconstituted by a Charter of King James VI. of Scotland in 1577. In 1864-70 the old college buildings and site were sold and new buildings were erected in a more suitable position on the crest of a hill (Gilmorehill) to the west of the city. Funds for this were obtained partly from the proceeds of the sale, partly from public subscription, and partly from a Parliamentary grant of £120,000. Queen Margaret College was acquired by gift in 1893 for the use of women students. The Carnegie Trust contributed £60,000 towards the cost of additional buildings which were completed in 1907, and a neighbouring estate was presented by the MacLellan family in 1917.

The LIBRARY, founded in the 15th century, contains 255,000 vols., including 300 books printed before A.D. 1500. Among its important collections are the Ewing, distinguished for the value and variety of its Bibles; the Hamilton, rich in philosophical works; and the Ferguson, containing rare books on the history of Chemistry. The Hunterian MUSEUM, founded in 1783, contains most valuable MSS. and early printed books and pictures and important collections of coins, anatomical preparations, zoological and mineral specimens, etc. Large new departments with spacious LABORATORIES have been erected for Engin., Bot., Nat. Philos., Chem., Physiol., Anat., Path., Mat. Med., Forensic Med., Pub. Health, and Zoology. There are BOTANICAL GARDENS and an OBSERVATORY. As Glasgow stands at the centre of the shipbuilding, engineering, mining, and industrial area of Scotland, it offers unique opportunities for technical training. Three large general HOSPITALS are available for clinics, besides special institutions (including Consumption Sanatoria).

FACULTIES. (1) Arts, (2) Science, (3) Medicine, (4) Law, (5) Divinity, (6) Engineering. Depts. of Applied Science—Engineering (Civ., Elec., Mech. Mining, Naval Archt.), Applied Chem., Agric., Architecture, Public Health, Pharmacy. Deans: (1) Profs. Smith (German), (2) Drummond (Bot.), (3) Currie (Public Health), (4) Gloag (Scots Law), (5) Stevenson (Hebrew), (6) Cormack (Civ. Eng. and Mech.).

DEGREES, v. p. 274. Applications by Overseas students for remission of part of the class attendance for B.Sc. in branches other than Engineering will be considered sympathetically. *Diploma* in Education, 1 yr. course, for graduates (the first yr. of the Ed.B. course); D.P.H. (1 yr. course) for legally qualified med. practitioners. *Certificates* of Proficiency in Engineering Science and in Mining Engin., 3 yrs.' courses, of which first yr. may be taken in Roy. Tech. Coll.; no prelim. examn.

M.A. with special reference to Citizenship. The curriculum recommended for this is—1st yr., English and another language; 2nd yr., a Science and History; 3rd yr., Ethics, Individual and Social Life, and Political Economy.

The list of extra-academical teachers whose courses in certain subjects are recognized as qualifying *pro tanto* for graduation includes several resident outside the United Kingdom, namely in Cape Town (in Nat. Philos., Chem., Bot., Zool.), Grahamstown (Physics, Chem., Bot., Zool.), Johannesburg (Zool. and Chem.), and Stellenbosch (Bot., Chem., Physics).

For detailed information regarding POST-GRADUATION study and research in any Faculty application should be made to the Dean ; v. also p. 276. A Post-graduate *Medical Assocn.* organizes demonstrations for Med. Practitioners ; fee for series, Nov. to May, 3 gs. ; programme obtainable from the Secy., P.-G. Med. Assocn., Dr. James Carslaw, 6 Woodside Crescent.

CLASS FEES, see p. 276. M.A. (Hons.), 60 gs. ; LL.B., 40 gs. ; B.L., 30 gs. ; M.B., Ch.B., about £250 for 5 yrs. Combined M.A. and B.Sc., 112½ gs.

SCHOLARSHIPS FOR GRADUATES : about 76 of from £30 to £280 p.a., most of them open only to graduates of Glas. (For undergraduates there are 480, varying in value from £10 to £50 or more p.a., chiefly in the Faculty of Arts, in addition to Bursaries of from £5 to £25, awarded by the Provincial Committee for the training of teachers.) V. also p. 276.

Travelling for study or research is encouraged by : Bryce Mathematical Fellowship (£280 p.a. for 4 yrs.), Faulds Fellowship (£200), J. R. K. Law Scholarship (£100 p.a. for 2 yrs.) for Applied Science tenable at an approved *Overseas University* or other scientific institution in *Canada, U.S.A., or France.*

RESIDENCE. Two Hostels for men students—the Maclay Hall and the MacBrayne Hall ; and two for women—Queen Margaret Hall and the Robertson Hall. Lodgings or board with private families with use of 2 rooms, generally obtainable in neighbourhood of the Univ., for from 35s. to 50s. per week. A few students' hostels or settlements, of limited accommodation, where the charges are lower, are run by private committees or bodies of students and graduates.

A STUDENT WELFARE COMMITTEE has been formed for the purpose of raising funds for the provision of Hostels, increased Union accommodation, and the completion of the Athletic Ground. Grants have been received from the Univ. Grants Committee and the Carnegie Trust, and many donations have been received from private benefactors and other sources. In all the sum of about £85,000 has been raised.

UNIVERSITY EXTENSION. An Extra-mural Education Committee, equally representative of the Univ. and working-class organizations, is prepared to supply classes, short courses, and single lectures to groups of students in Glasgow and the West of Scotland, so far as its resources will permit ; a compendium of classes and lectures for the session is obtainable from H. E. R. Highton, 177 Hill Street, Garnethill, Glasgow, C.3. Fortnightly and occasional free public lectures by professors and others are delivered during the winter session.

PUBLICATIONS. *Calendar* (July) ; *Glasgow Univ. Magazine*, weekly during winter session ; *Examn. Papers*, Prelim. and Degree, 6d. per set ; *Annual Handbook* for matriculated students ; *Handbook* for Overseas students and graduates ; *History of the University of Glasgow* (Coutts) ; *Roll of Graduates* (1726-1896) (Addison) ; *Matriculation Albums* (Addison).

THE YEAR 1925-26

BENEFACTIONS. £30,000 by an anonymous donor for the foundation of a Medical Research Fund ; £5000, anonymous, through the Governors of the Glasgow Royal Samaritan Hospital for Women to maintain a " Royal Samaritan Lectureship in Gynæcology " ; from subscriptions for a memorial to the late Sir William Macewen—(1) £1200 for a Macewen Memorial Lectureship, (2) £200 for a Macewen Medal in Surgery ; the International Law Association, £100 for the foundation of a prize in the Class of Public International Law.

NEW POSTS. Two Lectureships in Pathological Bio-Chemistry.

GENERAL INFORMATION

Anderson's College, founded in 1796, the College of Science and Arts (1823, the first "Mechanics' Institution"), and the Atkinson Institution (1861) were amalgamated in 1886 under the title of the Glasgow and West of Scotland Technical College, which was changed in Feb. 1912 to the Royal Technical College. The College was affiliated to the Univ. of Glasgow in March 1913.

The College building, comprising over 7 acres of floor space, cost, with equipment, £400,000. Qualifying courses are provided in the subjects named above for Degrees of the Univ. in Applied Science and for the Diploma of the College. Courses in the following qualify for the Diploma only: Building, Naval Architecture, Textile Manufacture. There are also Departments of Navign. and Bakery, as well as numerous evening classes in other subjects, mainly technological. The courses for the Diploma cover 3 (in Chem. and Metall., 4) yrs.; for the Associateship in any of the Diploma subjects, attendance during 4 yrs. is required. The evening lecturers are not included in the above lists; some of their work is, however, of university and even post-graduate standard. Much research work, for the prosecution of which a development fund of over £70,000 has been raised, is carried on at the College. The library includes the Euing musical collection and the James Young collection of early alchemical, metallurgical, and chemical books.

The Glasgow School of Architecture is maintained by the College and the Glasgow School of Art working in co-operation through a Joint Committee under whose authority its Diplomas (5 yrs.' course) are issued.

The College has an athletic ground, and within the College buildings a well-equipped gymnasium.

FEES for tuition: diploma, 25 gs. p.a.; degree, 90 gs. for course.

PUBLICATIONS. *Calendar*; *Annual Report*; *Research Journal*.

THE YEAR 1925-26

NEW DEVELOPMENTS. An athletic ground was purchased and a new pavilion is in course of erection.

DEATH. C. Gourlay, Prof. of Architecture for 31 years. RESIGNATIONS: E. C. Pickering, apptd. Head of Chemistry Dept. of Borough Polytechnic, London; J. C. Grassie, apptd. ASSOCIATED COLLEGES

MAGEE COLLEGE, LONDONDERRY, for first three years of B.A. course.

CHURCH OF IRELAND TRAINING COLLEGE, KILDARE PLACE, DUBLIN. The two-years' course of training for teaching in elementary schools is conducted partly at Trinity College, Dublin, and counts towards the Dublin B.A. subject to the candidate qualifying in Latin and a modern foreign language before proceeding as "Sophister" (3rd year).

GENERAL INFORMATION

Trinity College was founded and incorporated by Royal Charter in 1592 as "Mater Universitatis," but no other College has been founded, so that "Dublin

Univ." and "Trinity College" are practically interchangeable terms. The Corporation of the College was put on its present basis by Letters Patent of 1637. Letters Patent of 1911 transferred the powers of making statutes from the Crown to the Corporation. The general government of the Univ. is in the hands of the Board of Trinity College, which consists of the Provost, Senior Fellows, 2 representatives of Junior Fellows, and 2 representatives of the non-Fellow Profs. The Univ. Council, formed by representatives from the various Faculties and Schools, has the right of appointment to most Professorships, and in conjunction with the Board can make changes in the curriculum, but otherwise has only advisory functions. The power of making new statutes was reserved to the Crown until 1911, when by Letters Patent this power was given to the Board subject to the consent of a majority of the Fellows and the approval of the Visitors.

The College occupies a large site in the middle of the city, with ample grounds for the athletic clubs.

THE LIBRARY of Trinity College has enjoyed since 1801 the privilege of receiving a copy of every book published in England. It contains 386,000 volumes and 2000 MSS., affording an unrivalled field for the study of Irish palæography. A catalogue of MSS. in the Library was published in 1900. There is a lending library of 6000 vols. bequeathed by the late W. E. H. Lecky, and departmental libraries in German and the Romance Languages, in Mathematics, in Botany, and in Zoology.

MUSEUMS. The scientific museums include Zool. and Comp. Anat., Geol. and Mineral., Surg. and Med., Path., Mat. Med., Anthropom., Engin. Models, Nat. Philos. The Zoological are among the best collections in the country. The series of vertebrate osteology is extensive. Attached Laboratories offer all facilities for research work. The collection of Geological and Mineralogical specimens is also extensive.

LABORATORIES. Anthropol., Bio-Chem., Bot., Chem., Geol., Histology, Mat. Med., Mech. Engin., Pathology, Physical (Iveagh), Physiol., Zool.

HERBARIUM (rich in plants of N. America, India, S. Africa, and Australia). **BOTANIC GARDENS**, 8 acres.

The Astronomical Observatory of Trinity College is at Dunsink, 5 miles from the College. It is the official residence of the Royal Astronomer of Ireland.

Ample facilities for clinical studies and many appointments for graduates are available in numerous HOSPITALS, including the well-known Rotunda. The Irish High Court is situated within a short distance of the College.

PROFESSIONAL SCHOOLS. Divinity, Law, Physic, Engineering, Indian and Home Civil Service, Agriculture, Forestry, Music, Education, Commerce.

MATRICULATION. See Appendices XXI. and XXIII.

DEGREES. Every student must take the B.A. before proceeding to any other degree, except those in music and B.Sc., M.Sc., Ph.D. The course lasts 4 yrs., but it is only necessary to keep 2 out of the 3 terms in each, or 8 in all. It is also possible to complete the course within 3 yrs. from entrance by taking the final examn. of the 1st yr. at the time of entering and keeping all 3 terms of the 2nd yr. However, all students not in a professional school or taking the B.Sc. course are required to attend Arts lectures in every term, unless specially exempted (*e.g.* those earning their living by teaching). If exempted they are permitted to keep all of their 8 terms by examn. instead of by attendance.

For the first 2 yrs. (Junn. and Senr. Freshman) all subjects are compulsory :

Algebra, Geom., Trig., Mech., Logic, Engl. Essay, Latin, Greek or French or Irish or German. After the examn. ("Little-Go") at the end of the 2nd yr. wide freedom of choice is allowed of subjects for the remaining (Junior and Senr. Sophister) yrs., and exemption from one subject is granted to Law, Engin., Comm., and Div. students. For Med. students there is a specially reduced Arts course throughout.

Pass Arts teaching, mainly given by the Tutor Fellows, is partly of a catechetical nature. Every student must choose one of the Tutor Fellows (see list above) as his Tutor and should apply to him for all information before and after entrance.

The *Honour B.A.*—known as a *Moderatorship*—can be taken in 11 different groups (viz. 1 Math., 2 Class., 3 Ment. and Mor. Philos., 4 Exp. Sc., 5 Nat. Sc., 6 Hist. and Pol. Sc., 7 Mod. Lit., 8 Leg. and Pol. Sc., 9 Eng. Sc., 10 Celtic, 11 Oriental Lang.), and undergraduate honours in the same subjects (except Nos. 9 and 11) can be obtained in each academic year and in most subjects in each term. The course lasts four years in the case of Nos. 1, 2, 4, 5, 6, 7, three years in Nos. 3 and 10, and two years in No. 8. Instruction in these Honour courses is given partly by the Profs. and partly by the Tutorial staff.

A B.A. of three years' standing may be admitted M.A. There is no examn. for this, nor is a thesis required.

The B.Sc. is obtained by a four-year course consisting of 12 terms of lectures and 4 examns. In the first two years English, French, German, Mathematics, Physics, and Chemistry are compulsory. In the last two years the student studies 3 subjects chosen from Physics, Chem., Bot., Zool., Physiology, Anat.

A B.Sc. with hons. is obtained by passing an examn. identical with Moderatorships (see above) in Experimental or Nat. Science.

The B.D. is obtained by an examn. open to all grads. in Arts, and the D.D. is open to any B.D., eight years after taking B.A., and is awarded on a thesis or published Theol. work.

The LL.B. course covers 2 yrs.; the M.B., B.Ch., and B.A.O., 5 yrs.; B.Dent.Sc., 4 yrs.; B.A.I., 3 yrs. (optional 4th yr. in Elec. and Mech. Engin.); Agr.B. or Agr. (Forest) B., 4 yrs., of which 3rd and 4th are taken in Coll. of Science; B.Comm., 3 yrs. The M.Sc. and Ph.D. (v. p. 18) involve post-graduate study and research for 1 yr. and 2 yrs. respectively.

A candidate for the Sc.D. or Litt.D. must have at least 3 yrs.' standing as B.A., and submit important original work; for LL.D. must be of M.A. standing—a thesis or examn. is required; for M.D. must have taken the M.B. degree and be of M.A. standing; for M.Ch. must be a B.Ch. of 3 yrs.' standing; for M.A.O., a B.A.O. of 2 yrs.' standing; a thesis or examn. is required for M.D., an examn. for the M.Ch. or M.A.O. A candidate for M.Dent.Sc. must be a B.Dent.Sc. of 1 yr.'s standing, and pass an examn.; for M.A.I. must have practised his profession for 3 yrs. after graduating as B.A.I. The Mus.D. is granted after an exercise or practical test.

DIPLOMAS in Agric., Educn. (Primary and Higher), Econ. and Comm. Knowledge, Elec. Engin., Gynæc. and Obst. (1 yr. course), D.P.H., Religious Knowledge (women).

License in Engineering (first two years of Arts course and complete course in Engineering). *License* in Med., Surg., and Obst. Science.

Certificate in Engineering (complete course in Engineering, but without Arts course).

Testimonium in Divinity (2 yrs.' course).

RECOGNITION OF OTHER UNIVS., ETC. Credit is allowed for terms kept at Oxford or Cambridge, but no student or graduate of any other Univ. can take the B.A. unless he has kept at least 2 yrs. at Trinity College. No student can

take any medical degree unless he has attended at least 3 yrs. in Trinity College.

A B.A., B.Sc., or M.A. of any of the undermentioned Univs. may be allowed credit *pro tanto* for the first 2 yrs. and the examn. held at their expiration : Aberd., Belf., Birm., Brist., Edin., Glas., Leeds, Liver., Lond., Manch., St. And., Sheff., Wales, and Nat. Univ. of Ireland.

A student who has passed two years in Arts studies at any of the undermentioned Univs. and passed the examns. belonging to that period is given credit *pro tanto* for the first academic year : Adel., All., Bom., Cal., Dacca, Dalh., McGill, Madr., Mel., N. Brun., N. Zea., Panj., Patna, Syd., Tas., Tor., King's Coll. (Windsor, N.S.).

A student who has passed the Matricn. examn. of any Univ. in S. Africa, including Latin, Maths., and either French, German, Dutch, or Greek, is admitted without further examn., and, if a Med. student, is excused the Prelim. Med. examn. Medical students are given credit for lectures and examns. in Zool., Bot., Chem., and Physics of any S. African Univ., and also for lectures and practical work in Anat. and Physiol., but not for the examns. in these last two subjects. Courses in Path. and Bact. at Cape Town and Witwatersrand are also recognized.

A student who has passed the Interim. examn. of any Univ. in S. Africa is permitted to present himself at the Final Freshman examn., with exemption from those subjects in which he has already passed at the Interim. examn.

A student who has passed the B.A. examn. of any Univ. in S. Africa is allowed credit for the 1st two collegiate yrs. and for the Final Freshman examn.

To students admitted to advanced standing the entrance fee is remitted and in most cases some of the half-yearly Arts fees.

In keeping terms students from S. Africa are allowed to substitute Dutch for French or German, when 2 languages are required.

Likewise the Board and Council are prepared, in the case of students of Medicine, to consider applications from Colonial Univs. and Colls. for recognition of courses of instruction given by them.

Students from S. Africa should write to the Senior Lecturer for fuller information.

No recognition granted under this scheme will exempt a student wishing to take the Dublin degree from spending at least three full years of Med. study in Trin. Coll.

FEES. Entrance, £15 ; Composition for all Arts and Science Lectures, 20 gs. p.a. ; Medical course total (including Hospitals and Degree fees), about £150 ; Dental Science total, about £200 ; Engineering, (3 yrs.) £50 (minimum), in addition to Arts Tuition fees ; Divinity free for students in Arts, 20 gs. p.a. for others ; Commerce, £47 (if Arts Course is taken), £80 (for external students).

Among SCHOLARSHIPS, PRIZES, ETC., OPEN TO GRADUATES are : Two studentships of £100 offered at the B.A. degree examn. ; prizes from £50 upwards to selected honour graduates with conditions of study and research attached. GENERAL INFORMATION

Queen's University in Ireland, founded in 1850, was replaced in 1880 by
the Royal University of Ireland, which was dissolved along with Queen's
College, Belfast, on Oct. 31, 1909. On this date the National University of
Ireland, Univ. College, Dublin, and Queen's University of Belfast came into
being, and the Colleges previously known as Queen's at Cork and Galway
became with the new College at Dublin constituents of the N.U.I.

FACULTIES. (1) Arts, (2) Philosophy and Sociology, (3) Celtic Studies, (4)
Science, (5) Law, (6) Medicine, (7) Engineering and Architecture, (8) Commerce.
Music is included in Arts and Celtic Studies. Classes are held in all Faculties
at each of the constituent Colleges, and in 1, 2, 3, and 4 at Maynooth.

DEGREES: B.A., M.A., D.Litt., B.Mus., D.Mus., D.Litt.Celt.; B.Sc.,

COLLEGE OF SCIENCE FOR IRELAND, DUBLIN: TRANSFERENCE TO UNIVERSITY COLLEGE, DUBLIN.—By the provisions of the University Education (Agriculture and Dairy Science) Act 1926 of the Irish Free State the functions of the College of Science have been transferred to University College, Dublin, and special provisions have also been made by the Act for the establishment of new Faculties of General Agriculture and Dairy Science in the University Colleges, Dublin and Cork respectively, with endowment for each of those Faculties. In connexion with the transference the buildings of the College of Science have been leased to University College for a period of ninety-nine years, subject to certain reservations for the accommodation of Government Departments. By the Act equivalent appointments in University College were required to be offered to existing officers of the College of Science—see footnote, p. 330.

The same Act also transferred the Albert Agricultural College and farms to University College, Dublin, on lease for the purposes of the new Faculty of General Agriculture, and existing officers similarly received equivalent appointments therein. New Statutes provide for the organization of the new Faculty, which by its special endowment will provide for a wider development of higher instruction in Agriculture and research related to it than formerly. The Faculty of General Agriculture is placed in University College, Dublin. Apart from the Faculty of General Agriculture in the Dublin College, the main effect of the transference of the College of Science is a limitation in duplication of buildings and equipment in overlapping subjects. The rights of existing officers having been provided for, the educational work is now part of the ordinary University system in University College, Dublin.

Previous to the transference the University and College made regulations for the admission of the students attending the College of Science since 1924 as matriculated students with equivalent credit for their courses and examinations, and many have taken degrees. The

courses for those of the 3rd and 4th years are being held as previously, pending reconsideration of the curriculum in the Session 1926-27. It is assumed that no change will arise in respect of facilities for students of Dublin University such as have been previously given.

In future, as part of University College, Dublin, the qualifications offered to students will primarily be the Degrees of the National University, with such other Diplomas or Distinctions as the University may establish, with transitional measures to provide for those who have not yet completed their courses.

The LABORATORIES are fitted throughout with all modern appliances. Facilities for technical research in all branches of Chemistry, *e.g.* extraction of metals, production of metallic alloys, glazes, enamel, glass, pigments, paints, coal-tar derivatives, peat products, synthetic drugs. Engineering Pattern Shop, Foundry, Smithy, Machine Shop; examples of types of engines aggregating 700 H.P. Hydraulics and Hydraulic Machinery Labs. Testing Machines recording up to 100 tons. Elec. Engin. Labs. with D.C. and A.C. machines. Extensive Physics, Agric., and Nat. Sc. equipment.

LIBRARY with 59,000 Scientific and Tech. books, 10,000 pamphlets, numerous maps, etc.

GENERAL DESCRIPTION

[Contributed by A. Stanley Mackenzie, Ph.D., D.C.L., President of Dalhousie Univ., President for 1920 of the Conference of Canadian Univs. An account by President Walter C. Murray of the Univ. of Saskatchewan, of "University Development in Canada," is to be found in the Transactions of the Royal Society of Canada, Third Series, 1922, vol. xvi.]

It is probably not true to say that Canada has evolved a distinctive type of Univ. ; and yet Canadian higher institutions of learning differ in many ways from the corresponding institutions in the British Isles and in the United States. One might divide Canadian Univs. into groups, determined by the prototype after which each was consciously or unconsciously modelled. In the first group are those which followed closely the Oxford tradition—King's, New Brunswick, Bishop's, Toronto, and some of its federated colleges (University, Trinity, Wycliffe). The Univs. in the second group are those which modelled themselves on Edinburgh, viz. Dalhousie, McGill, Queen's. Laval in Quebec, Laval in Montreal (which has lately changed its name to that of the Univ. of Montreal), and Ottawa have followed closely the forms and tradition of France. The four western provincial Univs. of Manitoba, Saskatchewan, Alberta, and British Columbia, and especially the three last, bear a close resemblance to the State Univs. of the United States. The Univs. which have not been named are perhaps more free from direct imitation of older types.

As the years have gone by, all these institutions, while maintaining individuality and evidences of their original form, have tended to uniformity in many important regards. Thus, they all require four years for the Bachelor (Pass) degree in Arts or in Science. Again, they have a common standard of preliminary education for admission to the course leading to these degrees. This standard is that attained by a satisfactory completion of three years of a High School course superimposed on eight years in the common schools. This standard is called Junior matriculation. If a pupil has successfully completed the fourth year of the High School course in the proper subjects, or passes the equivalent Senior matriculation examination, he can enter the second year and complete the course for the degree in three years. This practically amounts to saying that High Schools or Collegiate Institutes which have a fourth year course give in that year about the same work

as is done in the first year of the Univ. course for the Pass degree. In Ontario the High School Course leading to Junior Matriculation standard covers four years instead of three.

JUNIOR MATRICULATION. Students can satisfy the Entrance requirements of the Univs. either by examination or on certificate from a standard High School or accredited Preparatory School or Collegiate Institute or School, provided such certificate shows a Pass in the Required Subjects of matriculation. These required subjects differ somewhat from one Univ. to another. Practically all Univs. require for candidates for the B.A. degree the following six subjects: (1) English, (2) History, (3) Algebra (through quadratics), (4) Geometry (at least four books), (5) Latin, (6) a second foreign language. There is in nearly every Univ. a seventh subject; it is usually a science (in some cases specified, in others elective), but in many cases a third foreign language is accepted instead.

Where a course in Pure Science is given leading to the degree of B.Sc. the requirements are as above, except that the two foreign languages are French and German.

There is much more variation in the requirements for entrance to the courses in Applied Science, or Engineering; but the best schools of Applied Science require in addition to the requirements (1) to (4) of Arts, Advanced Algebra, Advanced Geometry, Trigonometry, Physics, Chemistry, and at least one foreign language.

The curriculum for students of Medicine has been undergoing a change in all the Canadian Schools. At least a year has been added to the length of the course at each Univ. In general the course of study requires 6 years. In Toronto Univ. these must be taken in the Medical School. In some of the other Univs. the 1st year may be taken in any recognized Arts College; in others the first 2 years (which are largely pure science) may be so taken. The grade of scholarship required as preliminary to this 6-year course at all the Schools is that of Senior Matricn., except at Queen's, where it is Junior Matricn., and at Montreal Univ., where it is the B.-ès-A. Manitoba requires 2 years of pre-medical Arts and Science preparatory to a five-year course in Medicine.

There has been a similar advancement going on in the standard of preliminary education required of students seeking admission to the study of Law. At all the Schools the Law course proper extends over 3 years. Dalhousie, McGill, and Manitoba require 2 years of Arts before admission to this course; the other Law Schools require, in general, the equivalent of one year of Arts.

A year has been added to the standard of preliminary education required of students entering upon the study of Dentistry. It is now the equivalent of the first year of an Arts course. McGill has increased it to 2 years, and this standard may soon become general. The Univ. of Toronto requires only Pass Matriculation for admission to Dentistry, but prescribes a five-year course for the degree.

ARTS COURSE. Speaking very generally, one can say that about one-half of the course for the degree of B.A. is prescribed and the other

half elective; but these elective subjects are commonly to be distributed among certain broad groups of allied subjects in a specified way, varying with the individual Univs. The prescribed work includes English, History, two foreign languages, one of which is usually Latin (British Columbia and Manitoba require only one), Philosophy, Mathematics, and Science. In the case of the B.Sc. degree in Pure Science the two foreign languages required are French and German.

A feature of Canadian Univs. which distinguishes them from the typical Univs. of the United States is the provision made for the ambitious student and the student who wishes to specialize during his course for the B.A. degree. This is accomplished by the provision of the system of Honour courses. In this system a student who shows the necessary aptitude is permitted to take special classes, which in some instances are in extension of the regular classes, and in other cases are restricted to Honour students. In some Univs. the Honour classes are confined to the third and fourth years of the course; in others, as in the case of Toronto, they are given in all four years, and there is also a special Honour matriculation. In general, also, the number of prescribed classes is reduced, so that the student not only goes more deeply into each subject, but specializes to a greater extent than the Pass man is allowed to do. On the completion of an Honour course the student receives a degree with Honours. No small measure of the academic success of Canadian students in post-graduation work in home and foreign Univs. is to be attributed to this system.

By a proper combination of studies a student can complete a combined course for the degree in Arts or Science and that in a professional faculty in a year (in some cases, two years) less than the sum of the years required for each.

LENGTH OF SESSION. The Canadian Univs. open about October 1, and close in May or early in June. The average length of the session is $32\frac{1}{2}$ weeks for all faculties, except those of Medicine and Dentistry, which are 4 weeks longer. Of the $32\frac{1}{2}$ weeks, 26 are given up to actual lecturing, and the remainder to vacations, examinations, and closing exercises.

CONSOLIDATION OF THE COLLEGES IN THE MARITIME PROVINCES. During the last few years a great deal of attention and consideration has been given to this question, which in one form or another is a century-old problem (see article by Murray referred to above). It has come prominently to the fore now because of the impossibility of so many small institutions (mostly sectarian) in a region containing only a million people being able to keep pace with the financial demands of modern education. The Carnegie Foundation for the Advancement of Teaching was invited to send experts to make a survey of the situation. They did so, and made a report, in which they advised that all these institutions should move to Halifax, and join with Dalhousie, already there, in forming a strong central University. Each constituent was to maintain its name, identity, individuality, organization, and funds, but give up its examining and degree-granting powers (except in Divinity) to the Univ. The Colleges should not teach the scientific

subjects nor those subjects for which there would be a small demand, which should be given by the Univ. In general, the Colleges should restrict themselves to the Humanities. The Univ. would conduct all professional schools. The Colleges were to be residential. It will be seen that the scheme was something between that of Oxford and that of Toronto. It was a fair inference to be drawn from the report that, if the various institutions in question would get together, and the governments concerned make a grant-in-aid to the central Univ., the Carnegie Corporation of New York would give the scheme very generous aid. Representatives of the educational institutions and interests held many conferences and agreed upon a scheme of consolidation, and the Carnegie Corporation promised a gift of \$3,000,000. At this stage the scheme was halted, for the time being at least, by the refusal in succession of the Univ. of New Brunswick (non-sectarian), St. Francis Xavier's College (Roman Catholic), and Acadia College (Baptist) to enter it. In the meantime, King's College (Anglican) has moved from Windsor to Halifax, and entered into a close association with Dalhousie Univ. (non-sectarian). The students of both institutions are taught as one body by the combined staffs, except in certain freshman classes (and in Divinity). King's holds in abeyance her degree-granting powers (except in Divinity), and the Univ. conducts all exams. and grants degrees. On the understanding that King's would raise the sum of \$400,000 for the erection of the necessary residential buildings, the Carnegie Trustees undertook to provide \$600,000 to be used as an endowment for the payment of an instructional staff for the combined students. Mount Allison College (Methodist) will not come to a decision until the recently united Methodist, Presbyterian, and Congregational bodies in Canada have had time to give the matter the fullest consideration. The Roman Catholic dioceses outside of that of Antigonish, in which is St. Francis Xavier's College, have the matter under consideration. There is no degree-granting educational institution in the adjoining colony of Newfoundland, but the various interests there are very favourable toward the general scheme of a confederation of the educational forces of Eastern Canada. They have recently organized a Junior College at St. John's for the first two years of the work for the Arts degree. The Carnegie Corporation has promised a grant-in-aid for a period of five years.

The TENTH NATIONAL CONFERENCE OF CANADIAN UNIVERSITIES was held at Dalhousie University, Halifax, June 2-4, 1925. The subjects discussed were: The Arts Course, its purpose and essential elements, The relation of Oriental Students to the Canadian Universities, The Junior College in Canada and in the United States, Admission to the Universities, Student Wastage in Universities, Failures in the First Year, A Freshman Advisory Committee, The Teaching of Modern Languages in Canada, Opportunities in Canada for University Graduates—particularly those engaged in Scientific Work, The Management of University Residences, Publication of the Results of Research. The Executive Committee was authorized to appoint a delegate to the National Association of State Universities. It was agreed that in view

of the holding of the Congress of Universities of the Empire at Cambridge in 1926 the Conference should not meet again until 1927.

President for 1927—Principal Sir A. W. Currie. Secretary-Treasurer—Dean G. H. Ling.

DEGREES IN DIVINITY FOR STUDENTS BELONGING TO THE ANGLICAN CHURCH IN CANADA

The Church Universities and Theological Colleges in Canada having entered into an agreement to adopt a uniform standard for degrees in Divinity, all such degrees are now only conferred in accordance with Canon X of the General Synod of Canada, and only on examn. by a Joint Board, including the Archbishop of Rupert's Land (Chairman), and representatives of the Univs. of King's, Bishop's, and Trinity Colleges, Montreal Diocesan, Wycliffe (Toronto), Huron (London, Ont.), St. John's (Winnipeg), Emmanuel (Saskatoon), St. Chad's (Regina), Anglican Theol. Coll. of B.C.

NOVA SCOTIA TECHNICAL COLLEGE, HALIFAX

This institution represents the principal effort of the province in University training. It is supported entirely from provincial revenues. Through a co-operative agreement, a uniform matriculation and a uniform engineering course covering the general work of the freshman and sophomore years is carried out entirely in the Univs. of Acadia, Dalhousie, King's, Mount Allison, St. Francis Xavier, and St. Mary's College. On successful completion of this course, the student proceeds to the Technical College without examn. for the professional work of the last 2 of the 4 yrs.' course. Here the studies are differentiated and the student elects either Civ., Elec., Mech., or Mining Engineering. The degree given is that of B.Sc. The Technical Coll. confines its attention entirely to the work of the junr. and senr. yrs. It is equipped principally for teaching the engineering courses and commercial testing of industrial materials and natural resources, and incidentally for scientific research. Tuition fees: \$75 p.a. Twenty county scholarships of \$75 p.a. are available for Nova Scotians. The buildings and equipment represent a provincial investment of about \$500,000. [*Contributed by the Department of Technical Educn., N.S.*]

MARINE BIOLOGICAL STATIONS

Under the control of the Minister of Marine and Fisheries through the Biological Board of Canada, two Atlantic Stations at St. Andrews, N.B., and Halifax, N.S., and two Pacific Stations at Nanaimo and Prince Rupert, B.C., are open to duly qualified and recommended university graduates from June to Sept. The Halifax Station, established in 1925 for educational and experimental work in connexion with fisheries, co-operates with Dalhousie Univ. and the Technical College. The more fundamental research is carried on at St. Andrews and at Nanaimo. Publications: Annual Prospectus and series of Reports, Bulletins, studies and popular leaflets. Directors: Prof. A. G. Huntsman of Toronto (Atlantic) and Dr. W. A. Clemens (Pacific).

THE CARNEGIE FOUNDATION FOR THE ADVANCEMENT OF TEACHING

The object of the Foundation, which was established in 1906 with resources which now amount to 30 million dollars, is to provide retiring allowances and pensions, and, "in general, to do and perform all things necessary to encourage,

uphold, and dignify the profession of the teacher and the cause of higher education." It operates both in the U.S.A. and in Canada. The following classes of persons are eligible for retiring allowances: (1) A person in an institution on the associated list who (a) is 65 years of age and has served not less than 15 years as professor, or not less than 25 years as instructor or as prof. and instr., or (b) has served 25 years as prof. or 30 years as instr. or as prof. and instr., and who is shown by medical examn. to be entirely unfitted by disability for continuing the work of teacher; (2) a widow who has for 10 years been the wife of any teacher of class (a) or (b). The direction of the Foundation is entrusted to a board of 25 trustees, mostly university and college presidents. The offices of the Foundation are at 522 Fifth Avenue, New York City.

The list of associated institutions includes BRITISH COLUMBIA, DALHOUSIE, MCGILL, QUEEN'S, and TORONTO. Up to June 1926, 1326 allowances had been granted, including 72 in Canada and 5 in Newfoundland.

In addition to its work in connexion with the payment of pensions the Board of Trustees has undertaken the issue of various publications and their free distribution. Among these is a bulletin on Higher Education in the *Maritime Provinces of Canada*.

NATIONAL COUNCIL OF EDUCATION

THE NATIONAL COUNCIL OF EDUCATION, Canada, was organized at a Conference on Education in relation to Citizenship held in Winnipeg in 1919. With the co-operation of Universities and Departments of Education the Council is developing a Bureau of Education, and has organized a system of National Lectureships whereby eminent lecturers are brought from Great Britain to Canada. The Bureau facilitates exchange of information between the provincial departments of Education, the diffusion in Canada of ideas and information from outside the Dominion and *vice versa*. Triennial Conferences on Education are held, the next of which will be in Victoria in 1928. The Executive Secretary's address is Boyd Building, Winnipeg.

THE PROVINCIAL INSTITUTE OF TECHNOLOGY AND ART, Calgary, is under the authority of the Department of Education. Affiliated May 13, 1926. Principal—W. G. Carpenter.

GENERAL INFORMATION (v. also p. 340)

Telegraphic address—VERA (A.B.C. Code).

The University, created by act of the Provincial Legislature, 1906, originally consisted of a Chancellor, Vice-Chancellor, Senate, and Convocation. By

amendment the office of President was created 1907, and a Board of Governors 1910, the latter being given financial and administrative control, while the Senate was restricted to educational supervision. Student residences, Athabasca, Assiniboia, and Pembina Halls, were opened in 1911, 1912, and 1914 respectively, while the main teaching and administrative building was completed in 1915. Classes began September 1908. In 1912 extension work, conducted from the beginning, was departmentalized under a Secretary. In the same year a Faculty of Law was created. Subsequent expansion involved the establishment of Faculties of Applied Science and of Medicine, 1913; Faculty of Agriculture, 1915; courses in Pharmacy and in Dentistry, 1914 and 1917 respectively; in Household Economics, 1918; in Commerce and in Public Health Nursing, 1921. In 1919-20 the extraordinary increase in the number of medical students necessitated the construction of a new Medical Building. In the same session the creation of the office of Director of the School of Pharmacy completed the evolution of the School from a Department under the Faculty of Medicine to an independent unit. The Provincial Legislature has established a close relationship between the Univ. and the Professions, and the Senate now has jurisdiction over the educational standards of Architects, Chartered Accountants, Dentists, Engineers, Land Surveyors, Lawyers, Pharmacists, Physicians and Surgeons, Registered Nurses, Optometrists, and Veterinary Surgeons.

The University grounds, 637 acres, beautifully situated on the wooded south bank of the Saskatchewan, include provision for the accommodation of affiliated colleges and afford ample room for expansion. Edmonton is a city of about 65,000 inhabitants, the capital of the Province of Alberta (area 250,000 sq. m.; pop. 600,000).

LIBRARY, 30,000 vols. **LABORATORIES** for all scientific courses; museum; herbarium; farm; agricultural experimental plots.

FACULTIES. Arts and Sciences (including Household Economics, Pharmacy and Commerce); Applied Science (Civil, Mining, and Electrical Engineering and Architecture); Medicine (including Dentistry and Nursing); Law; Agriculture.

MATRICULATION examns. are conducted in April, June, and Sept., under control of High School and Univ. Matricn. Examns. Board of the Province. Equivalent examns. by recognized authorities in the British Dominions are accepted *pro tanto* for admission.

DEGREE COURSES. 4 yrs.—B.A., B.Sc. in Arts, B.Com., B.Sc. in Household Ec., in Engin. (Civ., Elec., or Mining), in Archit., or in Pharmacy, LL.B., D.D.S.; 3 yrs. ST. JOSEPH'S COLLEGE was chartered by the Legislative Assembly of Alberta at the session of 1926 and affiliated to the Univ. in May. It is an Arts College working under the authority of the Univ. Senate and in harmony with the standards and regulations maintained by the Faculty of Arts and Sciences. It was granted a site on the University Campus, on which a combined residential and teaching building is now in course of erection. The estimated cost is \$200,000, half of which was raised by public subscription and half by a grant from the Carnegie Corporation.

A new HONOURS scheme in the Faculty of Arts and Sciences was adopted, raising by one year the standard of entrance to honours courses, which will now cover 4 years from Senior Matriculation.

DEGREES FOR PROVINCIAL TEACHERS ATTENDING SUMMER SESSION. It was ordained that teachers holding a first-class certificate and having had at least 3 years of professional service who attend a course at the Summer Session may under certain conditions secure credit for the course by passing the ordinary annual Univ. exams. in the following spring.

AFFILIATED COLLEGES

VICTORIA COLLEGE, Victoria. Affiliated, 1920, for 1st and 2nd years in Arts. Principal—E. B. Paul, M.A., LL.D. Aberd., Assoc. Prof. of *Classics*. Other Profs.—P. H. Elliot, M.Sc. McG., Assoc. Prof. of *Science*; Jeanette A. Cann, B.L. Dal., Asst. Prof. of *Engl.* and *Philos.*; Mme. E. Sanderson-Mongin, Asst. Prof. of *French*.

WESTMINSTER HALL, Vancouver (Theological)—W. H. Smith, M.A., Ph.D., D.D., and THE ANGLICAN THEOLOGICAL COLLEGE OF BRITISH COLUMBIA, Vancouver—Rev. W. H. Vance, M.A., both affiliated in 1922.

RYERSON COLLEGE, Vancouver (Theological)—Rev. J. G. Brown, M.A., affiliated in 1924.

GENERAL INFORMATION (v. also p. 340)

Telegraphic Address—UBRICO.

An Act of the Provincial Legislature was passed in 1890 establishing a University of British Columbia, but it lapsed in 1891. Vancouver High School was affiliated to McGill for the first year in Arts under the name of Vancouver College in 1899. In 1902 Victoria High School was similarly affiliated as Victoria College. In 1906 the Royal Institution for the Advancement of Learning of B.C. was incorporated, and established the McGill Univ. Coll. of B.C., taking over, by agreement, the Arts work of Vancouver College (extended in 1908 to include the 3rd yr. in Arts), and adding 2 yrs. of Applied Science. In 1907 Victoria College was incorporated in the Univ. Coll. The connexion with McGill was brought to a close in 1915, when the University of British Columbia, incorporated by an Act of 1908, and endowed with 2,000,000 acres of land, was opened, with provision for a complete course in Arts and 3 yrs. in Applied Science. In 1920 all lands in the Province which had been set aside for higher education reverted to the Provincial Government, but it was arranged that the net proceeds from the sale of lots or lands in an area of 3000 acres at Point Grey should be paid into a "University Endowment Account." The University site consists of 548 acres on the headland of Point Grey, 300 feet above the sea. Here a group of buildings constructed at a cost of nearly \$2,000,000 was opened in Oct. 1925.

The Board of Governors consists of the Chancellor, elected by Convocation, President, and 9 nominees of the Lieut.-Govr. in Council. The Senate consists of the Minister of Educn., Chancellor, President (as Chairman), Deans, and 2 Profs. of each Faculty, 3 nominees of the Lieut.-Govr. in Council, Supt. of Educn., principals of normal schools, one member elected by high school principals and assts., one by Provl. Teachers' Inst., one by each affiliated Coll. or School in the Province, 15 by Convocation.

The Univ. is an integral part of the public educational system of the Province, and its function is to complete the work begun in the public and high schools. It is the policy of the Univ. to promote education in general and, in particular, to serve its constituency through three channels—teaching, research, and extension work. As regards teaching it furnishes instruction in the various branches of a liberal education, and in those technical departments which are most directly related to the life and industries of the Province. The people of the Province are informed of the results of special work by the staff of the Univ. through extension lectures. Lecturers are sent to various parts of the Province during the examination weeks in Dec. and April. In places which can be visited without prejudice to the duties of the lecturer at the Univ., lectures are arranged to take place during term.

The LIBRARY has nearly 56,000 vols. and over 10,000 pamphlets, and regularly receives 450 periodicals. LABORATORIES available for all courses. A Forest Products Lab. (with two Olsen Universal Testing Machines of 200,000 and 30,000 lb. capacity respectively and one Hatt-Turner Impact Testing Machine) was established in 1918 by the Forestry branch of the Dept. of the Interior as a permanent branch of the F.P. Labs. of Canada. HERBARIUM, 16,000 sheets native flora, 200 water colours B.C. Fungi. BOTANICAL GARDENS, Arboretum and economic section, 5 acres.

FACULTIES. Arts and Science, Applied Science (Civil, Elec., Mech., Forest, Geological, Metallurgical, Mining, and Chemical Engineering, Chemistry, Nursing and Health), Agriculture (including Dairying and Horticulture).

PENSION SCHEME. In 1924 a contributory plan of retiring allowances for members of the teaching staff was adopted, contracts being placed with the

Teachers' Insurance and Annuity Assocn. of America. The same year the Univ. was associated with the Carnegie Foundation for the Advancement of teaching, v. p. 344.

MATRICULATION examns., Junior and Senior, are arranged by the High School and Univ. Matricn. Board of the Province, consisting of members appointed by the Dept. of Education and by the Univ. Every student is submitted to a physical examn. on entrance.

DEGREE COURSES. B.A., 4 yrs. (3 from Senior matricn.). B.A.Sc. in Applied Science, 4 yrs. (following 1st yr. in Arts or Senr. matricn.). A degree course in Nursing covers 5 yrs., including 2 yrs. of hospl. training. B.S.A., 4 yrs. from Junr. matricn. Double course, B.A. and B.A.Sc., 6 yrs. Courses for the M.A., M.A.Sc., and M.S.A. **SHORT COURSES** in Mining, 8 weeks, Jan.-March; in Agric. at the Univ. and elsewhere. Evening courses, with summer excursions, in Botany. Summer courses.

SUMMER SESSION. In 1922 the summer school for teachers became the summer session. Teachers and others with full Matricn. standing may pursue Univ. courses and receive credit therefor towards the B.A. degree. As yet courses beyond those of the first three years are not offered.

FEES, inclusive, \$100-\$150 per session. Graduation, \$20.

SCHOLARSHIPS FOR GRADUATES. \$200 awardable to graduate for further studies; three of \$100, one being for Applied Science and one for Canadian History; \$1200 p.a. for 3 yrs. for study in France.

RESIDENCE. Board and lodging in vicinity of the College from \$40 to \$50 p.m.

UNIVERSITY EXTENSION. Numerous lectures have been given under Univ. auspices in different centres in the province, but adult education has not yet been given the status of a Department. The selection of speakers and of subjects is made by a Standing Committee on Univ. Extension, which provides series of connected lectures throughout the winter. Short courses of 4 days' duration have been conducted for a number of years with marked success. Present indications are that 3-yr. tutorial classes will not be organized in the Univ. for some time. The *Vancouver Institute* co-ordinates efforts of various organizations in the field of adult education.

PUBLICATION. *Calendar* (April); University Extension Committee's bulletins.

THE YEAR 1925-26

The new buildings at Point Grey, three permanent and nine semi-permanent, were completed. They were opened on Oct. 16, 1925, by Sir Arthur Currie, Principal of McGill Univ. Their cost amounts to \$2,757,625; that of their equipment to \$481,671. Honorary degrees conferred on that occasion: LL.D.—Hon. W. C. Nichol, Sir A. W. Currie, Hon. J. D. MacLean, H. Suzzallo, J. S. Plaskett, H. E. Young, R. E. McKechnie.

GENERAL INFORMATION (v. also p. 340)

Dalhousie College, founded in 1818 by the Earl of Dalhousie, was in 1841 granted Univ. powers, but was closed in 1845 for want of sufficient funds. In 1863 it was reorganized and opened with a staff of 6 Professors. In 1877 the Faculty of Science was organized, and from 1879 development proceeded rapidly with the help of the benefactions of George Munro of New York (\$350,000), Alexr. McLeod of Halifax (\$65,000), and Sir Wm. Young (\$88,000). The Faculty of Law was established in 1883, the School of Mines in 1902. In 1911 the Halifax Medical College, into which the Faculty of Medicine (organized in 1868) had been merged, was acquired by the Univ., and the College of Pharmacy was established with its co-operation. In 1912 the work of the Maritime Dental College was taken over by the Univ. In this year \$400,000 was collected for a new site (40 acres) and buildings, etc., towards which Andrew Carnegie gave \$40,000. Further benefactions amounting to \$200,000 were received in 1915-18. In connexion with centenary celebrations in 1919 subscriptions amounting to \$2,250,000 were obtained.

Appointments to the Board of Governors are made by the Govr.-in-Council on the nomination of the Board or on the nomination, with the approval of the Board, of individuals or bodies supporting chairs.

GENERAL INFORMATION (v. also p. 340)

Postal Address—King's College, Halifax, N.S.

Opened in 1789 at Windsor, N.S., the College was established with full University powers by Royal Charter in 1802. In Sept. 1923, following the recommendation of experts commissioned by the Carnegie Foundation for the Advancement of Teaching, who advocated the policy of bringing together the colleges of the Maritime Provinces in one central Univ. at Halifax, the Univ. removed to Halifax and became associated with Dalhousie Univ.—the first step towards a federation of the maritime colleges. The staffs in Arts of the two Univs. are combined in one faculty. The first year courses are given independently to the students of Dalhousie and of King's; but with this exception students of both institutions follow on equal terms the same courses leading to the same degrees. King's holds in abeyance her degree conferring power in Arts and Science, but retains complete control of her Divinity School as well as of her present endowments, administration of residences, etc. Under the terms of the agreement between Dalhousie and King's, the Carnegie Foundation has set aside \$600,000, which will be handed over to King's when a sum sufficient to establish the College in Halifax has been raised. The School of Law which was established in connexion with the College, in St. John, N.B., in 1892, was transferred to the Univ. of New Brunswick in Sept. 1923, when King's College removed to Halifax. The Univ. is governed by a Board consisting of the Bishops of the dioceses of Nova Scotia and Fredericton and the President of the Univ. *ex officio*, together with 10 members elected by the Alumni Assocn. and 8 elected by each of the diocesan Synods.

Students from the JAMAICA CHURCH THEOLOGICAL COLLEGE who, after a residence of six terms there, pass the required exams. in the subjects of the Divinity course at King's, may receive the diploma of L.S.T.

INSTITUTIONS ANNEXED OR AFFILIATED TO THE UNIVERSITY

["Annexion" implies absolute control by the Univ. of the programmes of study and of the nomination of the staff. "Affiliation" or—in the case of an institution outside the province of Quebec—"agrégation" involves control by the Univ. of examinations.]

ÉCOLE D'ARPEMENT ET DE GÉNIE FORESTIER (Surveying and Forestry). Founded by Govt. and annexed to the Faculty of Arts. Director, Avila Bédard, Prof. of Forestry. 11 other Profs.

ÉCOLE AGRICOLE DE STE. ANNE DE LA POCATIÈRE, affiliated. Director, Prof. N. Pelletier. 12 other Profs.

ÉCOLE SUPÉRIEURE DE CHIMIE. Annexed to the Faculty of Arts. Director, A. Vachon. 7 other Profs.

ÉCOLE NORMALE SUPÉRIEURE. Annexed to the Faculty of Arts. Director, Prof. F. Pelletier. 10 other Profs.

ÉCOLE DE MUSIQUE. Annexed to the Faculty of Arts. Director, J. A. Gilbert. 6 other Profs.

ÉCOLE DE PHARMACIE. Annexed to the Faculty of Arts. Director, A. E. Francœur.

ÉCOLES DE GARDE—MALADES.

ÉCOLE SUPÉRIEURE DE PHILOSOPHIE. Director, Mgr. L. A. Paquet, D.D. Rom., and 4 other Profs.

GRANDS SÉMINAIRES. (Pupils obtain the B. en Th. by passing a certain number of quarterly examns. in the Seminary.) Québec (comprising Theol. students under its jurisdiction or following its courses); Ste. Anne de la Pocatière (Coll. de Ste. Anne); Rimouski; Chicoutimi; Nicolet; Trois Rivières.

ENSEIGNEMENT SECONDAIRE MODERNE ET CLASSIQUE. Numerous institutions are affiliated to the Univ. under conditions providing for complete preparation for Inscription and the Baccalauréat.

GENERAL INFORMATION (v. also p. 340)

The Univ. was founded by the Seminary of Quebec in 1852 under a Royal Charter. A general supervision of teaching and discipline is exercised by the Archbishop of Quebec as Visitor and Chancellor Apostolic and President of the Conseil Supérieur of Archbishops and Bishops of the Province. The Profs. of the Faculty of Theology are nominated by the Visitor, those of other Faculties by the Conseil de l'Université, composed of the Directors of the Seminary of Quebec and 3 Senior Profs. of each Faculty.

LIBRARIES, 173,016 vols. MUSEUMS: Mineral, Geol., Bot., Zool., Ethnol., Relig., Paintings, Coins. LABORATORIES: Chem., Phys., Bact., Biol., Physiol.

FACULTIES. Arts (with Schools of Surveying and Forestry, Chemistry and Training for Teachers annexed), Theology, Law, Medicine.

DEGREES AND DIPLOMAS. The Univ. perpetuates the stages by which a Degree was, and still is, reached in the Univ. of Paris. The Baccalauréat (B. ès A., etc.) is not the equivalent of any of the English Degrees, but is an official certificate (recognized by the Govt.) that the student has successfully completed his literary and scientific studies, and is entitled to begin his professional studies in law, medicine or applied science. It is obtained before he leaves the affiliated Institute, Seminary or College at which he has studied. Students who reach a certain standard in both Letters and Sciences obtain the B. ès A.; those who reach this standard in either and a certain lower standard in the other obtain the B. ès L. or B. ès Sc. The course for the Licence covers 2 yrs. in Philos. (L. en Ph.) or Letters (L. ès L.); 3 yrs. in Theol. or Law (L. en Th. or Dr.). To obtain the D. en Ph. or D. en Dr. it is necessary to support successfully in public a thesis and propositions as in other French Univs. The D. en Th. and D. en M. or M.D. are granted after examn.

The complete medical course formerly lasted only 4 yrs., but since Jan. 1909 has, in accordance with the regns. of the Provincial Coll. of Phys. and Surgns., been framed so as to cover 5 yrs. The Baccalauréat, however, may be taken on the completion of 2 yrs. The Doctorat gives admission to the examn. for the Diploma of M.R.C.S. Lond. Inscription in Arts is recognized as corresponding to the Prelim. examn. of the R.C.S. Lond. The examns. for the Dipl. of Hygiéniste expert may be taken by a D. en M. after a 6 mos.' course.

The Diploma in Forestry and in Surveying implies 4 yrs.' study in the Sch. of Surveying and Forestry.

The new École de Chimie provides a 4 yrs.' course leading to a Licence and to a Doctorate in Chemistry.

RECOGNITION of the B. ès A. of Laval is accorded by the Univs. of Rome, of France and of Louvain, and by Canadian Univs., and some of those of the U.S.A. (v. also p. 293).

FEES for tuition, \$100 to \$185 p.a.

SCHOLARSHIP OPEN TO GRADUATES. \$400 p.a. for 2 years.

PUBLICATION. *Annuaire* (July).

GENERAL INFORMATION (v. also p. 340)

The Hon. James McGill, of Montreal, who died in 1813, bequeathed 46 acres of land, with some buildings and £10,000, to found a college, and in 1821 the Royal Institution for the Advancement of Learning, the trustees for the purposes of the bequest, obtained a Royal Charter (amended in 1852) under which the work of teaching was begun in the Faculties of Arts and Med. in 1829. The Governors are the members of the Royal Institution above mentioned. Their number is limited to 25, and vacancies are filled by nomination

of the remaining members, with the approval of the Visitor. The Govrs., Principal, and 42 Fellows (representing faculties and depts., grads., affil. colls., and other bodies) constitute the Corporation, the highest academical body, which frames regulations. The Peter Redpath Museum was opened in 1882, the Redpath Library in 1893, Royal Victoria Coll. in 1899, the Conservatorium in 1904. Macdonald College was opened in 1907, and in 1911 Sir Wm. Macdonald purchased for the use of the Univ., at a cost of \$1,117,640, 25 acres of land, destined for students' residences and athletic grounds. The same year \$1,550,000 was raised for the Univ. chiefly from Montreal citizens. Sir Wm. Macdonald bequeathed nearly \$2,000,000, of which \$500,000 was for the Medical Faculty and \$300,000 for the Conservatorium. In 1918 the Carnegie Corporation, New York, gave \$1,000,000 in recognition of McGill's service and sacrifice in the Great War. In 1920 the sum of \$1,000,000 was given by the Rockefeller Foundation for the Faculty of Medicine; \$1,000,000 by the Provincial Govt. for general purposes; and \$4,400,000 was raised from the graduates and the citizens of Montreal as a general endowment. Income from Investments, about \$1,000,000.

SPECIAL FEATURES. The provision for instruction and research in Applied Science is exceptionally ample, especially in Engin. in all its branches. The Med. School also is exceptionally strong.

LIBRARIES, 242,000 vols. (Medical, 38,000; large Ophth. Dept.) and 31,000 pamphlets; Peter Redpath collection of 10,000 political and religious tracts dating from A.D. 1600; E. S. INTERCHANGE OF STUDENT TEACHERS. Maxwell MacOdum, M.A., who holds the Teachers' Studentship as arranged by an interchange with the National Committee for the Training of Teachers, Scotland.

WINTER COURSE IN AGRICULTURE. The Winter Course in the Faculty of Agriculture has been extended from one year to two years. This course is intended to provide a general education for boys who intend to farm, and equip them with such a technical knowledge of agriculture as will enable them to

deal with the problems arising in connexion with their work. The work is so arranged that students may choose subjects that definitely relate to the type of farming in which they are most interested.

Closely connected with this extension is the "old country boy" project, under which boys from the British Islands are encouraged to take up this diploma course at Macdonald College so as to fit them for the work of farming, and every effort is made, not only to give them the theoretical education that is needed, but also the practical. Since this plan was put into effect a year or two ago forty-three boys, representing thirty English public and secondary schools, have been placed on selected farms.

GENERAL INFORMATION (v. also p. 340)

In 1887 Toronto Baptist College and Woodstock College, Woodstock, were united under the name of McMaster University, and their already existing endowments were increased by \$900,000, received under the will of the Hon. Wm. McMaster. The Board of Governors (16) are elected by the Baptist Convention of Ontario and Quebec. There is no religious test for entrance, but the Profs. and Lectrs. must be members of some evangelical church. Woodstock Coll. and Moulton Ladies' Coll., Toronto (founded in 1888), are represented on the Senate.

LIBRARY, 26,000 vols. **LABORATORIES**: Phys., Biol., Chem., Mineral. Science Hall has 24 lecture rooms and labs.

DEGREE COURSES. 4 or 5 yrs., B.A.; 3 yrs. (after completing 2 yrs. of Arts course), B.Th.; 6 yrs., combined B.A. and B.Th. The first 2 yrs. in Arts do not necessarily involve attendance at lectures. Brandon Coll. provides instruction in Swedish for immigrants from that country.

The B.A. degree is recognized by the Univ. of London; v. p. 110.

HIGHER DEGREES. Open to B.A. after 1-yr. course (attendance at lectures not required)—M.A.; to B.Th. who are also B.A. and have taken 3 yrs. in Hebrew, involving 1 yr. of study after graduating as B.Th.—B.D.

DIPLOMA. English Theol., 3 yrs.' course.

CERTIFICATE. Missionary Training for women.

ADULT EDUCATION. For adults who have not the necessary foundation for admission to the English Theol. or Women's Missionary course, a year of literary and biblical work qualifying for such admission is provided.

FEES. Annually, for tuition, examn., library—Arts, \$75, Theol., \$20. For student organizations, athletics, etc., men, \$7, women, \$9.

RESIDENCE. Board and room per session, men, in McMaster Hall, \$240; women, in Wallingford Hall, \$9 a week.

PUBLICATIONS. *Calendar* (June); *McMaster Monthly* (students' magazine); *McMaster Graduate* (pub. by Alumni Assn.), three times a year.

THE YEAR 1925-26. *Retirements*: P. S. Campbell, E. M. Keirstead. *Resignation*: M. C. Welch. *Students*: Full-time, preparing for first degree, 276 (including 100 women); graduates, 48 (w. 9). GENERAL INFORMATION (v. also p. 340)

Established in 1877 mainly as an examining and degree-conferring body, the Univ. was in 1900 empowered to give instruction. In 1917 a Board of Governors, appointed by the Lieut.-Govr., was constituted, and the functions of the Univ. Council, until then the governing body and composed largely of representatives of the affiliated Colleges, were limited to general charge of the academic work. The Univ. has the sole power of conferring degrees in Arts, Science, Law, Med., Engin., Pharmacy, Agric., and Archit. in the province. It received in 1898 from the Dominion Govt. a land grant of 150,000 acres.

Winnipeg, the capital of Manitoba, with its environs, including the neighbouring city of St. Boniface, has a population of over 270,000. Most of the university buildings at present occupy a site in the heart of the city. The Agricultural College is at Fort Garry, 7 miles distant.

LIBRARY, 40,000 vols.; 450 periodicals received. In the Medical building is housed the library, 2000 vols. of the Manitoba C.P.S. The Agric. College has a library of 6700 volumes, and receives 142 periodicals. LABORATORIES: Anat., Bact., Bot., Chem., Engin. (Material testing—200,000 lbs., Cement, Elec.), Geol. and Mineral., Path., Physics, Physiol., Zool. MUSEUMS: Anat., Embry., Bot., Geol., Path. HOSPITALS available for clinics: 2 general (1000 beds) and several special, including tuberculosis. FARM on Agric. College estate (676 acres).

FACULTIES. (1) An Arts and Science Faculty providing instruction in all subjects of undergraduate courses in Arts (except 5 options), Science, and Phm. (2) Medicine. (3) Engineering and Archit. (4) Agriculture and Home Economics. Other subjects of Arts course are taught in the affiliated Colls. Law is taught in the Manitoba Law School, which is under the direction of trustees jointly appointed by the Univ. and the Law Society of Manitoba.

MATRICULATION examns. are conducted in June by the Provincial Educ. Dept. and in Sept. by the Univ. Matricn. examn. subjects for Arts or Science courses are English, Hist., Maths., Latin or Greek or French or German; a second language or 2 of the following—Physics, Chem., Genl. Science I., Genl. Science II.; a third language or 2 sciences not already taken, or 1 science not already taken with Home Econ. or Indust. Arts or Music or Agric. or Comml. work. Exemption is allowed from examination for Matriculation standing in the subjects of Grades IX. and X. Matricn. to pupils of the Collegiate Institutes of the province, or of the Preparatory schools in connexion with the affiliated Colleges, who are recommended for such exemption by their school principals. Entrance requirements for Medicine are clear standing of two pre-medical years in Arts and Science; for Law standing of 2nd year in Arts, with Latin to the end, at least, of the 1st yr.; and for Engineering standing of one pre-engineering year in Arts and Science. Members of any British or approved Univ. may be admitted *ad eundem statum* or *gradum* without Entrance examn.

DEGREE COURSES. 4 yrs.—B.A., B.Sc., B.Sc. (C.E. or E.E.), B.Sc. (Phat.), B.Arch.; 3 yrs., following 2nd yr. in Arts or its equivalent—LL.B.; 5 yrs., following 2 pre-medical yrs.—M.D.; 5 yrs.—B.A. (Hons.), B.Sc. (Hons.), B.S.A., B.Sc. (H.Ec.). Graduates in Med. of at least 2 yrs.' standing with certain prescribed training and experience may obtain C.M. on passing written, oral, and practical examn., and presenting a satisfactory thesis.

ATTENDANCE at lectures is obligatory for all except extra-mural students. Extra-mural students may not take courses in Med., Sc., Arch., or Engin., or any course in Arts involving oral, practical, or lab. work, nor may they appear at examns. without permission of the Bd. of Studies. Extra-mural registration in Arts is limited to students resident in Manitoba, and a minimum of 1 yr.'s attendance at this or another approved Univ. is exacted before the B.A. is conferred.

A **UNIT SYSTEM** has been adopted in the Arts and Science Faculty, the unit being "a body of work to which is assigned for instructional purposes one hour of lecture or other class-room exercise per week or one continuous laboratory period of 2 or 3 hours per week, throughout an entire session, or the equivalent." 40 units of credit in the "Junior Division" (work normally done in first two sessions) and 32 in the Senior Pass Division (for Honours, 48 in the Senior Honours Division) are required for the degree. For the B.A.—English (2 yrs.), a foreign language (2 yrs.), Maths (1 yr.), and History (1 yr.) are compulsory.

The M.A. may be obtained by candidates possessing the Honours B.A. of Manitoba, or an equivalent degree, by an extra year of full-time study under the direction of a committee of instructors. Candidates for the M.A. possessing the pass B.A. of Man., or an equivalent degree, must first obtain 16 units of credit in Honours Courses. A thesis is required as well as examn.

The M.Sc. requirements are at least one yr.'s grad. work in one or more of the Sc. depts. of the Univ. (incl. Maths.) or in the dept. of Civil Engin. or that of Elect. Engin., an examn. and a thesis. Candidates for the M.Sc. possessing the pass B.Sc. of Man., or an equivalent degree, must first obtain 16 units of credit in Honours Courses. While taking the LL.B. course a student may simultaneously obtain the Law Society's qualification for practice. An extra-mural course in Law may be taken by students residing in Manitoba elsewhere than in Winnipeg or environs, and by graduates in Arts of an approved Univ. residing elsewhere. The LL.D. is honorary.

In the B.Sc. Engineering courses summer work and thesis relating thereto are required.

2 yrs.' service in an Architect's office following graduation (B.Arch.) will qualify for licence to practise.

DIPLOMAS. Pharmaceutical Chemistry (2 yrs.' course); Agriculture (3 yrs.). In *Dentistry* the Univ. is the sole examining body in the province. The Univ. conducts examns. for admission to the Man. Asscn. of Graduate *Nurses*, to the practice of *Accountancy* and membership of the Inst. C.A. of Manitoba, to the practice of *Architecture* and membership of the Man. Association of Archts.; also qualifying examns. for the Man. Civil Service.

FEES. Tuition and examn. in Arts and Sc., \$80 p.a.; Engin. and Arch., \$110; Phm. Dipl. course, \$90; Degree course (4 yrs.), \$80, \$90, \$90, \$90; Med., 1st, 2nd, 3rd, and 4th yrs., \$185, 5th yr., \$60; Law, \$108. Licence to practise Med., \$100. Agr. GENERAL INFORMATION (v. also p. 340)

Established, as a branch of Laval, Quebec, in 1878, with Faculties of Theology and Law, to which were added Medicine in 1879 and Arts in 1887. Since 1889 this Institution has been practically independent of, though receiving its degrees from, Quebec, and on Feb. 14, 1920, it was incorporated under its present name by an Act of the Provl. Legislature. In 1920 Faculties of Pure Science and of Letters and a School of Social, Economical, and Political Sciences were formed; in 1921 the School of Dental Surgery was made a separate Faculty, and the Conservatory of Music was affiliated; in 1922 the Faculty of Philosophy was created. A Radium Institute was created in 1923. The general administration is conducted by a Senate, Commissions of Admn. and Studies, Univ. Council and Exec. Committee. Endowments: \$4,000,000 from a national subscription (1920), \$1,000,000 from the Provl. Govt., and \$1,000,000 from the Seminary of St. Sulpice.

LIBRARY, 125,000 vols. Each Faculty and School has the necessary teaching collections and laboratories.

GENERAL INFORMATION (v. also p. 340)

THE UNION CHURCH of Canada now controls the administration, which is, however, conducted on strictly non-sectarian principles; a considerable number of the students belong to other religious denominations. The Univ. is named after C. F. Allison, founder (in 1843) of "Mt. Allison Wesleyan Academy," the Trustees of which were, by an Act of the Legislature of N.B. in 1858, authorized to establish as a degree-conferring institution, "Mt. Allison Wesleyan College." This name was changed in 1886 to "Univ. of Mt. Allison Coll." and in 1913 to "Mt. Allison Univ." In 1903 the McClellan School of Applied Science was opened in the Univ.

GENERAL INFORMATION (v. also p. 340)

The "College of Bytown," incorporated in 1849, changed its name in 1861 to "College of Ottawa," and became in 1866 the Univ. of Ottawa with power to grant degrees. By a papal brief dated Feb. 5, 1889, it was accorded the status of a Catholic University. The Univ. is conducted by the Oblate Fathers of Mary Immaculate.

AFFILIATED INSTITUTIONS. 4 Convents, a Seminary and 2 Academies at Ottawa; St. Joseph and Sacred Heart Academies at Hawkesbury, Ont.; College of Sacred Heart, Sudbury, Ont.; College Mathieu, Gravelbourg, Sask.

LIBRARY, 25,000 vols. The Parliament Library, to which students have access, has 300,000 vols. **MUSEUMS:** In the Univ.—Geol.; access also to Geol. Survey Dept. Museum. The Dominion Observatory and Canadian Fisheries Museum are located in Ottawa. **LABORATORIES:** Chem., Phys., Mineral.

DEGREES, ETC. B.A., M.A., B.L. (Lit.), B.Phil., B.Th., D.Th., LL.D. (Hon.), Lic. Phil., D.Phil., Lic. Th. The Arts course leading to the B.A. or B.L. covers 4 yrs., the work of the Fourth to the Seventh "Forms," that of the first 4 Forms being preparatory to matricn. Extra-mural students may appear for examn. without attending classes in the Univ. for more than 1 yr. The B.A. exempts law and medical students from Prelim. Examns. and entitles the former to a reduction of 2 yrs. of the ordinary 5 yrs.' course. The B.Th. and the L.Th. involve respectively 2 and 3 yrs.' study of Theology after the completion of a classical course; the B.Ph. and the L.Ph. respectively 3 and 4 yrs.' study after matricn. Marks assigned for the exercises of students are read in public once a month, and monthly reports are sent to parents.

FEES. For Tuition and Board Residence per half-year, \$300. Degrees from \$5 to \$75.

RESIDENCE. Students whose homes are not in Ottawa are required to live in the Univ. building, where they are subject to strict discipline—*e.g.* no book or newspaper may be introduced without having been previously examined and approved of by the Prefect of Discipline.

DEGREES GRANTED (1926). B.A., 23; B.Ph., 23; L.Ph., 14; B.Th., 2; L.Th., 6; D.Th., 2; LL.D., 1.

AFFILIATED COLLEGE

QUEEN'S THEOLOGICAL COLLEGE (Presbyterian). Principal and Prof. of Old Test. Criticism and Exegesis, H. A. Kent, M.A., D.D. 5 other Profs.

GENERAL INFORMATION (v. also p. 340)

On the initiative of the Presbyterian Church a Royal Charter was granted in 1841 for the establishment of Queen's College, Kingston, funds being provided by grants from the Church and from the Govt. and by private benefactions. To the original Faculties of Arts and Theology were added, in 1854 Medicine, in 1907 Education, and in 1916, by amalgamation with the Univ. of the School of Mining founded in 1893, Applied Science. In 1912 the Faculty of Theology was separately incorporated as "Queen's Theological College" in affiliation with the Univ. but controlled entirely by the Presbyterian Church. In 1920 the Faculty of Educn. was discontinued, the students being transferred to the Teachers' Training College, Toronto. Endowments amount to \$1,800,000.

The administration is vested in a Board of Trustees, composed of Chancellor, Principal and Rector, and representatives of the College, the Faculties, Graduates and Benefactors.

GENERAL INFORMATION (v. also p. 340)

Established by Act of the Provincial Legislature in 1907, the Univ. opened classes in Arts and Science in 1909 and took over the educational work of the Provincial Department of Agriculture in 1910. Schools of Engineering, Law, Pharmacy, and Accounting were opened in 1912, 1913, 1914, and 1917 respectively. The Summer School was organized in 1917, the Pre-Medical School in 1925. The site includes 1340 acres devoted to Agric. Education and Research, and a campus of 300 acres with a half-mile river frontage. The land, buildings, and equipment cost about \$3,800,000.

Of the Board of Governors 5 members are elected by the Senate and 3 appointed by Govt.; the President is a member. The Senate (19 members elected by graduates, who also elect the Chancellor, and 13 *ex officio*, including the Minister of Education) regulates educational matters, the administration of which is controlled for the Univ. as a whole by an Academic Council and within each College by the Faculty. The President is a member of each of these bodies, and no appointment or dismissal is made without his recommendation. The maintenance of the Univ. is partially provided for by assignments of revenue and legislative grants. The annual budget exceeds \$500,000.

The University conducts the LICENCE EXAMINATIONS for the following professions:—Medicine, Law, Dentistry, Accounting, Architecture, Nursing, Veterinary, Optometry, Pharmacy, Land Surveyors.

GENERAL INFORMATION (v. also p. 340)

An appropriation of 500,000 acres of land for the support of 4 grammar schools and a Univ. in Upper Canada was made in 1798, and a Royal Charter was granted in 1827 for a "King's College" with the privileges of a Univ., but it was not until 1843 that the College was inaugurated. In 1849 its title was changed to The University of Toronto. It was reorganized in 1853 as an examining and degree-conferring body on the model of the Univ. of London. In 1887 it again became a teaching body, the Faculties of Medicine and Law which had been abolished prior to the reorganization of 1853 were revived, the Arts work was divided between the Univ. and Univ. College, and provision was made for the admission of other institutions as Federated Colleges. Victoria, Trinity, and St. Michael's Colleges became integral parts of the Univ. in 1892, 1904, and 1907 respectively.

LIBRARY, 211,118 vols. and 73,014 pamphlets. Annual Grant for books, \$29,000; 1800 periodicals and serials received. The (Science) Library of the Roy. Can. Inst. is housed in the same building. **MUSEUMS**: The Royal Ontario Museums—Archæology, Geology, Mineralogy, Palæontology, and Zoology; departmental museums; Trinity has a Nat. Hist. and Archæol. Museum of its own; the Agric. and Vet. Colleges, Knox, and the Faculty of Dentistry have each one.

LABORATORIES: in all depts. of Applied Science and Engineering as well as Anat., Bio-chem., Biol., Bot., Chem., Geol., Household Sc., Hygiene, Mineralogy, Path., Physics, Physiol.; described in *Bulletin* for Graduate Students. **BOTANICAL GARDEN. OBSERVATORY. HOSPITALS** available for Clinics: General, 750 beds; Children's, 262; St. Michael's, 325; Western, 120.

FACULTIES. Arts, Medicine, Applied Science and Engineering (Depts.—Archit., Civil E., Mining E., Mech. E., Chem. E., Elec. E., Metall. E.), Household Sc., Education, Forestry, Music, School of Graduate Studies, Dentistry. **DEPARTMENTS**. Social Service, Public Health Nursing, University Extension.

UNIVERSITY MATRICULATION BOARD. As a result of a conference of representatives of the Univs. of Toronto, Queen's, McMaster, and Univ. of Western Ont. held in Dec. 1908, the Senates of these Univs. created a Board to conduct and control their annual Matricn. examns. The Dept. of Educn. of Ontario agreed to provide the same machinery for holding these examns. as it employs for the Departmental examns., and the Registrar of the Dept. is Secy. of the Board. In connexion with the Matricn. examns. a report signed by all members of the staff of the school concerned as to the standing of their candidates is taken into account in determining the results.

The subjects of Pass Matricn. are (1) Latin, (2) English, (3) History, (4) Maths., (5) Greek, (6) French, (7) German, (8) Spanish or Italian, (9) Physics and Chemistry, or (10) Agric. For Matricn. in Arts it is necessary to pass in (1) to (4) and any two of (5) to (10) for admission to the Pass Course and with honour standing in at least 5 specified subjects for admission to an Honour Course. In certain cases foreign students may substitute their native language for Greek or French or German. Music is accepted as an option for Ancient

History (the subject of one of the two History papers, the other being British History).

For Matricn. in the Univ. of Toronto in Med. the requirements are (1) to (4), (9), and any one of (5) to (8) with honour standing in (2), (4), and one of (1) and (5) to (7); in Applied Sc. or Forestry—(2), (3), (4), and any three of (1) and (5) to (10) with honour standing in (2), (4), and one of (1), (5) to (8); in Household Science—(2), (3), (4), (9), and two of (5) to (8) for admission to the Pass Course, with honour standing in at least 4 specified subjects for admission to the Honour Course; in Music—the same as for admission to the Pass Course in Arts; in Dentistry—(1), (2), (3), (4), (9), and one of (5) to (8) with honour standing in (2), (4), and one of (1), (5) to (8).

Minimum age for admission to the Faculty of Arts, 16; Law, 21; Med., 17; Appl. Sc., 17; House. Sc., 16; Educn., 19; Forestry, 17; Dentistry, 16.

DEGREE COURSES. 4 yrs.—B.A., B.Com., B.A.Sc., B.Arch., B.Sc. (Med.), B.H.Sc., B.Sc.F., B.S.A. and B.V.Sc. (at Guelph), Phm. B.; 3 yrs.—Mus. B.; 5 yrs.—D.D.S.; 6 yrs.—M.B. Combined courses: B.A. and M.B.—7 yrs.

Certificates of having passed certain examns. of the standard of the Oxford and Cambridge Local School Certif. may enable a student to enter at the second year the B.A. Pass course (but not an Honours course except in Polit. Sc. or Philos.), provided he is not less than 17 yrs. of age.

Students from the British Isles will be admitted to Medicine and Applied Sc. on submitting certificates of registration with the General Medical Council of Great Britain and the Institution of Civil Engineers.

Honour courses for the B.A. and B.H.Sc. are provided in Household Science.

The first 2 yrs. of the Law course may be taken in Arts in the Univ., the 3 remaining yrs. being taken at Osgoode Hall.

The B.Sc. (Med.) may be obtained by Med. students who, after the 4th or subsequent year of Med. study, having maintained therein a prescribed standard of proficiency, spend a year in an approved course of study, and show facility in reading one modern language besides English.

A student who has already graduated in the Faculty of Arts, Med., or Science of a Canadian or other recognized Univ. may complete the course in Dentistry in 4 yrs. instead of 5, provided he has covered certain prescribed subjects during his undergraduate course; and persons holding the L.D.S. of one of the Med. authorities of Great Britain or the B.D.S. degree of approved Australian Univs. may be admitted in the Faculty of Dentistry without further examn., and to the final D.D.S. examns. on completing one full session at the Faculty of Dentistry.

Higher Degrees. M.A., obtainable by approved course of graduate study extending over 2 yrs. or, in the case of a B.A. in an Honours course, 1 yr.; Ph.D., open to a graduate in Arts (or, on special conditions, another Faculty) of this or another recognized Univ. by pursuing in the Univ. of Toronto an advanced course of study for 3 yrs., exemption from 1 of which may be given in consideration of the candidate having already pursued such a course for 1 yr. A thesis embodying the result of an original investigation is required.

M.D. and Ch.M. obtainable after 3 yr. course open only to graduates in Med. of a recognized Univ. The D.P.H. course (for Med. graduates) covers 11 months—1 winter and 1 summer session.

The M.A.Sc. may be obtained by a B.A.Sc. of this Univ. who pursues a course of advanced study in the Faculty for 1 yr., presents a satisfactory thesis, and passes such examns. as may be prescribed.

The professional degrees, C.E., M.E. (Mining or Mech.), E.E., Chem.E. are open to candidates who, after obtaining the B.A.Sc. or diploma of the Faculty, spend 3 yrs. in the actual practice of one of these branches of engineering,

present a satisfactory thesis, and pass examns. The F.E. may similarly be obtained by a B.Sc.F.

The B.Pæd. and D.Pæd. are open to graduates in Arts or Science of any British Univ. who hold a 1st class or High School Asst.'s certif. of Ontario or its equivalent, and pass, after 2 yrs.' (D.Pæd.—3 yrs.) successful experience in teaching, prescribed examns. For the D.Pæd. a thesis is also required, and the candidate must have attended a summer course (or its equivalent) in each subject of examn.

The Mus.D. is open to a Mus.B. of this or another Univ. of 3 yrs.' standing.

The Univ. publishes annually an announcement of *Graduate Courses*. *All communications on the subject must be addressed to the School of Graduate Studies.*

RECOGNITION BY OTHER UNIVS. (v. pp. 110, 283, 292, 293, 325).

TRAINING OF TEACHERS. Courses are provided for Teachers' certificates of several grades, including the Household Science and the Physical Culture Teachers'. The Educn. Dept. of Ontario grants certifs. on the results of Univ. examns., entitling the holders to teach in the High Schools. All teachers for High Schools and Collegiate Institutes must spend at least 1 yr. in the College of Education.

FEES. Students proceeding to the B.A. and enrolled in one of the Colleges of the Univ. attend lectures of Univ. Profs. and Lectrs. in the Faculty of Arts without payment of fees except for laboratory supplies. The College Fees, which entitle students to attend lectures in their respective Colleges, amount to \$75 p.a. Medical students pay for tuition, laboratory supply, hospital and annual examn., \$200 (\$150 for first year only) p.a. Certificate courses in the College of Education cost \$25 p.a. Forestry, \$125 p.a.; Applied Science and Engineering, \$150 p.a.; Household Science, \$100 p.a.; D.P.H., \$150 p.a.; Dentistry, \$200 p.a.

SCHOLARSHIPS, etc., open to graduates include \$120 for 2 yrs. for Divinity course in Trinity Coll.; Fellowship in Philos., \$300; \$1000 Prize for Scientific research or invention, open to all Canadians; \$1500 Scholarship in Medicine; \$500 Fellowship in Anatomy; \$750 Fellowships (one or more, each tenable for 3 yrs.) for research in Medicine; and others. War Memorial Scholarships in all faculties.

Two *Mickle* Fellowships (each endowment \$25,000) awarded (1) to a member of medical profession as reward for advancement of practical knowledge in med. art or science, (2) to an undergraduate of fifth year in Medicine who obtains honours at that examn. with highest marks. Nine Fellowships, each \$500 with free tuition for M.A. or Ph.D.; preference to graduates of Canadian Univs. outside Ontario. Eight of \$500 (tutorial Fellowships) open to graduates of any Univ.

RESIDENCE. University Houses accommodate 150 men, rent, \$4 per week; Queen's Hall, residence and board for 98 women at \$9.50 per week; Univ. Coll. Houses, residence and board for women (65), about \$9.50 per week; Victoria Coll. Halls for 132 men, about \$9 per week, and 144 women, \$200 to \$300 p.a.; Trinity Coll. provides for 80 men and 70 women; St. Michael's (R.C.) has also residences for men and women.

PUBLICATIONS. *President's Annual Report*; *Board of Governors' Report*; *Calendars*, April-May; *Graduate Studies Bulletin*; *Bulletins of the Dept. of University Extension*; *Medical Bulletin*; *Univ. Monthly*; *Can. Historical Review*; *Univ. Studies*; *Students' Mags.*—'*Varsity*, *Torontonensis*.

GENERAL INFORMATION (v. also p. 340)

Incorporated by an Act of the Provincial Legislature in 1878 as a College in connexion with the Church of England, the Univ. has become, under the provisions of amending Acts of 1908 and 1923, absolutely undenominational in its government, which is under provincial and municipal control.

FACULTIES. Colleges of Arts, Medical School, Public Health.

DEGREE COURSES. 4 yrs. (from Junr. Matricn.), B.A.; 1 yr., M.A. and M.Sc.; 6 yrs., M.D. Attendance on part of the classes may be dispensed with by the Senate, but all students must have attended lectures in the Univ. for at least 2 yrs. before they can graduate. D.P.H. and C.P.H.N., C.I.N. and C.H.A. courses (1 yr.) provided for graduates in Med. and graduate nurses respectively.

Courses leading to B.A. in *Library and Secretarial Science*, B.S. in *Nursing* and *Doctor of Public Health* (a 2-year course following M.D. degree) offered for the first time in 1924-25. 4-year honour course in *Commercial Economics*.

PUBLICATIONS. *Calendar* (May); *Report of Faculty of Public Health* (May); *Medical School Announcement* (May); *Univ. Gazette*, weekly during term.

THE YEAR 1925-26

BENEFACTIONS. Arts 1926 Class Fund, for establishing an endowment fund, \$190; Mrs. Dorinda E. Tully, \$1029; French Travelling Scholarship, \$385; Sir W. Laurier Memorial Scholarship for French Conversation, by Women's Liberal Asscn., \$2100.

RECOGNITION of the Medical School as of "A" grade was accorded by American Med. Asscn. Cambridge included W. Ontario in its list of Univs. approved in relation to courses for research degrees.

RESIGNATION. Major G. A. Smith, to engage in private practice (Medicine).

INTERCHANGE. Ruby Mason from Univ. of Illinois (Dean of Women); Ira Wade from Princeton (French and Italian).

HONORARY DEGREES. LL.D.—The Lieut.-Governor (H. Cockshutt); J. Dearness. D.D.—F. W. Veit.

STUDENTS. Full-time: Arts and Pure Science, preparing for first degree, 538 (including 177 women); Med. undergrads. 109 (w. 2); Nursing, 5 (w.). Resident in college or hostel, none. Students from U.S.A., 25; Great Britain, 1; West Indies, 1.

Part-time: Arts and Pure Science, graduate students 9 (w. 5), undergrads. 62 (w. 28); Medicine, undergrads. 16 (w. 12). Summer School: 109 (w. 59). Extra-mural, 92 (w. 50).

DEGREES OBTAINED. B.A., 80 (w. 35); B.Sc. Nursing, 1 (w.); M.D., 19; M.A., 7 (w. 3); M.Sc., 1; LL.B., 1; LL.D., 2; D.D., 1.

Founded in 1904 by the English Baptist and American Presbyterian Missions of Shantung in unison, the Shantung Christian University comprised at first schools of Arts and Science in Weihsien, of Theology at Tsingchowfu, and of Medicine at Tsinan. The two first mentioned were transferred to Tsinan in 1917. A grant of \$200,000 from the Rockefeller China Medical Board enabled the University largely to extend the buildings and staff of the medical school, with which were amalgamated the medical department of the University of Nanking, the Hankow Union Medical College, the North China Union Medical College for Women, Peking, and part of the Peking Union Medical College. In 1924 an Act was passed by the Dominion Parliament of Canada conferring authority to grant such credentials and degrees as are in accordance with the laws of China.

The main purpose of the University is "The advancement of the Kingdom of God through higher education of a distinctly Christian character, with a view to developing a capable and consecrated leadership for the Christian church and community in China." Thirteen missionary societies from Great Britain, the United States, and Canada share in its maintenance. There are two joint boards of administration, the British and the North American, with offices in London and New York respectively, and, deriving authority from them, a "Field Board of Managers in China." The head office of the University is at Toronto.

DEPARTMENTS. (1) School of Arts and Science, providing a 4-years' course for intending teachers and pre-medical and pre-theological instruction. (2)

School of Theology, providing a 3-years' course following one year in the School of Arts and Science; also a 3-years' course for graduates in Arts. (3) School of Medicine, providing a 5-years' course following a pre-medical course of at least 2 years. (4) University Hospital with attached training school for men and women nurses. (5) Extension Department for cultivating social and religious contact with the people of the city and district by public lectures, evangelistic addresses, models, graphic charts, etc.

THE MEDIUM OF INSTRUCTION is mainly Chinese (Mandarin); but English is a required subject at the entrance examination and throughout the whole curriculum, and the use of English text-books and reference books is encouraged.

ADMISSION is ordinarily by certification from an approved middle school or by a general matriculation examn. in (1) Chinese Language and Literature, (2) English Language, (3) General Mathematics, and two selected subjects. An intelligence test of common sense and general fitness for University work is applied to all candidates for admission, and a physical examn. must also be passed.

RESIDENCE, ETC. All students are required to reside within the University walls. Dormitories provide accommodation for all. Physical exercise is compulsory.

FEES for tuition. Arts and Science, \$25, Theology, \$10, Medicine, \$30 per semester. Other student expenses \$100 to \$300 per annum.

DEGREES. B.A. and B.Sc., 4-years' course; B.Th.—4 years; M.B.—7 years; B.D.—1 year after B.Th. or 4 years after B.A.

STUDENT ENROLMENT, Sept. 1926: Men 327, women 56.

NEWFOUNDLAND MEMORIAL COLLEGE AND NORMAL SCHOOL

This College, built by the Government as a War Memorial, was opened in 1924.

To students who have completed the work for the first and second years in the college third-year status is granted by the following Universities:

- (1) Acadia, Dalhousie, Mount Allison, and New Brunswick, in all faculties.
- (2) Toronto, in Arts.

McGill recognizes the first year's course of the College as qualifying for admission to second-year courses, and is prepared to consider on its merits the case of any student who has completed his second year at the college who may apply for admission to third-year status.

PRESIDENT. J. L. Paton, M.A. Camb.

PRINCIPAL OF THE NORMAL SCHOOL. S. P. Whiteway, B.Sc. Columbia.

The curriculum includes: English, Mathematics, Chemistry, Physics, Latin, Greek, French, German, Spanish.

FEES. For a full course, \$40 p.a.

NUMBER OF STUDENTS in 1926: 67 and, in addition, 497 extra-mural students. A summer school was attended by 200.

GENERAL INFORMATION

Incorporated in Sept. 1921 as the outcome of recommendations made by the Tropical Agricultural College Committee (appointed by Viscount Milner in 1919) in their Report (Cd. 562), the College aims at promoting the study of and conducting research in Tropical Agriculture in suitable surroundings and creating a body of British expert agriculturists well versed in the knowledge of the cultivation of land in the tropics, of chemists, and of scientific advisers possessing an intimate knowledge of the means of combating pests and diseases. The College buildings are at St. Augustine, near St. Joseph, Trinidad, on land granted by the Govt. of Trinidad and Tobago. The funds of the College are derived from contributions from Colonies and industries participating in the movement and an Imperial grant. The Imperial Department of Agriculture,

which was founded in 1898 and was amalgamated with the College on April 1, 1922, is administered by the Imperial Commissioner of Agriculture, now the Principal of the College, who corresponds directly with the Colonial Office and the Governments concerned. He supervises the botanic and experiment stations located at St. Vincent, St. Lucia, Dominica, Montserrat, Antigua, St. Kitts-Nevis, and the Virgin Islands, and advises the Government of Jamaica, British Guiana, Trinidad, British Honduras, the Bahamas, and Bermuda in agricultural matters, including the teaching of agriculture in schools. Up to March 1922 the Department issued the *Agricultural News*, a popular fortnightly review circulating widely in the tropics of the old and new worlds, and the *West Indian Bulletin*, a scientific quarterly dealing specially with tropical research and experiment. Numerous pamphlets dealing with special subjects and annual progress reports on sugar-cane experiments and the work of botanic stations were also issued. The College publishes monthly *Tropical Agriculture*. On the transfer of the headquarters of the Department to Trinidad in Sept. 1922 the services of all the officers were retained in the staff of the college, and remain available for duty in connexion with the work of the Department.

The Foundation Stone of New Buildings and Laboratories was laid by Sir Samuel Wilson, Governor of Trinidad and Tobago, on January 14, 1924.

An Instructional sugar factory, towards which British sugar machinery manufacturers are contributing plant worth £20,000, was opened in 1925.

The College was re-incorporated by Royal Charter, dated Nov. 23, 1926.

The academic year extends from October 1 to June 30

COURSES. (1) Three-years' Diploma Course for giving a thorough training in the science and practice of T.A. to students intending to become tropical planters, investigators, or experts in different branches of Agr. Science or Technology; (2) one-year course in elementary Agr. Science for students unable to afford (1), with some practical acquaintance with the scientific side of tropical planting and the more up-to-date and efficient methods of production and management; (3) courses for Agr. officers selected for Colonial service in T.A. departments.

POST-GRADUATE RESEARCH. Facilities are provided for work in connexion with problems arising in T.A., and more especially those connected with plant pathology, agronomy, and physiological botany.

TUITION FEES: £50 p.a., but a limited number of students from contributing Colonies and industries are admitted, on the nomination of the respective local Govts. and industries, without the payment of tuition fees; other students from contributing Colonies, £25 p.a.; Foreign Students, £100 p.a.

Further particulars are obtainable from either the Secy. at 14 Trinity Sq., London, E.C.3, or the Registrar, St. Augustine, Trinidad, B.W.I.

THE YEAR 1925-26. BENEFACTIONS. A general appeal fund yielding a total of £30,500, including Sir Otto Beit, £1000; British Cotton Growing Assocn., £1000; J. & P. Coats, Ltd., £1000; Empire Cotton Growing Corpn., £2000; Fine Cotton Spinners' and Doublers' Assocn., £1000; Liverpool Cotton Assocn., £1000; Rhodes Trustees Fund, £5000; J. W. Stephens, £1000; H.M. Government gave £15,000 for Hostel, the Empire Marketing Board, £21,000, and the Empire Cotton Growing Corpn., £21,000.

INCOME for year from (a) Endowments, International Health Board, £1000 (for 5 years); (b) H.M. Government, £3000; (c) Colonial Govts., £16,000; (d) Students' fees, £1000; (e) Other sources, £700.

NEW BUILDINGS AND EQUIPMENT. Central building, £40,000; £3000 Gas Plant.

NEW DEPARTMENT. Tropical Hygiene and Sanitation.

THE UNIVERSITIES OF AUSTRALIA

ADELAIDE	MELBOURNE	QUEENSLAND, BRISBANE
SYDNEY	TASMANIA, HOBART	WESTERN AUSTRALIA, PERTH

GENERAL DESCRIPTION

[Summary, corrected to Sept. 1926, of information issued in June 1919 by an Administrative Committee of the Australian Universities through the Education Service of the Australian Imperial Force of which the Committee was a part.]

THE Universities of Australia are dotted all round the Commonwealth and are at great distances from one another and in diverse climates. The mean annual temperatures range between about 70° at Brisbane and 54° at Hobart. Western Australia's nearest neighbour is Adelaide, which is about 1600 miles away by the shortest route. There is, naturally, not much moving about of students from one to another; but in the three younger some of the principal professional courses are not yet provided, and it frequently happens that a student after working in one of them for a year or two transfers to one of the older and more central Univs. where he is granted status in his professional course. As the Univs. are not all uniformly developed, they cannot be quite uniform even in their requirements for entrance. But they exercise all possible reciprocity in the interchange of students. They also give students who come from British Univs. the same status as at Home. Typical of their attitude in this regard is the By-law of Sydney: Undergraduates of other Univs. may, at the discretion of the Professorial Board, be admitted *ad eundem statum* in this Univ. without examn., provided always that they shall give sufficient evidence of their alleged status and of good conduct.

THE COLLEGE SYSTEM. When the Univs. of Sydney and Melbourne were founded provision was made for the establishment of "Colleges of Residence in connexion with different religious denominations." So there came into existence at Sydney, and on the Univ. grounds, "St. Paul's" (Church of England), "St. John's" (R.C.), "St. Andrew's" (Presb.), "Wesley" (Meth.), and, in 1925, as an extension of St. John's, a Hall for women; the Women's College (1890) is undenominational. Similarly at Melbourne, "Trinity" College (C. of E.) was opened in 1872, and was followed by "Ormond" (Presb.), "Queen's" (Meth.), and "Newman" (R.C.). Associated with Trinity and Newman respectively are Janet Clarke Hall and St. Mary's Hall, for women students. Queensland has "Emmanuel" (Presb.), "St. John's" (C. of E.), "King's" (Meth.), and an "undenominational" Women's Coll., as well as St. Leo's (R.C.). Adelaide has made a beginning with St. Mark's College (C. of E.), opened in 1925. There are no other Univ. Colls. in Australia. All these are self-governing and receive no financial aid from the Univ. They accommodate and teach only a

small proportion of the whole number of Australian students ; but their importance and influence on Univ. life are not to be gauged by this circumstance

CONSTITUTIONS. The outstanding feature of the Australian Univ. constitutions is the definite and considerable part taken by the State in appointing members of their governing bodies. This is due to the large contributions made to them out of public funds. The newest Univs. have admitted divers other persons, such as representatives of commercial, industrial, scientific, and educational societies, or benefactors, to participate with their graduates in the election of senators or councillors. The constitution of Sydney is the simplest ; that of Queensland is outwardly the most comprehensive in its legal conception of the Univ. as "a body corporate consisting of Senate, Council, and graduate and undergraduate members." In Melbourne by a recent revision of the constitution undergraduates elect 2 members of the governing body (Council). In Western Australia undergraduates are enrolled by Act of Parliament in a " Guild " which is given a representative on Convocation, the electing body that may also disallow or propose amendments in any legislation of the Senate. The nomenclature is not consistent. The governing body may be called in one place " Senate," in another " Council " ; and the assembly of graduates may be called " Senate "—a term never applied to the professorial body. Sydney alone has a whole-time administrative head.

ADMISSION. Attempts have been made to devise a common matricn., but have been given up. The reason lies in difference of policy as to the part to be taken by entrance examination as a qualifying test, and as to requisite subjects. Generally speaking, matriculation requirements include passing a recognized examn. (school-leaving, matricn., etc.) in English, another approved language (at Sydney, *e.g.*, Latin, Greek, French, German, Italian, or Japanese), Mathematics, and one or more other subjects. Special facilities are offered for matriculation in some Univs. and in some faculties to persons who have attained the age of 25 yrs., provided (Sydney) they give evidence of distinct educational merit and are recommended by a three-fourths majority of the Faculty of Arts and approved by the Senate.

THE UNIVERSITY AND THE PROFESSIONS. The Univ. has always at least one professional school. Thus Queensland's School of Engineering has a high repute. Western Australia is making a specialty of Agriculture and Surveying. Tasmania has schools of Law, Engineering, and Commerce. Sydney, Melbourne, and Adelaide have each a wide range of schools.

The Engineering schools give a thorough practical training. Rather high entrance requirements are called for in each of the Univs. The curricula extend over 4 yrs. (W. Australia, 5 yrs.), and are arranged with the definite view of giving a sound knowledge of the properties of materials, and the principles of Maths., Phys., Chem., and Mechanics underlying all engineering work, before specialized professional subjects are taken. Owing to several large bequests the Russell School of E. in Sydney is the most fully equipped. It maintains separate depart-

ments for Civil, for Mechanical, and for Electrical Engineering, for Mining and Metallurgy. The corresponding Schools in Queensland and Melbourne are also well equipped, and those of Adelaide, Tasmania, and W. Australia, although less comprehensive, are efficient. Systematic arrangements are made for students to obtain practical experience in workshops or in the field during vacations. The University training is widely recognized as a necessary qualification for professional positions. As a rule graduates in Civil E. enter the State or Federal Public Works Depts., which carry out practically all the large national engineering works, very little in the way of Public Services being left to private enterprise. The experience thus to be gained is very good, although it must be admitted that the emoluments are relatively low. Many graduates in Mining E. have been absorbed in the mining industries of Australia, but a great number—probably the majority—find their way to the larger mining centres of the world where the financial rewards are usually greater. There is a good deal of industrial and commercial engineering in Australia, and men wishing to have the freer scope which this offers usually take the courses in Mech. and Elec. E. In Archit., especially the domestic kind, there is a promising outlook in practically all parts of the Commonwealth. The Sydney School of Architecture is the only fully developed one with a Professor and a degree. Melbourne has had a diploma course for 20 years, and has for 10 years had an "Atelier" for advanced design work.

The Medical Schools of Sydney, Melbourne, and Adelaide are among the best in the Empire. They comply with the requirements of the General Medical Council, and there is full reciprocity, in respect of registration of degrees as qualifications to practise, between the U.K. and Australia. The greater part of the Australian medical profession is now trained in these 3 Univs., and distinguished teachers and research workers are continually being brought in to supplement their staffs. High positions are also held by their graduates outside Australia. It is generally felt by Australian medical men who have had experience in Europe among men trained in the Schools of the U.K., that their own training has been even more practical. It is thoroughly British in scope and method, but, in the proportion of hospital facilities to the number of students, it has had some advantages over the training received by the average British student. Whether this impression is or is not correct, it remains true that Australian medical education has reached a high standard, and the equipment of the Faculty is always good and often excellent. Sydney has the advantage of an immense public hospital, on its own grounds, with several others but a short distance away. In Melbourne general hospitals containing 500 beds, and women's and children's hospitals, are close to the Univ. The Genl. Hospl. at Adelaide is within half a mile of the Univ., and after the 2nd yr. the greater part of students' time is spent in it. The work done may also be supplemented by study, after graduation, in the "Australian Institute of Tropical Medicine" at Townsville in Queensland; and a Diploma in Trop. Med. is attainable. The Hall Research Institute in connexion with the Melbourne Hospl. provides facilities for post-graduate work.

In all the Univs. the Faculty of Arts is becoming, with due help from the Faculty of Science, a professional school for teachers. Sydney and Melbourne have Profs. of Education who are also heads of the State Training Colleges. Adelaide has the State Director of Education on its Ed. Committee and Council, and gives a Diploma to graduates in Arts and Science who take a prescribed course of prof. study and have proper experience of teaching. There is a course in Ed. at Queensland, and every facility is given to teachers to graduate in Arts. Western Australia has a Dept. of Ed., but it is not yet fully organized. An excellent professional equipment for teaching can now be obtained in Australia, and the material rewards of teaching are likely to increase.

The less anciently established professions become associated with the Univs. on obtaining a higher status or a legal organization. Thus Vet. Science, the practice of which is as yet legally controlled in only three States, is now regularly entered in one of these (Victoria) through a Univ. course of study. In N.S.W. its legal constitution recently followed the institution of a Faculty of Vet. Science at the Univ. of Sydney. In N.S.W. and Western Australia, whose Univ. also has a Dept. of Vet. Science, the law requires such qualifications for vet. practice that a Univ. training will become the natural approach to the profession in that State.

PERIODS OF STUDY. The Univ. requires 3 yrs.' study for a B.A. or B.Sc.—4 yrs. if the B.Sc. is taken with Honours. The curriculum for the first degree in Med., formerly 5 yrs., has been lengthened in Melbourne to 5½, in Sydney and Adelaide to 6. The time needed to graduate in law may vary; thus Melbourne course takes 4 yrs., but Sydney allows Arts graduates to do their professional studies in 2 yrs. To graduate in Engin. requires 4 yrs.; in Vet. Science, in Agric., in Economics, and in Dentistry also 4 yrs., subject to certain minor variations; in Architecture, 5 years.

ACADEMIC TERMS. In Australia qualifications are reckoned in "Years" and "Courses." But each "Year" is divided into "Terms." The number of Terms in the Year is usually 3. The Year begins in March and ends in Nov. or Dec. The "Long Vacation" comprises Dec., Jan., and Feb., which are the warmest months. Melbourne has 4 terms, the First of 12 weeks; the Second of 10; the Third of 10; and the Fourth, or Examn. Term, of 4. Tasmania also has 4 terms. Queensland has 3 terms and 2 Examn. Periods. Arrangements have been made to secure the coincidence of the 1st-2nd and 2nd-3rd inter-term vacations of the Australian Univs.

FEES AND COST OF LIVING. The cost of living varies a good deal in different parts of Australia. A student will probably not notice much difference between Sydney and Melbourne in this respect. But anywhere he will find that £225 a year gives him quite sufficient means, for the climate is benign and good food is plentiful. The style of living everywhere is unostentatious. Decent board and lodging should not cost more than 35s. a week. Meals at the cost of 6d. to 2s. 6d. can generally be obtained at the University by members of "Unions" and others. Sydney University Union has a Refectory seating 450, and one

half of it is open to all members of the University and their guests. A developed Union at an Australian University also provides all the comforts of a non-residential Club for about £1 a year. Exercise in rowing, football, cricket, and other games may be had in the Sports Clubs on correspondingly easy terms.

Residence at a College is optional. College fees for residence and tuition range from 80 to 100 gs. per annum. Thus Wesley College, Sydney (Methodist), charges 28 gs. a term for resident students; Ormond, Melbourne (Presb.), from 95 to 110 gs. a year for residence during terms, according to the course being taken. St. John's, Queensland (Anglican), has fees of £21 per term. Special arrangements can always be made for residence during vacations; for an example, Ormond then charges 2 gs. a week. Many men live in College on a total income of not more than £150 a year; it is doubtful if any will spend double that amount. There are few rich students and no tradition of expensive living among College men, no charming but costly ancient customs. The assistance from Scholarships and Bursaries is generous.

A list of Univ. Fees payable at Melbourne and Sydney is given below. Queensland has composition fees for complete degree courses, which are from 12 to 18 gs. a year in Arts, 20 gs. in Science, and 21 gs. in Engineering. The corresponding fees at Tasmania are £15 to £20 in Arts, £20 in Science, £22, 10s. in Engineering. W. Australia charges fees for examns., degrees, and certifs., but tuition fees only to overseas students. Fees at Adelaide do not differ widely from those at Melbourne and Sydney.

Melbourne. Matricn., 1 g.; Degree, 7 gs.; Degree Courses in Arts, 3 yrs., about 52 gs.; Science, £25 each yr.; Agric., 4 yrs., 81 gs.; Laws, 4 yrs., about 90 gs.; Med., 5½ yrs., £225 (including Hospl. Fees); Engin., 4 yrs., £100; Vet. Sc., 4 yrs., £100; Music, 3 yrs., at conservatorium, 32 gs. p.a.

Sydney. Matricn., £3; Degree in Arts, Econ., Sc., Agric., or Vet. Sc., £3; M.D. and M.S., £20; other Degrees, £10; Degree Courses in Arts, 3 yrs., £75; Econ., 4 yrs., £96; Law, £90 (Arts subjects additional); Med., £234 (excluding Hospl. Attendance, 21 gs., and practical Midwifery, 5 gs.); Dent., 4 yrs., £150 (including Dent. Hospl. £10 p.a.); Science, 3 yrs., £99; Engin., 4 yrs., £154 (Min. and Met., £168); Agric., 4 yrs., £118: 10s.; Vet. Sc., 4 yrs., £114; Archit., 5 yrs., £171.

FREE PASSAGES TO EUROPE. The following free first-class passages are granted annually to Australian and New Zealand Univs. for graduates holding scholarships proceeding to Europe to continue their studies: Adelaide, 3; Melb., 4; Queensland, 3; Syd., 4; Tasm., 2; W. Aust., 3; N.Z., 3; available by any of the following Lines: Aberdeen, Blue Funnel, Orient, P. & O., and, for N.Z. graduates only, N.Z. Shipping and Shaw, Savill & Albion.

CONFERENCE

After a conference held at Sydney in May 1920 the Australian Univs. established a Standing Advisory Committee to deal with matters of common interest. The temporary headquarters of the Committee are in

Melbourne. The Chancellor of Melbourne Univ. acts for the time being as Convener of the Committee, and the Registrar as Honorary Secretary.

A conference of representatives of the Univs. has been held annually since 1921. Among the topics discussed are : Synchronizing the short vacations of autumn and spring ; uniformity in standards and titles of Australian degrees ; a common first year for degree courses in all faculties ; entrance requirements ; a London buying agent ; public service in mandated territories ; cheap railway fares for delegates attending conferences ; customs duties ; income-tax on gifts to universities ; a Federal Examining University ; establishment of a Ph.D. degree ; a Central School of Forestry ; a sabbatical year ; " general science " in public exams. ; a catalogue of periodicals.

AUSTRALIAN STUDENTS IN THE HOME UNIVERSITIES, v. Appendix XXII.

UNIVERSITY EXTENSION LECTURES were instituted at Sydney Univ. in 1886 and at Melbourne in 1891. In 1913 Workers' Educational Associations were formed in all the States to give effect to a movement for bringing the Univs. into closer relationship with the masses of the people. The movement was fostered by State grants and grew rapidly. Each Univ. co-operates with the W.E.A. in the formation of a joint committee, which appoints tutors and supervises the work with the help of a Univ. officer—the Director of Tutorial classes. A federal W.E.A. for Australia has its central office in the Education Department, Melbourne. The total number of students throughout Australia is about 5000, the greater number taking three-years' courses. In addition to these courses a great many preparatory classes, study circles and summer schools are organized by the Assocn., numerous courses of public lectures are delivered, educational conferences promoted, and an extensive book service is carried on. A correspondence study department has been inaugurated in connexion with the Univ. of Queensland. In Western Australia provision has been made for extension lectures in Perth and suburbs and in country centres, and the Prof. of Agriculture visits the chief farming districts to lecture to and hold conferences with the primary producers, but there is no direct grant from the State for this work.

STATISTICS of University teachers, students, and finance are published annually by the Commonwealth Bureau of Census and Statistics in the official Year Book.

RESIDENTIAL : ST. MARK'S COLLEGE, under management of Church of England, but open to men of all denominations. Opened for students in March 1925. Master : A. Grenfell Price, M.A., Dip. in Ed.

S. AUSTRALIAN SCHOOL OF MINES AND INDUSTRIES. President, Hon. Sir L. Bonython. Unites with the Univ. in providing courses and examns. in Mining, Metall., and Engin. The Chancellor is Chairman of the Joint Board.

ROSEWORTHY AGRICULTURAL COLLEGE. Affiliated for parts of the B.Sc. course for Agric. students.

WAITE AGRIC. RESEARCH INSTITUTE.

GENERAL INFORMATION (v. also p. 442)

The Univ. was established by Act of the Provincial Legislature in 1874 with endowments of £40,000 from Sir W. W. Hughes and Sir T. Elder, and a land grant of 50,000 acres (subsequently repurchased by Govt. for £40,000) as well as a site of 5 acres in the city and a recurrent money grant. Sir T. Elder died in 1897, leaving £65,000 to the Univ. In 1911 the State Parliament sanctioned an additional annual grant and took power to appoint 5 additional members of the Council which, until then, consisted of 20 elected by the Senate. In 1914-19 Mr. Peter Waite presented to the Univ. approximately £55,000 and extensive estates, including a mansion, and in 1920 Sir J. L. Bonython gave £40,000 for a Great Hall and in 1926 £20,000 to endow the Chair of Law. The annual Govt. grant raised in 1919 by £20,000 is now about £42,700. The value of the endowments is £460,000, and the Income for 1925 was £81,660.

LIBRARY, over 50,000 volumes. **LABORATORIES**, Biol., Bio-Chem., Bot., Chem., Engineering, Path., Physics, Physiology. The Univ. assists in the management of a Public Library, MUSEUM and ART GALLERY, and controls the ELDER CONSERVATORIUM (annual fee, 14 gs.).

FACULTIES. Arts, Science, Law, Medicine, Dentistry, Music, Applied Science (including Staff of S. Aus. School of Mines and Industries).

DEGREES. Obtainable after 3 yrs.' course, B.A., B.Sc., Mus.Bac. ; 4 yrs.', LL.B., B.E., B.D.S. ; 6 yrs.', M.B., B.S.

HIGHER DEGREES. Open to bachelors of 2 yrs.' standing, M.A., M.Sc., M.E., LL.M. ; 3 yrs.', M.D., M.S., D.D.Sc., Mus.Doc. ; 4 yrs.', D.Sc., LL.D.

DIPLOMAS. Applied Science (Mining, Metall., or Engin.—Civ., Elec., Mech., or Archt.), 4 yrs.' course ; Commerce (A.C.U.A.) evening courses ; Education (post-graduate) ; Forestry, 2 yrs.' ; Music (A.M.U.A.), 3 yrs.' ; Economics and Polit. Sc., 3 yrs.'

A " Final Certificate in Law " for admission as a practitioner in the Supreme Court is obtainable by articled clerks on a curriculum less extensive than that for the LL.B.

The Univ. conducts **PUBLIC EXAMNS.** of various grades, irrespective of those for its own degrees, etc., namely, in General Education—Intermediate, Leaving, and Leaving Honours ; in Commercial Education—Intermediate and Leaving ; and Music.

SCHOLARSHIPS, etc., for graduates. Angas Engineering, £200 p.a. for 2 yrs., not open to graduates of other Univs. ; several smaller.

RESIDENCE. St. Mark's Residential College was incorporated in the Univ. in 1925.

ADULT EDUCATION. Tutorial classes were established in 1918. The subjects taught are Engl. Lit., Psychology, Mod. Hist., Economics, Polit. Sc., Music. At the Univ. the courses extend over 3 yrs. Four classes are held in country centres. Public lectures given occasionally.

CALENDAR publ. in Feb. Price 2s. 6d.

GENERAL INFORMATION (v. also p. 442)

The Univ. was founded in 1853 by Act of the Victorian Legislature. In 1923 a new University Act was passed, increasing the annual endowment for general purposes to £45,000, providing an additional grant of £8500 for Univ. Extension, a Department of Commerce, and Research, and making constitutional changes. The Council is now composed of 31 members—10 elected by graduates, representatives of the teaching staff (5), of affiliated colleges (2), under-graduates (2), 8 appointed by the Govt. (3 being members of Parliament, the others representing business interests and technical schools), 2 *ex officio*, and 2 co-opted members. The legislative functions of the old

Senate were transferred to a Standing Committee which, in addition, may submit any matter it pleases for the consideration of the Council. Recognition was accorded in the Act to the Professorial Board and the Faculties. The grounds, 104 acres, include four 10-acre College sites surrounding a recreation ground of 16 acres.

GENERAL INFORMATION (v. also p. 442)

The Univ. was established by an Act of the local legislature in 1909. The entire management and control are in the hands of a Senate of 20 members, of whom 10 were appointed by the Government and 10 were elected by the Council (consisting of all members and past members of the Senate, graduates of the Univ. of 3 yrs.' standing, persons appointed by the Govt. as representatives of Commercial, Industrial, Scientific, etc., Assocns., benefactors, etc.). The annual grant from Govt. was £10,000 until 1917, when it was raised to £15,000. In 1922 it was raised to £20,000. Under the will of the late Sir Samuel McCaughey, the Univ. receives an annual income of about £8500.

The grounds, facing the Brisbane River and adjoining the Botanical Gardens, include, in addition to the main building and recreation grounds, 6 departmental buildings and the Central Technical College.

LIBRARY, 30,000 vols. **LABORATORIES**: Biol., Chem., Applied Chem., Engin., Geol., Metall. and Assaying, Physics.

FACULTIES. Arts, Science, Engineering, Law, Commercial Studies, Medicine. Only the first four have been organized for imparting instruction.

DEGREE COURSES. 3 yrs.—B.A., B.Sc.; 4 yrs.—B.Sc. Honours, B.Sc. (Applied) in Industrial Chem., B.E. in Civ., Mech. and Elec., Chem., or Mining Engin., LL.B.

GENERAL INFORMATION (v. also p. 442)

Founded by Act of the N.S.W. Legislature in 1850, the Univ. was granted a Royal Charter in 1858. Its development has been largely due to private benefactions, notably those of J. H. Challis—£250,000—in 1880, T. Fisher—£30,000 for Library—in 1885, P. N. Russell—£100,000 for School of Engineering, etc.—in 1896 and 1904, and W. O. Watt, £39,529 in 1925. Under the will of Sir S. McCaughey it receives an annual income which amounted in 1925 to £21,720. In 1912 the Statutory endowment was raised from £10,000 to £20,000, with provision for further automatic increases, and at the same time the constitution of the governing body, called the Senate, was altered so as to include 6 nominees of the Govr. and Parliament (one-fourth of the whole number). In 1917–18 the Statutory endowment was further increased to £32,000, including £2000 for the new School of Archit. In 1919 the State provided £50,000 a year for 6 years for additional buildings. The faculties were in that year increased from 4 to 10. The grounds, which include the sites of the Colleges grouped round an oval, cover 140 acres.

Provision was made by Act of Parliament soon after the foundation of the Univ. for endowing such Colleges as might be established within it, to the extent of £20,000 in aid of building and £500 p.a. towards the Principal's salary.

THE LIBRARY, 150,000 vols., receives about 1800 serial publications. MUSEUMS : Nicholson collection of Egyp., Greek, Roman, and Medieval Antiq. (4000 specimens) ; Macleay Nat. Hist. ; Anat., Geol., and Zool. LABORATORIES : Schools of Med., Engin., and Archit. (atelier), Bot., Chem. (including

Metall. and Research), Geol. (with rock analysis Research), Phys., Zool. The ROYAL PRINCE ALFRED HOSPL., erected on the Univ. grounds as a general hospl. and school, has 518 beds. Gladesville mental hospl. recognized by Camb. for clinical work for Dip. Psych. Med.

FACULTIES. Arts, Law, Med., Science, Engin., Dent., Vet. Sc., Agric., Econ., Archit.

DEGREE COURSES: 3 yrs.—B.A., B.Sc.; 4 yrs.—Honours B.Sc., B.Sc. in Agric. (3 after Agric. Coll. course), B.Ec., LL.B. (after completing 1st yr. in Arts or passing Law Entrance Examn.), B.D.S., B.V.Sc., B.E. (in Civil Engineering, Mechanical and Electrical Engineering, Mining and Metallurgy, or Engineering Technology); 5 yrs.—B.Arch.; 6 yrs.—M.B., B.S.; 2 yrs.' advanced study or research (after full 3 yrs.' course at another Univ.)—B.A. or B.Sc. The LL.B. qualifies conditionally for admission to the bar. Law students usually take the B.A. first, selecting Law subjects in 3rd yr., and complete combined course in 5 or 6 yrs., thereby gaining concessions in regard to periods of studentship and service as articulated clerk. **HIGHER DEGREES.** Obtainable by bachelors of 2 yrs.' standing—M.A., M.Ec., LL.D., M.D., M.S., M.Sc.; 3 yrs.—D.Sc., M.E.; 5 yrs.—D.Sc. Eng.; D.Dent.Sc. **DIPLOMAS.** Educn. (for graduates in Arts or Sc.), 1 yr.'s course; Com., 3 yrs.; D.P.H.; D.T.M.; Psychiatry. Candidates for the Diploma of the Pharmacy Board have to attend courses in the Univ.

RECOGNITION OF STUDIES ELSEWHERE. A considerable portion (in Med. 3 yrs.) of the curriculum for a Degree must be taken in Sydney. A special grant of £100 was made by Govt. in 1925 for provision of lectures at country centres. Holders of the Diploma of the *Hawkesbury Agricultural College* or any college of similar standing who have passed the Intermediate Certificate Examn. in matriculation subjects may be admitted as matriculated students in Vet. Sc. or Agriculture.

SCHOLARSHIPS, ETC., FOR GRADUATES. Junior Demrs. are appointed annually in each Scientific Dept. with the obligation to carry out research under the direction of the Prof.; 6 post-grad. Scholarships of £150 each and 2 of £300 are awarded annually for scientific study and research in the Univ.; 4 Macleay Fellowships of £400 p.a. each are tenable by B.Sc.'s; 4 others of £300 p.a., and 2 Scholps. of £250 p.a., tenable for 2 yrs., are awarded annually for further study and research at Syd. or abroad.

RESIDENCE. The four denominational Colls. (v. *supra*) provide accommodation for 180 students; the Women's Coll. for 28, and Sancta Sophia Hall for about 25 R.C. women students.

UNIVERSITY EXTENSION LECTURES are given in courses of from 3 upwards in Sydney and numerous local centres. *Tutorial Classes* are provided, as prescribed by the Act of 1912, under the superintendence of a Joint Committee of the Univ. and Workers' Educl. Assocn. of N.S.W. In 1925 the Govt. grant for this purpose was £6370; 61 classes were at work, including 1575 effective students.

ADULT MATRICULATION. Persons of distinct educational merit who have attained the age of 25 yrs. may be admitted as matriculated students in the Faculties of Arts, Science, and Econ.

PUBLICATIONS. *Calendar* pubd. in June, 3s. 6d., with annual report and list of publns. of Univ. Staff; Reprints of Scientific Papers by members of the Staff; *Hermes*, an undergrads.' mag., 5s. p.a. (3 issues); *The Union Recorder* (weekly during Term).

AFFILIATED INSTITUTIONS

UNIVERSITY OF OTAGO, DUNEDIN ; CANTERBURY COLLEGE, CHRISTCHURCH ; AUCKLAND UNIVERSITY COLLEGE ; VICTORIA UNIV. COLLEGE, WELLINGTON.

This University, an examining body, was founded in 1870. Its constitution, defined by the N.Z. Univ. Act 1908 as amended in 1912, 1914, and 1915, vests the Government of the Univ. in a Senate of 24 members (Fellows), assisted, as regards schemes of study, etc., by a Board of Studies representing the College Professorial Boards. Of the Fellows, 4 are nominated by the Governor, and 20 elected, 8 by the College Governing Bodies, 4 by their teaching staffs, and 8 by graduates. The Chancellor and Vice-Chancellor are elected by the Senate; the former (or, in his absence, the latter) presides at meetings of the Senate. There are no University buildings: the offices are at Wellington. An annual grant of £4000 is received from Govt.

MATRICULATION. Candidates must pass in 5 subjects, including English, Maths., and one language. A candidate who does not pass in Latin or Greek must pass in Physics or Chemistry or Home Science or Physiology, or Botany or Agriculture. Not more than two of these sciences can be taken; in the syllabus prominence is given to their practical aspect. The examn. is held in Dec. Special provision is made for exemption of persons not under 25 years of age and students from other Univs.

TERMS. A student presenting himself for a Univ. examn. for which the keeping of terms is required must have passed the College examn. in the subjects he offers at the corresponding stage. The terms are: Autumn (March-May), Winter (June-Aug.), and Spring (Sept.-Oct. or Nov.). The subjects in which terms must be kept are: all those of the B.A., B.Sc., B.Sc. in H.Sc., M.B., Ch.B., B.D.S., B.Agr.Sc., B.For.Sc., B.Archit.Sc., and LL.B. degree courses; of the 1st and 2nd Divisions of the B.Com. course; of the Engineering Entrance examn.

Any student who is on the books of an affiliated College, and who has passed its annual examn., is deemed to have kept the terms of the year if he has attended the prescribed courses, *or*, being resident more than 10 miles from College or engaged in acquiring a profession or trade or earning a livelihood, has been thereby prevented from attending, *or* objects on grounds of religious scruples to such attendance.

DEGREE COURSES: 3 yrs.—B.A., B.Sc., B.Mus., B.Agr.Sc. (including practical work on farm), B.For.Sc.; 4 yrs.—B.Sc. in Home Science, B.Archit. Sc. (including 18 mos.' practical work), LL.B., B.E. (Mech., Elec., Civ., Mining, Metall., including from 9 to 18 mos. in shops, mines, or surveying), B.Com., B.Vet.Sc.; 5 yrs.—B.D.S.; 6 yrs.—M.B., Ch.B., B.Med.Sc.

HIGHER DEGREES. M.A., M.Sc., LL.M., M.Com., M.S.; Ph.D., Litt.D., D.Sc., LL.D., M.D., D.D.S., D.Mus. For the Mastership examn. and thesis are required. The Doctorate may be taken by a Bachelor of 5 yrs.' (in Med. 3 yrs.) standing who offers suitable original work and, if in Arts, Sc., or Law, has already obtained the Mastership or equivalent degree, or, if in Med. or Music, passes a prescribed examn.

DIPLOMAS. D.P.H. (9 mos.' course); Journalism, Education, Social Science, Banking, Insurance. *Certificate of Proficiency in Dental Surgery*; *Shipping Officers' Certificate*.

PROFESSIONAL AND TECHNICAL SCHOOLS. *Law* at all the Affiliated Colls., the chief school being that of Victoria; *Medical and Dental and Home Science* at Otago; *Engineering* (Civil, Electrical, and Mech.) at Canterbury; *Mining and Metallurgical Engineering* at Otago; *Commerce and Music* mainly at Auckland and Canterbury; *Agric.* at Auckland and Wellington and a recognized (but not affiliated) Coll. at Lincoln; *Forestry* at Auckland and Canterbury; *Architecture* at Auckland.

"AD EUNDEM" RECOGNITION. Courses completed, or partially completed, at any British chartered or other approved Univ. are accepted *ad eundem*.

SCHOLARSHIPS FOR GRADUATES. In almost every subject of the B.A. or B.Sc. syllabus and in Law, Medicine, Dentistry, and Engineering—£70; Travelling Scholps. in Arts, Science, French, Law—£200 (2 yrs.) each, in Engin. and Med.—£150 each. A National Research Scholarship (£100) is offered annually for each of the 4 Colleges for research in Science or Economics. Gold medals are granted for scientific and humanistic research.

Two first-class return passages between Australia and England are offered yearly by the Orient Co. and P. & O. Co. for grads. of the Univ. proceeding to Europe to continue their studies. The Union S.S. Co. supplements this by a similar concession between N.Z. and Australia. One passage between N.Z. and England is offered by the N.Z. Shipping Co., one by the Shaw, Savill & Albion Co., and one by the Commonwealth and Dominion Line.

ADULT EDUCATION. Classes are conducted under the control of the Council of each College through an Executive Committee on which the Council and the W.E.A. are represented. The Government granted £4216, of which £300 was allotted to each College for W.E.A. and extension classes.

PUBLICATIONS. *Calendar* (Oct.), 2s. 6d.; *Minutes of Prods. of Senate*, free; *Examn. Papers*, 6d. or 1s. a set; *Reports of Examrs.* (in England and N.Z.), free.

THE YEAR 1925. The Chancellor gave £2000 to establish Research scholarships in Agriculture. *Legislative changes* are imminent as a result of amendment of the University Act, which will embody some recommendations of the Royal Commission, 1925. *Visitors* from universities in other countries: Sir Ernest Rutherford from Cambridge and J. P. Lott from Holland. *Degrees conferred:* M.D., 3; D.D.S., 1; M.A., 67; M.Sc., 16; LL.M., 15; M.Com., 3; B.A., 186; B.Sc., 41; LL.B., 29; B.Com., 8; B.E., 15; B.H.Science, 5; B.Agr., 4; M.B., Ch.B., 69; B.D.S., 11; Mus.B., 1.

THE ROYAL COMMISSION, 1925

The Royal Commission which has made investigations into the question of University education in New Zealand in its Report recommends drastic changes, including the establishment of a reformed Federal system with greater autonomy for constituent colleges. The Commission states that the New Zealand University offers unrivalled facilities for the taking of degrees, but that it is less successful in the provision of a University education. The Report condemns the dominant place given to examinations, and urges the encouragement of whole-time study. Other recommendations include :

(1) The substitution of a School Leaving Certificate Examination for the Matriculation Examination.

(2) A definite policy for the establishment of special schools and for preventing duplication ; and in particular the establishment in the North Island of a strong University School of Agriculture.

(3) Provision for the training of Secondary teachers within the University.

(4) A higher standard of entrance for the legal profession.

(5) Bursaries for selected students undertaking professional courses at distant University centres.

(6) The encouragement of Research.

(7) Promotion of corporate life among the students by means of a Students' Representative Council and of College Hostels.

(8) Development of extra-mural work.

(9) Establishment of Degrees in Theology.

The Minister of Education has approved the main recommendations.

The Royal Commission, which was appointed early in the year, had two members ; Sir Harry Reichel, Principal of the University College of North Wales, and Mr. Frank Tate, Director of Education in the State of Victoria.

GENERAL INFORMATION (v. also p. 476)

Founded by Ordinance of the Provincial Council in 1869 with power to grant degrees in Art, Medicine, and Law, the Univ. was opened in 1871. The Law School originated in 1873, the Medical in 1874, the School of Mines in 1878, the Dental School in 1907, the Accountancy Lectures and the Home Science Dept. in 1911. Between 1869 and 1877 the Univ. received grants of land exceeding 220,000 acres. It is entirely unconnected with any religious denomination except that the right of nomination to certain Chairs endowed by the Presbyterian Church rests with the Board of Church Property, subject to the approval of the Synod. It receives annual Government grants of approximately £10,000.

By an agreement effected in 1874 the Univ. agreed to hold in abeyance its power of granting degrees, and to become affiliated to the Univ. of N.Z.

CLASS FEES. In separate subjects—in Arts generally, £3 : 10s. for complete course ; Science, £5 : 5s. ; Law from £1 : 4s. to £3 : 10s. ; Commerce, £1 : 4s. to £4 : 4s. ; Medicine, all subjects aggregate (5 years), about £163, exclusive of Univ. fees, £45 : 3s., and Hospl. fees ; Dentistry (4 years), £140, exclusive of Univ. fees, £24 ; Mining (4 years), £112 ; Home Science (4 years), £106.

LIBRARY, 21,000 vols. ; also the Hocken collection of pamphlets and MSS. bearing on the History of N.Z. **MUSEUMS** : Biol., Ethnog., Geol., Anat., Path. **LABORATORIES** : Phys., Chem., Physiol., Bact., Path.

FACULTIES. Arts and Science, Medicine, Dentistry, Mining, Law, Commerce, and Home Science.

COURSES : for degrees in all the Faculties ; D.P.H. ; Certif. in Dent. Surg. ; Associateship of Otago School of Mines (A.O.S.M.), 4 yrs. ; Diploma of Mining, Metallurgy, Geology, or Land and Mine Surveyor, 2 yrs. ; Associateship in Home Science, 4 or 3 yrs.

RESEARCH SCHOLARSHIPS, ETC. Edmond Industrial (Chemical) Research, £210, tenable 2 yrs. ; Smeaton Research in Experimental Science, £60 for first year and £210 for second. The first is open to any person domiciled in N.Z., the second to graduates of Otago. Ross (Knox College), £150, 2 yrs. ; Sir R. Stout (Economics), £50 ; and Anna P. Stout (Economics and History and Home Science—women) ; all open to graduates of Otago. **OTHER RESEARCH FUNDS** : Roberts, Deans, and Barnett endowments, £2000 each for research in med. and surg.

HOSTELS. Presbyterian for men and women ; Anglican for men ; Home Science Students'. Cost of board and lodging, 23s. to 37s. 6d. a week.

UNIV. EXTENSION. Since 1916 classes in connexion with the W.E.A. in Dunedin and Invercargill have met with very great success.

THE YEAR 1925-26. *Benefactions* : Alumnae Association of Home Science School, £1100 to provide additional hostel accommodation ; Anonymous, £1000 to increase salary of Lectr. in Physics ; Dunedin Savings Bank, £750 Dental Equipment and £1000 Museum Extension ; Mrs. M. J. Massey, £1000 Cancer Research ; T. K. Sidey, £1000 Dental School. A new Dental School (cost £41,000) was opened on June 11, 1926. A new Medical School was planned to be opened in 1927. *Interchange of Teachers* : H. D. Skinner, Lecturer in Anthropology, was awarded a Rockefeller Fellowship to permit of his conducting further research in America. J. W. Hinton, formerly Lectr. in Physics, was appointed Prof. of Physics at Colombo. *Students* (1926) : Total, 1103 (including 337 women) ; graduate students, 55 (w. 17) ; undergrads., in Arts 306 (w. 153), Science 43 (w. 7), Mining 21, Law 73, Agric. 3, Home Sc. 93 (w.), Nursing 5 (w.), Med. 196 (w. 24), Dent. 106 (w. 4), Comm. 63 (w. 4). Non-matriculated, in Arts 39 (w. 3), Mining 4, Law 4, Massage 13 (w.), Comm. 65 (w. 3). *Degrees obtained* : in Arts and Science 57, Medicine 72, Dent. 12, Home Science 5.

UNIVERSITIES OF THE UNION OF SOUTH AFRICA

UNIVERSITY OF SOUTH AFRICA, PRETORIA (formerly the Univ. of the Cape of Good Hope), with 6 CONSTITUENT COLLEGES.

UNIVERSITY OF STELLENBOSCH (formerly Victoria College, Stellenbosch).

UNIVERSITY OF CAPE TOWN (formerly South African College, Cape Town).

UNIVERSITY OF THE WITWATERSRAND, JOHANNESBURG (formerly S. African School of Mines and Technology, and, later, University College, Johannesburg).

HISTORICAL SUMMARY (for which the Bureau is indebted to Professor Ritchie of Cape Town). The history of higher education in S. Africa covers but a comparatively short period of time. It may be said to have had its beginnings when, in 1829, the S. African College (now incorporated in the Univ. of Cape Town) was founded, as a proprietary institution, by a number of progressive citizens of Cape Town, assisted by subscribers from various parts of the country. This institution was, at its inception and for a long time afterwards, not much more than a higher-class school, but it had within it the possibilities of growth and started with very high aims. It had a very chequered history for some time, and was on more than one occasion in danger of extinction, but it gradually acquired a stronger position on ceasing to be a proprietary institution and receiving support from the public funds. For 20 years it remained the only educational establishment in S. Africa which aspired to anything beyond the range of elementary education, but in 1849 a rival College (the Diocesan) was started under the ægis of the Episcopalian Church at Rondebosch, a suburb of Cape Town. A few years later, in 1855, a somewhat similar College, St. Andrew's, was founded in Grahamstown, in the eastern part of the Cape Colony. Under the Governorship of Sir George Grey there was founded, in 1855, the Grey College at Bloemfontein in the Orange Free State, the first attempt at higher education beyond the borders of the then Cape Colony. None of these Colleges was well equipped, and most of the work done by them was school work rather than Univ. work, but they gradually acquired a growing influence and formed centres at which development was only a question of time. A very strong impetus in the direction of higher education was given in 1858 by the establishment of a Board of Examiners in Literature and Science. This Board had in view in the first instance the testing by means of examination of the competency of candidates for the Civil Service and public offices, but

it soon extended its scope and started examinations on more distinctively Univ. lines, corresponding roughly to Matricn., B.A., and M.A. The competition between the existing Colleges caused by these examns. had undoubtedly a strong influence on the growth of these Colleges and the greater attention paid to subjects beyond the mere school range. This Board continued to exist until 1873, when a successful attempt was made to institute a Univ. for S. Africa. The Univ. of the Cape of Good Hope, which was then founded, continued to exist until the beginning of 1918, when it was transformed into the Univ. of S. Africa, with its administrative seat at Pretoria. This Univ. was modelled on the lines of the London Univ., as then existing, as a purely examining body. It was governed by a Council, half of whose members were nominated by the Government, half elected by the members of Convocation. It had no constitutional connexion with the Colleges which prepared students for its examns., but the members of the Council who were elected by Convocation tended gradually to be almost entirely members of the teaching staffs of the various Colleges. In this indirect fashion the Colleges had a considerable influence on the development of the Univ. and the extension of the range and scope of its examns. Almost at the same time as the founding of the Univ. of the Cape of Good Hope there was passed by the Cape Parliament a Higher Education Act, which gave definite salary grants to the professors at recognized Colleges. This Act, together with the new impulse given to higher education by the new Univ., had a very marked influence on the development of the Colleges, which now began to increase in staff and numbers of students. The new College of Stellenbosch (afterwards the Victoria College and now the Univ. of Stellenbosch) was founded in 1874, and grew very rapidly, until it was a formidable rival of the older College at Cape Town. Other Colleges were founded also at Somerset East (Gill College) and Port Elizabeth (Grey Institute), but these had only a very short term of life. At a considerably later period, as S. Africa grew in population and wealth, other Colleges sprang into existence. A College for women (the Huguenot College) was founded at Wellington in 1898. In 1904 St. Andrew's College at Grahamstown separated its College department from its school, and the former became incorporated as the Rhodes College. In the same year was founded at Johannesburg an Institute, designed in the first instance for instruction in mining but afterwards developed into a College for higher education generally, and now The University of the Witwatersrand. In 1908 a Univ. College was founded at Pretoria, and in 1909 a similar College was instituted at Pietermaritzburg, Natal.

In 1904 there began a movement for the institution of a teaching, in place of the examining, Univ., and the controversy regarding the rival claims of a federal and a single-college Univ. continued for a number of years. An Inter-Colonial Conference on Univ. Education in 1908 reported in favour of a federal scheme, but nothing came of its decision. A new factor in favour of a teaching Univ. was introduced by the munificent gifts for this purpose of Mr. Alfred Beit, his brother, Mr. (now Sir) Otto Beit, and Sir Julius Wernher. In consequence of these gifts, various attempts were made by the Government to solve

the knotty question of reconciling claims of the existing Colleges with the institution of one or more teaching Univs. A parliamentary committee deliberated on the subject in 1913, and a Commission was appointed in the same year and, after taking evidence, issued its report in 1914. This Commission proposed two Univs., one consisting of a federation of the S. African College and the Victoria College, the other of a federation of the remaining Colleges (Rhodes College being allowed the choice of joining whichever federation it pleased), but the proposal led to no practical result, chiefly owing to the objection on the part of the two oldest and strongest colleges, at Cape Town and Stellenbosch, to the loss of their independence. The problem was at length solved in 1916 by giving charters to both the S. African College and the Victoria College, and by the reincorporation of the old Univ. of the Cape of Good Hope as a federal Univ. embracing all the other Colleges under the name of the Univ. of S. Africa.

The three Acts passed by the Union of S. Africa in 1916 were to the following effect :

I. The Univ. of the Cape of Good Hope became the Univ. of South Africa, with its administrative seat at Pretoria.

II. The South African College became the Univ. of Cape Town, with which is incorporated the S. African College. Its seat is to be upon the Groote Schuur estate on the eastern slopes of Table Mountain.

III. The Victoria College, Stellenbosch, became the Univ. of Stellenbosch, with its seat in the division of Stellenbosch in the Province of the Cape of Good Hope.

The Faculties of the Univ. of Stellenbosch are specified as—Arts, Science, Education, Agric., Law, Music ; of the Univ. of Cape Town as—Arts, Science, Medicine, Law, Engineering, Education ; of the Univ. of South Africa the Faculties are not defined, but permission is given to each of the constituent Colleges to establish such faculties or depts. as it may deem fit ; provided that it shall not, without the consent of the Govr.-General, apply towards the maintenance of a faculty or dept. not established at the commencement of this Act any money granted to the College from public funds. A schedule is appended to the Act stating that professional examns. will be conducted in Law and Jurisprudence, in Civil Service Law, and in the Theory of Land Surveying.

In 1921 Parliament passed a further Act, which has the effect of incorporating, with effect from March 1, 1922, as " The University of the Witwatersrand, Johannesburg," the University College, Johannesburg (formerly the S. African School of Mines and Technology, and one of the constituent colleges of the University of S. Africa). Its Faculties are defined as Arts, Science, Medicine, Law, Engineering, Commerce.

Each of the four Univs. is governed by Council, Senate, and Convocation. The Senate of the Univ. of South Africa consists of the Professors and Lecturers of the constituent Colleges who are heads of such departments as are recognized by the University Council ; the Senates of the Univs. of Stellenbosch, the Witwatersrand, and Cape Town consist in each case of the Principal, the Vice-Chancellor, two

additional members of the Council appointed for a prescribed period, and the Professors.

CONFERENCE. The Vice-Chancellors of the Univs. acting as a Joint Committee (known as *The Vice-Chancellors' Committee*) have, in the exercise of powers conferred by the above-mentioned Acts, made joint statutes and regulations relating to the Joint Matricn. Board, the Joint Committee for Professional Examns., the administration of the Joint Scholarship Funds of the four Univs., the admission of registered students of any one of the Univs. to any of the others, and a minimum period of attendance and minimum fees for the Degree of Bachelor. They have power to formulate regulations dealing with any other matters of common interest. The address of the Secretary (who is also Registrar, Univ. of Cape Town) is P.O. Box 594, Cape Town.

Representatives of the Univs. and Univ. Colleges in South Africa met for the first time in conference in Cape Town in Dec. 1925 to discuss matters of common interest and to promote co-operation and mutual consultation.

The JOINT MATRICULATION BOARD (Pretoria) consists of representatives of the four Univs., the Provincial and Union Departments of Education and the Secondary Schools (public and private) of the four Provinces. Its function is to control and conduct the Matricn. Examn. of the four Univs., and to deal with all applications for exemption therefrom. There are two alternative sets of regulations—the interim and the new.* Under the interim rules a candidate must take (1) English or Dutch, (2) Latin or French or German, (3) Maths., (4) Greek or Hist., (5) Physics or Chem. or Phys. Sci. or Bot. or Zool. or Hygiene or Agric. Sci., (6) Engl. or Dutch or French or Ger. or Gk. or Hist. or Portuguese or Hebrew or Native lang. or Geog. The new grouping of subjects is : (1) English, Dutch ; (2) Maths. ; (3) Latin, Greek, French, German ; (4) Physics and Chem., Physics, Chem., Bot. and Zool., Bot., Zool., Geol., Hygiene, Agric. Sci. A. ; (5) Hist., Geog., English, Dutch, Hebrew, addl. subject from 3 or 4 ; (6) Agric. Sci. B., Practical Maths., Mechanics, Bookkeeping and Comml. Arith., Shorthand and Type-writing, Drawing, Geom. Drawing, Domestic Sc., Music, addl. lang., addl. subject from 5. Under the new regns., if 6 subjects are taken, 1 must be selected from each group ; if only 5 subjects are taken, 3 must be on the higher grade, 1 of which must be the subject from group (1), 1 a subject from group (2) or (3), and 1 from any other except (6). The 5 subjects must be selected from the groups 1 to 5 (inclusive) in such a way that not more than one of these groups is omitted. School-leaving certificates are also issued by the Board under both sets of regns., the syllabuses and examn. papers being the same as for the matricn. examn. with a wider choice of subjects.

Examinations exempting (i.) wholly, or (ii.) subject for subject, from the matriculation examination of the South African Univs. : (i.) Final degree examns. of univs. recognized by the Joint Board, St. Andrews' L.L.A., Teachers' 1st Class Certificate (S. Africa), Technische Hoogeschool of Delft Diploma examn., including Latin, French, or German, and, subject

to certain conditions, Transvaal Secondary School Certificate (in or after 1921), Cape Province Senior Certificate (in or after 1923).

(ii.) Provided that candidates have passed, with at least 4 subjects chosen in accordance with the regulations for a matricn. certificate of the Board, an entrance examn. of any univ. recognized by the Board, senior certificate of the Univ. of the Cape of Good Hope or School-leaving certificate of the Board, Second Class Teachers' certificate (Transvaal and Natal Province), Eindexamen in Holland of Gymnasium or Hogere Burgerschool, Diploma in Switzerland of "École Supérieure de Jeunes Filles," Abiturienten-examen or Maturitäts Prüfung in Germany or Switzerland at a gymnasium, Hoofdakte-examen in Holland, one of the examns. numbered in Appendix XX. as 7 (a), 8 (a), 9 (b), 10 (b), 13 (b), 14 (Higher), or, *with credit* in each case, examns. 7, 8 (b), 9, 10, 13, 13 (a), 14. Dynamics of the Scottish Universities preliminary examn. and Mechanics of the Senior or School-leaving Certificate (S. Africa) are accepted in lieu of a matricn. science subject.

Candidates over the age of 25 who desire to proceed to a degree course and are not eligible for exemption under the ordinary regulations, may, under certain conditions, be specially exempted from Matricn. on the recommendation of the Univ. concerned.

The JOINT COMMITTEE FOR PROFESSIONAL EXAMNS. (Address—P.O. Box 392, Pretoria), consisting of 2 representatives of each of the 4 Univs. (one for Law and one for Survey) and 5 persons appointed by the Govr.-General (of whom at least 2 must be for Law and 2 for Survey), controls and conducts: (1) Law Certificate Examn., (2) Civil Service (Lower and Higher) Law Examns., (3) Examns. in Theory of Land Surveying, and (4) Final Examn. for Patent Agents. It also conducts in certain cases on behalf of the Supreme Court the Advocates' Admission Examn. in Roman-Dutch Law and the Statute Law of the Union.

A NATIONAL UNION OF SOUTH AFRICAN STUDENTS was formed in 1924. President, L. Marquard, Grey College School, Bloemfontein; Secy., C. J. O'Kennedy, Secondary School, Riebeeck West, C.P. A party of 150 university students visited Europe in Dec. 1925.

GENERAL INFORMATION (v. also p. 489)

The University of Cape Town, with which is incorporated the South African College, created by Act 14 of 1916, came into legal existence on April 2, 1918, when the Council took over a bequest by Sir Julius Wernher of £250,000 and a donation of equal amount from Mr. Otto Beit, who added £50,000 to a lapsed bequest by Mr. Alfred Beit. The S. African College, out of which the University grew, opened in 1829 as a private venture, became a public institution in 1837. In 1895 classes were opened in mining engineering. In 1900 the matriculation classes were transferred to the College school and the College confined itself to University teaching. In 1902 £40,000 was collected from past students and others, and courses for medical students and civil, mechanical, and electrical engineers were begun. Provision was made in 1910 for post-graduate courses for the training of teachers, in 1917 for the third year of medical study, and in 1918 for a complete medical course. In 1921 Schools of Commerce and of Music were established. Early in 1921 a special appeal for funds was concluded; the amount obtained was about £280,000, including a sum of £50,000 for the Jameson Memorial Hall.

A site for the University has been provided by Government at Groote Schuur, a suburb of Cape Town. Pending the erection of buildings there, those formerly occupied by the Univ. of the Cape of Good Hope have been rented.

LIBRARY, 30,000 vols. Access to S.A. Public Library, 100,000 vols., specially well equipped in Bot. and Zool. Depts. Also Bolus Bot. Library and (for students of Teaching) the Library of the Educn. Dept. The Bolus **HERBARIUM** includes Guthrie Collection of Cape Flora. The S.A. **MUSEUM** of Nat. Science adjoins the Univ. grounds. **MARINE BIOL. LABORATORY** at St. James'.

FACULTIES. Arts, Commerce, Science, Engineering, Law, Medicine, Education, and Music.

DEGREE COURSES. B.A., 3 yrs.; B.Sc. (in Pure Sc.), 3 yrs.; B.Com., 3

yrs. ; LL.B., 5 yrs. ; B.Sc. (in Applied Sc.), 4 yrs. ; B.Mus., 4 yrs. ; M.B., Ch.B., 6 yrs. Higher degrees: M.A., 1 yr. ; M.Sc., 1 yr. ; M.Com., 1 yr. ; B.Ed., 2 yrs. after B.A. The M.A., M.Sc., and M.Com. courses are open to graduates of any approved Univ. ; so also are courses for the Ph.D. (open to bachelors of at least 3 yrs.' standing), and D.Litt., D.Sc. (open to bachelors of at least 4 yrs.' standing), for which attendance for 2 yrs. may be required. The M.Com. is open to B.Com. of 3 yrs.' standing. The LL.M. is open to LL.B. after 2 yrs.' attendance ; the LL.D. is open to LL.B. or LL.M.

OTHER COURSES. For Teachers' Certificate.—Secondary Higher, Secondary Lower, Primary Higher ; Univ. Diploma in Commerce, in Architecture, in Music, in Fine Art, in Speech Training (elocution) ; Univ. post-graduate diploma in public health ; Law Certif., Land Surveying, Civil Service Law examn., Dentistry (preliminary subjects), and for students of Agric. and Theol. proposing to graduate in those subjects elsewhere.

RECOGNITION OF AND BY OTHER INSTITUTIONS. Attendance in Stellenbosch and the constituent Colls. of the Univ. of S. Africa is accepted under certain conditions as part of the attendance qualifying for degrees. Attendance on classes in Physics, Chem., Bot., and Zool. is accepted by Aberd., Bris., Durh., Edin., Glas., Liv., Manc., Dub., R.C.P. Lond., R.C.S. Eng. ; so also are examns. in the Faculty of Arts on the special courses in these subjects (except by Dub.). Attendance on courses in Anat. and Physiol. is accepted by Aberd., Durh., Edin., and Glas., R.C.P. Lond., and R.C.S. Eng. ; examns. in the Faculty of Arts in these subjects are accepted by Aberd. (v. also pp. 293, 326). The Dentistry course is recognized by the R.C.S. Eng., R.C.P.S. Edin., and Edin. Dental School ; the Hygiene course by the Conjoint Boards of Eng., Ire., Edin., and Glas.

FEES. For tuition, including registration, excluding laboratory fees, annually : Arts or Sc., from £23 to £31 ; Engin., £31 to £35 ; Med., £38 (average) ; Law (LL.B.), £23 to £29, Law Certif., £11 ; Teaching, £15 to £27 ; Surv., £27 ; Commerce (B.Com.), £23 ; Architecture, £35 ; Fine Art, £32 ; Music, £25 to £40. Examn. and graduation fees, minimum : B.Ed., £10 ; B.A. or B.Sc. or B.Com., £11 ; B.Sc. Engin., £20 ; LL.B., £30 ; M.B., Ch.B., £30 ; Master's degree, £6 ; Doctor's, £13.

SCHOLARSHIPS OPEN TO GRADUATES OF THE UNIV. Jamison, Croll, Porter, George Grey, Donald Currie, Willem Hiddingh, and several others, of £150 and £200 p.a., tenable generally for 3 yrs., and awarded from time to time after the M.A. or M.Sc. examns. £150 p.a. for 2 yrs., awarded annually after the B.Sc. (Engin.) examn. ; £150 for 1 yr., awarded annually after the final professional examn. for M.B., Ch.B. H. B. Webb Gift Research Scholp. of £200 p.a., tenable for three years, is available for award every three years to graduates of the University.

Travelling concessions to students are granted by the Union-Castle S.S. Coy. and (except to law students and married persons) by the Union Railways.

THE YEAR 1925

BENEFACTIONS. Sir Percival Laurence, £2000 for classical studies ; Rt. Rev. Mgr. Kolbe, a valuable collection of books and paintings.

NEW BUILDINGS. Foundation stones of main buildings and medical block to be erected on the Groote Schuur estate were laid by H.R.H. Prince of Wales in May, and by H.E. the Governor-General in March respectively. The faculty of music was transferred to Strubenholm, contiguous to the new buildings and recently acquired by the Univ., which has also purchased an adjoining property (Glenara) for the administrative department.

NEW POSTS. Several Assistants in Fine Art and Architecture, and in the Faculty of Medicine.

IMPORTANT CHANGES IN REGULATIONS. The curriculum for LL.B. was extended from 4 to 5 years from matriculation; an approved Bachelor's degree in a faculty other than that of Law will in future be a pre-requisite for the LL.B. At the request of the Students' Representative Council the Univ. decided to enforce from 1926 the wearing of gowns by students at all lectures in the mornings and afternoons. Attendance at the Cape Technical College was recognized under certain conditions for admission to Univ. examns. in specified courses for the B.Com.

RESIGNATIONS. Professors: J. Boyd, German (appointed Reader at Univ. of Bristol); A. R. Radcliffe Brown, Social Anthropology (similar post at Sydney). Lecturers: W. F. Barker (Prof. of Chem. at Rhodes Univ. College); A. C. Cilliers (Lectr. in Physics at Univ. of Stellenbosch); Miss M. E. Greenlees, English (Principal, High School, Grahamstown); J. J. Jordan, Education (Principal, Afrikaans Medium School, Cape Town); A. H. E. Rogers, Elec. Engineering (Principal, Technical College, East London); Miss D. Morrison, Pharmacology (married); C. F. K. Watson, Classics (commercial business in India); R. Wolff, Anatomy (private practice).

PUBLIC LECTURES AT UNIVERSITY. Prof. Sir John Adams, who visited South Africa under the auspices of the South African Teachers' Association, and Dr. Morris Goldberg, Lecturer in Sociology in Univ. of London.

Courses for B.A., B.Com., B.Econ., B.Sc.—3 yrs. ; B.Mus., B.A. (Fine Arts), B.Sc. Eng., B.Sc. Agr.—4 yrs. ; B.V.Sc.—5 yrs. ; LL.B.—3 yrs., after graduating in some faculty other than Law. *Internal* candidates for these degrees must have attended as registered matriculated students at a constituent Coll. for the prescribed periods, provided that the Senate will accept as qualifying attendance on recognized courses at any of the other South African Univs. and may accept attendance and examns. at other recognized Univs. But the minimum attendance on approved courses at the Univ. of S.A. for the Bachelor's degree in Applied Science is the final 2 yrs., and for other Bachelor's degrees one-half of the courses prescribed. *External* students must have their curricula approved by the Senate and must pass the examns. prescribed for them from year to year by the Senate in order to qualify for degrees.

The M.A., M.Sc., M.Com., M.Econ., and M.Sc. (Agric.) courses each cover 1 yr. after the Bachelor's degree ; the M.Ed. 2 yrs. The M.Sc. (Engin.) may be conferred on a B.Sc. (Engin.) who has had, since graduating, 2 yrs.' practice of his profession. A thesis is required for the LL.M., M.Sc. (Agric.) or M.Sc. (Engin.).

Doctorates are granted for approved theses to bachelors of at least 5 yrs.' or masters of at least 4 yrs.' standing (reducible to 4 and 3 respectively in consideration of attendance for one year as a research student at an approved institution). The Master's and Doctor's degree may also be conferred *honoris causa*.

Research (Bachelor) Degrees. On proof of special qualifications in any direction a person may be exempted from the matricn. examn. and admitted to courses of special study and research with a view to graduation, the conditions being determined by Boards of Faculty subject to approval of Senate.

Diplomas in Domestic Science and Education (Lower) open to matriculated students—3 yrs.' course; in Education (Higher)—1 yr. course after graduation; (as a temporary measure) in Commerce and Public Admn.—non-matriculated students who fulfil examn. requirements for B.Com. or B.Econ.; in Bantu Studies (Lower and Higher).

SCHOLARSHIPS FOR GRADUATES: 2 or 3 of £150 to £200 p.a. for 3 yrs. awarded annually on results of M.A. and M.Sc. examns.; Webb Research Scholarship, £200, open to M.A. or M.Sc. of not more than 2 yrs.' standing, undertaking approved course of research work, renewable from year to year up to 3 yrs.

SCHOOL AND MUSIC EXAMNS. The Univ. controls and conducts a *Junior Certificate* examn. of standard 2 yrs. below matricn., and examns. for Music Certifis. and Licentiate Diplomas (for Teachers of Music and Solo Performers). The examiners in the practical music examns. are nominated by the Assoc. Board of R.A.M. and R.C.M., London.

PUBLICATION. *Calendar* (April), 2s. 6d.

GENERAL INFORMATION (v. also pp. 489, 500)

In 1908 University Classes in Arts, Science and Law were established at Pretoria by the Transvaal Govt., and were placed under the control of the Council of the Transvaal Univ. College at Johannesburg, the constitution of that body being altered so as to give Pretoria equal representation. A separation took place in 1910, the Johannesburg section being reincorporated as the South African School of Mines and Technology, whilst the Pretoria section retained the name of the Transvaal Univ. College. In 1917 was instituted a Faculty of Agriculture, financial provision for which (an endowment of £100,000) had been made by the last Parliament of the Transvaal in 1910. The following Faculties have since been established: 1918, Theology; 1919, Commerce and Public Administration; 1920, Veterinary Science; Music, 1923. The original College Buildings were erected and equipped at a cost of £50,000; those of the Faculty of Agric. at a cost of £100,000; those of the Faculty of Vet. Science involved an expenditure of £150,000. A new Science block was completed at the end of 1924 at a cost of £40,000.

COURSES are provided for all Degrees and Diplomas of the Univ. in Arts,

Science, Agric., Vet. Sc., Law, Div., Music, and Commerce and Public Administration. FEE for full degree course, £17 : 5s. to £27 : 6s. p.a.

HOSTELS. 4 for men, including the Dutch and English Church Hostels, and 3 for women. Board and Residence, £60 p.a.

LIBRARY, 40,000. LABORATORIES: Bot., Chem., Entom., Geogr., Geol., Phys., Physiol., Zool., Agric. Bot., Agric. Chem., Agronomy, Vet. Anat. ASTRONOMICAL OBSERVATORY.

UNIVERSITY EXTENSION. The faculties of Agric. and Vet. Sc. co-operate with the Union Dept. of Education in connexion with the extension train service organized by it.

PUBLICATION. *Calendar* (June).

THE YEAR 1925-26. Extra-mural block for students in Law, Commerce, and Bantu studies was erected in centre of city (cost £15,000); a Women's Hostel with Domestic Science Laboratories (cost £18,000). GENERAL INFORMATION (v. also p. 489)

Telegraphic address—University, Johannesburg.

The TRANSVAAL TECHNICAL INSTITUTE, constituted in 1903, was opened in 1904 and took over at Johannesburg the work of the S. AFRICAN SCHOOL OF MINES, KIMBERLEY, which had been founded in 1896. In 1906 its name was changed to "TRANSVAAL UNIVERSITY COLLEGE," and in 1908 Arts and Science classes at Pretoria were placed under its control. This arrangement was terminated in 1910, when the Johannesburg part of the institution was incorporated under the name of the S. African School of Mines and Technology. Buildings, towards the cost of which the Council of Education, Witwatersrand, contributed £60,000 and Govt. £30,000, were opened in March 1909. In 1913 Commerce (Diploma) courses were established. In 1916 a Witwatersrand University Committee was formed in Johannesburg to promote the establishment of a fully equipped Univ. College financed by the State, as a step towards the formation of a University. In 1917 the School became one of the constituent colleges of the new federal Univ. of S. Africa. In the same year classes in Arts, Pure Science, and Medicine were inaugurated. In Sept. 1920 the institution became the "University College, Johannesburg." In 1921 the College was reincorporated as a University with effect from March 1, 1922. The students in 1916 and each of the following years up to 1922 numbered 77, 173, 191, 301, 635, 812, 983. This development was made possible partly by support from the public, including contributions by the Chamber of Mines (£50,000), Standard Bank of S.A., Nat. Bank of S.A., Central Mining and Investment Corporation, and De Beers Cons. Mines, Ltd. (£10,000 each), Sir Otto Beit (£8000), and many others, amounting in all, up to the end of 1922, to over £220,000. The Municipality provided a fine site (100 acres) at Milner Park, a mile from the centre of the town. Expenditure on buildings and lay-out up to Aug. 1925 amounted to £450,000. LIBRARIES: Seymour Memorial, 12,000 vols., and several departmental. MUSEUM with good Geol. collection.

GENERAL INFORMATION

Founded in 1769 by Grand-Master Fra Emmanuel Pinto de Fonçeca of the Order of St. John under the authority of Pope Clement XIV., the University is lodged in a building erected by the Jesuit Fathers in 1591-93 for a College, whilst its Medical Faculty originated in a School of Anatomy founded in 1674 by Grand-Master Nicola Cottoner in the Great Hospital of the Order, which accommodated 745 patients. The authorities of the University as reconstituted by a Govt. Statute of 1921 are the Visitor, the Rector, the General Council (consisting of the Rector, six Professors, and three members elected by Convocation), six Faculty Councils, and Convocation.

LIBRARY, 5000 vols. A public library maintained in connexion with the Univ. contains over 100,000 vols. and is rich in MSS. and rare editions of great historical interest. **MUSEUMS**: Nat. Hist. and Archæol. **OBSERVATORY**, full meteorol. equipment and seismograph. **BOTANICAL GARDEN**. **HOSPITALS**, available for Clinics: general (300 beds) and several special; Leper Asylum (100); lunatic (1800); aged poor (800).

FACULTIES: Literature, Science, Engineering and Architecture, Theology, Law, Medicine.

MATRICULATION involves passing an examn. in 5 subjects, including English, Italian, Maths., and, except for Engineering courses, Latin; for Med. students proposing to register in England, 6 subjects, including also Hist.

DEGREES, ETC. B.A., B.Sc., B.E. and A., M.D., LL.D., D.D., B.L. Can. Diplomas of Notary Public, Legal Procurator, Pharmacist and Apothecary, Dental Surgeon, Midwife.

SCHOLARSHIPS FOR GRADUATES. £120, one each in Theol., Law, Engin., and Med. (Travelling Scholps.). £50, one each in Theol., Law, Med. One of £120 awarded every 6 years in the faculty of Med.

THE YEAR 1926

NUMBER OF STUDENTS. Faculty of Science, 28; Literature, 12.

THE UNIVERSITIES OF INDIA

UNIVERSITIES were first established in British India as a result of the great parliamentary inquiry into the condition of India which preceded the confirmation of the Company's Charter in 1853. It was resolved to create a properly articulated system of education from the Primary School to the Univ. The London Univ., at that time a purely examining body, which admitted to its tests only the students trained in affiliated institutions—the latest device of educational statesmanship—was taken as a model. "It had been suggested, in London, by conditions which resembled those of Bengal. . . . Its defects were not yet apparent, though it was to be profoundly modified by London itself four years later. It had the advantage of costing very little. It enabled all the existing collegiate institutions, whether Government or missionary, to be worked into the same scheme, and promised to provide a quite impartial mode of testing the qualifications of students for Government service. Above all, it gave freedom to the non-Government Colleges—all, at that date, mission colleges—to carry on their work in their own way, and offered them help from public funds for the secular side of their work" (*Report of the Calcutta Univ. Commission, 1917-19*). In pursuance of this policy, Univs. were founded in 1857 at Calcutta, Bombay, and Madras. The framers of the policy, while contemplating that the ordinary subjects of study should be dealt with by the Colleges, did not intend that the Univs. should have no teaching functions, but in point of fact they have until recently concerned themselves solely with examinations. In 1882 and 1887 the Univs. of the Panjab and Allahabad were established on similar lines. A Commission was appointed in 1902 to examine the working of the system, and the Univs. Act of 1904 was designed to give effect to its recommendations as to reorganization of the government of the Univs., their assumption of teaching functions, and more effective supervision by them of the Colleges as well as more exacting conditions of affiliation. Univ. Professorships, Readerships, and Lectureships have accordingly been constituted in the above-named Univs., but mainly for advanced (post-graduate) courses and, except in Calcutta, only on a very small scale. Benares (Hindu), Mysore, and Patna Univs. were established in 1916 and 1917. The Osmania Univ., Hyderabad, Deccan, was also established in 1917, though actual tuition began in Aug. 1919.

The foundation, structure, aims and efficiency in working of institutions for higher education in India have been subjected to exhaustive re-examination by the Calcutta Univ. Commission, 1917-19. In the Univ. of Calcutta itself but little progress has been made towards giving effect to the far-reaching and fundamental changes recommended by this body, but their recommendations have to a great extent determined the lines on which were established in 1920 and the two following years the unitary, teaching, and residential Univs. of Aligarh, Dacca, Delhi, Lucknow, Rangoon, and on which the Univ. of

Allahabad was reorganized in 1921. The Nagpur Univ. was established by legislation in 1923, and in the same year the Univ. of Madras was reorganized on lines somewhat similar to those of the Univ. of Allahabad. Recently the constitution of the Rangoon Univ. has been somewhat altered by an Act of the provincial legislature. In 1926 Acts of the United Provinces and Madras Legislative Councils provided for the establishment of affiliating Universities at Agra and at Bezwada (the Andhra University). The report of the Bombay Univ. Reform Committee (published 1925) recommends the establishment of a Univ. at Poona.

CONSTITUTION. (a) The Univs. of Calcutta, Bombay, and the Panjab are still governed by the constitution framed under the Act of 1904. The Senate, comprising the (official) Chancellor, the Vice-Chancellor, and Fellows, constitute the Body Corporate of the Univ., the executive government being vested in a Syndicate of from 9 to 17 members, including the Vice-Chancellor and Director(s) of Public Instruction, and members (largely College teachers) elected by the Senate or the Faculties. The constitution and abolition of Faculties rests with the Senate. The Academic Council recently instituted by the Panjab Univ. has been invested with important powers subject to the general control of the Senate; the revision of the Constitution of the Senate and the Syndicate is, at present, engaging the attention of the governing authorities. In its application to Calcutta the Act of 1904 is modified by Act VII. of 1921.

(b) The new Univs. have a constitution modelled generally on that recommended for Calcutta by the Calcutta Univ. Commission:—(1) A large body called the Court, on which are represented the chief interests of the community either by election or by nomination, and including a number of ex-officio members, makes statutes and makes recommendations on the financial accounts and the annual report submitted by the Executive Council; (2) the Executive Council of some 15-20 members, elected partly by the Court, partly by the Academic Council, and including ex-officio members, is the executive authority in regard to finance and University appointments, and exercises all residual powers; (3) the Academic Council, which consists almost entirely of University teachers, is responsible for the regulation and maintenance of standards of education and examination within the Univ., and for the initiation of all changes in academic matters. The executive officers of the new Univs. are, as under the older constitution, the Chancellor, the Vice-Chancellor, and the Registrar, but the Governor-General is now introduced as the Visitor or Lord Rector, with powers of inspection. At Rangoon the three constituent bodies above mentioned are named (1) Council, (2) Executive Committee, and (3) Senate.

ADMISSION TO THE UNIVERSITIES. Most of the Indian Univs. admit students who have passed the Final Examn. of the High Schools, and 4 years are spent at a College affiliated to the Univ. before the student is qualified to sit for the Bachelor's Degree Examn., namely, 2 years before the Intermediate Examn. and 2 after. The Univs. of Allahabad, Aligarh, Dacca, Lucknow, and Patna regard the pre-Intermediate years

not as part of, but as preliminary to, University study. The Univ. of Mysore requires that a student shall, after obtaining the School-leaving Certificate, study for a year at a recognized Collegiate School and appear for the Entrance Examn.; successful candidates, admitted to the Univ. Courses of Study, can appear for the Bachelor's Degree Examn. after 3 years.

Applications for AFFILIATION are submitted by the Syndicate, if satisfied as to the managing agency, teaching staff, provision for residence of students, equipment, financial resources, suitability of fees, etc., to Government. If granted, the courses in respect of which the College is affiliated are specified. Affiliated Colleges must comply with requisitions by the Syndicate for information, submit themselves to inspection under the Syndicate's orders, and take such action as may be ordered consequent upon such inspections. In Calcutta and Panjab Univs. affiliation questions are dealt with by the Senate.

TERMS. Univ. examns. are, with few exceptions, held between March and June. Admissions are made as a rule in June or July, though in many cases regular work does not commence till Sept. or Oct.

DEGREE COURSES. In *Arts and Science* a 2 yrs.' course leading to an Intermediate examn. is followed by a further 2 yrs.' course for the Degree. English is a compulsory subject, except in the B.Sc. course of Allahabad, Bombay, Calcutta, and Patna. All., Lucknow, Madras, and Panjab Univs. give Honours degrees (All. in Science, Lucknow, Madras, and Panjab in Arts and in Science) requiring an additional year of study.

Commerce. The B.Com. course covers ordinarily 2 yrs. (All. and Mysore—3 yrs.) after passing the Intermediate examn. in Arts.

Law. The LL.B. (or B.L.) course covers 2 yrs. (Calc.—ordinarily 3 yrs.) after graduating in Arts or Science.

Medicine. The M.B. and B.S. course covers 5 yrs. (Bom.—4½ yrs., Calc. and Rangoon—6 yrs.), starting from the Intermediate examn. in Arts or Science (Calc.—in Science). L.M. and S. course (Rangoon), 5 yrs.

Teaching. The B.T. (All. and Mad.—L.T.) courses cover 1 yr. after graduation in Arts or Science. Calc. gives a L.T., obtainable by 2 yrs. of study after passing the Interim. examn. in Arts or Sc. Bombay requires either 3 yrs.' experience or 2 terms at a Training College after graduation, *plus* 1 yr.'s experience thereafter; Patna, 1 yr. of study 2 yrs. after passing the Interim. examn. in Arts or Science. The Lucknow Diploma in Teaching, for women only, requires a 1 yr.'s course after graduation in Arts or Science, as does the Rangoon diploma.

Engineering. For the B.E., Bombay gives a 3 yrs.', Calcutta, Madras, Patna, and Rangoon (post-intermediate) a 4 yrs.', course.

HIGHER DEGREES. The M.A. or M.Sc. can be taken by bachelors of 2 yrs.' standing; the M.Sc. Mad. by B.Sc. (Hons.) of 1 yr.'s standing; the Ph.D. Mad. by B.A. (Hons.) or M.A. of 3 yrs.' standing; the D.Litt. of All. and Ph.D. of Calc. by M.A. of 3 yrs.' standing; the D.Lit. or

D.Sc. of Panj. by M.A. or M.Sc. after 2 yrs. of further advanced study ; the D.Sc. of All. by M.Sc. of 3 yrs.' standing ; the D.Sc. of Calc. or Mad. by M.Sc. of 3 yrs.' standing. A degree of M.Com. of Bombay can be taken by B.Com. of 2 yrs.' standing. The examination for the Bombay diploma in Ophthalmology may be taken by L.M. and S. or M.B., B.S. of 1 yr.'s standing.

The LL.M. of All. and Bom., the M.L. of Mad., and the LL.M. of Panj. may be taken by LL.B. or B.L. of 2 yrs.' standing, the M.L. of Calc. or Patna at any time after taking the B.L., the LL.M. of Delhi by LL.B. of 3 yrs.' standing. The LL.D. (or D.L.) is open to LL.M. (or M.L.) after 5 yrs. (Calc. 1 yr.) of practice.

The M.D. (and in Calc. M.O.) can be taken by medical graduates after experience (Luck. and Panj. 4 yrs., Calc. and Mad. 3 yrs., Bom. 5 yrs.) in the practice of their profession or hospital practice (Luck. and Panj. 2 or 3 yrs., Mad. and Calc. 1 or 2 yrs., Bom. 1 or 2 yrs., in addition to professional practice). The M.S. qualifications are similar, but in Calcutta both hospl. and professional practice are required.

STATUS OF THE NEW UNIVERSITIES. The Univs. of Aligarh, Benares, Dacca, Delhi, and Patna have been incorporated by Acts of the Indian Legislature, and of Lucknow and Rangoon by those of provincial legislatures. Their degrees and examns. are recognized by the Govt. of India to be equal in value to those of the older Univs. for the purpose of admission to public services.

Mysore and Osmania were established by local legislation in Indian States, and are not within the jurisdiction of the Govt. of India. The degrees of Mysore have been recognized by the Univs. of Bombay, Calcutta, the Panjab, and Madras, and most of the new Universities, and by the Govt. of India. See also p. 574. Osmania degrees have been recognized by the Govt. of India as equivalent to those of the Univs. established by law in India.

Professor Karve's scheme for an Indian Univ. for women with headquarters at Poona proposes to organize there and, through affiliated institutions, elsewhere, instruction through the Indian vernacular languages adapted to the special needs of women. It is on entirely independent lines, and seeks no recognition or aid from Govt.

NUMBER OF STUDENTS in March 1924 in the 262 Arts and Professional (including 80 Intermediate and 2nd Grade) Colleges was 74,520, including 1914 women.

RESIDENCE. One of the recommendations of the Commission of 1902 was that much closer attention should be given to the conditions under which students live and work, and very large sums have since been spent in providing hostels and otherwise improving the conditions of student life. In 1923-24 some 24,674 students (including 826 women) of Arts and Professional Colleges were accommodated in approved hostels or boarding-houses.

CONFERENCES. In April 1920 a Committee was formed for drafting an outline of the functions and constitution of an Assocn. of Indian Univs. The project was further advanced at the Congress of Universities of

the British Empire at Oxford in July 1921, and at a Conference of Indian Universities held at Simla in May 1924. In accordance with a resolution passed by the Simla Conference, an INTER-UNIVERSITY BOARD has been formed with temporary headquarters at Mysore. Chairman of the Board—Nawab Hydar Nawaz Jung Bahadur (Mr. A. Hydari), B.A., Finance Member, Executive Council, H.E.H. Nizam's Government, and Member, Univ. Council, Osmania Univ., Hyderabad (Deccan); Hon. Secretary—N. S. Subba Rao, M.A., Barr.-at-Law, Univ. Prof. of Economics, and Principal, Maharaja's College, Mysore Univ.

The VICEROY'S GOLD MEDAL, instituted in 1926 by Lord Irwin, is open for competition, annually, to undergraduates of any Univ. incorporated by law in British India. It is awarded for the best essay on some problem of the day.

INDIAN STUDENTS AT THE HOME UNIVERSITIES. The Education Department of the Office of the High Commissioner for India, 42 Grosvenor Gardens, London, S.W.1, furnishes information and advice on educational and kindred matters to Indian students who come to this country to complete or supplement their education. The Hostel at 21 Cromwell Road, South Kensington, S.W.7, serves as a centre and meeting-place for Indian students and as a temporary residence for new arrivals. There are Local Advisers at the University of Manchester (J. K. Wood, D.Sc., College of Technology, Whitworth Street), and at Glasgow (R. M. Brown, Ph.D., B.Sc., M.I.M.E., Engineering Department, The University). At Edinburgh J. E. Mackenzie, Ph.D., D.Sc. (King's Buildings, the University) is the University's Adviser to Indian students. At Oxford Indian students may secure information and advice from H. S. Williamson, M.A., Indian Institute, Broad Street, Secretary to the Delegacy for Oriental Students, and at Cambridge, from W. S. Thatcher, M.A., 22 Fitzwilliam Street, Secretary to the Inter-Collegiate Indian Students Committee.

Indian students who propose to proceed abroad for further study are strongly advised to consult the University Bureau or Advisory Committee of their Province, from whom they can obtain full information about British and foreign universities. The names and addresses of the secretaries are as follows : Ajmere—J. A. Richey, C.I.E., M.A., Superintendent of Education, Delhi and Ajmere-Merwara, and Secretary, Indian Students' Advisory Board, Rajputana, Delhi ; Allahabad—P. N. Sapru, Esq., M.A., LL.B., Barr.-at-Law, Indian Students' Advisory Committee, The University, Allahabad ; Bombay—D. J. Wadia, Esq., Univ. Information Bureau, University Building, Fort, Bombay ; Calcutta—Prof. T. S. Sterling, M.B.E., M.A., I.E.S. (Officiating), Univ. Students' Information Bureau, The University, Calcutta ; Dacca—M. Hasan, Esq., M.A. (Cal.), B.A. (Oxon), Univ. Students' Information Bureau, Dacca, Bengal ; Delhi—S. N. Mukarji, Esq., M.A., Indian Students' Advisory Committee, St. Stephen's College, Delhi ; Gauhati—J. Borooah, Esq., Barr.-at-Law, Indian Students' Advisory Committee, Gauhati, Assam ; Lahore—A. C. Woolner, Esq., M.A., Punjab University Foreign Information Bureau, Lahore ; Madras—A. Davies, Esq., M.A., Barr.-at-Law, Univ. Students' Information Bureau, The Law

College, Madras ; Mysore—N. S. Subba Rao, Esq., Univ. Students' Information Bureau, University of Mysore ; Nagpur—Umawar Misra, Esq., M.A., LL.B., Univ. Information Bureau, Nagpur University, Nagpur ; Patna—Sri Narayanan Sahay, Esq., B.A., Barr.-at-Law, Univ. Students' Information Bureau, Patna, Bihar and Orissa.

The High Commissioner for India is prepared at the request of parents and guardians in India to make arrangements for the education in Europe of a limited number of Indian students, for the supervision of their studies and personal welfare, and the administration of funds remitted to him for the purpose. The Secretary to the Oriental Delegacy at Oxford, the Secretary to the Inter-Collegiate Indian Students Committee at Cambridge, the University Adviser at Edinburgh, and the Local Adviser to Indian Students at Manchester and Glasgow, act on behalf of the High Commissioner in the case of students proposing to study at those centres. Inquiries may be addressed either direct to the addresses given above or through the Office of the High Commissioner for India, Education Department. The Department publishes annually the *Handbook for Indian Students—a Guide to the Facilities for University and Professional Studies and Training in the United Kingdom*. An annual report on the work of the Department is also published, copies of which can be obtained from the office of the High Commissioner or through the agents for the sale of Government of India publications.

The Hyderabad Government has a Scholarship Committee to regulate the grant of scholarships and give necessary information to students proceeding out of India, and has a special paid guardian for Hyderabad students (E. A. Seaton, Esq., Tyrrell's Wood, Leatherhead, Surrey) to look after and report about their progress whilst in Europe.

AGRA UNIVERSITY

VISITOR—THE GOVERNOR-GENERAL.

CHANCELLOR—THE GOVERNOR OF THE UNITED PROVINCES.

Act VIII. of 1926 of the United Provinces Legislature, which received the assent of the Governor-General on Oct. 20, 1926, provides for the establishment of a university "for the purpose of affiliating the colleges associated with the University of Allahabad . . ." so as to set it free to function as a unitary, teaching, and residential institution. It empowers the Agra University to affiliate colleges in the United Provinces, Rajputana, Central India, and Gwalior, except within the limits of the Universities of Allahabad and Lucknow, or within a radius of ten miles from the Benares Hindu University or from the Aligarh Muslim University. To supplement the work in affiliated colleges the University may institute teaching posts at selected centres.

Four categories of persons are to be eligible, subject to prescribed conditions, for degrees and other academic distinctions : (a) candidates who pass the University's examinations after pursuing an approved course at an affiliated college ; (b) teachers who pass the University's examinations ; (c) research workers ; (d) women who have carried on private study. Lectures and instruction may be provided by the University for, and diplomas may be granted to, persons other than students of an affiliated college.

The supreme governing body of the University is the Senate, the other principal authorities being the Executive Council, Academic Board, Board of Inspection, and Faculties of Arts, Science, Law, and Commerce. The Vice-Chancellor, an honorary officer elected by the Senate, is the principal executive and academic officer.

Students are not eligible for admission to a degree course unless they have passed the Intermediate Examination of the Board of High School and Intermediate Education of the United Provinces, or of an Indian University incorporated by law, or an equivalent examination.

GENERAL INFORMATION (v. also p. 525)

The Mahomedan Anglo-Oriental College, founded in 1875, became, under the Aligarh Muslim University Act of 1920, a unitary residential University, with Univ. School and Intermediate College attached as separate institutions. The Univ. receives Rs. 1,00,000 annually from the Govt. of India, Rs. 50,000 from the Local Govt., Rs. 36,000 from the Nizam of Hyderabad, and contributions from other Indian States. Although the governing body is composed of Mahomedans, and special attention is paid to Muslim Theology, it is open to all, without distinction of sex, race, creed, or class. In the grounds, comprising several square miles, are halls and hostels sufficient for the accommodation of all the students and some of the staff. LIBRARY, 21,000 vols. LABORATORIES: Physics and Chem.

The INTERMEDIATE COLLEGE prepares for the High School and Intermediate Examns., the latter being the admission examn. for the Univ. The Muslim UNIV. SCHOOL is a feeder to the Intermediate College and a practising school for the TRAINING COLLEGE.

COURSES. For students who have passed the Intermediate examn. of an Indian Univ. : two-year courses for the B.A. or B.Sc. Courses leading to M.A., M.Sc., and LL.B. degrees are also provided. **FEES :** for Tuition, Rs. 8 to Rs. 15 p.m. ; Board and residence about Rs. 20 p.m.

Numerous **SCHOLARSHIPS FOR GRADUATES**, enabling them to proceed to higher degrees, are awarded. One of Rs. 75 per month for research in Arabic, open to M.A. Two fellowships, Rs. 75 p.m. for 2 yrs., for research in Science and Arts respectively. There is a loan fund for helping poor students.

THE YEAR 1925-26. Total number of Students in the Univ., 1121 ; in the Intermediate College, 1064. *Degrees conferred :* B.A. and B.Sc., 263 ; M.A. and M.Sc., 77 ; LL.B., 99 ; B.T., 41. A scheme for a school of technology was drawn up. Lectrs. in Applied Chemistry and Electro-technology were appointed.

GENERAL INFORMATION (v. also p. 525)

Founded in 1887, the Univ. concerned itself mainly with examinations, having no teaching staff (except that of its School of Law) until 1914. Thereafter it established Chairs and Readerships, etc., for research work in Economics and Modern History for graduate students. In Jan. 1922 was passed an Act (which came into operation in July 1922) for the reorganization of the Univ. as a unitary, teaching, and residential institution, with control, however, over the quality and character of the teaching in "Associated" colleges. In 1926 was passed the Agra University Act, which provides for the transfer of the control of these colleges to the Agra Univ.

The Act of the Madras Legislative Council constituting this "University in and for the Telugu districts of the Presidency of Madras" received the assent of the Governor-General on Jan. 13, 1926, and came into force on April 26, 1926. The districts in question are: Ganjam, Vizagapatam, West and East Godavari, Kistna, Guntur, Nellore, Bellary, Anantapur, Cuddapah, Kurnool, and Chittoor. These districts constitute the "University area," within which colleges previously affiliated to the Madras University are now affiliated to the new University. The Act establishes four categories of colleges: "University College," providing for honours or post-graduation courses qualifying for admission to the higher degrees; "First Grade College," providing courses qualifying for admission to examinations for the ordinary degree in Arts or Science; "Second Grade College," preparing for the Intermediate Examination; and "Special Grade College," providing courses in Oriental languages or in other special subjects. No "University" or "First Grade" College may be established or affiliated except in the towns of Vizagapatam, Rajahmundry, or Anantapur, or within ten miles thereof, provided that within 5 years the University may affiliate as First Grade any Second Grade College existing when the Act was passed.

Among the powers of the University specified in the Act are: to promote the development of the study of Telugu, Kanarese, Urdu, and Oriya, and their use as media of instruction and examination; to institute professorships and other teaching posts; to maintain colleges and hostels; to erect, equip, and maintain laboratories and libraries; to institute and provide funds for the maintenance of a publication bureau, an employment bureau, students' unions, and University Extension boards. Every student of the University must reside in a hostel or under such conditions as may be prescribed.

The Supreme governing body is the Senate, by whom the Vice-Chancellor, a whole-time salaried officer and principal executive, is elected (for 3 years). The other principal authorities of the University are: an executive body called the Syndicate, comprising 12 members, including the Vice-Chancellor and Director of Public Instruction, the Academic Council, the Faculties and Boards of Studies.

GENERAL INFORMATION (v. also p. 525)

Founded in 1857, this Univ. has been mainly an examining body, but has provided facilities for research since 1893 (when the Premchand Roychand Endowment was applied to this purpose), and post-graduate teaching since 1909. In 1917 a new scheme for post-graduation teaching came into operation under which all students who desire instruction in the M.A. or M.Sc. courses in Calcutta must be registered in the Senate House as Univ. students. A Commission under the Presidency of Sir Michael Sadler, K.C.S.I., appointed by the Govt. of India in Sept. 1917 to inquire into the condition and prospects of the Univ. and consider the question of a constructive policy, presented a comprehensive report and a series of important recommendations in March 1919. Teaching in all the subjects for the B.Com. examn., including French, German, and other modern languages, Arabic, Pali, Persian, Tibetan, Chinese, and Japanese, and an annual course of lectures on "*The Poverty Problem*," are provided by the Univ.

Government grants from 1912 to 1923 amounted to Rs. 38,00,000, including Rs. 4,23,000 for endowment of chairs, and Rs. 13,36,000 for Hostels and a Students' Mess Scheme. During the same period private benefactions amounted to Rs. 60,86,000.

The Univ. buildings (expenditure on which from 1912 to 1923 amounted to Rs. 33,00,000) include a Senate House, completed in 1872 at a cost of Rs. 4,35,000, the Durbhanga LIBRARY with Law College, Hostel, and Univ. offices (Rs. 12,00,000), the Univ. Press, the Asutosh Building (Rs. 5,18,000) for post-graduation classes in Arts, post-graduation offices and lending library, and two palatial buildings for the teaching of post-graduation Science courses. LABORATORIES (in Univ. Coll. of Science) : Phys. and Chem. (Pure and Applied), Applied Maths., Expl. Psych., Biol., Agric., Geol., etc.

FACULTIES. Arts, Science, Law, Medicine, Engineering. The Affiliated Institutions (v. *infra*) include Colleges of Law (Calcutta—Ripon and Univ.—Gauhati), Medicine (Belgachia and Calcutta), Engineering (Sibpur), and Teaching (Calcutta—David Hare and Diocesan).

DEGREES, ETC. B.A., M.A., Ph.D. ; B.Sc., M.Sc., D.Sc. ; B.Com. ; B.T. ; B.L., M.L., D.L. ; M.B., M.D., M.S., M.O., D.P.H. ; B.E., D.Sc. (Engin.).

STUDENTS' WELFARE. A committee of medical experts deals with all matters relating to the health of students, including physical education and organization of games and other forms of recreation. Military Training is provided for a Univ. Corps recruited from affiliated colleges. At the Hardinge Hostel for Law students the monthly charges amount to from Rs. 24 to Rs. 26.

ASSOCIATED COLLEGE. Teachers' (Govt.) Training College, Dacca. The Principal and teachers are honorary teachers of the Univ. and the College students read for the L.T. and B.T. in accordance with regns. prescribed on that behalf.

GENERAL INFORMATION (v. also p. 525)

This Univ. was established in 1921 under an Act passed in 1920 which provides for the constitution of Faculties of Arts, Science, Law, Agriculture, and Medicine. It is constituted in its main lines in accordance with the recommendations of a Committee presided over by Mr. (now Sir Robert) Nathan in 1912 and by the Calcutta Univ. Commission of 1917-19, presided over by Sir Michael Sadler. The Report of this Commission states that "two main factors may be clearly distinguished in the origination of the Scheme: first and foremost the desire of the Musalmans of Eastern Bengal to stimulate the educational progress of their community, and, secondly, the desire of the Govt. of India to create a new type of residential and teaching Univ. in India, as opposed to the present affiliating type. To these must be added a third factor of especial importance, the desire of the Govt. to relieve the congestion of the Univ. of Calcutta."† Although special attention is being devoted to Islamic Studies and to the needs of the Musalman community, the Univ. remains open to all, without distinction of sex, race, creed, or class. It is a unitary and residential Univ., of which the constitution resembles in many respects that of the modern English universities. The Authorities of the Univ. include a Court, an Executive Council, an Academic Council, and Faculties; and the Teaching Staff has the main responsibility for all matters connected with teaching and exams. The students (other than those living under specially approved conditions) reside in the Halls and Hostels situated in the Univ. domain, and the Univ. teachers also reside in the houses erected

† Chapter xxxiii. of the *Report* deals in great detail with the scheme for the Dacca Univ.

for them thereon. The domain consists of about a square mile of fine park land, including over 100 acres of playing fields. It is adjacent to the Civil Station of Dacca and to a park called the Ramna, and lies from 1 to 1½ miles north-west from the centre of Dacca City. It is provided with electric light and power.

The chief existing buildings for teaching and administrative purposes include: A Court House with residential block; central buildings, containing about 200 rooms, which cover 117,000 feet of floor space used for Class-rooms and Library (at present utilized partly as a hostel for Muslim students); Chemical and Physical Laboratories, each including about 12,000 sq. feet of floor space; the Curzon Hall (which accommodates about 2000 persons); the Dacca Hall buildings, with residential accommodation for 160 students; the Jagannath Hall buildings, providing for 200 students.

LIBRARY, 41,752 vols. **LABORATORIES**: Physical, with metal and wood workshops; Chemical, with special arrangements for training in commercial analytic methods; and Psychological.

FACULTIES. Arts, Science, Law.

GENERAL INFORMATION (v. also p. 525)

The three constituent colleges, formerly affiliated to the Univ. of the Panjab, were united to form a teaching and residential Univ. (Govt. of India Act, No. VIII. of 1922), with effect from May 1, 1922. Subsequently four Intermediate Colleges, three for boys and one for girls, were recognized as Constituent Colleges of the Univ., namely: The Anglo-Arabic, Ramjas Intermediate, Commercial, and Indraprastha (girls'). The authorities of the Univ. are a Court, an Executive Council, an Academic Council, and Faculties and Boards of Studies. The Univ. does not itself hold a Matricn. Examn. As a temporary measure, it admits students who have passed the matricn. examns. of other Indian Univs., but will after 1928 admit only those who have passed the Intermediate (Arts or Science) examn.

GENERAL INFORMATION (v. also p. 525)

This Univ., founded in 1857, has hitherto been mainly an examining body, but has, since 1912, maintained a small teaching staff and organized special lectures by persons eminent in Arts and Science in Europe and India, and in 1923 an Act was passed for reorganizing it as a Teaching and Residential Univ., while enabling it to continue to exercise control over the quality of the teaching given by its constituent and affiliated colleges. The Vice-Chancellor is a whole-time salaried officer. The authorities of the Univ. include a Senate, Syndicate, Academic Council, Faculties, Boards of Studies, and a Council of Affiliated Colleges.

From the Govt. of Madras the Univ. receives an annual statutory grant of Rs. 85,500.

FACULTIES. Arts, Science, Law, Medicine, Engineering, Teaching, Agriculture.

ADMISSION. The Matricn. examn. has been almost completely superseded by the School-Leaving Certif. scheme.

GENERAL INFORMATION (v. also p. 525)

The University was established by a Firman (Order) of H.E.H. the Nizam, in April 1917. Actual tuitional work began in Aug. 1919, with the opening of the College. It differs from the other Univs. of India in that instruction throughout the college courses is imparted through the medium of Urdu, English being taught as a compulsory Second Language, while in other Univs. the medium of instruction is English. The Bureau of Translation which came into existence in Sept. 1917 has provided in Urdu all books required for the Inter. and B.A. examns. The executive government of the Univ. is in the hands of a Council consisting of 11 members. The organization of instruction rests with the Faculties and the Senate, which consists of from 40 to 60 members, including the Council, Univ. Profs., and representatives of graduates and Faculties. The Univ. is entirely financed by the State at an annual cost of £64,420.

LIBRARY. 21,691 vols., 802 MSS. The Staff have also access to the large Asafia Library.

BUREAU OF TRANSLATION. Curator, Md. Enayatullah, B.A., 17 Translators, Assts. and Advisers. Books published, 90 ; in preparation, 61.

FACULTIES. Arts (including Science), Law, and Islamic Theology. Faculties of Engineering and Medicine to be established in 1928.

TERMS. July to Dec. and Jan. to April.

The Univ. holds a **MATRICULATION** examn., but the Matric. examns. of other Univs., the Senior Oxford and Cambridge Local examns. and the State H.S.L.C. examn. are accepted as equivalent. The B.A. courses extend over 4 yrs., with an Inter. examn. at the end of 2 yrs. The Inter. examn. of other Indian Univs. is accepted as equivalent to this. M.A. and LL.B. courses cover each 2 yrs. after graduation. The B.A. in Theology requires a 4 years' course in English, Philosophy, and Muslim Theology.

FEES. Inter.—Rs. 60 p.a. ; B.A.—Rs. 80 p.a. ; M.A.—Rs. 100 p.a. ; LL.B.—Rs. 80 p.a.

RESIDENCE. 4 hostels attached to the College. Cost of living about Rs. 180 p.a.

GENERAL INFORMATION (v. also p. 525)

Established in 1882, the University confined its activities, until recently, mainly to examinations, the control of affiliated institutions, and the provision of instruction in its Oriental and Law Colleges. It has since 1919 undertaken the maintenance of Professors and Readers and co-ordination of higher teaching in other subjects. Honours Schools in Arabic, Sanskrit, Persian, Botany, Zoology, Maths., and Chemistry, a combined Honours School in English, History, Economics, and Philosophy, and post-graduation teaching in Economics have been instituted in Lahore; and senior teachers in the local colleges, partially relieved of routine work, have supplemented the teaching of Univ. Profs. and Readers.

LIBRARY, 54,000 vols. (arranged on Dewey Decimal system). Chemical LABORATORY. Astronomical OBSERVATORY.

FACULTIES. Oriental, Arts, Law, Medicine, Science, Agriculture, Commerce.

DEGREES. B.A., M.A., D.Lit.; B.Sc., M.Sc., D.Sc.; B.Sc. (Agr.), M.Sc. (Agr.); LL.B., LL.D., LL.M.; M.B., B.S., M.S., M.D.; B.T.; (in Oriental Learning) B.O.L., M.O.L., D.O.L.

Diploma in Commerce (2 yrs.' course). In the Faculty of Oriental Learning a 2 yrs.' course from Matric. leads to an Intern. examn., and further courses of 2 yrs., 1 yr., and 2 yrs. to the B.O.L., M.O.L., and D.O.L. successively. Examns. are also held for Proficiency, High Proficiency, and Honours in Arabic, Sanskrit, and Persian. Honours admit to the Oriental titles: Maulvi Fazil (Arabic), Shastri (Sanskrit), and Munshi Fazil (Persian); and High Proficiency to Maulvi Alim, Visharada, and Munshi Alim. Similar examns. are held in Urdu, Hindi, Panjabi, and Pashto.

The B.T. is open to any one who after graduating in any faculty other than the Oriental has undergone a 1 yr. course at an Affiliated Training Coll., or any trained S.A.V. graduate teacher not less than eighteen months after his passing the S.A.V. examn.

RECOGNITION OF OTHER INSTITUTIONS. An equivalent examn. of any recognized Univ. may be accepted in lieu of Intern. Arts or Science, B.A. or B.Sc., for the purposes of admission to a higher examn.

SCHOLARSHIPS FOR GRADUATES. Several of from Rs. 20 to Rs. 25 p.m. for 2 yrs. in Oriental Studies, Arts, and Science. Research studentships tenable for from 2 to 4 yrs. in Oriental Hist., Sanskrit, Pali or Prakrit, Arabic, Panjabi, Science.

RESIDENCE. Undergraduates in Lahore Arts Colleges are ordinarily required to reside in College Hostels or in hostels recognized by the Univ.

ASSOCIATED COLLEGE

INTERMEDIATE COLLEGE, MANDALAY (managed by the Univ. as a temporary measure). Principal, A. Brookes, M.A. Camb., I.E.S.

GENERAL INFORMATION (v. also p. 525)

This Univ., founded in Dec. 1920, is governed by a widely representative Council consisting of not more than 70 members, which exercises its functions by means of an Executive Committee of 10 members. The Council has the power to reject any act or resolution of the Senate (the academic body of the Univ.) in excess of its powers under the Univ. of Rangoon Act 1920, and to confirm or reject any resolution presented by it affecting the income or expenditure of the Univ. or of a Constituent College. The Senate consists of the Vice-Chancellor, the Director of Public Instruction, Burma, the Principals of Constituent Colleges, the Professors, 3 members of the Council, and not less than 10 lecturers in constituent colleges. Its executive duties are discharged by a Standing Committee. The Act of 1920 was amended in 1924.

An estate of about 450 acres of high and healthy ground, adjoining the Victoria Lakes on the outskirts of Rangoon, has been acquired for the Univ. buildings. Both Constituent Colleges and the Halls of Residence attached to them will be accommodated on the estate, where Univ. teachers will be housed and provision made for playing-fields, and ample room will still be left for expansion.

GENERAL INFORMATION

This is a Government institution, partly endowed by public subscription, managed by a Council of Govt. officials and private members, with the Prin-

cial Civil Medical Officer as President, advised by a Senate composed of the professors and lecturers with the Principal as Chairman. Since its foundation 137 licentiates have passed out. It owes its name to a large donation from a King Edward VII. Memorial Fund, which enabled the Council in 1913 to endow a Chair of Physiology.

The *Diploma* in Medicine, Surgery, and Midwifery was recognized by the General Medical Council in 1916—v. Appendix XI.

Admission qualifications: (1) The Cambridge School certificate, with English (special Malayan paper), another language, and Maths. as compulsory subjects, and two of the following—Hist., Geog., Chem., Physics, Bot., Expl. Sc., Applied Maths.; or (2) certificates of equivalent standard, e.g. London Matricn., recognized by the General Medical Council as qualifying for registration as Med. students. Candidates must be of good physique.

TERMS. Trinity—June 1 to Aug. 31; Michaelmas—Oct. 1 to Dec. 20; Lent—Jan. 7 to March 25.

Composition FEE for complete 6-year course, covering tuition, hospital tickets, and examns. (except fees for re-examn.), \$750.

RESIDENCE, ETC. Hostel for 72 students. There is a Students' Union.

THE YEAR 1925-26. The new building was opened on Feb. 15, 1926, by the Governor; on which occasion Honorary Diplomas were conferred upon Sir David Galloway, Sir Malcolm Watson, and Dr. Lim Boon Keng. The Rockefeller Foundation contributed a sum of \$350,000 (Straits) towards the endowment of chairs in bacteriology and biochemistry. *Number of Students*: 114 (Tamils and other Indians, 37; Chinese, 37; Malays, 8; Eurasians, 27; others, 5). *Licentiates*, 1924, 16.

GENERAL INFORMATION

The College of Medicine for Chinese, founded in 1887 for the training of Chinese students in Western Medicine, was incorporated under the name of the Hong-Kong College of Medicine in 1907. It had no building of its own, and its teaching was conducted by permission in various hospitals and other institutions. Between 1907 and 1910 an Endowment and Equipment Fund of \$1,280,000 was raised for a University to include Engineering and Arts as well as Medicine. The cost of the buildings and preparation of the site—\$345,000—was borne by Sir H. N. Mody, the originator of the Fund. Other contributors were the Govt. of China, the Hong-Kong Govt., Swire & Sons, and other firms and Chinese residents of Hong-Kong, Canton, and other places. The Univ. was incorporated in 1911 and formally opened in 1912, when it took over the work of the College of Medicine. The buildings, including class-room accommodation for 500 students, three hostels, laboratories, etc., together with playing-fields, occupy an area of 25 acres. In 1919 were opened the Schools of Physiology, Tropical Medicine, and Pathology presented by three Chinese gentlemen. "The root idea of the Univ. is to provide a place for Higher Education where Chinese youths can remain under the influence of their own parents and guardians . . . subject to the strong control which Chinese opinion exerts upon young men, instead of being adrift in a foreign country where a liberty unknown to students in the East is allowed to undergraduates" (*Calendar*, 1919-20).

The Court is composed of life, *ex-officio*, and nominated members; the Council is composed of the Chancellor, the Vice-Chancellor, the Treasurer, certain Government officials, the Chinese members of the Legislative Council, Deans of Faculty, and two representatives of the commercial community, with power for the Governor to appoint two additional members. The Senate consists of the Vice-Chancellor, the Director of Education, the Professors, and the Registrar.

MUSEUM of Pathology and Trop. Med. **LABORATORIES**: Anat., Bact., Biol., Chem., Histol., Path., Physics, Physiol., Trop. Med.; Applied Mechanics, Materials, Elec. Tech., Power House, Hydraulics, Steam, Elec. Machinery, Elec. Traction, Engin. and Carpentering workshops. **HOSPITALS** in the vicinity available for clinics, 400 beds; Govt. Bacteriological Inst. and Mortuary.

FACULTIES. Medicine, Engineering, Arts.

TERMS. Jan.-March; April-May; Sept.-Dec.

MATRICULATION examn. (framed for use also as a School Leaving examn.) includes (a) English, (b) Maths., (c) Chinese Lang. and Lit., (d) Latin or a Classical Oriental Lang. other than Chinese, (e) Geog., (f) a Modern Lang. other than English or Chinese, (g) Mandarin, (h) Hist., (i) Physics, (j) Chem., (k) Higher Maths., (l) Trigonometry, (m) Mechanics, (n) Drawing. (a) and (b) are compulsory for all, and (c) for all Chinese candidates. It is necessary to pass in 5 subjects, and for the Med. Faculty these must include (c), (d) or (f), and (e) or (h). Medical students are registered after passing an examn. in physics, chemistry, and biology subsequent to general matriculation.

DEGREES. B.A., B.Sc. (Eng.), M.A., M.Sc. (Eng.), M.B., B.S., M.D., M.S. The standard aimed at is that of the Univ. of London. To qualify for admission to the Bachelor's degree examns. residence for 12 (in Med.—15) terms is necessary; the 5-years' medical course dates from registration as medical student (see preceding paragraph); 3 yrs. are devoted to clinical work subsequent to passing an examn. in anatomy and physiology.

The examn. for the Master's degree may be taken at the end of 2 yrs. after graduation as Bachelor. For the M.A. or M.Sc. a thesis is required; for the M.S., evidence of special post-graduate experience. The examn. for the M.D. may be taken 5 yrs. after graduation, or at the end of 2 yrs. if evidence is produced of special post-graduate experience.

Graduates of other Univs. who wish to become candidates for a Master's degree must work under the direction of the Faculty concerned for at least 1 yr.

The Degree of B.A. may be obtained in any one of 3 Depts. under 6 "groups" of studies. (a) *Pure Arts and Science*: Group 1, Letters; 2, Experimental Science; 3, Social Science. (b) *Training of Teachers*: Group 4 (a), Science and Maths.; 4 (b), General. (c) *Commerce*: Group 5, Commercial Training.

FEES for tuition, \$300 p.a.; board and lodging, \$300; Univ. Union, \$15; books and charges for materials, etc., in Labs., about \$60. It is claimed that there is no European Univ. where a foreign student can live so cheaply.

RESIDENCE. With the object of "developing and forming the character of students of all races, nationalities, and creeds," it is provided by the Ordinance of Incorporation that all students must reside in the quarters provided, or in hostels founded by religious bodies and conducted under regns. approved by the Council.

THE YEAR 1924-25. *Students*: Full-time, 328 (including women—18). Residing in hostels, 265 (women—15). *Degrees awarded* (Jan. 1926): Hon. LL.D.—The Chancellor, R. H. Kotewall, R. Ponsonby Fane, Sir R. E. Stubbs; M.B., B.S., 9; B.Sc.(Eng.), 6; B.A., 23 (including 1 woman).

APPENDICES

I

REGULAR COMMISSIONS IN H.M. FORCES FOR UNIVERSITY CANDIDATES

Regulations issued with Army Orders for June 1924 provide for Commissions being granted in the Cavalry, R.A., R.E., Royal Corps of Signals, Infantry, Royal Tank Corps, and R.A.S.C., and in the Indian Army. Nominations of graduates who have certain prescribed qualifications are accepted by the Army Council from the following Universities : I. Oxford, Cambridge, London, Edinburgh, Manchester, McGill, Sydney, Toronto ; II. The other universities of Great Britain, Northern Ireland and the Dominions, except the National Univ. of Ireland. Univs. in Group I. have established courses of military study, and their candidates will be commissioned senior to candidates whose qualifications are in other respects equal. The grant of commissions in the Indian Army is limited to candidates from univs. in Great Britain and Northern Ireland. Commissions of accepted candidates will be antedated, according to qualifications as defined in a prescribed scale, to their 20th birthday or to a later date up to 21½ years of age.

Among the necessary qualifications are : to be within the age limits 21-24, and to be unmarried.

The regulations giving full details of qualifications—general, academic, military, and physical—are obtainable from the War Office.

For the present the Army Council are prepared to accept 100 candidates a year from the Univs.

Permanent Commissions in the R.A.F. Permanent commissions in the General Duties Branch of the R.A.F. are granted to university candidates by the Air Ministry under conditions generally similar to those under which University commissions in the Regular Army are granted by the War Office. Officers of the General Duties Branch are taught to fly and undertake flying, technical, and administrative duties of the R.A.F. They are given the opportunity to specialize in Aero-Engineering, Signals, Armament, Navigation, or Photography, and officers when so qualified are eligible either for specialist or for general employment.

Candidates must be graduates of a University in Great Britain or Northern Ireland ; must be under 25 years of age ; and must be recommended by their Universities. If in all respects eligible they are invited to attend before a selection board which sits at the Air Ministry, in Oxford and Cambridge. Selected candidates are attached for a period of six weeks to an Air Force station on probation. On commissioning they are granted an antedate of 12 or 18 months' and are eligible for promotion to Flying Officer after six months' service as Pilot Officer. Promotion to all ranks above Flying Officer is by selec-

tion. Emoluments in the R.A.F. have been fixed so as to allow officers even in the lowest ranks to live on their pay.

Intending applicants should write for information to the Secretary of the Air Ministry, Kingsway, London, W.C.2; applicants from Oxford or Cambridge should also get into touch with the University Air Squadrons. The conditions under which commissions are granted to graduates of certain recognized Universities in the self-governing Dominions can be obtained from the Government of the appropriate Dominion.

V

ROYAL INSTITUTE OF BRITISH ARCHITECTS

Founded 1834. Incorporated by Royal Charter in 1837. *Address*—9 Conduit St., Regent St., London, W.1.

The Recommendations of the R.I.B.A. in regard to preliminary and professional education imply a course of professional training in schools occupying at least five years, during the last 2 yrs. of which the student would be working part-time in an architect's office—the training being kept under the supervision of the Board of Architectural Education of the R.I.B.A. or its delegates during the whole term.

Registration as Probationer, R.I.B.A. A candidate must submit a certificate of passing some recognized Public examn., or other evidence * of general education covering required subjects, and, unless he has passed an Entrance examn. in Freehand Drawing at one of the Schools of Architecture recognized for exemption from the R.I.B.A. examinations, evidence in the shape of drawings that he has an elementary knowledge of this subject. A list of such Schools is given in the following paragraph and particulars regarding them are given in an explanatory Pamphlet on Examns., price 1s. Registration fee, 4 gs.

The *Intermediate* examn. (fee 5 gs.), open to Probationers of at least 19 yrs. of age, tests their progress while engaged as pupil, improver, or assistant in an office, and passing it qualifies for election as *Student*, R.I.B.A. Exemption from this examn. (but not from the fee) may be granted to Probationers who have attended the necessary courses at one of the following schools: Architectural Assocn., London; Northern Polytechnic, London; Universities of Cambridge, Liverpool, London, Manchester, Sheffield; Birmingham School of Arch.; Armstrong College (Newcastle); Leeds Sch. of Art; The Technical College, Cardiff; Royal West of England Academy, Bristol; Robert Gordon's Colleges, Aberdeen; Edinburgh College of Art and Heriot-Watt College; Glasgow Sch. of Arch.; McGill Univ.; Univ. of Toronto; Bombay Sch. of Art; Sydney Univ. The R.I.B.A. desires that Students within reach of these Univs. and Schools should avail themselves of the opportunities thus afforded rather than submit themselves for the examn. without such recognized training.

The *Final* examn. (fee 6 gs.) for the *Associateship*, R.I.B.A., is open to Students of at least 21 yrs. of age. Before admission a candidate must submit for approval designs in answer to at least 4 problems set by the Board, and a thesis in Historical Arch., or in Science as applied to building, or in Design, including Decoration. Exemption from the Final examn., with the exception of that portion which deals with

* Except in very special cases, other evidence will not be accepted after 1st October 1927.

Professional Practice, is given to Students who have completed successfully a Diploma or Degree course covering at least 5 years at the Arch. Assocn., London, Liverpool Univ., London Univ., Manchester Univ., Robert Gordon's Colleges, Aberdeen, Glasgow Sch. of Arch., Edinburgh College of Art, McGill Univ., Montreal, Sydney Univ.

A *Special* examn. (fee 10 gs.) for the Associateship is held in July and Dec. It is open to Architects in practice and Assistants not less than 30 yrs. of age exempted from the Prelim. and Interim. examns. and from submitting testimonies of study.

A *Licentiate* (L.R.I.B.A.) is a fully qualified corporate member, and is entitled to the designation "Chartered Architect."

Examns. (fee 3 gs.) qualifying for candidature as *District Surveyor* in London or *Building Surveyor* under local authorities are held in Oct.

Allied Societies and branches thereof exist in 36 towns in the U.K., in Montreal, Edmonton (Alta.), Toronto (Ont.), Regina (Sask.), Vancouver (B.C.), Winnipeg (Man.), Adelaide, Melbourne, Brisbane, Sydney, Hobart, Perth, Wellington (N.Z.), Cape Town, Bulawayo, Durban, Johannesburg, Nairobi, Singapore, Bombay, and Rangoon.

The R.I.B.A. (Henry Jarvis) Studentship, £250 for 2 years, tenable at the British School at Rome, is open only to British subjects who are Associates or Students, R.I.B.A. Information regarding this and other Studentships and Prizes is given in a pamphlet.

The R.I.B.A. (Archibald Dawson) Scholarships are offered for competition among students of recognized Schools of Arch., and are intended to foster the advanced study of all forms of construction.

Publications include the *Kalendar*, 3s. 9d., containing, *inter alia*, a historical sketch, regns. for international and other competitions, and information about the allied societies. *Journal*, in 20 numbers annually, 1s. 6d. each number. *Explanatory Pamphlet on Examns.*, 1s. and postage. *Past Examns. Questions*, price 1s. 6d. and postage.

INSTITUTE OF CHEMISTRY OF GREAT BRITAIN
AND IRELAND

Founded 1877. Incorporated by Royal Charter, 1885. *Address*—30 Russell Sq., London, W.C.1. *Library* of 4500 vols. *Laboratories*, available for use for examination purposes by other institutions as well as for the I.C.'s own examns. *Appointments Registers* of Fellows, Associates, Registered Students, and of Laboratory Assts.

Studentship. Minimum age, 16. Annual subs., 10s. A candidate for admission must have passed an approved Prelim. examn. of Univ. matricn. standard in English, Elem. Maths., an approved foreign language, and either a second lang. or one of the following: Higher Maths., Engl. Hist., Geog., Bot., Chem., Geol., Mechanics, Physics, Zool., and must be undergoing a course of preparation and training for the practice of Chemistry in one of the teaching institutions recognized by the Council, or as a pupil of a Fellow of the Institute in a lab. or works approved by the Council. The approved Prelim. examns. include those in Appendix XX., numbered 7, 8 (*a*) and (*b*), 9, 10, 11, 12, 13, 13*a*, 14, 16, 18, 22; any examination admitting a student as a matriculated student of any University approved by the Council, and other corresponding Entrance examns. approved by the Council. The candidate should have passed in the compulsory subjects at one examn.

The institutions recognized for the training of candidates for the Examns. of the I.C. are those in connexion with the Univ. of London shown on pp. 106, 176—(U.), (K.), (Im.), (Bk.), (EL.), (2), (5), (8), (10) (evening), (11), (12); Armstrong Coll., Newcastle; Constituent Colls. of Wales and of N.U.I.; all other Univs. in the U.K.; Univ. Colls., Exeter, Leicester, Nottingham, and Southampton; Belfast, Birmingham and Blackburn Munic. Tech. Schools, Bradford City Tech. Coll., Huddersfield Tech. Coll., Leeds Central Tech. Sch., Loughborough Tech. Coll., Salford Royal Tech. Inst., Wigan Mining and Tech. Coll., Cardiff Tech. Coll., R. Tech. Coll. Glasgow, Heriot-Watt Coll., Paisley Tech. Coll., C.Sc.I.; Overseas Univs.—McGill, Queen's Univ. (Ontario), Toronto, Adel., Melb., Syd., W. Aust., Univ. of N.Z., Cape Town, Univ. of South Africa—Constituent Colls., Stellenbosch.

The compulsory subjects of training are Chem., Physics, and Maths., the course in Chem. extending over 4 yrs. Evening class training is recognized if the candidate is engaged in the practice of Chem. during the day and attends a systematic course previously approved by the Council extending over 5 yrs., and is recommended by his teachers. Evidence of having passed the class or other examns. is required.

The A.I.C. examn. in General Chemistry (inorganic, organic, and physical), fee 5 guineas, occupies 6 days, including 4 days of practical Chemistry, and is open to students who have completed the prescribed training or have obtained a degree including the necessary subjects,

and worked for a further year in a recognized Univ. or Coll., or for 2 yrs. with a Fellow in a lab. or works approved by the Council, or have been otherwise trained to the satisfaction of the Council and been engaged in the study and practice of Chem. for 8 yrs. The A.I.C. may be granted (without examn.) to graduates with 1st or 2nd Class Hons. in Chem., or holders of diplomas recognized as equivalent, who have completed a 4 yrs.' course in the requisite subjects or a 3 yrs.' course supplemented by approved experience in laboratories or works. The Institute recognizes the Final B.Sc. with 1st or 2nd Class Hons. in Chem. of all Univs. of the U.K., of McGill, Toronto, Adelaide, Melb., Syd.; the Final M.A. of the Univ. of Cape Town with Chem. as principal subject, and the Final B.A. of Toronto with 1st or 2nd Class Hons. in the graduating Dept. of Chem. and Mineralogy. Applications from candidates having diplomas of a specialized character will be decided on their merits. Entrance fee, 2 gs. Annual subsn., 1½ g.

The F.I.C. examn., fee 10 gs. (for Associates, 5 gs.), occupies at least 5 days in any one of the following branches: Inorganic with Sections, Mineral Products, Metallurgy, Manufactured Products; Physical; Organic; Agricultural; Foods and Drugs and Water; Bio-Chemistry; Chem. Engineering; Genl. Chem. Open to Associates of 3 yrs.' standing; in exceptional cases to other candidates who have been systematically trained and had considerable experience. The F.I.C. may in exceptional circumstances be granted without examn. to Associates of 3 yrs.' standing who have carried out original research or devised processes or inventions or given other sufficient evidence of knowledge and ability. Entrance fee, 5 gs. Annual subsn., 2 gs.

Arrangements have been made between the Board of Education and the Institute for the award of national certificates in Chemistry to students in technical schools and colleges in England and Wales (Rules 100, 1921, 2d.). Under this scheme the Institute in conjunction with the Board approves schemes of training submitted by the technical schools or colleges, for the award of certificates for part-time grouped courses, including in addition to chemistry suitable courses in physics, mathematics, and cognate subjects. Courses for Part-time Course certifs. are designated *Senior* for the Ordinary and *Advanced* for the Higher certif. A similar scheme is in operation in Scotland, in conjunction with the Scottish Education Department, and a further scheme will shortly come into operation in conjunction with the Ministry of Education, Northern Ireland. Holders of Advanced Part-time Certificates can ascertain from the Registrar of the Institute how far their training may be recognized as qualifying for admission to the examn. for its Associateship.

INSTITUTION OF CIVIL ENGINEERS

Established 1818. Incorporated by Royal Charter, 1828. *Address*—Great George St., Westminster, S.W.1. *Telegrams*—Institution, London.

Examinations, (i.) Preliminary and (ii.) Associate Membership, are held annually in April and Oct. in London. Entries receivable up to Feb. 28 and Aug. 31. The April Prelim. and Oct. A.M. may also be held, the former in Manchester, Glasgow, and Newcastle-upon-Tyne, the latter in the King's Dominions overseas. (i.) may also under certain conditions be held overseas.

For admission to (i.) nomination by a corporate member is necessary, and conditions relating to practical training have to be fulfilled. It includes English, Maths., and one language and one science subject from the following: Elem. Chem., Elem. Mechanics, Elem. Physics, Latin, Greek, French, German, Ital., Span., Port., Dutch, Hindustani, Russian.

Admission to (ii.) is open to (a) *Students* of the Instn. (v. *infra*) of at least 1 yr.'s standing between ages 21 and 26, and (b) persons of at least 25 yrs. of age who have passed or are exempt from (i.) and are in other respects (training, experience, etc.) qualified for election into the Institution. It includes papers in (A) Mechanics, Strength and Elasticity of Materials, Electricity and Magnetism, *either* Theory of Structures *or* Theory of Machines; (B) 2 out of 9 other subjects; and (C) Engin. Drawings, Specifications, and Quantities.

For admission as *Student* age must be between 18 and 25, and candidate must be recommended by a corporate member under whom he is or has been in course of preparation and training in accordance with the Instn.'s prescriptions. A candidate for election as *Associate Member* must satisfy the Council as to his training and experience, and must, unless exempted, pass (i.) and (ii.). Exemption from (i.) is granted to graduates of any Univ. of the Empire, and Whitworth Scholars and, subject to provisos, persons who have passed certain school and matriculation examns. in Great Britain and Ireland, Canada

(McGill Univ.), Australia, New Zealand, and South Africa. Exemption from sections (A) and (B) of (ii.) is granted for the following degrees if taken after 3 yrs.' study in the several Univs. in accordance with their regns. : Oxford B.A. with Hons. in Engin. Sc. Final Hons. Sch. ; Camb. B.A. Hons. Mech. Sc. Trip. ; B.Sc. in Engin. of Edin., Glas., St. And., Belf., S. Africa, Cape Town, and Witwatersrand ; B.A.I. of Dublin ; B.E. Nat. Univ., Ireland ; and, subject in some cases to certain qualifications, engineering degrees of all the other Univs. of England and Wales, and of McGill, Adelaide, Melbourne, Queensland, Western Australia, Sydney, and New Zealand.

Members and Associate members are entitled to the designation *Chartered Civil Engineer*.

Publications. *Report on Methods of Educn. and Training of all Classes of Engrs.*, 1906, Wm. Clowes, 94 Jermyn St., S.W.1, post free, 11d. ; *Report of Confce. on Educn. and Training*, June 1911 ; Papers and Reports on Technical Subjects.

INSTITUTION OF ELECTRICAL ENGINEERS

Founded 1871. Incorporated by Royal Charter, 1921. *Address*—Savoy Place, Victoria Embankment, London, W.C.2. *Telegrams*—Voltampere, Phone, London.

Examinations are held in London and other centres in Great Britain twice annually, namely, in April and October, of candidates for *Associate Membership*. Applications should reach the Secy. not later than Feb. 1 and Sept. 1 respectively. Examns. may also be held abroad at the discretion of the Council. Part I. of the examn. includes English essay or translation into English from French, German, Italian, or Spanish ; Applied Mechanics, Electricity and Magnetism ; and either Heat, Light, and Sound or Chem. Part II. consists of papers on technical subjects only.

A candidate for the Associate Membership is required, unless exempted, to pass the examn. or to present a thesis, paper, or other written work on Electrical Engineering or its applications. He must also be at least 25 years of age or have been a Student of the Institution for at least 3 yrs., must be engaged in one of the branches of El. Eng., and satisfy the Council as to his experience, etc.

Engineering Degrees and "intermediate" or "first science" examinations of Universities in the British Empire are recognized, subject to certain provisos, for exemption from the whole of the Associate Membership Examn. and from Part I. respectively. Numerous diplomas in electrical engineering are likewise recognized.

National Certificates and Diplomas are awarded by the Institution and the Board of Education jointly on lines similar to those for Mechanical Engineers, v. *infra*.

INSTITUTION OF MECHANICAL ENGINEERS

Established 1847. *Address*—Storey's Gate, St. James's Park, London, S.W.1. *Telegrams*—Mech. Parl., London.

Examinations are held in London and at provincial centres in April and Oct., and at overseas centres in Oct. : (i.) *Studentship* (minimum age, 16), including papers in English, Elem. Maths., Elem. Mechanics, and either Physics or Chem. (ii.) The *Associate Membership* Examination, including—Section A : a Modern Lang., App. Maths., Physics and Chem. ; Section B : Theory of Machines and Machine Design, Properties and Strength of Materials, and an optional technical subject ; also Section C : The Economics of Engineering.

A candidate for election as *Graduate* must, unless exempted (*see below*), have passed Sections A and B of examn. (ii.), and have received or be receiving sufficient regular training as a mechanical engineer to fit him for employment as a mechanical engineer. Minimum age, 21.

A candidate for election as *Associate Member* must be a practising Engineer at least 25 yrs. of age. The passing of the A.M. or equivalent examn. is an indispensable qualification up to the age of 33, and he must, in addition, have been regularly trained as a M.E. and have had sufficient practical experience in the direction or design of Engineering work.

Examinations exempting from (1) : graduateship of any Univ. in the British Empire ; subject to certain provisos, most of the examns. specified in Appendix XX. and several others, including certain examns. held in South Africa, Australia, New Zealand, and Hong-Kong.

Examns. exempting from Section A and Section B of examn. (ii.) : Engineering Degrees of any Univ. in Gt. Britain, Ireland, British Dominions, or India, except such as may be specifically excluded ; Camb. B.A. Hons. in Eng. and, if Spl. examns. in Eng. Sc. and in either Chem., Physics, or Political Economy were passed, or under new Regulations, Engineering I. and II., with another subject from a list, the ordinary B.A. ; Manc. Certif. in Technology, Mech. or El. Eng. ; Eng. Degree of a Foreign Univ. if recognized by the Council ; Diploma in Eng. of Univ., King's, or City and Guilds (Engin.) Coll., London ; Dipl. or Higher Certif. (3 yrs.' course) of City and Guilds of Lond. Inst. if taken by matricd. student ; Final Dipl. in Mech. or El. E. of R.T.C., Glas., if approved Matricn. examn. passed before beginning course ; R.N. examn. qualifying as Lieut. (E.) ; R.N. College Prof. Certif. for Constructors ; Inst. C.E., Assoc. M. ; Whitworth Scholps. and Exhibns. The above do not exempt from Section C. A degree in Commerce of a British Univ., however, exempts from this paper.

National Certificates and Diplomas are awarded by the Institution in conjunction with the Board of Education to students of approved Technical Schools and Colleges (v. Board of Education, Rules 106, 1921, 1d.). Certificates are awarded in respect of part-time and Diplomas in respect of full-time grouped courses. Part-time courses are classified as *Senior* or *Advanced*, the latter aiming at reaching,

within the limits of the subjects covered by them, the standard of University work. Full-time courses are also classified as *Senior* (for Secondary School students aged 16) and *Advanced* (for Secondary School students aged 17 or 18 or students who have been for 2 yrs. in regular employment with concurrent instruction at senior or advanced part-time courses). The courses must extend over at least 2 yrs. and the senior part-time course should normally extend over 3. The Certifs. and Diplomas relating to Senior and Advanced courses respectively are known as *Ordinary* and *Higher*. The *Higher* Certifs. and Diplomas exempt candidates from certain subjects of the Associate membership examn.

ROYAL AERONAUTICAL SOCIETY

Founded 1866. *Address*—7 Albemarle St., London, W.1.

Membership may be either technical (Students, Associates, Associate Fellows, and Fellows) or non-technical. *Associate Fellowship* (A.F.R.Ae.S.) is reserved for those who have attained to an acknowledged position in the science of aeronautics; *Fellowship* (F.R.Ae.S.) for those who have attained to considerable eminence. Annual subsn. 1 g., 2 gs., £3 : 10s., and 5 gs., according to class. Entrance for Assoc. Fellows and Fellows, 3 gs. *Library*, including large recent acquisitions due to grant from Carnegie U.K. Trust, available to non-members through the medium of the Central Library for Students, 9 Galen Place, W.C.1. *Lectures*, fortnightly in winter. *Publications*: *Journal* (monthly) and *Transactions* (occasional).

INSTITUTION OF AUTOMOBILE ENGINEERS

Incorporated 1907. *Address*—Watergate House, York Buildings, Adelphi, W.C.2.

Qualifications for (1) Ordinary Membership (M.I.A.E.): minimum age, 25; having occupied during a sufficient period a responsible position in connexion with the practice, or otherwise proved thorough knowledge of theory and practice, of Automobile Engineering; (2) Associate Membership (A.M.I.A.E.): min. age, 23; having been trained as Engineer and subsequently employed for at least 2 yrs. in practice and science of A.E. and being actually so engaged, and having proved by examn. or otherwise thorough knowledge of the theory and practice of A.E. Persons suitably qualified may also join as graduates, students, associates, or affiliates. Annual subsn. 1 g. to 4 gs. according to class. Prizes up to £25 for Papers by Graduates.

INSTITUTION OF CHEMICAL ENGINEERS

Incorporated Dec. 21, 1922. *Address*—Abbey House, Victoria Street, London, S.W.1.

Membership (M.I.Chem.E.) qualifications: minimum age, 32, and satisfactory evidence of good general and scientific education, training, and experience, or of eminence as a Chemical Engineer. *Associate Membership* (A.M.I.Chem.E.): candidates not below the age of 25 who have had regular training and sufficient experience may qualify by passing a prescribed examn. Alternative qualifications are also provided for. Subscriptions of "students," graduates, and corporate members range from $\frac{1}{2}$ g. to 5 gs.

INSTITUTION OF GAS ENGINEERS

Founded 1863. Incorporated 1902. *Address*—28 Grosvenor Garde Westminster, S.W.1.

In 1923 a scheme for awarding grouped course Certificates, Ordinary and Higher, for success in part-time day or evening courses, on lines similar to those for National Certificates in electrical and mechanical engineering (v. *supra*), was adopted with the approval of the Govt. education authorities of Great Britain and Ireland. Provision has also been made for granting *Diplomas* in Gas Engineering and in Gas Supply for success in an examination. There are not at present any examns. for admission to membership of the Institution.

THE INSTITUTE OF MARINE ENGINEERS,
INCORPORATED

Established 1889. *Address*—85 The Minories, Tower Hill, London, E.1.

Membership or Associate-Membership open to Engineers holding First or Second Class Sea-going Certificates or those holding responsible or qualifying positions and engaged in the science or practice of Engineering or Shipbuilding; Associateship, to juniors so engaged and at least 21 years of age; Graduateship, to those receiving training in such science or practice who have completed one year of such training; Student Graduateship, to those who have attended Technical classes for a year, are training for such science or practice, and have passed the Institute's examn. The examn. (fee, 2s. 6d.) is held in London and the provinces in April in the following subjects: Theoretical Mechanics, Heat and Heat Engines, Machine Constn. and Drawing, Applied Mechanics, Maths., English, Elec. Engin. Entrance fee, 10s. to 30s. and annual subsn., 5s. to £1:11:6 according to grade of membership.

Library (over 3000 vols.) and Reading Room. Lectures monthly

(on 3rd Tuesday) during winter session. Gold Medal and other awards for Essay competitions.

Lloyd's Register Scholarships: Three of £100 p.a. tenable for 3 yrs. in a University or College (day classes), open for competition, by examn., to British subjects, aged 18-23, who are Graduates or Associates of the Inst., apprentices or junior engineers, not necessarily connected with the Inst., who have served at least 2 yrs. in a commercial engineering workshop and until the time of application have been employed at engineering either ashore, afloat, or at College with a view to entering upon the business of Marine Engineering. The examn. is held about end of May each year in various centres to suit the residences of candidates in Great Britain.

INSTITUTION OF NAVAL ARCHITECTS

Founded 1860. Incorporated by Royal Charter, 1910. *Address*—5 Adelphi Terrace, London, W.C.2.

Principal qualifications for Membership: minimum age, 30; having served apprenticeship in naval architecture or marine engineering and subsequently been engaged in such occupation and having held a post of primary responsibility for 7 yrs. or more. Qualifications for Associate Membership are similar, but minimum age is 25 and post of primary responsibility need not have been held. Age-limit for Associates, 25; Students, 18-25. Entrance fee and annual subsn., 2 gs. each, except for students, who pay subsn. 15s. p.a. and no entrance fee. Distinctive letters, M.I.N.A., etc.

Scholarships in naval architecture and marine engineering: number unspecified, varying in value from £75 to £150 p.a., offered for competition, open to students and apprentices in firms engaged in shipbuilding industry and Royal dockyards; two for post-graduate research in naval architecture (value £250 p.a. and £150 p.a. respectively) are awarded on recommendation of Univ. authorities.

Annual meetings, when papers are read and discussed. Summer meetings at shipbuilding centres at home or abroad.

Library, over 4000 vols., comprising principal works on shipbuilding, ancient and modern. *Transactions*, issued annually, constitute a permanent record for over 60 yrs. of all important developments in shipbuilding and marine engineering: £3 : 3s. for current volume (issued free to members), £2 : 2s. to 10s. 6d. for earlier numbers. Total membership about 2900, including many foreign naval architects of eminence.

NORTH-EAST COAST INSTITUTION OF ENGINEERS AND SHIPBUILDERS

Founded 1884. Incorporated in 1914 under Companies Acts.
Address—Bolbec Hall, Newcastle-on-Tyne.

Qualifications for Membership, Associate Membership, etc., are somewhat similar to those prescribed by the Institution of Naval Architects (*v. supra*). Distinctive letters, M.N.E.C.Inst., etc. All members are, by virtue of their membership, also members of the *Cleveland Scientific and Technical Institution, Middlesbrough*.

Scholarship in shipbuilding, marine, mechanical, or electrical engineering of the value of £100 awarded annually upon the results of an examn. held in Sept.

Library containing over 5000 books on engineering and shipbuilding subjects. THE BAR IN ENGLAND AND WALES

THE right to practise as a Barrister in the Law Courts of England and Wales is restricted to those who have been called to the Bar by one of the Inns of Court—Lincoln's Inn, Middle Temple, Inner Temple, and Gray's Inn. The consolidated Regulations of these Societies (obtainable from the *Council of Legal Education*, 15 Old Square, Lincoln's Inn, London, W.C.2) provide, *inter alia*, as follows: *Admission of Students*. The conditions include: (i.) having passed any examn. held by any Univ. in the British Dominions or any of the States in India, approved by the Council of Legal Educn., which entitles to a degree or, provided that one of the subjects in which the Student has passed is Latin, one of certain other examinations approved by the Council of Legal Education; (ii.) satisfactory evidence of good character; (iii.) declaration that the candidate will not "directly or indirectly apply for or take out any certificate to practise, directly or indirectly, as a Pleader or Conveyancer or Draftsman in Equity, without the special permission of the Masters of the Bench," and is not and does not "directly or indirectly act in the capacity of a Solicitor, Attorney-at-Law . . . Professional Accountant, Actuary, Land-Agent, Surveyor . . ." or "in any capacity similar to any of those . . . otherwise than as. . . ." The Schedule of approved Prelim. examns. includes those numbered in Appendix No. XX., as 1, 2, 3, 5, 6, 8 (a) (b), 9 or 10 (subject to provisos), 18 (according to standard applicable to students whose native language is English), 20, 21. The Council may add others, and the Masters of the Bench of the Inn of Court concerned may, in special cases, relax or dispense with this requirement.

Keeping Terms. This is done by eating dinners 6 days in each of 12 terms (members of Univs. of the U.K. 3 days). There are 4 terms in each year.

Education and Examination. Systematic instruction is provided under the supervision and direction of the Council of Legal Education in Roman, International, Constitutional, and English Law, Jurisprudence, Legal History, and Equity. Reading in the chambers of a Barrister or Pleader for the purpose of studying the practice of Law is recommended, but not compulsory. Four examns. for Call to the Bar are held each year. Candidates must satisfy the examiners in each of the sections: (1) Roman Law, (2) Constitutional Law (English and Colonial) and Legal History, (3) Criminal Law, (4) Real Property and Conveyancing *or* Hindu and Mohammedan Law *or* Roman-Dutch Law, (5) Common Law, (6) Equity, (7) Law of Evidence and Civil Procedure, (8) General Paper on 5, 6, and 7. A student who has passed an examination in Roman Law, forming part of a qualifying examination for a Univ. degree, may be excused the examination in Section 1. Sections 1 to 4 (constituting Part I.) may be taken separately (fee, $\frac{1}{2}$ g. each); 5 to 8 (the Final examination) must be taken together (fee, 2 gs.)

after having passed 1 to 4 and, ordinarily, after having kept at least 6 terms.

The successful students are classified and the names of those in Classes I. and II. of the Final Examination Pass List are arranged in order of merit. A Certificate of Honour is granted to those in Class I. at the Final examination. Prizes of £50 each may be awarded for the best students (not over 25 yrs. of age) in Sections (2) and (3), and a Studentship of 100 gs. p.a. tenable for 3 yrs. to the best student (not over 25 yrs. of age) at the Final examination. The Inn to which a student who has obtained a Studentship or Certificate of Honour belongs may, if desired, dispense with any Terms, not exceeding 2, that may remain to be kept by him.

Calls to the Bar. Minimum age, 21. In special circumstances the Masters of the Bench may dispense with the keeping of not more than 2 of the 12 terms ordinarily required to be kept by a student before he is called, and special concessions in regard to the keeping of terms or examinations, etc., are allowed to Scottish Advocates, Irish Barristers, members of the Bar of New South Wales, Ceylon, the Cape Province of South Africa, New Zealand, Vakils of High Courts in India, certain Civil Servants exercising judicial functions abroad, and to persons who, prior to admission as students, have practised as Solicitors for 5 yrs. subsequent to admission as a solicitor *in England* (including interruptions caused by war service).

Fees. On admission: application, 1 g.; stamp duty, £25; lecture fee, 12 gs.; admission fees, £20 or £21. On Call: stamp duty, £50; composition for annual dues, £12; call fees, £38 (Gray's), £40 (Lincoln's), £50 (Middle or Inner).

SOLICITORS IN ENGLAND AND WALES

Examinations are held by the LAW SOCIETY, Chancery Lane, London, W.C.2. All persons, except some Colonial Solicitors, are subject to Final examination at conclusion of service under Articles before they can be admitted as Solicitors. Subjects of Foreign States cannot be admitted. English Barristers of 5 yrs.' standing are not required to enter into Articles, but may be admitted after passing the Final examn. Before entering into Articles of Clerkship (under the Solrs. Act, 1877) with a view to admission as Solicitors it is necessary, except for persons exempted, to pass a *Preliminary examn.* (fee, £4) held in London and several provincial towns in Feb., July, and Oct., in English, Elem. Maths., Geog. of Europe, and Hist. of England, Latin, and one or (if Algebra and Elem. Geom. are not taken) two of the following—Latin translation, Greek, French, German, Spanish, Italian. Exemption is allowed to graduates in Arts or Laws and persons who have passed matricn. or other corresponding examns. of any Univ. of Great Britain or Ireland or examns. exempting therefrom; to Utter Barristers in England; and to persons who have passed Oxford Responsions or Cambridge Previous Examn. or any examn. exempting therefrom, or, subject to provisos, approved School Certificate or Higher Certificate examns., or certain other examns. The list of these examns. will be curtailed on Aug. 3, 1927.

Service under Articles (stamp duty, £80) is normally for 5 yrs. This may be reduced : (1) to 3 yrs. for graduates in Arts or Laws or Science of any Univ. of the U.K., English Barrister of less than 5 yrs.' standing, or for members of the Faculty of Advocates, Writers to the Signet and Solrs. in the Supreme Courts of Scotland, or Procurators before any of the Sheriff Courts of Scotland ; (2) to 4 yrs. for persons who have (a) passed examns. Nos. (v. Appendix XX.) 1, 1a, 1b, 2, 3 (1st Division), 4a, 6 (1st Division), 13 (with Hons.), 24, or an approved Higher Certificate examn. and have fulfilled certain conditions in connexion therewith, or (b) before entering into Articles attended for 1 yr. the approved curriculum of study at the Law Society and complied with certain regulations in connexion therewith, or (c) before entering into Articles passed examn. No. 6 (Latin being taken), and subsequently attended, to the satisfaction of the Univ., the curriculum for the Interm. LL.B. of Leeds, Liverpool, Manchester, or Sheffield, and passed the Interm. LL.B. examn.

An *Intermediate* examn. (fee, £6), which may be taken after completing 12 months' service, is held in March, June, and Nov. Exemption from the Legal portion (but not from the Trust Accounts and Book-keeping portion) is given to those who (i.) before or after entering into Articles have passed the examn. for the B.C.L. or LL.B. at any of the Univs. of England (except Bristol) and Wales or at the Univ. of Dublin ; or (ii.) before entering into Articles have taken Honours in the Final Honour School of Jurispr. at Oxford or in the Law Tripos at Cambridge. Exemption from the whole of this examn. in consideration of circumstances connected with the war is obtainable under certain conditions (v. sec. 2 of Solrs. Act, 1918).

The *Final* examn. (fee, 10 gs.) is held in March, June, and Nov. Prints of the Questions set at this and at the Interm. are obtainable from the Law Society.

THE SOLICITORS ACT, 1922. Section 2 provides that a person articled to a solicitor after Dec. 31, 1922, shall not be admitted to the Final Examn. unless he satisfies the Law Society that he has, during a period of one year, complied with the requirements of the Society as to attendance at a Law School provided or approved by the Society. This does not apply to any person who (1) has taken a degree at any Univ. in the U.K., after passing a Final Examn. in law at such Univ. ; or (2) applies to be admitted to the Law Society's Final Examn. after satisfying the requirements of Sect. 4 of the Solrs. Act, 1860. Any person may be wholly or partially exempted from attendance at a Law School if he can satisfy the Law Society that such attendance is for geographical or other reasons impracticable.

Provided and Approved Schools. The Society's Law School in London ; the Univs. of Birmingham (in conjunction with the Birmingham Board of Legal Studies), Bristol, Cambridge, Durham (Armstrong College), Leeds, Liverpool (in conjunction with the Liverpool Board of Legal Studies), London, Manchester, Oxford, Sheffield, Wales (Univ. Colleges, Aberystwyth, Bangor, Cardiff, Swansea), Univ. College, Exeter, Univ. College, Southampton, East Midland Law School (Univ. Colleges of Nottingham and Leicester).

MEDICAL AND DENTAL QUALIFICATIONS
AND STUDIES

A. MEDICAL QUALIFICATIONS

Address of the Registrar, General Medical Council—44 Hallam St., Portland Place, London, W.1. *Telegrams*—Genmedicum, Eusroad, London. *Telephone*—Langham 2500. *Addresses of Registrars of Branch Councils*—20 Queen St., Edinburgh; 35 Dawson St., Dublin.

No person is recognized by law as a duly qualified Medical Practitioner in Great Britain or Ireland whose qualification is not *registered* in the books of the *General Medical Council*. Below are lists of the qualifications so registrable—obtainable (a) in Great Britain and Ireland, (b) in British Possessions overseas, (c) in foreign countries. The document presented in evidence of any of these must show that the possessor has passed a Qualifying examn. in Medicine, Surgery, and Midwifery. For registration in the Colonial or Foreign list it is essential that the qualification be first registered in the Province, State, etc., in which it was obtained.

Position of Doctors with Irish Qualifications. Some doubt has arisen as to what the position will be if, as is contemplated, the Irish Free State discontinue the present arrangement, under which the Medical Acts of the United Kingdom have effect in that State. The situation would be as follows:—Persons whose names already appear upon the Medical Register will be in precisely the same position as before and will incur no disability. Persons who obtain Southern Irish qualifications after the arrangement comes to an end will not be entitled to have them registered either on the British or on the Colonial List of the Medical Register, and fresh legislation in the United Kingdom will be required before registration in virtue of these qualifications could be effected. It is possible, however, that the Licensing Authorities in the United Kingdom will recognize courses of medical study in the Irish Free State, and will admit to their Final Examination those who have obtained such Southern Irish qualification. Any person thus obtaining a British qualification in addition to the latter would be entitled to registration in the Medical Register.

Coll. designated by a Minister of Educn. of the Empire of Japan.

B. REGISTRATION OF MEDICAL STUDENTS

The Regulations (including the modifications which came into force on Jan. 1, 1923), obtainable from the Registrar, 44 Hallam St., London, W.1, post free 1s., prescribe Registration of Medical Students within 15 days of the commencement of their professional studies. For this purpose they should apply in the prescribed form, obtainable from any of the Registrars (v. *supra*), submitting evidence of having— (a) attained the age of 17 ; (b) passed a Preliminary examn. in General Education recognized by the Council ; (c) passed also an examn. in *Elementary Physics* and *Elementary Chemistry* conducted or recognized by one of the Licensing Bodies ; (d) commenced Medical study at an approved Univ. or Medical School.

As regards (b) the Council recognizes no examn. which is of standard lower than that of Univ. Matricn. examns. in the faculties of Arts and Pure Science, and requires that the examn. certificate shall bear evidence that the candidate has passed in English, Elem. Maths., a language other than English, and an additional subject or subjects as required by the regulations of the particular examn., to be chosen from the subjoined list, viz. Hist., Geog., Physical Sc., Nat. Sc., Latin, Greek, Hebrew, French, German, or other language accepted by the Univ. for the purpose. Applicants from one of the recognized Colonial Univs. must produce evidence that they have passed the complete Matricn. examn. for the faculty of Arts or of Science (Pure) of the Univ. or College from which they come, or an examn. accepted as equivalent thereto, and that the examn. passed is accepted by one of the Univs. of Great Britain or Ireland for similar purposes. Applicants from one of the recognized Indian Univs. must produce evidence that they have passed the Matricn. examn. of the Univ. from which they come, or an examn. recognized as equivalent thereto, and, in addition, the Preliminary Scientific or Intermediate examn. in Arts or Science of their own Univ. Applicants from Foreign Univs. should submit their credentials to the Registrar.

As regards (c), this requirement is not dispensed with in cases where *Physics* and *Chemistry* of a Matricn. standard formed part of the (b) examn., but an applicant from one of the recognized Colonial Univs. or Colleges is permitted to substitute for it a certificate that an examn. in *Physics* and *Chem.* (and, in addition, *Biology*, v. *infra*) equivalent in standard to the First Professional examn. in these subjects has been passed by the student. Similarly, in the case of an applicant from one of the recognized Indian Univs. the Preliminary Scientific or Inter-

mediate examn. in Arts or Science of his own Univ. will suffice if these subjects are included in his Pass certificate.

As regards (d), institutions in which Medical Study may be commenced include all the Univs. and other Bodies throughout the Empire of which the *qualifications* (v. *supra*) have been recognized as entitling to registration in the U.K.

A student who has diligently attended an approved course of instruction in *Elementary Biology* at a Secondary school or other teaching institution recognized by a Licensing Body may be admitted to the Professional examn. in this subject immediately after his registration as a student.

C. DENTAL QUALIFICATIONS

Under the Dentists Act, 1921, no person who is unregistered can practise dentistry without rendering himself liable to prosecution.

The Dental Board of the United Kingdom was constituted by the Dentists Act, 1921, and is charged with the duty of dental registration. The address of the Registrar is 44 Hallam St., London, W.1. *Telegrams*—Dentiboard, Eusroad, London. *Telephone*—Langham 2501.

The following lists show the registrable qualifications obtainable (a) in Great Britain and Ireland, (b) in British Possessions overseas, (c) in foreign countries.

D. REGISTRATION OF DENTAL STUDENTS

I. Registration is carried on at the Council Office in London in the same manner as that of Med. students, and is subject to the same regns. as regards age and Prelim. examns., but professional study may commence by pupilage with a Registered Dental Practitioner.

II. Candidates for a Diploma in Dental Surgery should produce certificates of having been engaged in professional studies for at least 4 years, including 3 years at least at a Dental school or schools recognized for professional study by one of the Licensing Bodies, and of having received for not less than 24 calendar months, or for 2000 hours, practical instruction in Dental Mechanics.

III. Two years' *bona-fide* apprenticeship with a Registered Dental Practitioner, after being registered as a Dental student, may be counted as 1 of the 4 yrs. of professional study.

IV. The necessary instruction in Dental Mechanics, or any part of it, may be taken by the Dental student either before or after his registration as a student. When he can show evidence of regular pupilage in Dental Mechanics to a Registered Practitioner, prior to passing the prescribed Preliminary and Scientific examns., he may be allowed to antedate for a period not exceeding 1 yr. prior to the passing of these examns.

V. It is recommended that instruction in Dental Mechanics be taken at a recognized Dental Hospital or School. If any part of such instruction be taken by the candidate as a pupil with a Registered Dental Practitioner, the time required to be devoted to it will be at least twice the time required for the corresponding instruction taken at a Dental School.

Schools at which Dental Study may be commenced: Birmingham D. Hospl.; Bristol, Royal Infirmary, Genl. Hospl.; Dublin, D. Hospl. of Ireland; Dundee D. Hospl.; Edinburgh D. Hospl.; Glasgow D. Hospl.; Leeds D. Hospl.; Liverpool D. Hospl.; London, Guy's Hospl. D. School, London Hospl. D. School, Univ. Coll. Hospl. D. School, Royal D. Hospl.; Manchester D. Hospl.; Newcastle-upon-Tyne D. Hospl.; Sheffield Royal Hospl.; Roy. Coll. of Surg. in Ireland; D. Department of any Univ. of the U.K.

E. RECIPROCAL RECOGNITION

The States, Presidencies, and Provinces in which the registrable medical qualifications specified under A (b), (c) are granted, all allow practitioners with qualifications registered in the U.K. to register without further examn. There are also other Colonies, *e.g.* Tasmania, which recognize British qualifications, but in which at present no qualifications are granted.

[A Report (5th edition pubd. in Jan. 1921) as to the conditions under which Med. and Dent. practitioners registered or legally qualified in their own country may practise abroad is obtainable from the Council Office, price 2s. 6d. (post free U.K. 2s. 10d., elsewhere in the Empire 3s. 1d., outside 3s. 4d.). It contains, among other matters, the designations and addresses of the persons to whom application should be made for forms and further information.]

F. POST-GRADUATE MEDICAL STUDIES

In London, in addition to the General Hospital Medical Schools which provide to a limited extent for qualified practitioners, there are the West London Post-graduate College at the West London Hospital, Hammersmith, with a staff of 37 regular lectrs. and demrs., the North-East London Post-Graduate College at the Prince of Wales' Hospital, Tottenham, and the London School of Clinical Medicine at the Seamen's Hospital, Greenwich, as well as certain special hospitals where excellent arrangements are made for post-graduate work in particular subjects. The *Fellowship of Medicine* (1 Wimpole St., London, W.1), formed in 1918, promotes and advertises the provision of facilities for post-graduation medical study in London. In co-operation with 50 London general and special hospitals, post-graduate courses in all the special departments of medical science are arranged, as well as short intensive courses at regular intervals during the year. Information is given on post-graduation study in Great Britain and elsewhere. See also pp. 679 and 685 regarding facilities for special research.

Post-graduate courses are also provided elsewhere, notably at Manchester, Edinburgh, and Glasgow.

ROYAL COLLEGE OF PHYSICIANS OF LONDON AND ROYAL COLLEGE OF SURGEONS OF ENGLAND

Address of the Secy., Conjoint Examining Board in England, 8-11 Queen Sq., Bloomsbury, London, W.C.1. Applications for admission to the Board's examns. should reach the Secy. at least 14 days (in the case of the L.D.S. Professional examns., 21 days) beforehand. Agency for the sale of Books of Questions set in past years (9d. each)—Taylor & Francis, Red Lion Court, Fleet St., London, E.C.4.

Examinations for the Diplomas of LICENCE OF THE R.C.P. of London and MEMBER OF THE R.C.S. of England are held ordinarily in Jan.,

April, July, and Sept. or Oct. Candidates must have passed a Prelim. examn. in general education recognized by the Board, and must have passed, before commencing the 5 years' curriculum of professional study, *a Pre-Medical examn. in Chemistry and Physics* conducted or recognized by the Board. Before admission to the Professional examns. (known as the *First* and *Final*) they are required to produce certificates of having pursued the prescribed courses of study and practice. The *First* Professional examn. (fee, 10 gs.) comprises: Section I., (a) Anatomy, including Histology and Embryology, (b) Physiology, including Bio-Chemistry; Section II., Pharmacology, Practical Pharmacy, and Materia Medica. A candidate who has passed an examn. in the subjects of Section I. or of either part of Section I. and of Section II. in the examn. for the degree in Medicine conducted at a Univ. recognized by the Board, will be exempted from further examn. in such subject or subjects. The Instn. is closely associated with the Royal School of Mines. *Secretary*: Charles McDermid.

EMPIRE COUNCIL OF MINING AND METALLURGICAL INSTITUTIONS

At an Empire Mining and Metallurgical Congress held at the British Empire Exhibition, 1924, it was resolved to form a Council to promote intercommunication and co-operation between the constituent institutions, to create and maintain a higher standard of technical efficiency and professional status, to convene future Congresses, and to compile a register of British Mining and Metallurgical Engineers, Scientists, and Technologists. *Secretary-General*—Charles McDermid. *Address*—Cleveland House, 225 City Road, London, E.C.1.

INSTITUTION OF MINING ENGINEERS

Established 1889. Incorporated by Royal Charter 1915. *Address*—Cleveland House, 225 City Road, London, E.C.1. *Telegrams*—"Instimini, Phone. London."

The Institn.'s objects and purposes are "the advancement of coal and iron-ore mining and allied industries, and the promotion of the acquisition of the knowledge necessary for the control and direction of mining operations in relation to stratified deposits." It is a federation of the Manchester Geol. and Mining Soc; the Midland Counties Instn. of Engineers; the Midland Instn. of Mining Engineers; the Mining Inst. of Scotland; the North of England Inst. of Mining and Mech. E.; the North Staffs. Inst. of Min. E., and the South Staffs. and Warwickshire Inst. of Min. E. Membership of the Institution is obtained by nomination through the Council of one or other of the Federated Institutes.

Conditions of admission to membership since Jan. 12, 1916, include: (a) regular education and training as a Min. E., and 5 yrs.' work in a responsible position in practical Mining; or (b) First-Class Certif. of Competency under Coal Mines Act, and tenure of post as Manager, Asst.

Manager, Under-Manager, or Chief Surveyor ; or (c) position or attainments rendering his membership desirable in the opinion of the Council. There are also Associate Members, Hon. Members, Associates, and Students.

Publications. *Transactions* (in which are included *Procdgs.* of Federated Insts. as well as those of the Instn. itself), 71 vols. Price to non-members, 36s. each for current volumes ; back volumes at varying rates. Authorized signatures : M.I.Min.E. ; Assoc.M.I.Min.E., etc.

THE IRON AND STEEL INSTITUTE

Founded 1869. Incorporated by Royal Charter 1899. *Address*—28 Victoria St., London, S.W.1.

Qualifications : (1) for Membership—minimum age, 21 ; being practically engaged in iron or steel works or being a person of scientific attainments in metallurgy or specially interested in the applications of iron and steel. Entrance fee, 2 gs. ; annual subsn., 3 gs. (if resident abroad, 2½ gs.). (2) For Associateship—maximum age, 24 ; being (a) Student of Metallurgy taking a course at a Univ., Univ. College, or Tech. School, or (b) pupil or apprentice in metallurgy or engineering, or (c) employed in some practical or scientific capacity in met. or engin. works. Annual subsn., 1 g. Initials denoting membership, M.I.S.I., A.I.S.I.

Meetings in May and Sept. for reading and discussion of papers. Library, reference and lending ; printed catalogue. Information Bureau ; service not restricted to members.

Carnegie Research Fund—£20,000, interest on which is used for grants to assist metallurgists and students in conducting researches.

Williams Prize Fund—£3000, interest on which is applied as a money award for the best practical paper, on manufacture or treatment of iron or steel, presented in any one year.

Publications. *Journal* in 2 vols. annually ; *Carnegie Scholarship Memoirs*, 1 vol. annually.

THE INSTITUTE OF METALS

Founded 1908. Incorporated 1910. *Address*—36 Victoria St., London, S.W.1.

Local Sections in Birmingham, Glasgow, London, Newcastle-on-Tyne, Swansea, Sheffield.

Qualifications for Ordinary Membership (M.Inst.Met.) : minimum age, 24 ; occupying a responsible position, being either engaged in the manufacture, working or use of non-ferrous metals and alloys, or a person of scientific, technical or literary attainments connected with or interested in the metal trades or with the application of non-ferrous metals and alloys. Limits of age for Student Members, 18-23. Entrance

fee and annual subsn. for Ordinary Members, 2 gs. and 3 gs. Students, 1 g. and 1 g. Associate members of local sections pay a nominal subscription and do not receive the *Journal*. *Fellows* (F.Inst.Met.) are limited in number to 12. They are chosen by Council for having rendered eminent service to the Assocn.

The Inst. aims at "the advancement of the non-ferrous metals industry and the associated sciences," by the co-operation of manufacturers, users and scientific investigators. It concerns itself rather with the manufacture and working of metals and alloys and with their properties and modes of treatment and testing, than with the production of metals from their ores. The leading features of its work are the holding of sessions in the spring and autumn and an annual "May lecture" given by some acknowledged master of his subject; in addition a special "Practical lecture" is given annually in the autumn by an expert non-ferrous technician.

The *Journal* contains in addition to the proceedings of all the meetings abstracts and reviews of all the more important current publications, British and foreign, bearing upon non-ferrous metals. Price to non-members, £3:5s. for the two annual vols. (post free).

Library with all the current journals of interest to those concerned with metals. Nucleus museum.

Research is encouraged, directed, and even undertaken by means of a series of special committees, the most important being the Corrosion Research Committee, which began its work in 1910, and after receiving substantial help from the Govt. Dept. of Scientific and Industrial Research was augmented by the addition of representatives of several Govt. Depts. and Professional Institns. Funds were provided by Sir George Beilby for enabling the Inst. to reward an important research, still continuing, on "The Solidification of Metals from the Liquid State."

INSTITUTION OF PETROLEUM TECHNOLOGISTS

Incorporated 1914. *Address*—Aldine House, Bedford St., Strand, London, W.C.2.

Conditions of admission to associate membership (A.M.Inst.P.T.) since June 17, 1914, include (a) good general and scientific education, (b) at least 2 yrs.' practical experience in a position as petroleum technologist.

Annual subscriptions: Students 1 g., Associates 2 gs., Assoc. members 2½ gs., Members 3 gs.

Publications. *Journal*, bi-monthly, 7s. 6d. (free to members). Rules, etc., 4s. *The Petroleum Industry*, 2s. 6d. *List of Members*, 2s. 6d. *Report of Standard Methods of Testing of Petroleum and its Products*, 6s. (members, 4s.).

SURVEYORS' INSTITUTION

Founded 1868. Incorporated by Royal Charter, 1881. *Address*—
12 Great George St., Westminster, S.W.1.

Professional examns. (fees: Interm. or Final, 4 gs.; Direct Fellowship, 5 gs.; applications receivable in Sept.) are held in March in London, Glasgow, and Dublin, and a Prelim. examn. (fee, 1½ g.) in Jan. in the same places and Manchester.

The *Preliminary* (min. age, 16), for admission of students, comprises Elem. Maths., Hist., Compn., and one of: Latin, French, German, Inorg. Chem., Botany, Geol. Candidates are expected to reach the standard of examn. No. 8 (b) of Appendix XX.

Candidates for admission as *Student* (min. age, 18) are exempt from undergoing the Prelim. if they have passed any of the examns. Nos. 7, 8 (a) or (b), 9 or 10, 9a or 10a (Hons.), 11, 12, 13, 14, 16, 19 (Interm.), 23 and 23 (a), or the Matricn. examn. of any Univ. in the U.K., Inst. C.E. Studentship, Prelim. of Inst. C.A., R.I.B.A., Law Soc., Auctioneers' and Estate Agents' Inst. or Sandhurst or Woolwich.

Unless a pupil of a Surveyor a candidate must be taking a course, approved by the Council as bearing on the profession of Surveyor, at one of the Univs. of the U.K. or their Affiliated Colleges, or one of the following: Harper Adams Agr. Coll., Newport; University Coll., Reading or Southampton; College of Estate Management; Midland Agr. and Dairy College; Seale-Hayne Agr. Coll., Newton Abbot.

For admission to the (i.) *Intermediate* (min. age, 19), a candidate must, unless at one of the institutions above mentioned, be actually engaged in an office where he has opportunities of obtaining practical experience in the profession. The subjects are grouped thus: I. chiefly Land Agency, II. chiefly Valuation, III. chiefly Building or chiefly Quantities, IV. chiefly Mining. A candidate may select any one of these subdivisions. For the (ii.) ordinary *Final* examination the candidate must have passed the Interm. in the same subdivision which he takes for the Final. The (iii.) *Direct Fellowship* examn. (min. age, 30) may be taken, without having passed (i.) or (ii.), by a candidate who has been in practice on his own account for 5 yrs. After 1927 all candidates for (i.), unless they have passed one of the exempting examns., must have passed the Prelim. Examn. or, if over the age of 25, a special test of general education.

For election as *Professional Associate* (P.A.S.I.) a candidate must have passed (i.) and (ii.), and be in practice as a Surveyor on his own account or employed as an Asst. in a Surveyor's office. For the Fellowship (F.S.I.) a candidate must have passed either (i.) and (ii.) or (iii.), and had 5 yrs.' experience as, and still be, either a Principal or Responsible Manager in an established business or a Head of a Dept. in the office of a public body reporting direct to his Board or Council.

Scholarships worth £80, £60, and £50, tenable for 3 yrs. at any Univ. in Great Britain, have been established by the Council.

TEACHERS REGISTRATION COUNCIL

Constituted by Order in Council, 1912, and amending Order, 1926.
Address—47 Bedford Sq., W.C.1.

The Conditions of Registration are : (a) a degree or other qualification approved by the Council ; if obtained in respect of a technological subject the applicant must have spent 36 months, after attaining the age of 16, in the practice of the profession or industry in question, and of this period 12 mos. must have been concurrent with or subsequent to the course for the degree (or other qualification) ; (b) successful completion of a course, extending over at least 1 academic year or its equivalent, of training in the principles and methods of teaching, carried on under conditions approved by the Council and accompanied by practice under supervision ; (c) experience as a teacher in educational institns. accepted for the purpose by the Council for a period varying according to circumstances, but in no case less than 1 academic year.

Condition (b) is waived in the case of a teacher who has had not less than 3 academic yrs.' experience as Recognized Teacher in Univs. and institns. of Univ. rank approved by the Council for this purpose. Until Dec. 31, 1930, condition (b) will be modified in other cases where the Council is satisfied that special circumstances have prevented the applicant from taking an approved course of training in teaching.

Registration fee : A single and final payment of £2.

EDUCATION AND TRAINING OF TEACHERS IN ENGLAND AND WALES

Courses of training for the teaching profession, recognized and aided under the Regulations of the Board of Education, are provided in Training Colleges and in the Training Departments which form part of the work of all Univs. in England and of the constituent Colleges of the Univ. of Wales and the Univ. Colleges of Exeter, Nottingham, and Southampton.

The Board's Regulations on the subject have recently been revised on lines which the Board have decided to follow in all their Regulations. So far as possible they are confined to the statement of the conditions upon which the Training Colleges will be recognized and aided by grants, and the responsibility for determining the particular means by which these conditions can best be satisfied is left primarily to the College authorities. The new Regulations embody those recommendations of the Departmental Committee on the Training of Teachers, which the Board consider can now be made conditions of recognition and

grant. The unification of the teaching profession and the removal of barriers between its different branches—objects which the Board had in view when they consolidated their several sets of Regulations for the Training of Teachers in 1918—have been carried a stage further by the abolition of the administrative distinctions between Elementary and Secondary Training Colleges. In pursuance of the Board's desire that their certificate for teachers should increasingly assume the character of an endorsement of qualifications independently tested by responsible academic authorities, detailed requirements about the various courses of training have been replaced by a simple provision to the effect that courses of training must be in accordance with a suitable curriculum, and that satisfactory arrangements must be made for the examination of the students at the end of their course. At the same time the authorities of Training Colleges have been invited to submit proposals to the Board showing the kinds of training which each College considers it can properly undertake; and representatives of Univs., Training Colleges, and other bodies are now considering the possibility of co-operation in the examination of students of a College or a group of Colleges for the purposes of their recognition as teachers by the Board. Pending the completion of these consultations, the Board are making no changes in their requirements about the length of courses which they will approve for the purposes of the final examination.

A person who desires to enter a Training College as a *recognized student* or as a *private student* intending to follow a course qualifying him for recognition as a Certificated Teacher must (i.) be over 18 years of age on the first day of the academic year for which he is admitted to the College, or over 17 if he is taking a 4-year course which includes work for a Univ. degree; (ii.) have passed before admission a First Examination for Secondary Schools (*i.e.* examinations in Appendix XX. numbered 7, 8(b), 9, 10, 11, 12, 13, and 14) or some approved examination of at least equivalent standard (*e.g.* the Matriculation Examination of any Univ. in England or Wales) or the Board's Preliminary Examination for the Certificate (this last Examination will not be held after 1928); and (iii.) satisfy the College authorities as to his character, probable suitability for the teaching profession, and health and physical capacity for teaching. A person who desires to enter as a *recognized (i.e. grant-earning) student* must also (iv.) be a British subject ordinarily resident in England or Wales, unless an exception to this rule is approved; and (v.) sign a declaration of intention to complete the course of training and thereafter to adopt and follow the profession of teacher in an Approved school.

The principal types of courses at present recognized are: (i.) 4-year, *i.e.* 3 yrs. of study for a Univ. degree, followed by a year of professional training; (ii.) 2-year, including a period of professional training concurrently with a period of academic study; this course may, under special conditions for individual students, be extended for a third year or renewed for a year after three years' teaching in approved schools; (iii.) 1-year, for graduates or Certificated Teachers who have not previously been trained at Training Colleges.

As regards (i.), a student may be admitted to the 2nd, 3rd, or 4th year if he has completed 1 yr., 2 yrs., or the whole of the course for a degree before entering the Training Department. He will not as a rule be certificated as a Teacher unless he has passed a Final examination for a degree.

As regards (ii.), suitable Univ. examinations forming recognized stages in courses for degrees may, subject to certain conditions, be approved for individual students as alternative final examinations.

A course of training extending over not less than 1 yr. at a Secondary School and providing for a systematic study of the principles and practice of teaching may be approved for a person who has obtained a Univ. degree, and a grant may be paid by the Board to the Governing Body of the School.

Teachers are eligible for Studentships: (a) "Full-time Studentships," not exceeding £100 for an academic year, for full-time courses of advanced study or research either at Univs. or other institutions; these are intended for teachers who are able to obtain a term or longer period of grace from school teaching for the purpose, but not for the whole or part of an ordinary degree course; (b) "Part-time Studentships," entitling the holders to a grant not exceeding $\frac{1}{3}$ of the fees of the proposed course, for approved part-time courses in Univs. or other institutions; teachers so assisted would continue their ordinary teaching work at the School.

The *College of Preceptors*, Bloomsbury Square, London, W.C.1, grants the following Diplomas to teachers: (1) A.C.P., (2) L.C.P., (3) F.C.P. The examns. for (1) and (2) are divided into Part I. non-professional subjects, and Part II. the professional examn., including a practical test of ability to teach. The standard in each subject of Part I. for the A.C.P. is that of the same subject in the London Univ. Intermediate Arts examn., and in each subject of Part I. for the L.C.P. that of the same subject in the London Univ. B.A. Pass Examn. Before sitting for Part II. candidates must submit evidence of teaching experience as follows: 2 years' (for L.C.P.—3 years') experience in teaching, or one year's (for L.C.P.—2 years') experience and one year's approved training. The F.C.P. Diploma is granted to candidates who, having already obtained the L.C.P. Diploma, submit a satisfactory thesis on some original research or experimental work in Education.

The *College of Handicraft* (Hon. Registrar, J. Lloyd, A.C.P., F.Coll.H., 6 Bailey Street, Ton Pentre, Rhondda, S. Wales), a constituent part of the Institute of Handicraft Teachers, incorporated in 1924, grants certificates of competency as Teachers of Handicraft to members of the Institute who satisfy the Board of Examiners of the College. The standard of examination is stated to be that of a University Diploma in Education, and the examinations are held in January of each year. A necessary qualification is recognition by the Board of Education as qualified teacher. Distinctive initials—M.Coll.H., etc. Academical dress may be worn by Members and Fellows.

The *Interchange of teachers between different parts of the Empire* and mutual recognition of certificates and service were among the subjects considered at the Imperial Education Conference held at London under

the Chairmanship of the Permanent Secretary to the Board of Education in July 1923, and a report was prepared by a committee of the Conference on I. Interchange; II. Recognition of (a) service given elsewhere than in the country of origin—for the purposes of superannuation, (b) previous service—for calculation of salary in case of teachers who migrate; III. Recognition of teachers' certificates throughout the Empire. The Teachers Superannuation Act of 1925 makes it possible for a teacher to leave service in a grant-aided school in England, and to serve for not more than 4 yrs. in the Dominions overseas without forfeiture of pension rights, provided 10 per cent. of the salary last received in England is paid by the teacher for the period of overseas service.

The League of the Empire (124 Belgrave Rd., London, S.W.1) promotes the interchange of teachers between the Mother Country and the Dominions on lines laid down by the Imperial Education Conference in 1923 (see preceding paragraph). The London County Council authorized the exchange of 50 teachers annually, and a number of local authorities in Great Britain also co-operate. Canadian, Australian, South African, and New Zealand Education Departments have reciprocated. A triennial Conference on Imperial Education is held by the League; next meeting, 1927. A *Report of the Interchange of Teachers' Scheme, 1907-1923*, was printed for the 1924 Conference. This Conference endorsed the recommendations of the Education Authorities Imperial Conference of 1923 (see preceding paragraph) regarding the method of payment of salaries and the recognition of service abroad. The League has appealed for funds for establishing as a Memorial to the teachers who fell in the Great War a "Home Centre" in London, where teachers from any part of the Empire may find housing accommodation and a meeting-place. Hon. Treasurer, Sir Philip Hutchins, K.C.S.I., League of the Empire, 124 Belgrave Road, S.W.1.

The Overseas Education League, under the auspices of the Govts. of the Dominion of Canada, Newfoundland, New Zealand, and the Depts. of Education of Alberta, B.C., Manit., N.S., N.B., Ont., P.E.I., Que., Sask., New S. Wales, Vict., W. Aust., Natal, and Sierra Leone, undertakes the organization of official visits of Teachers to Great Britain and other parts of the Empire, interchange of Teachers and School Inspectors within the Empire. Tours for Canadian University Undergraduates to Great Britain and Europe are also arranged by the League. In 1925, for the first time, a party of British Secondary teachers and others visited Canada from Coast to Coast under its auspices. Office of the Hon. Organizer in Canada (the Exec. Secy., National Council of Education)—607 Boyd Bldg., Winnipeg.

The Fellowship of the Maple Leaf for the supply of British teachers for Western Canada is interested primarily in Elementary Schools, but also places teachers in Private Schools, High Schools, and Universities. Office—13 Victoria St., Westminster, S.W.1.

For admission to a course for a degree in the Faculty of (a) *Medicine*, (b) *Science*, (c) *Technology*, respectively, are required: (a) Latin, Maths., and Mechanics, (b) Maths. and Mechanics, (c) Maths.

SHEFFIELD. Candidates for the *B.A.* with Honours (other than in Maths. or Economics) or for the *B.A.* ordinary degree must pass the Intermediate Examn. in Latin or Greek, and no language course for the Intermediate Examn. may be entered upon without proof of an adequate elementary knowledge of the language. *Medical* and *Law* students must have qualified in Maths. and Latin respectively. *Engineering* students should present Maths. and include Mechanics or Physics or Chemistry.

(b) BRISTOL

The University recognizes as qualifying for Matriculation: 1. *Graduation* in a Univ. in the United Kingdom or some other approved Univ. 2. *Higher school certificate*. 3. (i.) *School certificate* with credit in 5 subjects from groups i., ii., iii., at least one subject being taken from each group, and one being: (a) for faculty of arts—either Latin or Greek; (b) for other faculties—mathematics. For the purposes of this qualification credit in religious or scriptural knowledge is not reckoned. (ii.) *School certificate* if the Senate is satisfied that such proficiency has been shown in a particular group of subjects as to qualify for

curriculum for degree. 4. *Scottish* Education Department's *Leaving Certificate*. 5. Special Army Education Certificate. 6. Trained certificated *teacher's* qualifications, under certain conditions. 7. *Matriculation* examn. of any univ. of the United Kingdom; Oxford Responsions; Cambridge Previous examn. 8. Sufficient qualification for original *research* in case of candidate for research degree. 9. In exceptional circumstances sufficient education and attainments in case of candidate *over 23 years of age*.

(c) CAMBRIDGE

The *Previous Examination* comprises : I. (a) Latin, (b) Greek, (c) French, (d) German, (e) Italian, (f) Spanish ; II. (a) Maths. (elementary), (b) Maths. (less elementary), (c) Experimental Physics and/or Chemistry ; III. (a) English essay and précis writing, (b) Holy Scripture (Gospels and Acts of the Apostles), (c) English History.

Candidates must pass in at least two of the languages in Part I., including (a) or (b), in II. (a) and either II. (b) or II. (c), and in III. (a) and either III. (b) or III. (c). The parts may be taken separately.

Natives of Asia or Africa, not being of European descent, may offer English literature in lieu of one of the languages [other than (a)] in Part I., and Arabic, Chinese, Sanskrit, or Pali, in lieu of I. (a).

Exemption is obtainable by means of : 1. *School certificates*—(i.) with credit in 5 subjects (or in 4, one at least from each of groups i., ii., and iii.) of which one must be Latin or Greek, or (ii.) with less complete credit, giving only partial exemption ; 2. *Higher School, Scottish Leaving, or Northern Ireland Senior Certificates*, subject to certain other conditions ; 3. *Matriculation Certificates* (see below) ; 4. *Certificates of graduation* in any Univ. in Great Britain, provided that in one of the examns. leading up to the degree the candidate passed in Latin or Greek ; 5. For students at an affiliated Local Lectures Centre (see p. 58), passing an approved examination in (1) Arithmetic ; (2) Euclid, Books I., II., III. ; (3) Algebra to Quadratic Equations inclusive ; (4) Latin, and one of the following—Greek, French, German, and complying with the requirements for admission to the privileges of affiliated students, as specified on p. 58 ; 6. *Foreign Certificates* (see Appendix XXIII.).

Matriculation Certificates. A student who has passed one of the undermentioned " approved examinations " is exempted from Part I. of the Previous Examn. if he passed in 2 languages other than English, one of which is Latin or Greek, provided that both were taken on one and the same occasion ; from Part II. if he passed in either Mathematics or Physics or Chemistry ; from Part III. if he passed in English.

The " approved examinations " are : Oxford Responsions and the Matriculation Examn. of the other English Univs., the Univ. of Belfast, and the N.U.I. (see also Appendix XXIII.) ; the Preliminary Examn. in Arts or in Science of the Scottish Univs. ; and examns. affording exemption from and examns. subsequent to matriculation in any of the above-mentioned Univs.

In exceptional circumstances the Council of the Senate may grant exemption in other cases.

(d) DURHAM

A Matriculation Examn. is held for admission to the *Durham Colleges* only. The subjects are (a) Modern History or English, (b) Mathematics, (c) Chemistry, (d) Physics, (e) Logic, (f) Additional Mathematics, (g) Latin or Greek, (h) French or German, (j) Geography, (k) Botany, (l) Religious Knowledge, including Greek Testament, (m) Ancient History. Students in Arts or Theology must take 5 subjects, including (a), (g), and one of (b), (c), (d), (e); in Science—5 subjects, including (a) and (b), either (c) or (d), a foreign language, ancient or modern, and one selected from a list; in Music—any 4 of the above named or a foreign language and 2 other subjects.

The following are recognized for *exemption* from this examn.: (i.) *graduation* in any Univ. in the United Kingdom or other Univ. recognized by the Matriculation Board; (ii.) subject to certain conditions, *Higher school certificate*, *School certificate* with credit in not less than 5 subjects [other than Religious Knowledge and subjects in Group D], Matriculation examn. of any Univ. in Great Britain or Trinity College, Dublin, Oxford Responsions, Cambridge Previous; (iii.) Scottish Leaving Certificate, higher or honours grade; (iv.) Army Special Certificate; (v.) Irish Free State Leaving Certificate.

In exceptional circumstances when a candidate is *over 23 years of age* other sufficient evidence of previous education and attainments is accepted. The Board interviews such candidates (in July only) submitting them to such examn. as it may think necessary.

For matriculation in the *College of Medicine* the following are recognized: I. (i.) graduation in Arts in a Univ. of the British Empire; (ii.) certain of the School and Higher School certificates, the Scottish Leaving Certificate, and Matriculation examns. of Univs. in Great Britain and Ireland, provided the candidate passed in English, Elementary Maths., Greek or Latin (Oriental Students—Sanskrit), French or German, or other approved modern foreign language, and one other subject from a list of 15.

For admission to *Armstrong College* the following are recognized subject to specified conditions as to required subjects (the candidate must have passed in either 5 at one examn. or 4 at one and 2 at a subsequent examn.): certain of the School (with credit) or Higher School certificates, the Scottish Leaving Certificate, and Matriculation examns. of Univs. in England. The required subjects are English, Elementary Mathematics, one of Latin or Greek or French or German, and 2 other subjects (or 3 when the candidate passed in only 4 required subjects at one examn.) from a list of 17.

Candidates of *more than 23 years of age* whose native language is English may be admitted on producing satisfactory evidence of educational attainments.

In special circumstances a special entrance examination may be taken by candidates who have been *engaged in technical pursuits* for 2 years approximately, and propose to study Engineering, Naval Architecture, Mining, Metallurgy, or Agriculture. The subjects of the

Examn. (held in Sept.) are : English, a modern foreign language, Elem. Maths., two other selected subjects.

In special circumstances not provided for above, candidates may apply for exemption from ordinary requirements.

(e) LONDON

The University conducts 3 examns. qualifying for matriculation : 1. the ordinary Matricn. Examn., 2. the General School Examn., 3. the Examn. under Statute 116. As regards 2. and 3., see pp. 116, 668. To pass 1. a candidate must at one and the same examn. satisfy the examiners in English, Elementary Maths., and 3 of the following : (a) Latin, (b) Greek, (c) Botany, (d) Chemistry, (e) Heat, Light, and Sound, (f) Mechanics, (g) Electricity and Magnetism, (h) French, (j) German, (k) Italian, (l) Russian, (m) Spanish, (n) another approved language, (o) History—Roman, or Greek, or English, or European, or of the British Empire, (p) Geography, (q) Logic, (r) Drawing—geometrical and mechanical, (s) Maths.—more advanced, (t) Zoology, (u) Geology, (v) Music—theory, (w) Economics. One of the 7 subjects (a) to (g) must be included, and one of the subjects offered must be a language other than English. Candidates may present two special oriental languages under certain conditions. At the Intermediate Examn. in Arts it is compulsory to offer (a) or (b), whether taken at the Matricn. examn. or not. Law students are advised to offer (a) and English History at their Matricn. Examn.

Exemption may be obtained by (1) graduates of approved British, Colonial, and Indian Univs. and persons who have passed all examns. required for a degree in those Univs. ; (2) subject to certain conditions, among them the passing with credit in five subjects at one and the same examn., persons who have passed the examns. numbered 7, 8 (b), 9, 10, 12 in Appendix XX. ; (3) subject to other conditions persons who have passed examns. 2, 6, 8 (a), 19. See also Appendix XXIII.

(f) OXFORD

Responsions comprises : I. (a) Latin, (b) Greek ; II. (a) English, (b) French, (c) German, (d) Italian, (e) Spanish ; III. (a) Maths., (b) Natural Science. To pass a candidate must have satisfied the examiners *either* in both subjects from Group I. and in both subjects from Group III., *or* in at least one from each group and in 4 subjects in all ; he must also have passed in 2 languages other than English, and either have passed in all 4 subjects at one examn. (in which case special merit in one or more subjects may compensate for comparative weakness in any one) or in 3 at one examn. and in a fourth at a subsequent examn.

Exemption may be obtained : A. by students of *Music* certified as such by the Prof. of Music, who have passed their (Oxford) Preliminary Examination ; by persons accepted for admission as *Service Students* or *Imperial Forest Service Students* or *Special Students* or *affiliated* Colonial, Indian, or Foreign Senior or Junior Students, or as candidates for the Degree of B.C.L. under certain conditions, or as *Advanced Students*, or as candidates for the Degree of B.Litt. or of B.Sc., or who

hold a degree at another Univ., such degree and such Univ. having been approved by the Hebdomadal Council, or as *students of mature years* recommended by the Delegates for Extra-mural Studies under certain conditions.

B. subject, *inter alia*, to passing in 2 languages other than English, of which either Latin or Greek shall be one, persons who have passed a School or Higher School Certificate Examn. or gained a class in the Final Senior Freshman Examn. of Dublin or a Scottish Preliminary Examn. Certificate, or passed any of the examns. numbered 2, 3, 5, 6, 19 in Appendix XX., or the Northern Ireland Senior Certificate, or the Intermediate Arts or higher examn. of Birmingham, Durham, Leeds, Liverpool, London, Manchester, or Sheffield.

(g) READING

Matriculation, minimum age 17, is open to (a) graduates of Univs. in the United Kingdom or other approved Univs. ; (b) persons who have passed or obtained exemption from the matriculation examn. of the Univ. of London or of the Joint Board (v. *supra*), or have satisfied the conditions for such exemption ; (c) persons who, being at least 25 years of age, have passed a special examination held by the Univ. "for candidates of mature years." In exceptional circumstances the Senate may accept other evidence of previous education and attainments.

(h) WALES

The Matriculation Examn., the passing of which is a condition of matriculation for students of the constituent Colleges who have not passed an equivalent examn., is held at each of these Colleges about the end of Jan. and the end of June each year. The subjects are (a) English, (b) Latin, (c) Greek, (d) Welsh, (e) French, German, other approved languages, (f) History, (g) Music, (h) Mathematics, (j) Dynamics, (k) Physics (including Mechanics), (l) Chemistry, (m) Botany, (n) Biology, (o) Geography. A candidate must pass at one and the same examn. in 5 subjects, including (a), one of (b), (c), (h), at least one language [and not more than two unless both (b) and (c) are offered] in addition to English, and either (h) or one of (j) to (o). No candidate may offer both (j) and (k) or both (m) and (n).

Examinations recognized as equivalent subject for subject : (a) The Matricn. examns. of London, of the Northern English Univs. Joint Board, or of Dublin, or the Preliminary Examn. of the Scottish Joint Board ; (b) School Certificate Examns. (except Durham's), the Leaving Certificate (Higher Grade) of the Scottish Education Dept., the Senior Certificate of the Ministry of Education for Northern Ireland, and the Leaving Certificate of the Intermediate Education Commissioners of the Irish Free State (with credit at one and the same examn. in each of the subjects required by the Welsh matricn. regulations). A pass in a "First Examn." in Music gained before July 1, 1925 will not count for exemption nor will other passes before July 1, 1924, except in accordance with conditions for exemption then in force.

Candidates of 23 or more years of age may be exempted on the special recommendation of a constituent College.

(i) SCOTTISH UNIVERSITIES (see also p. 273)

Qualifications for admission to degree courses in Scottish Universities after Jan. 31, 1927.

I. Scottish Education Dept.'s Group Leaving Certificate showing passes (including at least two on the Higher Standard) in at least 4 of the following subjects : (i.) English (including Literature and History) ; (ii.) Mathematics, Science ; (iii.) Latin, Greek, French, German, Italian, Spanish, Gaelic ; (iv.) Art, Music, Applied Science. Provided (a) the passes must include one from each of the groups ii. and iii. ; (b) unless they include three on the higher standard the Certificate must show either (1) passes in Latin (or Greek) and in Maths., or (2) a pass on the Higher Standard in Latin (or Greek) or in Maths., and that all the four passes are in subjects taken from groups (i.), (ii.) and (iii.).

II. Other certificates affording evidence of a satisfactory secondary education on lines above specified.

III. Examination under the Entrance Board in 4 subjects selected from the following, including at least one from each group : (i.) as under Clause I. ; (ii.) Maths., Physical Science ; (iii.) as under Clause I., or other approved language. Proviso (b) applies, and candidates are ordinarily required to reach the higher standard in English. The only subjects in this examination in which lower standard passes can be obtained are Latin, Greek, and Maths.

Examinations recognized in the case of applicants from outside Scotland : (a) Oxford Responsions ; (b) Cambridge Previous ; (c) any School or Local Examns. conducted under the auspices of the Univ. of Oxford or Cambridge which are accepted as exempting from (a) or (b) respectively ; (d) London matriculation examn. A candidate who has been educated chiefly in England, or Wales, or Ireland, and who has such qualifications as would admit him to a Faculty in a Univ. in one of those countries, will be exempted from the Preliminary examn. Special application for partial exemption may be applied for where the conditions for complete exemption have not been fulfilled. See also Appendix XXIII.

(j) BELFAST

The Matriculation Examn. comprises English, Mathematics, and 3 of the following : (a) Greek, (b) Latin, (c) French, (d) German, (e) Italian, (f) Spanish, (g) Modern History, (h) Physics or Mechanics, (j) Geography, (k) Chemistry, (l) Botany, (m) for Faculties of Arts, Commerce, Applied Science, and Technology—Celtic, (n) for Science, Medicine, or Applied Science or Technology—Mechanical Drawing ; for Commerce—(o) Elementary Economics, and (p) Accounting. For Arts, Science, or Medicine one language other than English must be taken ; for Commerce—French or German or Spanish ; for Applied Science or Technology—one of the languages (a)-(f).

For Engineering students there is a special Matric. Examn. comprising English, Maths., Further Maths., Greek or Latin or French or

German or Italian or Spanish, Physics or Chemistry, Modern History or Geography.

A candidate who has passed in at least 3 subjects, but failed to pass the examn. as a whole, is allowed to complete his matricn. at the next subsequent examn.

For *exemption* the Univ. recognizes 1. graduation in a British Univ. ; 2. the Final Junior Freshman Examn. of Dublin, provided the candidate has passed in the subjects required by Belfast and, in the case of medical students, the subjects required by the G.M.C. ; 3. for entry to any faculty the candidate would have been entitled to enter in the Univ. whose examn. he has passed—the examns. numbered 1, 2 (Parts I. and II.), 3, 5, 6, 13, 21 in the list in Appendix XX. or the examn. of the Scottish Univs.' Entrance Board ; 4. subject for subject—the examns. 8 (a), 8 (b) (with credit at one and the same examn. in all subjects), 9, 10, 11, 19 (Higher or Honours), 23 (a), and certain others.

Students of mature age (not less than 23) may be admitted without passing the ordinary Matricn. Examn. Applications are dealt with by a special committee of the Academic Council, who may submit such candidates to such tests of their fitness to profit by the courses of the Univ. as they may consider necessary in each case.

(h) DUBLIN

The Matriculation Examn. in Arts, held five times a year, comprises English Composition, Mathematics, English History, Modern Geography, Latin, and one of : Greek, French, German, Italian, Spanish, Irish.

The Matriculation Examn. in Science comprises English, Mathematics, French or German, and one other language.

Exemption, partial or complete, may be obtained by candidates who hold the leaving certificate of the Department of Education, or any other examn. regarded by the Senior Lecturer as equivalent thereto.

(i) NATIONAL UNIVERSITY OF IRELAND

The Matriculation Examn., held twice a year, comprises six groups of subjects : (a) Irish, (b) Latin or Greek, (c) any modern language approved by the Senate, (d) English, (e) Maths., (f) Latin, Greek, any modern language approved by the Senate, History, Geography, Applied Maths. or Physics, Chemistry, Botany (for women candidates only), Physiology, and Hygiene. Candidates must pass in 5 subjects, and none except engineering students may present more.

Those born in Ireland, whose home residence has not been outside Ireland during the 3 preceding years, must pass in Group I. Others may present in lieu of Irish either a second language or a second Science subject ; they will be expected to attend a course in Irish Literature and History before obtaining a degree in the Univ. Students entering for Degrees in (1) Arts, Philosophy, and Celtic studies, (2) Law, (3) Medicine or Dentistry, (4) Science and Commerce, (5) Engineering, must take : (1) subjects in groups (a), (b), (d), (e), (f) ; (2) Latin, and subjects in (a), (d), (e), (f) ; (3) Latin, (a), (d), (e), and a fifth subject, but if already registered by the G.M.C., students may take the subjects pre-

scribed for any other faculty ; (4) or (5) one from each of (a), (d), (e), and two others from (f).

Exemption. Passes in the Intermediate Senior Grade or the Leaving Certificate Examn. in any of the subjects recognized for matriculation are accepted as equivalent to passes in these subjects at the Matricn. Examn. even though the former examn. was not passed as a whole. Provided that the subjects required have been passed, the Univ. accepts the following in lieu of their own Matricn. Examn. : the examns. numbered 1, 2 (Parts I. and II.), 9, 10, 19 (Higher), in Appendix XX., and the Scottish Preliminary Examn.

ADMISSION AS UNDERGRADUATES OF THE UNIVERSITIES OF GREAT BRITAIN AND IRELAND OF PERSONS EDUCATED ABROAD

The following notes relate to the admission of students from other countries proposing to take full courses for a First degree, excluding from consideration those who seek admission with advanced standing on the ground of having already pursued courses in other Univs.* and those who seek only to study without aiming at a degree.

A comparison of the regulations of the several Univs. in question governing admission of such students discloses a general agreement in principle, with divergencies in application.

The regulations are drafted on the understanding that the application to a student educated in another country of the ordinary entrance tests might be inappropriate owing to these tests having been framed with reference to secondary education curricula different from those which obtain in his own country, or to the student having reached a stage in his education at which the passing of ordinary entrance tests would involve a wasteful repetition of preparatory studies. They accordingly provide for the acceptance from such a student of other evidence of academic qualifications: ordinarily certs. which would entitle to admission to a Univ. in the student's own country, together with such further evidence as may be necessary to ensure that no student shall be admitted to a course of study for a degree without a reasonable prospect of his being able to pursue it to graduation; in particular, if the student be one whose mother tongue is not English, evidence that he has a sufficient mastery of this language to enable him to follow courses of instruction conducted in English.

The lines along which this policy has been applied in the several Univs. may be briefly indicated as follows:

At *Oxford and Cambridge* "Responsions" and the "Previous" Examn. respectively take the place of the Matriculation Examn. of other Univs. An *Adviser to Colonial and Foreign Students* is attached to the Univ. Registry at Oxford.

Exemption may be obtained, not only from Responsions (and also the Examn. in Holy Scripture) or the Previous Examn., but also from the Entrance Examns. of the other Home Univs., by passing the Oxford or Cambridge Senior Local Examns., which are held in various parts of the British Empire overseas.

Oxford Responsions. Exemption may be granted to any person who has obtained (1) a certificate of having passed *either* (a) the matricula-

* A résumé of Regulations regarding such concessions is given on p. 17.

tion examn. of the Joint Board of the South African Universities, *or* (b) the Secondary School Certificate Examn. of the Education Dept. of the Transvaal or (Senior Certif.) of the Cape Province, provided that it shows that he has obtained at least 60 p.c. in each of two of the languages Latin, Greek, French, German, Italian, Spanish, of which Latin or Greek must be one ; or

(2) a certificate or certificates of having passed one of the following, provided he has satisfied the examiners in two of the said languages of which Latin or Greek must be one :

Univ. of McGill Matricn., or First Year in B.A. course ; Ontario Educn. Department's Junior Matricn. ; Univ. of Toronto Senior Matricn., or First Year ;

Univ. of Adelaide Public (Leaving) ; Univ. of Melbourne School-leaving (Class B) ; Univ. of Tasmania Public Leaving ; Univ. of W. Australia School-leaving ; New South Wales Educn. Department's Leaving Certif. ;

New Zealand Matricn. or Entrance Scholarship ;

Univ. of Malta Matriculation ;

Univ. of Hong-Kong Senior Local ;

Part I. of the Baccalauréat de l'Enseignement Secondaire in France ; or

(3) A certificate or certificates qualifying him for admission to a univ. in the Republic of Austria, Belgium, the Czecho-Slovakian Republic, Denmark, Finland, France, the German Reich, Holland, Hungary, Italy, Norway, Poland, the Serb-Croat-Slovene State, Sweden, or Switzerland, provided it shows that he has satisfied the examiners in either Latin or Greek ; also to any person who has obtained the degree of B.A. or B.Sc. at an approved Indian Univ., provided that his course at his Indian Univ. included the study of English and one of the languages, Latin, Greek, French, German, Sanskrit, Arabic, Persian, Pali, Classical Chinese.

Cambridge Previous Examn. Exemption may be granted from the several Parts of the Examn. to a person who (i.) has passed the Matricn. Examn. of British Columbia, McGill, Toronto, Adelaide, Melbourne, Queensland, Sydney, Tasmania, W. Australia, New Zealand, any of the Univs. of S. Africa or an examn. affording exemption from, or subsequent to the matricn. examn. in any of these Univs. (see also Appendix XXI.), or (ii.) holds a certificate qualifying for admission without further examn. into the Univ. of any European state, or (iii.) holds the Egyptian Govt. secondary education certif. and is not of European parentage, as follows :

(i.) From Part I. if he has passed in 2 languages other than English, one being Latin or Greek, provided that both have been taken on one and the same occasion ;

From Part II. if in either Mathematics or Physics or Chemistry ;

From Part III. if in English.

(ii.) From Part I. if he has passed (either in the Examn. in question or in another Univ. Examn. in the same country, certified by the authorities

of the Univ. as ranking higher) in 2 languages other than his mother-tongue, of which one is Latin or Greek.

From Part II. if in either Mathematics or Science ;

From Part III. if in a Modern Language other than that used for exemption from Part I.

(iii.) From Parts II. and III. and also, provided that in one at least of the 2 examns. for the certif. he has passed in French, from Part I.

Exemption from the whole of the Examn. may be granted to a student from the U.S.A. who has (1) passed the College Entrance Examination Board's Examn., (2) qualified for admission to one of the undermentioned Univs. or Colleges in the U.S.A. and passed some examn. or examns. conducted by one of them. Provided that the examns. passed cover English (3 units or an equivalent standard), Latin or Greek (4), a third language (3), and Maths. (3).

The following is a list of Univs. approved by the Univ. of Cambridge for the purposes of acceptance of their graduates as *Affiliated Students*, who are exempt from the Previous Examn. : (1) In Great Britain and Ireland—all ; (2) in Canada—Alberta, Br. Col., Dalh., McGill, Mani., New Bruns., Queen's, Sask., Tor. ; (3) in Australia—all ; (4) New Zealand ; (5) Hong-Kong and the Shantung Christian Univ., Tsinan, China ; (6) in S. Africa—all ; (7) in India—Alig., All., Ben., Bom., Calc., Dacca, Madras, Nag., Panj. ; (8) in U.S.A.—The 34 institutions of complex organization listed in Appendix XXV., see p. 706 ; (9) Basle, Berne. Graduates of St. David's College, Lampeter, are likewise accepted.

A candidate who has obtained a 1st class in the Intermediate Examn. in Arts or Science, or a 1st or 2nd class in the examn. for the B.A. or B.Sc. in an approved Indian Univ., is exempted from the Previous Examn. provided that in some examn. leading up to the B.A. or B.Sc. in that Univ. he has passed in Arabic, Persian, Persian-with-Arabic, Sanskrit, or Pali, in Maths. or Science, and in English. Univs. approved for the purposes mentioned in the preceding paragraph are approved with reference to this paragraph also.

A candidate who has obtained a First Class in the Intermediate Examn. held by the Board of High School and Intermediate Education of the United Provinces of India is exempted if either in this examn. or the High School Examn. which leads up to it he has passed in a classical language, in Maths., in English, and in History or Geography.

A student of non-European descent who has been awarded a scholarship by the Govt. of Palestine for study at Cambridge is exempted if he is a B.A. of the American Univ. of Beirut and if the examns. leading up to his degree include English, Maths., or Science, and one of the languages Greek, Latin, French, German, Arabic, Hebrew.

London. Persons of nineteen years of age and upwards who are not qualified for exemption from matriculation, but who present (a) Certificates of Matriculation in Colonial Univs., or (b) Indian or Foreign Certificates from an Academical or other Educational Authority which in the opinion of the Principal Officer indicate that they have attained a standard *prima facie* involving an education equivalent in their own

country to that required for matriculation in England, may apply for examination under Statute 116 instead of entering for the ordinary Matriculation Examination. No candidate is allowed to appear a third time for the Examination, nor a second time, without the express permission of the Board of Examiners.

No foreign certificates are accepted as giving exemption from the Matriculation Examn., but the following are recognized provided the student passed at one and the same examn. in English, Maths., and three other of certain specified subjects, of which one must be Latin (Transvaal—Latin or Greek) or a Science: Adelaide Matriculation (Senior Public), Melbourne School Leaving, W. Australia School Leaving, Transvaal Secondary School Certificate. London also arranges for the holding of its own ordinary Matriculation Examn. in the Colonies and self-governing Dominions upon the application of the local Governments. As regards graduates, see p. 110.

The Examination under Statute 116 held in London, usually in March, May, Sept., and Dec., comprises four subjects, of which English and either Mathematics or Logic are compulsory. Any certificates that the candidate may present, or any examn. he may have passed, may be taken into account; but in every case he is required to undergo a *viva-voce* examn., and a sound elementary knowledge of English is necessary. The written portion of the examn. lasts one day. The fee is £5 : 5s. No syllabus is published. Applications should be addressed to the External Registrar.

The Northern (English) Universities Joint Board. Subject to Special Regulations for Entrance to particular Faculties, exemption from the Matriculation Examn. is granted to a student who holds the Secondary Education Certif. of the Egyptian Ministry of Education, or has passed the Interm. Examn. in Arts, Sc., or Med. of an approved Indian Univ., and may, at the discretion of the Board, be granted to "applicants holding certifs. of having passed examns. of a standard at least equal to" Oxford Responsions, Cambridge Previous, etc. The procedure at Liverpool is as follows: Applications, with references, from Foreign and Indian undergraduate students are receivable up to June 1, from Egyptian up to July 31. In respect of Indian and Egyptian undergraduate students the Students' Dept. of the High Commr. for India and the Egyptian Educational Mission are asked to certify as to the character, qualifications and suitability of applicants. Leeds receives applications from persons resident outside the United Kingdom up to June 30.

Durham. Foreign students may matriculate provided they satisfy a special Committee that they have passed in their own country an examn. of a standard deemed sufficient for matriculation, and that they have sufficient knowledge of English to profit by the proposed course of study. The Matricn. Examns. of the Univ. of Sydney and the Univs. of S. Africa are recognized as exempting from that of Durham.

Durham Colleges: Graduates of Univs. in the U.K. or of other approved Univs. are admitted without further examn. A candidate educated elsewhere than in Great Britain may matriculate if he has

passed examns. deemed by the Matricn. Board to be sufficient. Students in Codrington College, Barbados, and Fourah Bay College, Sierra Leone, may matriculate (and qualify for degrees) locally.

College of Medicine : Examns. qualifying for a degree in Arts of any Univ. of the British Empire are accepted, subject for subject, for exemption from the ordinary matricn. examn. Candidates from a British Colony who have passed an examn. which would admit them to a medical degree course in such Colony are accepted for matricn. if the examn. satisfies the requirements of the G.M.C. Candidates from India must have passed the Interm. Examn. of one of the recognized Indian Univs., and be registered on the books of the G.M.C.

Armstrong College : Foreign or Colonial students must have passed in their own country an examn. of English matriculation standard in the required subjects, and must have a sufficient knowledge of English to profit by the proposed course of study. In the case of Indian students no examn. lower than the Interm. of an Indian Univ. will be considered for this purpose.

Bristol. A candidate educated elsewhere than in the U.K. may submit to the Senate evidence of having passed examns. elsewhere equal to the Matriculation Examn. of any Univ. of the U.K., or to any of the other examns. which qualify for matriculation at Bristol; if from an oriental country, he may submit evidence of previous education in his own country and of ability to follow instruction given in English. The Senate may thereupon, if satisfied with the evidence, declare him eligible for matriculation.

Reading. Exemption is granted to candidates who have satisfied conditions for exemption from the London or the Northern (English) Univs. Joint Board's Matriculation examn.

Wales. Candidates who have qualified by examn. for a degree of an approved Univ. or College, or passed the Matriculation Examn. of the South African Univs. or of the Swiss Univs., or the secondary school certif. examn. of the Transvaal or Cape Province Education Department in the subjects required by the Univ. matricn. regulations, or, if certified by a Constituent College as possessing sufficient knowledge of English to profit by a degree scheme of study, the Intermediate Examn. in Arts or Science of an approved Indian Univ., may matriculate without further examn.

Scottish Universities. Candidates from the British Dominions or Colonies may be exempted from the Preliminary Examn. if they have passed examns. which would admit them to a course qualifying for graduation in Arts or Science in Univs. or Technical Colleges affiliated to a Univ. in the Dominion or Colony from which they come, provided their knowledge of English is sufficient to enable them to follow the courses of instruction with profit. Those whose native language is other than English are required to pass an examn., oral and written, including set books. Students from India are subject to the further condition that they have obtained a first class in an Intermediate Examn. in Arts or Science in a recognized Indian Univ., and have at some stage of their course passed in Maths. or Science and English.

Certificates which would entitle the holder to enter upon a regular course of study leading to a degree in Arts, Pure Science, or Medicine in any of the Univs. or Colleges approved by the Assocn. of American Univs. (see Appendix XXV.) are recognized for exemption from the Prelim. examn.

As regards students from foreign European countries, the B. ès L. and B. ès Sc. and similar "certifs. of Maturity or Grades, entitling the holder to enter upon a regular course of study in the Univs. of his own country," are accepted subject to the above-mentioned conditions as to knowledge of the English language. Certain Egyptian, Argentine and Chinese certifs. are also recognized. Provision is not made specifically for the acceptance of other foreign certifs., but the Board has a general dispensatory power in regard to applicants of not less than 21 years of age who satisfy it as to their fitness.

N.B.—In each Univ. the Senatus may for any particular class, attendance on which for a specified period is necessary in order to qualify for graduation, determine the conditions of admission to such qualifying attendance.

A Certificate submitted as proof of title to admission to Univs. abroad should be accompanied by an authenticated declaration by a Government Official or Official of an Agency-General, Embassy, Legation, or Consulate of the country to which the applicant belongs, testifying that it has the alleged value. If in a foreign language, certificates should be accompanied by certified English translations.

Belfast. Matriculated students of Univs. outside the British Isles may send written statements and certifs. which should, as a rule, cover all subjects required for matricn. in the Faculty concerned. When a certif. in any subject is not available, other evidence of proficiency may be furnished. The Matriculation Examn. of the Joint Matricn. Board of the Univs. of S. Africa and the Intermediate Examns. of certain Indian Univs. (Alig., All., Ben., Bom., Calc., Dacca, Delhi, Luck., Madras, Nagpur, Patna, Panjab, Rang.) are accepted as equivalent, subject for subject, to the Belfast Matricn. Examn. Entrants who are graduates of a British Univ. are not required to pass the Matricn. Examn.

Dublin admits students who have passed the Matricn. Examn. of any Univ. in S. Africa including English, Mathematics, Latin, and one other approved language. The Senior Lecturer is empowered to exempt from the Matriculation Examn. any student who has passed in the subjects required at matriculation at a public examn. which is, in his opinion, of equivalent standard. See, however, p. 324 regarding compulsory subjects in Arts course.

National University of Ireland. The Senior Public Examns. of Sydney, Melbourne, and Adelaide, the Jaffa Gymnasium Maturité, and the Matricn. Examns. of Sydney, Melbourne, and New Zealand, and of the Matricn. Board of S. Africa, are recognized as qualifying for exemption from the Matricn. Examn. The Matricn. Examns. of other Univs. in the British Empire overseas (excluding India) are recognized only in combination with an Intermediate Examn. in Arts or Science.

SCHOLARSHIPS AWARDED BY THE ROYAL COMMISSION
FOR THE EXHIBITION OF 1851

I. *Science Research Scholarships offered to Overseas Universities*, to enable selected students who have already completed a full University

course and given sufficient evidence of capacity for scientific investigations to devote themselves for 2 years to research work under conditions most likely to equip them for practical service in the scientific life of the Empire. Value, £250 p.a., with supplements in certain cases, tenable ordinarily for 2 yrs., renewable in exceptional cases for a third year, at any institution approved by the Commrs., but not, except in very special circumstances, in the Dominion in which the scholar has received his scientific education; open to British subjects of age (except in very special circumstances) under 26 yrs. At present not less than 8 (Canada 3, Australia 2, S. Africa, N.Z., and Irish Free State, 1 each) are offered annually; recommendations receivable (South Africa, Irish Free State, May 1) (Australia, N.Z., and Canada, June 1) from the following Univs.: Alb., B.C., Dal., McG., Manit., Queen's (Ont.), Sask., Tor., and any of the Univs. of Australia, N.Z., S. Africa, and the Irish Free State. A Scholar is not permitted to hold any position of emolument likely to conflict with the devotion of his whole time to the objects of the Scholarship, nor to accept any additional emoluments without the previous consent of the Commrs. Recipients in 1926: R. C. Robb (Dalhousie), F. H. Yorston (McGill), H. M. Cave (Queen's, Ont.), J. R. Vickery (Melb.), F. P. Bowden (Tasmania), E. R. Rouse (Witw.), R. R. Nimmo (N.Z.).

II. *Senior Studentships*, at present 5 in number, each of £400 p.a. with supplements in certain cases, for 2 yrs. or, in special cases, for longer; open to British subjects of age not (except in very special circumstances) more than 30 yrs., on recommendation, receivable up to May 1, by Profs. and Heads of Depts. through the executive authorities of such Institutions as may be invited by the Commrs. to nominate; tenable at any Institn. at home or abroad approved by the Commrs. The Student is not permitted to undertake any work likely to conflict with the devotion of his whole time to the objects of the studentship, but a limited amount of time may, with the approval of the Commrs., be spent in delivering an advanced course of lectures. He is not debarred from holding another position of emolument, but in such cases the Commrs. may modify the value of the studentship. Recipients in 1926: A. J. Bradley (Crystallography), Manc.; H. J. Emeléus (Inorg. Chem.), Imp. Coll.; R. G. J. Fraser (Phys. and Chem.), Aberd.; C. W. Shappee (Org. Chem.), Leeds; W. L. Webster (Phys.), Camb.

III. *Post-graduation Scholarship in Naval Architecture*. £250 p.a. for 2 yrs. for research work (for which no emolument will be receivable) in problems connected with design and construction of ships and their machinery and in the development of the shipbuilding industry at home and abroad. Open to British subjects under 30 who have passed with marked distinction through a course of study and practical training in N.A. at, and been nominated by, the R.N. College, Greenwich, Univ. of Glas. or Liv., or Armstrong College. The nominations are reported on by the Council of the Inst. N.A. Recipient in 1926: F. H. Todd (Armstrong College).

IV. *Industrial Bursaries* of not more than £156 p.a. for 1, 2, or, exceptionally, 3 yrs. to cover the period between leaving College and

obtaining sufficiently remunerative employment in Industry. Open to British subjects under 25 recommended from one of the Univs. of Gt. Britain, including the Imperial Coll. of Sc. and Tech., Heriot-Watt Coll., or Univ. Coll., Nottingham. A candidate must have been a *bona fide* student of Science for a term of 3 yrs., should give evidence of practical ability likely to lead to his advancement in industrial work, and show that he has obtained, or can within a reasonable period obtain, an industrial post to be approved by the Commrs., and is in need of pecuniary assistance to enable him to hold such a post. Twenty bursaries awarded in 1926.

V. *Rome Scholarship in Architecture*, £250 p.a. for 2 or 3 yrs. Open to British subjects under 30 by competition conducted by the Faculty of Arch. of the School at Rome. A Student or Associate of the R.I.B.A. who is placed next in order of merit to the winner will be recommended for the Jarvis Studentship of £250 p.a. for 2 years.

Rome Scholarships in Sculpture and in Decorative Painting, £250 p.a., tenable for 2 or 3 yrs. at the British School at Rome. Open to British subjects under 30 and 27 respectively by competition conducted by the Faculties concerned. The Faculty of *Engraving* administers a Scholp. of the same value. Recipients in 1926: Archt., A. D. Connell (London Univ. Atelier); Sculpture, not awarded; Painting, Glyn O. Jones (Slade); Engraving, E. B. Hoyton (Goldsmiths' Coll.).

General. Women are eligible for all the Scholps. except III. and IV. Address of the Secy. to the Commrs., 1 Lowther Gardens, Exhibition Rd., London, S.W.7. Entries for the Rome Scholps. are receivable up to October 15 (Architecture), December 31 (Ptg., Sculp., and Engraving) by the Hon. General Secy., British School at Rome (same address).

BEIT MEMORIAL FELLOWSHIPS FOR MEDICAL RESEARCH

Founded in 1909 by Sir Otto Beit, Bart., K.C.M.G., F.R.S., in memory of his brother Alfred, "to promote the advancement by means of research of Medicine and the allied sciences in their relation to Medicine." Open to graduates, men or women, of pure European descent, in any Faculty of a British Univ. Six Junior Fellowships, each more or less of £350 p.a. and usually tenable for 3 yrs., are awarded in July. An extension to a fourth year at £400 is sometimes granted. Notice of each election is published 3 mos. in advance. Applications are considered by an Advisory Board. Senior Fellowships of £600 p.a. tenable for 3 yrs. may also be awarded to persons who have already held Junior Fellowships. A Fellowship for Research in *Tropical Medicine*, value £1000 p.a. for 5 years, will be awarded in March 1927. Special grants have been made from time to time for, or in aid of, particular objects of research. Address of Hon. Sec. to the Trust—Sir James K. Fowler, K.C.V.O., C.M.G., 35 Clarges St., Piccadilly, London, W.1.

BEIT FELLOWSHIPS FOR SCIENTIFIC RESEARCH

Founded by Sir Otto Beit, Bart., K.C.M.G., F.R.S., in 1913 for advancement of Science by means of research. At present £250 p.a. for 2 yrs. subject to report at end of first year. Tenable at Imperial College of Sc. and Tech., London, under supervision of a Prof. Fellows are required to devote their whole time to their research and to hold no appointment, paid or unpaid, without sanction of the Trustees. SCHOLARSHIPS OF THE FELLOWSHIP OF THE BRITISH
EMPIRE EXHIBITION

The Fellowship is an unincorporated body formed originally to help the Exhibition. At the close of the Exhibition, with the approval of its President, H.R.H. the Prince of Wales, the Fellowship decided to remain in existence and work for Empire trade and the better distribution of the Empire's white population. Owing chiefly to the fact that its administration was carried on by unpaid volunteer workers, it was able to save from its revenue for a Scholarship Fund a sum of nearly £10,000, which has been largely increased by grants-in-aid from various sources. The Scholarship Trust of the Fellowship decided to devote a proportion of the Fund to granting sums to the Overseas Dominions to help to send research scholars to the Mother Country. Three of these Scholarships have been already taken up by Canada, New Zealand, and India. Grants were also made from the Scholarship Fund for various educational purposes. Thus a sum of £500 was devoted to the Imperial College of Tropical Agriculture, West Indies, and was used to equip its laboratories with microscopes.

CENTRAL BUREAU LOAN FUND

The CENTRAL EMPLOYMENT BUREAU FOR WOMEN AND STUDENTS' CAREERS ASSOCIATION (incorporated), 54 Russell Square, London, W.C.1, has established a loan fund to help educated women who are without the means of training for professional work. For young men to study business methods, *Prof. Harold Whitehead Scholarship* (Boston Univ.), £80, return passage, and remunerative work.

SIR GEORGE WATSON CHAIR OF AMERICAN HISTORY,
LITERATURE AND INSTITUTIONS

Founded by Sir W. G. Watson, Bt., who presented £20,000 for the purpose on the occasion of the return of the Prince of Wales from his American tour. Each year's course will usually comprise about 6 lectures by an eminent authority, American or British. The courses will be given in the various British Univs. in rotation. A general Inaugural Lecture was given in London by the late Viscount Bryce, O.M., in July 1921. This has been published in England by the Cambridge Univ. Press, together with the lectures of 1922 by Dr. A. T. Hadley (ex-President of Yale); 1923, by Dr. Nicholas Murray Butler (President of Columbia Univ.); 1924, by Prof. A. F. Pollard (University College, London); 1925, by Sir Robert Falconer (President of Toronto Univ.). The Lecturer for 1926 was Dr. Robert McElroy, Prof. of American History at Oxford Univ., who took as his subject, "Some British-American Crises." The Foundation is administered by the Sulgrave Manor Board, 1 Central Buildings, Westminster, London, S.W.1.

AMERICAN UNIVERSITY AND COLLEGE SCHOLAR-
SHIPS FOR BRITISH STUDENTS

Commonwealth Fund Fellowships, established 1925. Twenty to be awarded annually. Value about £600 each per annum, tenable ordinarily for two years in one of the 26 institutions belonging to the Association of American Universities (see list in Appendix XXV.). Candidates (who must be unmarried and not over 30 years of age) are to be nominated by universities in Great Britain and Ireland, and the final selections will be made by a Committee of Award, of which H.R.H. the Prince of Wales is Honorary Chairman, and Sir Walter R. Buchanan-Riddell, Principal of Hertford College, Oxford, Chairman. The office of the Committee is at 50 Russell Square, London, W.C.1. Among other conditions of tenure is a requirement that at least 3 months must be spent in travel in the U.S.A. at the close of the first year of study.

Rose Sidgwick Memorial Fellowship. Established by Americans in memory of a member of the British Educational Mission which visited

the U.S.A. in 1918, in recognition of her service in the cause of Anglo-American friendship. Administered by the American Asscn. of University Women. Value \$1500 (providing tuition and residence during term for 1 yr., and about \$400 in cash towards travelling expenses and incidental fees); tenable at any approved College or Univ. in the U.S.A. English friends of Rose Sidgwick have raised a fund to supplement the Fellowship by providing for outfit, etc., in case of need up to £30. Open to British women (preferably from 25 to 35 years of age) of graduate standing. This Fellowship will next be awarded in 1928. Particulars may be obtained from the Secy., British Federation of Univ. Women, 92 Victoria St., London, S.W.1. The award is made on the nomination of the Academic Sub-Committee of the Committee on International Relations of the Federation. Awarded for 1926-27 to Dr. Evelyn Lucas, Bristol.

Choate Memorial Fellowship, \$2000, of the Harvard Club of New York City, 27 West 44th Street. Awarded on nomination and recommendation of the Vice-Chancellor of Cambridge to a British subject coming from Camb. to study in any department of Harvard Univ.

Clarence Graff Fellowship, £250 *plus* tuition fees, open to unmarried men, graduates of Oxford or Cambridge, for advanced study at an institution of learning in the American Middle West (between the Allegheny and Rocky Mountains). Preference to candidates who have had a liberal university training and whose interests are humanitarian rather than commercial or narrowly scientific, the object being to foster a better understanding in Great Britain of social conditions and currents of opinion in the U.S.A. and to establish friendly contacts. Secretary: R. H. Simpson, 50 Russell Square, W.C.1.

Henry P. Davison Scholarships (6), \$1500 *plus* tuition fees (about £50) tenable at Harvard, Yale, and Princeton, for one year. Open to Oxford and Cambridge undergraduates and B.A., unmarried. Scholars are chosen on basis of character, scholarship, and fitness to represent the Univ. No examn. Secretaries: A. L. Goodhart, Corpus Christi College, Cambridge; A. C. Jacobs, Oriel College, Oxford.

Laura Spelman Rockefeller Memorial Fellowships for research in the social sciences, tenable in U.S.A., France, Germany, Italy, and certain other European countries. Intended primarily for graduates who have begun research and may be expected to produce important work in economics, sociology, political science, history, psychology, or anthropology, or, in certain cases, philosophy, geography, law, or education. Men and women are alike eligible. The regular stipend is \$1800 *plus* travelling expenses and university fees, but special financial arrangements can be made to meet special needs. Fellowships may be given for one, two, or three years. *Applications are not invited from candidates.* The procedure preferred is that the responsible academic or other authority, who knows the candidate's work and wishes to nominate him, should write to the Memorial's representative for Great Britain and Ireland, J. R. M. Butler, Trinity College, Cambridge.

BRYN MAWR COLLEGE. Eight graduate scholarships for European women students, of which in general three are awarded to British

women. Value \$720 (covering fees for tuition and, during term only, board and residence during one academic year). Applications receivable up to May 1.

UNION THEOLOGICAL SEMINARY, N.Y. CITY. Fellowship in Theol., \$1200 for 1926–27, for advanced graduate work. Open to theol. students of high grade of England and Wales of any ecclesiastical communion who have completed a regular theol. course. Applications receivable by the Rev. the Principal, Mansfield College, Oxford, or Prof. G. S. Duncan, St. Mary's College, St. Andrews. Latest date, May 31.

PRINCETON. *Jane Eliza Procter Visiting Fellowships*. Three of \$2500 each annually, for 2 British scholars (to be nominated by the Univs. of Oxford and Cambridge) and 1 French, tenable for one year, with possibility of renewal, in Princeton Graduate College, for independent advanced study and investigation in purely liberal arts and sciences, exclusive of professional, technical, or commercial subjects; open only to unmarried young men holding a degree in distinctively liberal studies and of reasonably good health, high character, and exceptional scholarly power. Also ten Charlotte Elizabeth Procter Fellowships of \$1200 each annually are open to duly qualified graduates of American, British, and other univs. in the field of distinctively liberal studies. Applications for an ensuing academic year should be made directly to the Dean of the Graduate School, Princeton, New Jersey, U.S.A., before March 1.

MICHIGAN. *The Riggs Foundation* under the auspices of the English Speaking Union. Fellowships for British graduates. \$1500 each, tenable in the Univ. of Michigan, one year. Preference to students of History and Economics. The Assistant-Director, American University Union, 50 Russell Sq., London, W.C.1, is Secretary to the Selection Committee.

Many American Universities having "Graduate Schools" offer Research Scholarships and Fellowships of from \$300 to \$2000 p.a. which are ordinarily open to Foreign as well as to American students. Nearly all the American Univs. other than State Univs., and a few of the latter, offer each year fellowships of from \$200 to \$800 which are open to Foreign students. Most American Univs. close their scholarship lists about March 1. The Institute of International Education (522 Fifth Avenue, New York) published in 1923 lists of fellowships, etc., offered to Americans for study abroad and *vice versa*. These may be seen at the American University Union, 50 Russell Sq., London, W.C.1.

A tentative plan for the establishment of fellowships for British subjects in American Univs. which was formulated by President Frank Aydelotte of Swarthmore College, American Secretary of the Rhodes Scholarship Trust, in 1922, has, in the main, been realized in the Laura Spelman Rockefeller and Commonwealth Fund Fellowships.

FRENCH UNIVERSITY SCHOLARSHIPS

A scholarship of 8000 fr., open to Australians for graduate or post-graduate work. Office National des Universités et Écoles Françaises, 96 Bd. Raspail, Paris (6^e).

"La Bienvenue Française," 33, Rue du Faubourg Saint-Honoré, founded in 1923, offers every scholastic year hospitality to one student of science of each of the following nationalities: French, British, Belgian, Italian, Czecho-Slovakian.

INTERNATIONAL FELLOWSHIPS, ETC., OF
FEDERATIONS OF UNIVERSITY WOMEN

The International Federation of University Women is raising funds for Travelling Fellowships for women graduates of all countries, to be available for a year's research work in some country other than that of the holder. The first will be awarded in 1928. *Address*, 92 Victoria Street, London, S.W.1.

The American Assocn. of University Women offers \$1500 to enable a member of the International Federation of University Women to carry on a year's research in some country other than her own.

The Canadian Federation has founded a Scholarship enabling a woman graduate of a Canadian Univ. to study at a Univ. of any other country represented in the International Federation.

The Australian Federation of University Women has offered two research Fellowships, each of £500, for a year's work in Science, Economics, or Colonial History in Australia. One of these Fellowships has been awarded to D. Jordan Lloyd, D.Sc., of Newnham College, Cambridge. The other will be awarded to a non-British graduate.

GOVERNMENT GRANTS FOR SCIENTIFIC AND
INDUSTRIAL RESEARCH

The total expenditure estimated for 1926-27 of the DEPARTMENT OF SCIENTIFIC AND INDUSTRIAL RESEARCH is £711,626. This included headquarters administration, £34,378; Geological Survey and Museum of Practical Geology, £68,210; and various research programmes, £447,307.

Grants to individual research workers (£37,000) are made on recommendations by individual professors. During 1925-26 the Department made 212 allowances to students for training in research in Univs. and Colleges; 50 grants to research workers to undertake independent research or act as scientific assistants to investigators of standing; 13 grants to scientific workers to enable them to employ laboratory or clerical assistants or to purchase equipment. The system is intended to supplement and not in any way to supersede existing provision,

national or local, for post-graduate research. Particulars of these grants will be found in the pamphlet, *Notes on the Grants to Research Workers and Students*, price 2d., from any bookseller.

Up to September 1926 the number of Industrial Research Associations recognized by the Department and in operation was 24. Particulars of them and of Research Stations under the Department are given in Appendix XXVII.

Developments in the organization of research in the Overseas Dominions are described in an Appendix to the Annual Report of the Department for 1925-26.

The IMPERIAL INSTITUTE, with which the *Imperial Mineral Resources Bureau* was amalgamated in 1925, has technical laboratories and workshops, and is organized to supply technical information dealing with raw materials of all kinds and the mineral resources of the Empire. It is under the statutory control of the Department of Overseas Trade. Further particulars are given in Appendix XXVII.

MINISTRY OF AGRICULTURE AND FISHERIES AND DEVELOPMENT COMMISSION

GRANTS FOR AGRICULTURAL (AND VETERINARY) RESEARCH. For some few years past the Ministry has awarded annually Research Scholarships (£200 p.a. for 3 yrs.) to assist promising students—usually honours graduates in Science of a British Univ.—to qualify as research workers. In 1926, 5 were awarded to students of Aberystwyth, Cambridge, London (Imperial College), Oxford, and Reading. In 1921 the Ministry instituted Travelling Research Fellowships for members of staffs of aided research institutions. In 1926, 5 were awarded to members of the staffs at Bristol, Oxford, Reading, and the Rothamsted Research Station.

The Ministry has allocated (with a view to the concentration at one institution or at institutions working in combination, of the scientific work in each of certain definite groups of subjects) grants-in-aid for the maintenance of research departments of institutions as follows: *Agr. Engineering*—Oxford Univ.; *Agr. Parasitology*—London School of Hygiene and Tropical Medicine; *Fruit-growing*—Bristol Univ., Cambridge Univ., East Malling Research Station (near Maidstone); *Animal Nutrition*—Cambridge Univ.; *Plant-breeding*—Cambridge Univ., University College of Wales, Aberystwyth; *Plant Physiology*—Imperial College of Science; *Economics of Agr.*—Oxford Univ.; *Dairying*—Univ. College, Reading; *Plant Nutrition and Soil Problems and Plant Pathology*—Rothamsted Experimental Station, Harpenden, Herts; *Crop Improvement and Seed and Potato Testing*—Nat. Inst. of Agr. Botany, Cambridge; *Animal Pathology*—Royal Vet. College, Camden Town, London, N.W.1, Cambridge Univ., and the Ministry's Vet. Laboratory, Addlestone, Weybridge.

In addition to the above, grants are made for research in Animal-breeding (poultry and rabbits) to Cambridge, Bee-culture to Rothamsted

Exptl. Station, Glasshouse culture to Waltham Cross Research Station, Silver-leaf disease research to Camb. Univ., Testing new varieties of fruit trees to Royal Hortic. Soc.

A grant has also been made to enable the Agr. Depts. of the following institutions to supplement in cases calling for special scientific knowledge and training the advice usually given by members of the county Agr. Staffs: Armstrong Coll., Bristol, Cambridge, Leeds and Manchester Univs., Aberystwyth, Bangor, Cardiff, and Reading Univ. Colleges, Midland, S. Eastern (Wye), Harper-Adams (Newport), Midland (Sutton-Bonnington, Notts.), and Seale-Hayne (Newton-Abbot) Agr. Colleges. Grant for 1924-25, £40,000.

Special research grants amounting in the aggregate to £2720 for work in 1926-27 are being made to Cambridge, Leeds, Manchester, Reading, and Bristol Univs., the Imperial College of Science, East Malling Research Station, Armstrong, Seale Hayne, Harper Adams, S. Eastern Agr. (Wye), and Bangor Colleges.

In a leaflet (197) issued by the Ministry in Sept. 1920 (revised November 1925) information is given regarding some of the above-mentioned grants and generally regarding Agr. Education and Research in England and Wales. V. also Appendix XXVII.

FISHERY RESEARCH. Researches likely to lead to results bearing on the development and improvement of fisheries are eligible for advances from the Development Fund as follows: 1. *Grants-in-aid of the general work of Independent Marine Institutions*, to aid fundamental researches forming part of the Institution's continuous programme of work. Departments of a Univ. engaged principally upon education which may be eligible for grants administered by the Univ. Grants Committee are not as a rule eligible for these. Applications in prescribed form are receivable by H.M. Treasury up to Sept. 30 for grants to be made in the ensuing financial year. They will be referred to the Ministry for report, and may involve informal inspections by representatives of that Dept. and of the Development Commission.

2. *Grants for Specific Researches.* (a) Directed to definite economic ends of use to the Fishing Industry; or (b) "Free" researches. Communications with a view to grants under head (a) should be addressed to the Fisheries Secretary. As regards grants to Institutions under head (b), the work may be carried on either by members of the staff or by workers temporarily attached to the Instn. or by research students working under the guidance of members of the staff, whose qualifications are approved and who are definitely recommended by the Head of the Institn. The Development Commrs. will also be prepared to consider applications for additional grants for temporary assistants and for apparatus, etc., to enable members of the staff to prosecute special lines of inquiry. Applications should be addressed to H.M. Treasury and will be dealt with in the same way as those under par. 1. In special cases applications for grants under either (a) or (b) in respect of researches by workers not attached to any recognized Instn. may be considered.

The amount provided in the Ministry's estimates for 1926-27 for grants under 2 (a) was £1475.

Detailed information regarding the promotion of Agricultural education and research is contained in the annual reports of the DEVELOPMENT COMMISSIONERS (6A Dean's Yard, Westminster, London, S.W.1), obtainable from H.M. Stationery Office.

MEDICAL RESEARCH COUNCIL

The Medical Research Council (15 York Buildings, Adelphi, London, W.C.2), formerly the Medical Research Committee established in 1914 under the Nat. Health Insurance Act, are now under the direction of a Committee of the Privy Council. They apply money voted by Parliament or received from private sources for the furtherance of medical research. Grants are made to qualified investigators in respect of approved programmes of research work to be carried out in Univs., Medical Schools, Hospitals, or other institutions. Names of recipients and accounts of the schemes of research supported are given in the Council's Annual Reports published by H.M. Stationery Office. Grants may be either personal, *i.e.* to provide remuneration in respect of whole-time or part-time work devoted to particular subjects approved by the Council, or for expenses necessarily incurred in the prosecution of the approved researches. Rockefeller Medical Fellowships tenable in the U.S.A. are also provided for graduates in medicine or related branches of science : for 1926-27 eight were awarded.

RESEARCH IN THE OVERSEAS DOMINIONS

A Committee, appointed in Nov. 1920 by Lord Milner, then Secy. of State for the Colonies, to consider what steps could be taken to secure the assistance of the Univs. in carrying out research work for the Colonies and Protectorates, reported (Cmd. 1472, price 2d.) in April 1921 that there should be such substantial augmentation of scientific workers in our Univs. as will not only foster research among students but also enlarge the corps of scientific experts to whom the Empire may turn for help in the hour of need. They drew attention to the large number of appointments which the Colonial scientific departments offer to men adequately equipped for them (Agric. 254, Forestry 106, Analytical Chemists 18, Vet. 77, Geol. 20, Med. 649) and recommended that for appointments requiring research qualifications selection should not be by competitive examination but based on recommendations by Universities or Colleges.

The EMPIRE MARKETING BOARD has made a number of grants covering a wide field of research—agricultural, entomological, etc., in East Africa, Australia, and the West Indies.

At SINGAPORE is an Epidemiological Information Bureau established by the League of Nations with the support of the Rockefeller Foundation. It receives annual subsidies from several Governments. *Address*—League of Nations, Health Section, Eastern Bureau, 67 Robinson Rd., Singapore.

RESEARCH IN CANADA, AUSTRALASIA, AND AFRICA

CANADA. An Honorary Advisory Council for Scientific and Industrial Research was constituted in Nov. 1916 under a sub-committee of the Privy Council of Canada which had been formed in the same year to have charge of all measures to foster the scientific development of Canadian Industries. It consists of 15 members chosen from the Univs., the Engineering Profession, and the Industries of the Dominion. With the help of Associate Committees comprising over 222 of the leaders of science and industry it has undertaken or promoted important researches in regard to the utilization of peat and of low-grade iron ores, methods of re-forestation, tuberculosis, the action of alkaline waters on concrete, rust in wheat, and some 60 other subjects. By the foundation of *Bursaries*, *Fellowships*, and *Studentships* tenable in Canadian Univs. provision is made each year for the training of young graduates in the methods of scientific investigation. The expenditure of the Council in 1925-26 was \$138,000, including \$40,000 for scholarships for training research workers, and \$61,900 for assisted researches.

AUSTRALIA. The *National Research Council* was founded in 1921 to represent Australia in the International Research Council, and also serves as a national academy of pure and applied science (all branches).

The *Commonwealth Council for Scientific and Industrial Research* was established by the Science and Industry Research Act, 1926, and has taken the place of the former Institute of Science and Industry, which was constituted in 1921, and had succeeded a temporary Advisory Council of Science and Industry which was created in 1916. The Council consists of 3 nominees of the Commonwealth Government, the Chairman of each State Committee constituted by the Act, and other persons co-opted for their scientific knowledge. Its main functions are : (a) to carry out scientific researches in connexion with the primary and secondary industries of Australia ; (b) to train research workers ; (c) to make grants in aid of pure scientific research ; (d) to carry out the testing and standardization of scientific instruments and apparatus ; and (e) to act as a means of liaison between the Commonwealth and other countries in matters of scientific research. The Government has made a grant to it of a sum of £250,000 for research work and investigations for an unspecified period. The reorganization and development of the work is as yet only in its initial stages. The Council has decided to concentrate efforts mainly on 5 major branches, viz. : (a) Plant problems, (b) Animal Problems, (c) Forest Products, (d) Fuel Problems, especially liquid fuels, and (e) Preservation of Food-stuffs, especially cold-storage. It is working in close co-operation with the State Government Departments, the Universities, and other institutions. It is also co-operating with the British Department for Scientific and Industrial Research.

Under the Science and Industry Endowment Act, 1926, the Commonwealth Government has established a capital fund, the income from which is to be used to provide assistance (a) to persons engaged in scientific research, and (b) in the training of students in scientific

research (*Secretary*, Gerald Lightfoot, M.A., 314 Albert Street, East Melbourne).

The Australian *Institute of Tropical Medicine*, Townsville, North Queensland, is under the control of the Commonwealth Department of Health. The staff, consisting of a Director, 4 medical officers, and an entomologist with technical assistants, etc., perform educational and diagnostic as well as investigational functions.

The NEW ZEALAND Institute, established in 1867, controls 3 funds which are available for grants to aid scientific workers: the Government Research Grant Fund, Hutton Memorial Fund, and N.Z. Institute Endowment Fund. The Cawthron Institute of Scientific Research at Nelson concerns itself specially with agriculture and fruit-growing. The State Forest Service conducts experiments in regard to the value of the Dominion's timbers.

SOUTH AFRICA. The Research Grant Board of the Union of South Africa, instituted in 1918, is attached to the Department of Mines and Industries and reports to the Minister of Mines and Industries and the Minister of Education. It administers the Government research scholarships and grants. The scholarships are of the value of £250 per annum for one or two years. The recipients are, in general, students who have already obtained university degrees and are undertaking research for the first time, under the supervision of their professors, though in some instances they are young professional men who have elected to give up the practice of their professions for a period in order to undertake research, also under suitable supervision. The recipients of research grants, on the other hand, are members of the staffs of the Univs. and others who have, most of them, a considerable amount of research already to their credit. The grants are made to defray such necessary expenses as the purchase of apparatus, material, and literature, travelling expenses and the cost of publication of the results of research. Since its inception the Board has allotted twenty-six scholarships and 142 grants-in-aid of research.

SUDAN. At the Gordon Memorial College, Khartoum, are established the Wellcome Tropical Research Laboratories, where research and a large number of routine examinations are carried out by Government Bacteriologists, Chemists, and Entomologists.

RESEARCH IN INDIA

Under the new Constitution the development of industries is a Provincial transferred subject and the Government policy in regard to research work is to a large extent determined provincially. The *Indian Institute of Science*, Bangalore, is concerned with the application of science to industry and agriculture (see p. 592); the practical side of research work conducted there has been developed in recent years. There are *Research Institutes* at Pusa (Agricultural, dealing with problems of general or all-India importance in the various sections of Botany, Chemistry, Bacteriology, etc.), Dehra Dun (Forestry), and

Cawnpore (General Applied Chemistry, Vegetable Oils, Leather, and Tinctorial Chemistry). The *Royal Institute of Science*, Bombay, is designed to conduct undergraduate teaching side by side with post-graduate research in the Departments of Chemistry, Physics, and Biology. The *Central Cotton Committee's Technological Research Laboratory*, Matunga, Bombay, opened in Dec. 1924, is for research work on cotton problems, testing of cotton yarns, and chemical examination of cotton sent for trial. In addition, the Committee places grants-in-aid at the disposal of Provincial Departments of Agriculture for research work on cotton, and is contributing to the expenses of the new *Institute of Plant Industries* at Indore. At the *Imperial Institute of Veterinary Research*, Muktesar, research activities in cattle diseases have been developed on an unprecedented scale. A *School of Mines and Geology* has been opened at Dhambad, and a project is in hand for a *Forest Research Institute* in Burma. In addition there is a *Research Tannery* at Calcutta, and an *Imperial Research Laboratory* in Bengal is contemplated. The *Indian Lac Association for Research* is financed by a cess on the exports of lac and employs the funds so received on research work connected with the cultivation of lac and the manufacture of shellac. The Research Station is situated in Ranchi. The *Sir J. C. Bose Research Institute*, Calcutta, founded in 1917, is concerned especially with Plant Biology. Its position has been consolidated by a grant from the revenues of the Govt. of India of Rs. 103,000.

Medical research is systematically arranged for by the Government of India, either directly or through local Governments, at central or provincial institutions. The chief of these are the Central Research Institute, Kasauli, the School of Tropical Medicine and Hygiene, Calcutta, the Haffkine Institute, Bombay, the King Institute of Preventive Medicine, Madras, King Edward VII. Memorial Pasteur Institute, Shillong, and the Pasteur Institutes at Kasauli, Coonoor, and Rangoon. The *Indian Research Fund Association*, which receives its income from grants by the Government of India, assists in financing enquiries based on all these institutions, and employs not only Indian Medical Service Officers but also workers outside the Services in attempting to elucidate the various tropical disease problems which are most urgent. The avowed objects of the Association are the prosecution and assistance of medical research, the propagation of knowledge and experimental measures generally in connexion with the causation, mode of spread, and prevention of diseases, primarily those of a communicable nature. All proposals for research under the Association are examined by the *Scientific Advisory Board*, which consists of experts chosen from the Research Institutes of the country as well as from the central medical administration. This Committee is thus able, not only to assess the value of proposals, but also to co-ordinate and prevent overlapping, and it is largely on its recommendations that the grants from the Association are made. Apart from grants-in-aid to teachers, bureaux, and publications, it has financed numerous researches, the selected results of which are published quarterly in the *Indian Journal of Medical Research* and its *Memoirs*.

INTERNATIONAL FOUNDATIONS AND ORGANIZATIONS
FOR RESEARCH

FONDATION UNIVERSITAIRE, 11 rue d'Egmont, Brussels, founded in 1920 with a capital of 55 million francs derived from the unexpended balance of the funds of the Commission for Relief in Belgium, aims (1) at helping impecunious young Belgians to take courses in Institutions for higher education and (2) at developing scientific production in Belgium. It makes loans for the first purpose and grants and subsidies for the second. In the year 1924-25 its loans for University study amounted to 900,800 francs, its subsidies to 799,707 francs. The subsidies included grants for study to be carried on, in European Univs. 155,500 fr., for training in Scientific Research 21,700 fr., for research workers 119,000 fr., for scientific publications 300,507 fr. Grants for study in American Universities were made to 34 Belgian graduates, and grants for study in Belgian Universities were made to 9 Americans. The Foundation arranges exchange visits of Professors. A club-house was established at 11 rue d'Egmont in 1922 for Belgian Univ. Professors. It is open also to foreign professors invited by members of the club. It has lodging accommodation.

ELLEN RICHARDS RESEARCH PRIZE, \$1000, for a thesis written in *English by a woman* on a scientific subject. Latest date, Feb. 28. Particulars obtainable from Dr. Lilian Welsh, Goucher College, Baltimore, Md., U.S.A.

NOBEL PRIZES, founded by Alfred Nobel, who died in 1896, awarded for contributions to the common good by workers in (a) Physics, (b) Chemistry, (c) Medicine or Physiology, (d) Literature, (e) the Preservation of Peace. The prizes, worth from Kr. 115,000 to Kr. 150,000 each, are awarded for (a) and (b) by the Swedish Academy of Science, for (c) by the Stockholm Faculty of Medicine, for (d) by the Swedish Academy of Literature, and for (e) by a committee elected by the Norwegian Storting. Among the categories of persons qualified for candidature for prize (e) are University Professors of Political Science and Law, of History, and of Philosophy. Particulars can be obtained from Nobelstiftelsens Styrelse, Sturegatan, 14, Stockholm, Sweden. Among prize-winners of past years the following have a special interest for English-speaking students: (a) 1904, Lord Rayleigh; 1906, J. J. Thomson; 1907, A. A. Michelson; 1915, W. H. Bragg and W. L. Bragg; 1917, Ch. G. Barkla; 1923, R. A. Millikan; (b) 1904, Sir Wm. Ramsay; 1908, E. Rutherford; 1914, T. W. Richards; 1922, F. Soddy, F. W. Aston; (c) 1902, Sir Ronald Ross; 1912, Alexis Carrel; 1922, A. V. Hill; 1923, F. G. Banting and J. J. R. Macleod; (d) 1907, Rudyard Kipling; 1913, Rabindranath Tagore; 1923, W. B. Yeats; 1926, G. B. Shaw; (e) 1903, Sir W. R. Cremer; 1906, Theodore Roosevelt; 1912, Elihu Root; 1919, W. Wilson; 1926, Sir Austen Chamberlain and General Ch. G. Dawes.

FONDATION GEORGE MONTEFIORE offers triennially a prize of the value of 22,000 francs "au meilleur travail original présenté sur

l'avancement scientifique et sur les progrès dans les applications techniques de l'électricité dans tous les domaines, à l'exclusion des ouvrages de vulgarisation ou de simple compilation." Work should be received by April 30, 1927, by M. le Secrétaire-archiviste de la Fondation George Montefiore à l'hôtel de l'Association, rue Saint-Gilles 31, Liège (Belgique). It may be in English or French.

VISSER INTERNATIONAL LAW PRIZE (triennial). Administered by Leyden Univ. (Legatum Visserianum). 5000 guilders. Next competition, May 1928; subject—Westphalian Congress; language—Dutch or French.

PRIX HOLLANDAIS, 8000 fr., and Prix d'Ault du Mesnil, 1800 fr., for work in physical or prehistoric anthropology, triennially beginning 1927. Institut International d'Anthropologie, 15 rue de l'École de Médecine, Paris, vi.

INTERNATIONAL RESEARCH COUNCIL, Palais des Académies, Brussels. General Secretary—Sir Arthur Schuster, Royal Society, Burlington House. This body has been constituted with effect from Jan. 1, 1920, in pursuance of a resolution adopted in Nov. 1918 at a Conference in Paris at which the principal Allied Academies were represented. Under the auspices of the Council, *International Unions* have been formed for Astronomy, Geodesy and Geophysics, Pure and Applied Chemistry, Mathematics, Physics, Radio-Telegraphy, Biological Sciences, and Geography.

UNION ACADÉMIQUE INTERNATIONALE (for co-operation in the advancement of studies by means of collective researches and publications in the fields of Archæology, History, Philology, and Moral, Political and Social Science). The Union was constituted in 1919 on the initiative of the Académie des Inscriptions et Belles-Lettres. Its address is Palais des Académies, Bruxelles. The British Academy is affiliated to it.

MODERN HUMANITIES RESEARCH ASSOCIATION, founded at Cambridge, June 1, 1918, for the encouragement of advanced study in Modern Languages and Literatures by co-operation. Has 62 correspondents and about 800 members. Press organ: *Modern Language Review*, quarterly, 7s. Hon. Secy.: Prof. E. Allison Peers, The University, Liverpool. Sub-Secy. for America: Prof. A. H. Nason, Box 84, University Heights, New York City, U.S.A. Branches: London, Cambridge, Edinburgh, Leeds.

XXV

FEDERATIONS AND FOREIGN UNIVERSITIES

[From 1921 to 1925 inclusive the Yearbook has contained in this appendix brief notes concerning the principal foreign universities. It has been decided, in view of the publication by the National Union of Scottish Students of a new HANDBOOK ON FOREIGN STUDY, to discontinue these notes for the present, with the exception of the accounts of universities in the United States, which are retained on account of the great increase that has recently taken place in the number of scholarships for British students tenable in that country.]

The LEAGUE OF NATIONS COMMITTEE ON INTELLECTUAL CO-OPERATION has entrusted to the University Relations Section of the *International Institute of Intellectual Co-operation* (2 Rue de Montpensier, Paris I.) the production of the *Bulletin for University Relations* formerly issued by it at Geneva. Annual subs. (6 Nos.), 10s., payable to the publishers, Les Presses Universitaires de France, 49 Boulevard Saint-Michel, Paris V. The University Relations Section organizes annually conferences of the directors of National University Offices and of the representatives of International Associations of Students.

The CONFÉDÉRATION INTERNATIONALE DES ETUDIANTS was formed at Strasbourg in 1919 by official representatives of the National Unions of Students of Belgium, Czecho-Slovakia, France, Luxembourg, Poland, Roumania, and Spain, and unofficial representatives of students of 10 other countries—Denmark, England, Greece, Holland, Italy, Norway, Sweden, Switzerland, U.S.A., and Yugoslavia—which had, at that time, no national unions. The Council of the C.I.E. met at Brussels in 1920 to organize the first Congress, which was held at Prague in 1921. At this Congress National Unions of England and Wales, Finland, Holland, Norway, Scotland, Switzerland, Sweden, and Yugoslavia were admitted as full members, and a representative of emigrant students from Ukraine as an unofficial member. The Council met again at The Hague and at Oxford in 1923, and the Second Congress took place at Warsaw in Sept. 1924, when the National Unions of Bulgaria, Esthonia, Hungary, Lithuania, and Turkey were admitted as full members, and the following as unofficial members: National unions of New Zealand and South Africa and "Oreso" (association of Russian emigrant students), and representatives of students of Georgia and of Hong-Kong; and it was decided to collaborate effectively with the national union of German students (Deutschestudentenschaft). In 1926, at the Council's meeting in Prague, the Algemeene Senaten Vergadering of the students' senates of Holland was admitted as a member, the association of White Ruthenian students as a free member, and the general association of Latin-American students in Paris as

associated member. The confederation aims at promoting friendship between students and student bodies throughout the world and the study of international questions relative to higher education and the conditions of student life.

The central office is at Brussels. Administrateur—J. Baugniet, Dr. Jur. Avocat, 82 Avenue Molière. Executive Committee: President, J. Balinski-Jundzill, 11 rue Wiejka, Warsaw; First Vice-President, Ivison Macadam, c/o N.U.S., 3 Endsleigh St., London, W.C.1; Vice-Presidents, T. Bergh, Lund, H. Graessler, Copenhagen; de Rocca Serra, Bordeaux; Paleček, Prague. Secretary-General, Orazi Spartaco, via Gaeta, 19, Rome 21. Joint-Secretary, Hans Bosshardt, Krähhühlstrasse, 49, Zurich. Treasurer, M. I. Macdonald, c/o S.R.C., The University, Edinburgh.

The INTERNATIONAL FEDERATION OF UNIVERSITY WOMEN was founded in 1920 "to promote understanding and friendship between the university women of the nations of the world, and thereby to further their interests and develop between their countries sympathy and mutual helpfulness." It has branches in twenty-seven countries. The Federation assists travelling members by providing introductions, and by the establishment of club-houses in such centres as Paris, London, Brussels, Rome, New York, Washington, Philadelphia. It provides travelling fellowships for women graduates (v. Appendix XXIV., p. 692), and promotes the exchange of university and secondary school teachers between different countries. Officers (1926-28): *President*, Docent Ellen Gleditsch, Univ. of Oslo; *Vice-Presidents*, Prof. Winifred Cullis, Univ. of London; Mme. N. Schreiber-Faure of Geneva; Prof. J. Westerdijk, Univ. of Utrecht; *Treasurer*, Mrs. Thomas R. White, Philadelphia; *Secretary*, Miss Theodora Bosanquet, 92 Victoria Street, London, S.W.1. International Conferences are held triennially. The next Conference will be held in Geneva in 1929. *Crosby Hall, Chelsea, London*, will be opened by the British Federation of Univ. Women as a residence for women graduates of all countries, at Easter 1927. The residence is intended primarily for graduate students carrying on research or other advanced work in London. Application for accommodation should be made to the Warden, Crosby Hall, Chelsea, London, S.W.3.

The WORLD'S STUDENT CHRISTIAN FEDERATION is a federation of the national Student Christian Movements of over forty countries, which has a membership of some 300,000. Publications: a news sheet, *The Student World* (quarterly), a *Directory and Exchange List*, and a *List of Foyers and Student Hostels* (annual). Offices: 16 Boulevard des Philosophes, Geneva. The Federation was largely responsible for initiating relief work among students in Europe after the war. The funds raised in this country for the purpose were administered by the Universities' Relief Committee under the auspices of the Imperial War Relief Fund. This Committee has now disbanded, but the "International Student Service of the World's Student Christian Federation" is continuing relief work where currency or other difficulties demand it. It publishes *Vox Studentium* (monthly).

The STUDENT CHRISTIAN MOVEMENT of Great Britain and Ireland is the British Branch of the Federation. Publications: *The Student Movement* (monthly during term). Offices: Annandale,* North End Road, Golders Green, London, N.W.11.

The UNIVERSITIES LIBRARY FOR CENTRAL EUROPE was established towards the end of 1920 in order to co-ordinate and consolidate the work of securing (by gifts, exchange, and purchase) British books, journals, etc., for students, teachers, and libraries in the Universities of Central Europe. The work has to some extent lost its definitely charitable character, but the Committee (Chairman—Sir Wm. H. Beveridge) conducts a substantial volume of work, such as exchange of publications between official departments and scientific institutions on the continent and similar institutions in the British Empire. In conjunction with the League of Nations it has undertaken to accept literature from other countries for distribution anywhere in the United Kingdom, and, similarly, to distribute all over Central Europe books and periodicals received from Universities and learned societies in Great Britain.

In 1926 it added to its other functions that of a clearing-house for reception and distribution of scientific books and periodicals from and between individuals and institutions in Great Britain and Ireland.

Among foreign organizations useful to British students may be mentioned: Austria—(1) Kursorganisation der Wiener medizinischen Fakultät, Vienna ix. 1, Porzellangasse 22, from which programmes of medical courses for foreigners and others can be obtained; (2) Minerva Buro, Vienna viii., Schlösselgasse 22 (information about board and lodging); (3) Wiener Internat. Hochschul Kurse, Vienna ix., Boltzmanngasse 16.

Denmark—Anglo-Danish Students' Bureau, 50 Russell Sq., London, W.C.1.

Egypt—Educational Mission in England, 28 Victoria St., Westminster, London, S.W.1.

France—Office National des Universités et Écoles Françaises, London Branch, 1-7 Cromwell Gardens, London, S.W.7. The Office published in 1925 a comprehensive Handbook giving information about the French universities and the entire system of organisation of education in France. Price 5s. The French Ministry of Public Instruction announced on Sept. 17, 1926, the admission to equivalence with the "baccalauréat de l'enseignement secondaire français" of every certificate of matriculation issued by one of the Universities of the United Kingdom and every diploma accompanied by an attestation of the Universities Bureau of the British Empire certifying that the diploma entitles its holder to admission as a regular student to degree courses in one of those universities.

Germany—Deutsches Institut für Ausländer, Universität Berlin, C 2 Universitäts-gebäude. Publishes, monthly, *Mitteilungen*.

Holland—Netherlands Committee for international academic relations, 33 Wasstraat, Leyden.

Italy—Istituto Interuniversitario Italiano, R. Palazzo Venezia,

N. 118, Roma. [There is a *British Institute* at Florence, Palazzo Antinori, Piazza Antinori, 3, comprising a School in English for Italians, with 3 years' (elementary), 2 years' (higher), and 2 years' (finishing) courses, a reading-room and library, and the organizing of lectures, concerts, etc. Its Higher Diploma is of the standard of the Doctorate of an Italian Univ. UNITED STATES OF AMERICA

In the 913 Universities, Colleges, and Professional Schools which submitted returns for 1923-24 to the United States Bureau of Education there were enrolled in that year 726,124 students, of whom rather more than one-third were women. Of these institutions 144 were under public and 769 under private control; 150 were independent professional schools. Of the total number of students 61,858 were in pre-matriculation departments, 28,498 were in Junior Colleges, and 28,799 were in graduate schools. Law students numbered 35,732, medical 18,900, dental 12,947, theological 12,358, pharmacy 9951, engineering 57,699. For full information about American Universities students in this country are advised to apply to the American University Union, British Division, 50 Russell Sq.; on the continent of Europe to the Paris office of the Union, 173 Boulevard St. Germain. In Rome there is an American Academy at Porta San Pancrazio 29. In Belgium the Fondation Universitaire, which administers numerous scholarships tenable in American institutions of higher learning, has its office at 74 rue de Namur, Bruxelles. In Prague there is an American Institute. In America reference may be made to the American Council on Education, 26 Jackson Place, Washington; or to the Institute of International Education, 522 Fifth Avenue, New York. This Institute published, in 1924, a *Guidebook for Foreign Students in the U.S.A.* The Bureau of Education of the United States Department of the Interior published in 1921 a Bulletin (No. 39 of 1920) on "Facilities for Foreign Students in American Colleges and Universities." This is obtainable from the Government Printing Office, Washington, D.C., at 15 cents a copy. A recent Australian view of American Univ. life and organization is given in *The American University* by E. R. Holme of the Univ. of Sydney (Angus and Robertson, Ltd., Sydney, 1920, 7s. 6d.). A description of American Univs. from the point of view of

a French scientist is given in *Universities and Scientific Life in the U.S.A.*, by Prof. M. Caullery (Oxford Univ. Press, 1922, 10s. 6d.).

"International House," Riverside Drive, New York, opened Sept. 1924, is a residential club for over 500 foreign and American students. The requisite funds were provided by J. D. Rockefeller, Junior, who also founded the "International Education Board" (chartered Jan. 16, 1923). This Board has established the International Institute of Teachers College (v. *infra*, Columbia Univ.).

The British Information Library, 44 Whitehall Street, New York, established Dec. 1919, for the convenience of Americans desiring information on British current affairs, is a branch of the News Department of the Foreign Office, from which it is well supplied with official documents and other publications. It has become the recognized centre for information on British Empire affairs. It is in close touch with the Dominion Trade Commissioners in New York, and can give information on Dominion affairs. Wherever possible official documents are lent, on request, to American libraries under the usual inter-library loan conditions. Early copies of documents dealing with matters of general interest, such as foreign affairs, finance, education, social welfare, industrial relations, mineral and oil resources, etc., are received regularly directly from London. The Library also has an important file of documents on Indian affairs, and some of the leading Indian newspapers. It is entirely free to the public, and information is gladly given to all enquirers. The Library is the official agent in U.S.A. for publications of H.M. Stationery Office.

American Professors on leave of absence sometimes receive grants for expenses of foreign travel from the Institute of International Education, and report to the Institute on their observations while teaching in foreign Institutions. Columbia, Pennsylvania, Johns Hopkins, Cornell, Harvard, Mass. Inst. Tech., and Yale co-operate in arranging exchanges with France of Professors of Applied Science.

For information as to American University and College Scholarships for British students see Appendix XXIV.

A British-American Association of Phi Beta Kappa (founded 1776—a society of American University scholars of distinction) was formed in England in 1924 under the presidency of Lord Balfour. Address, American University Union, 50 Russell Sq., London, W.C.1.

The UNIVERSITY CENTRE FOR RESEARCH IN WASHINGTON, constituted in 1921, is maintained by a voluntary association of scholars, to promote and facilitate research in archives, libraries and other collections located in the District of Columbia, on the part of students in the graduate departments of American and Foreign Univs. and of others. Technical Divisions of History, Polit. Sc., Internat. Law and Diplomacy, Economics, and Statistics have been established. Students in foreign Univs. and other investigators desiring to avail themselves of its services should apply to the Director of the American Council on Education, 24-26 Jackson Place, Washington, D.C.

AMERICAN DEGREES (non-professional). The following notes are based on a Report presented by a Committee of the American Council

on Education to the French Ministry of Public Instruction: The American Colleges, both those which are independent institutions and the colleges of liberal arts within Universities, award the A.B. (or B.S.) degree to students who complete a 4 years' course. Ordinarily the student at the time of admission to the college is about 18 years of age and has completed a 4 years' course in a secondary school. A considerable portion of his work at college belongs, however, to what in European countries is called secondary education. A peculiarity of the American system of grading, both in secondary and in higher institutions, is the weight attached to the length of time spent under instruction, a degree being attainable by gradual accumulation of a specified number of "credits" (certificates of definite periods of time spent successfully under instruction), which thus largely replace the examinations used in other countries for testing the student's capacity at various intervals. The college graduate who aspires to the degree of M.A. (or M.S.) proceeds to the Graduate School of a University (the professional schools of law, medicine, etc., with few exceptions, admit undergraduates), and there pursues his studies, either general or, if aiming at a subsequent doctorate, specialized, for one year. The Ph.D. requirements are ordinarily "3 years of resident study, beyond the baccalaureate, the presentation of a thesis embodying the results of original research, and the passing of a comprehensive examination testing the candidate's knowledge of his chosen field of learning."

The Report points out that higher education in the U.S.A. is largely autonomous, there being no control by the Federal Government and little control by the political authorities of any State. Such standardization as has been effected has come through the voluntary efforts of groups of institutions having similar ideals and purposes. Conspicuous among these is the Association of American Universities. The Report recommends the admission to candidacy for the State Doctorate of any student holding the M.A. or M.S. degree of an institution belonging to the Assocn. of American Univs. who has specialized in the branch of learning chosen for the work for the doctorate, and proved to the satisfaction of the head of his department and of the Dean of the Graduate School of his Univ. his capacity for research; also candidates for the Ph.D. in one of those institutions who have completed 2 or more years of study for the Ph.D., and proved their capacity for research; also holders of a Ph.D. from one of those institutions. The institutions in question are starred (*) in the list given below. In other cases it is suggested that reference should be made to the Committee, 24-26 Jackson Place, Washington.

Below is given a list of 171 institutions approved by the Association of American Univs. This list has been adopted by most of the Univs. of the U.K. for the purpose of admission of graduates with a view to qualifying for the Ph.D. degree (v. p. 18). They may be classified as:

I. 34 Univs. of complex organization, usually with *graduate schools* and certain professional and technological schools. These are the 26

The following particulars of the 26 institutions belonging to the Assocn. of American Univs. have been kindly supplied by the American University Union, British Division. All are co-educational, except C.U.A., Clark, Harvard, Princeton, Virginia, and Yale, and even these, except C.U.A. and Princeton, admit women for graduate work. Where not otherwise stated the Fees charged at Halls of Residence or dormitories are for rooms (with heating and light) without board. Fees payable on matriculation and on graduation have not been specified. They range between \$5 and \$30. Fuller information, including particulars of equipment and research funds, library facilities, and facilities for publication of research results, is given in *Opportunities for Study at American Graduate Schools*, Bulletin, 1921, No. 6, of the United States Bureau of Education. The American Council on Education has in hand the preparation of a *United States Universities Yearbook*.

PROFESSIONAL SCHOOLS, SPECIALIST STUDIES, AND POST-GRADUATION COURSES IN THE UNIVER- SITIES AND UNIVERSITY COLLEGES OF GREAT BRITAIN AND IRELAND

PREFATORY NOTE

THE Universities, collectively, make provision for the advancement of all branches of knowledge. Of their several fields of study the greater part is common ground, yet each of them has its special plots which it cultivates, in some cases with a view to the needs of the province which it serves, in others because it has been agreed, or arranged, that it shall undertake work for which there is but a limited demand.

The statements which follow indicate the respects in which the Universities, individually, specialize, *i.e.* undertake work which is not common to them all. The term "school" is applied to correlated courses of study for a particular profession. "Specialist courses" are courses of study in special subjects for which provision is not generally made.

For further information application should be made to the Registrars or Secretaries (Birmingham, London Colleges and Schools, Aberdeen, Edinburgh, St. Andrews, Belfast) of the several Universities and Colleges.

POST-GRADUATION AND SPECIALIST COURSES FOR THE SESSION 1926-27

UNIVERSITY OF BIRMINGHAM

A. Schools and Departments: *Brewing and the Bio-chemistry of Fermentation*; *Commercial Science*; *Dental Science*; *Education*; *Engineering*; *Law*; *Medicine*; *Metallurgy*; *Mining*; *Music*; *Oil Engineering and Refining*; *Public Health Science*; and for the Trade Unions Industrial Certificate.

B. Post-graduation Courses leading to the Ph.D. or other higher degrees:

(i.) ARTS: *English*; *French*; *German*; *Greek*; *Italian*; *Latin*; *Russian*; *Spanish*; *History*; *Music*; *Philosophy*.

(ii.) COMMERCE: An approved selected subject.

(iii.) MEDICINE: An approved selected subject.

(iv.) SCIENCE: *Bio-chemistry of Fermentation*; *Botany*; *Chemistry*; *Engineering*; *Geology*; *Mathematics*; *Metallurgy*; *Mining*; *Oil Engineering and Refining*; *Physics*; *Zoology*.

C. Specialist Courses:

Anthropology (including primitive technology and archæology). A course of lectures, and practical instruction in the Museum of the Department, is given by the Professor of Anatomy and Anthropology throughout the Summer Term. *Brewing*: There is an Honours School in the *Bio-Chemistry of Fermentation*, which subject may also be offered as a principal subject for the degree of B.Sc. Special subjects in the Honours School are: (i.) *Chemistry and Physiology of Malting, Brewing, Distilling and Vinegar Manufacture*; (ii.) *Fermentation and Bacteriology*; (iii.) *Agricultural Chemistry*; (iv.) *Chemistry of Food and Drugs, Civic Design and Town Planning*. A systematic course of lectures and class work is given, provided by the Bournville Village Trust. In the Winter Term instruction is given in Drawing-office and Field Work; in

the Spring Term in problems in Site Planning, in which term special series of lectures are also delivered by authorities on various aspects of Town Planning. *Criminology*. A post-graduate course on "Crime and Punishment" is conducted during one term. Special demonstrations in connexion with the subject are given at local Prisons, Asylums and Mental Deficiency Colonies. *Hydro-electric Engineering*. Facilities are provided for students who desire to specialize in this subject. The B.Sc. degree may be taken with Honours in Hydro-electric Engineering. *Industrial Law*. A systematic course of lectures and tutorials is given in problems of Modern Industry, National and Local Government, etc., to students nominated by Trade Unions, who read for the Industrial Certificate awarded by the University. *Mental Diseases*. A special Department is established in connexion with the Asylums Committee of the City of Birmingham for research in Mental Diseases. *Mine Rescue*. A special lecturer in the subject of Mine Rescue Work delivers a course of lectures; demonstrations in the Laboratory, and in the Model Mine in the grounds of the University are given during one term. The Watch Committee of the City of Birmingham requires the attendance on these courses of members of the City Fire Brigade. *Mining Research*. A department responsible for research in problems relating to Oil, Coal and Metal Mining is established under the direction of Dr. J. Scott Haldane, F.R.S., who has been appointed an Honorary Professor in the University. *Music*. An Honours School has been established in this subject, and a degree of M.Mus. instituted. In connexion with the work of this Department a special course of lectures in Campanology is given with illustrations on the Bournville Bells. *Social Study*. Systematic instruction with practical training for administrative officials, philanthropic workers, Welfare supervisors, trade union and other officials, the clergy, members of local governing bodies. The course leads to a University Diploma in Social Study.

UNIVERSITY OF BRISTOL

A. Schools and Departments: *Agriculture, Dental Science, Education, Engineering, Medicine, Public Health.*

B. The degree of Ph.D. is open to any graduate in the several faculties in accordance with the regulations.

C. Specialist Courses :

Agriculture and Horticulture. Agricultural and Horticultural Research Station at Long Ashton, Somerset, and Fruit and Vegetable Preservation Research Station at Chipping Campden, Gloucestershire. The Royal Agricultural College, Cirencester, is also associated with the University. *Colloidal Chemistry*. Special attention has for many years been devoted to the subject of colloids in both undergraduate and graduate courses, and a school of research is engaged in carrying through an extensive investigation based especially on soaps and nitro-cellulose. *Domestic Science*. A special curriculum for the degree of B.Sc. *Human Morphology* includes Physical Anthropology, and students have the opportunity of taking part in excavations in caves

in the Mendip Hills which were occupied by prehistoric man. *Social Study*. Systematic instruction with practical training for officials in national, municipal or rural administration, members of Local Government bodies, the clergy and philanthropic workers. The course leads to a University Testamur and Higher Testamur in Social Study.

UNIVERSITY OF CAMBRIDGE

For information regarding courses leading to the Ph.D. and other higher degrees and specialist courses, the Lecture Lists published in the *Reporter* early in each term and the pamphlet on Facilities for Study and Research (The University Press) should be consulted.

UNIVERSITY OF DURHAM

DURHAM DIVISION

A. Schools of *Theology, Education*.

B. Subjects in which the University is prepared to accept students for the Ph.D. or other higher degree. No list published. Application for admission to courses of post-graduation study will be considered as and when received. The Pure Science Laboratories (opened in 1924) are well equipped for research.

C. Subjects to which exceptional attention is given :

Arabic (Diploma granted to graduates and non-graduates). *Palæography*. *Roman Britain*.

COLLEGE OF MEDICINE

A. Schools of *Medicine* and *Dentistry*.

B. Facilities for advanced study and research are provided in almost all subjects of the medical course, but especially in *Bacteriology*, *Pathology* and *Physiology*. The Royal Victoria Infirmary and the Princess Mary Maternity Hospital afford ample material for clinical research. General and Special courses of post-graduation instruction in Medicine are conducted throughout the year.

ARMSTRONG COLLEGE

A. Schools of *Art, Architecture, Commercial Science, Engineering, Naval Architecture* and *Marine Engineering, Metallurgy, Mining, Agriculture, Education*.

B. Ph.D. Applications for admission to courses of study and research for the Ph.D. degree will be considered as and when received.

Special facilities for research are provided in Pure Science, Applied Mathematics, Naval Architecture, Zoology, Electrical Engineering, Agriculture and Economics.

C. Subjects to which exceptional attention is given :

Fine Art and *Music* for the Pass B.A. *Architecture*. An Honours

course covering five years (parts of the fourth and fifth to be spent in an architect's office). *Ancient History*. Special facilities for the study of Roman Britain. *Mechanical and Marine Engineering*. *Naval Architecture*. Special facilities for the study of high-speed engines and all problems connected with shipbuilding. *Agriculture*. The Department has under its control the Northumberland County Council Experimental Station. Training in Practical Forestry at Chopwell Woods leading to College Certificate. *Marine Biology*. The Dove Marine Laboratory, at Cullercoats, is part of the Zoological Department of the College ; available for research work.

UNIVERSITY OF LEEDS

A. Schools of *Law, Medicine, Dental Science, Engineering, Metallurgy, Mining, Agriculture, Education, Commercial Science*.

B. Subjects in which the University is prepared to receive candidates for the Ph.D. or other higher degrees. Application for admission to courses of post-graduation study will be considered as and when received.

C. Specialist Courses :

Social Organization and Public Service. Two years' course for Diploma ; *Economics, Industrial and Social History, Social Psychology, Local Government, Public Health and Hygiene, Administration, Social Ethics, Statistics, Labour Organization*, etc. *Colour Chemistry and Dyeing*. Courses of lectures with practical work in the special laboratories of the Department extending over four years for Honours B.Sc., or (for immatriculated students) for Diploma ; three years, for Pass B.Sc., or Diploma ; five years' part-time course for dyers' apprentices. *Coal Gas and Fuel Industries with Metallurgy*. Course of lectures with practical work in the special laboratories of the Department for Hons. Degree, Ordinary Degree or Diploma. Two years' post-graduation course for Diploma in (i) Gas Engineering, (ii) Fuel and Metallurgy. *Leather Industries*. Courses of lectures with practical work in the special laboratories of the Department for the Ordinary Degree, Honours Degree, and M.Sc. and Diploma. *Textile Industries*. Courses of lectures with practical work in the special laboratories of the Department for B.Sc. in Textiles or B.Com. with Textiles as principal subject, one-year post-graduation course for Diploma, three years' course for Diploma. *Agriculture*. The Department conducts, on behalf of the County Councils of the three Ridings, the whole scheme of Agricultural Education in Yorkshire. The laboratories (Agricultural Chemistry, Botany, Bacteriology, and Zoology) are open for research, or for special technical training. A special feature is that of Agricultural Economics.

UNIVERSITY OF LIVERPOOL

A. Schools and Departments : *Law, Medicine* (including *Tropical Medicine* and *Public Health*), *Dental Science, Veterinary Science, Civic*

Design and Town Planning, Architecture, Naval Architecture, Social Sciences and Administration (Geography, Economics, Commerce, Social Science), Engineering (including Marine Engineering), Metallurgy, Education.

B. Subjects in which the University is prepared to receive students for the Ph.D. degree : the following departments have been approved. The Ph.D. committee is prepared to receive applications for recognition from any other department in which candidates may desire to work.

ARTS. *Methods and Practice of Archæology (Archæology of Palestine), Philosophy, Mediæval History, English Literature, German.* SCIENCE. *Chemistry (Inorganic, Organic and Physical), Mathematics, Physics, Zoology, Botany, Geology, Oceanography.* MEDICINE. *Physiology, Bio-Chemistry, Entomology, Bacteriology.* ENGINEERING. *Mechanical Engineering, Thermodynamics of Heat Engines, Strength of Materials, Electrical Engineering, Civil Engineering, Naval Architecture, Metallurgy.*

C. Specialist subjects :

FACULTY OF ARTS. *Palæography and Diplomatics. Course A :* The outlines of Latin Palæography from the earliest times to about 1600. *Course B :* English Hands, especially Diplomatic, to about 1600. *Course C :* French Hands, Book and Diplomatic, to about 1500. Sources in the Welsh Language. *Course H: Mediæval Historical Sources in the Welsh Language. Art of the Theatre.* Short courses, open free to the public, are given each year by special lecturers. *Social Science.* The School provides a course of study covering one or two years leading to a Certificate and Diploma in Social Studies. The Diploma Course is designed for University graduates and others who can give evidence that their education has reached a similar standard. *Fees.* Course for the Diploma (2 yrs.), £25; Examination, £3. Course for the Certificate (2 yrs.), £25; Examination, £3. *Civic Design and Town Planning.* The Department (established 1909) is part of the School of Architecture and is intimately associated with it. The University grants a Certificate and Diploma in Civic Design. The Course for the Diploma meets the requirements of qualified students who desire to pursue their studies in Town Planning to a stage demanding a trained artistic sense and a knowledge of the problems involved in civic composition. There are special Lecturers on Landscape Design, the Law of Housing, and Civic Engineering. *Fees:* Course for the Certificate, £10; Examination, £3. Course for the Diploma, £35; Examination, £6: 5s.

FACULTY OF SCIENCE. *Oceanography.* The staff includes Honorary Lecturers in Sea Fisheries, in Economic Ichthyology, and in Marine Biology. The Oceanographic Laboratory is open for research work to graduate students. The Port Erin Biological Station and the Lancashire Sea Fisheries Marine Laboratory at Peel are also available for such work. *Tidal Institute.* Founded in 1919 for research into all aspects of knowledge of the Tides. Graduates are admitted as research workers under the guidance of the Director.

FACULTY OF MEDICINE. *Tropical Medicine.* The School of Tropical Medicine (founded in 1898) trains medical men proceeding to the Tropics in the subject of tropical diseases; conducts researches and organizes prophylactic measures against tropical diseases. The University awards Diplomas in Tropical Medicine and in Tropical Hygiene. Candidates must hold a registrable qualification to practise Medicine, and candidates for the Diploma in Tropical Hygiene the D.T.M. in addition. *Fee* for the D.T.M. Course, £15: 15s.; for Examination and Diploma, £6: 5s. *Fee* for the D.T.H. Course, £15: 15s.; for Examination and Diploma, £6: 5s. *Medical Radiology and Electrology.* The University awards a Diploma in Medical Radiology and Electrology. Candidates must hold a registrable qualification to practise Medicine. *Fee* for the Course, £24: 5s. Examination and Diploma, £6: 5s. in one examination, or £7: 6s. if taken in two parts. *Orthopædic Surgery.* The University awards a Degree of Master of Orthopædic Surgery. *Fee* for the Course, £41; Examination and Degree, £10. *Public Health.* The City of Liverpool and its Port offer exceptional advantages for the study of Public Health, and every facility is afforded for training in sanitary science and State Medicine. The City Laboratories and University School of Hygiene are contained in one building which houses the City Analyst and City Bacteriologist, together with the University staff in Public Health. The University confers the degree of Master of Hygiene and a Diploma in Public Health.

Fees. Degree of Master of Hygiene, 2 yrs., £80; Examination and Degree Fees, £15:10s. General Phonetics (advanced) and Research Work. 5. Spoken English for Foreign Students. Psychology. (a) A new system of General Principles illustrated by explanatory mental tests, with seminar and laboratory course on testing individual abilities, etc. (b) The Sense and Nervous System. (c) Recent Experimental Results. (d) Fundamental Problems and Controversies. (e) Mental Measurement, with Exercises. (f) Physics of Experimentation. (g) Animal Psychology. (h) Comparative Psychology of Primitive Races. (j) Psychology of the Learning Process. (k) Child and Comparative Psychology. (l) Psycho-analytic Study of Conduct and Character. Scandinavian Studies, Danish, Norwegian and

Swedish, Junior or Senior Class, 1 g. for session, Post-graduation work, Literature of nineteenth century; Icelandic. *Statistics*, Applied, and Eugenics (Galton Laboratory for National Eugenics and Biometric Laboratory) Laboratory work (trained students only).

List of Departments other than those named above in which post-graduation courses are provided (v. special pamphlet obtainable from Secretary), *Latin, Greek, Hebrew, English, Romance Philology and French, Germanic Philology and German, Italian, Political Economy, Geography, Philosophy, Principles, History and Method of Science, Tibetan, History of Art, Architecture* (including *Town Planning*), *Mathematics, Pure and Applied, Physics, Chemistry, Geology, Botany, Zoology and Comparative Anatomy, Embryology and Histology, Physiology and Bio-Chemistry, Hygiene and Public Health.*

KING'S COLLEGE—Specialist Courses:

[Fees for Occasional Classes and Seminars are usually at the rate of £1:11:6 per term or £4:4s. for the session for one hour a week in day classes, and £1 per term or £2:10s. for the session in evening classes.] Composition fees for full-time Post-graduate Courses vary from £8:8s. to £22:1s. p.a.

FACULTY OF ARTS: *English Language and Literature and Bibliography.* Evening School of English for post-graduation work, including special Four-year Course for Evening Students for the University Diploma. *Mediæval and Modern History.* Palæography and Diplomatic, Ecclesiastical History, Mediæval History, Russian History, Central European History, Imperial History, Historical Geography. *School of Slavonic Studies.* (a) Russian—full provision for all teaching to B.A. Hons. and higher degrees. (b) Slavonic Philology. (c) Polish Language and Literature. (d) Czecho-Slovak Language and Literature. (e) Serbian Language and Literature. *School of Spanish Studies.* To B.A. Hons. and higher degrees. Phonetics. *Department of Portuguese.* *Modern Greek.* Language and Literature, including Byzantine History and the History of Modern Greece. *Hebrew.* Classes for the Midrash and Talmud. *Psychology.* Special Courses in Educational Psychology, Psychotherapy and the Psychology of Advertising, and for the University Diploma. *Education.* Secondary Teachers' Training Department. Post-graduation work.

College Certificates are awarded in Spanish, Portuguese, Italian, Russian, Hebrew, Czecho-Slovak, Serbo-Croat, and Polish.

FACULTY OF THEOLOGY. Seminars in Biblical and Rabbinical Hebrew, in the Philosophy of Religion and in Ecclesiastical History. Provision for the advanced study of the New Testament.

FACULTY OF NATURAL SCIENCE. *Mathematics and Physics.* Thermionics, Radiation, Quantum Theory, Spectroscopy, Generalized Dynamics, Radio-activity, Atmospheric Electricity and Wireless Telegraphy. *Chemistry.* Optical Activity of Cyclic Compounds, Photo-Chemistry, Stability and Electrical Properties of Colloids, Electro-Chemistry, Carbon Compounds of Sulphur. *Zoology.* Special Research in Experimental Embryology, General Exp. Zoology, Protozoa. *Botany.* Cytology, Genetics.

FACULTY OF MEDICAL SCIENCE. *Physiology.* Research in Experimental Physiology, especially in relation to the Circulation. Biochemistry of the Carbohydrates, Physical Chemistry of Blood, Histology of the Nervous System in health and disease.

FACULTY OF ENGINEERING. Research in Heat Engines, including Steam and Internal Combustion Engines, Refrigeration, Strength and Elasticity of Materials, Hydraulics, Alternating Current Machines, High-tension and Non-Thermionic Amplification.

Special Lectures on "Locomotive Engineering," "Electrical Equipments and their Control."

IMPERIAL COLLEGE OF SCIENCE AND TECHNOLOGY

[Including : THE ROYAL COLLEGE OF SCIENCE ; THE ROYAL SCHOOL OF MINES ; THE CITY AND GUILDS (ENGINEERING) COLLEGE. Specialized Courses are as follows, but advanced work and research are carried out in all Departments of the Colleges. Students have ready access to the Science Library, which is situated in the Royal College of Science, and to the Science Museums adjacent thereto. The Diploma of the Imperial College is awarded for approved advanced study and research extending over not less than one year, and the higher degrees of London are open to students who register as internal students of the University.]

Aeronautical Engineering : Aerodynamics, Design lectures and class, Materials of Aircraft Construction, Construction and Strength of Aircraft, Engine Design, Airships, Meteorology, Air Navigation and Instruments. *Biology* : Bacteriology, Pathology, and Physiology of Plants, Timber for Engineers and Architects, Fungi, Decay of Woods and its prevention, Histology and Embryology, Fibres and Fibre-yielding Plants, Bio-Chemistry, Problems of Heredity, General Entomology, Advanced Entomology, Economic Entomology. *Chemical Technology* : Technology of Fuel, Refractory Materials and Silicate Technology, Manufacture of Glass, Ceramics and Cement, Chemical Engineering, General Chemical Technology. *Geology and Oil Technology* : Mining Geology, Engineering Geology, Geology of Road Construction and Maintenance, Physical Geology. *Mathematics and Mechanics* : Thermodynamics, Motion of Viscous Fluids, Kinetic Theory of Gases, Analysis of Observations, Differential Equations, Electromagnetic Theory. *Technical Optics* : Physical Optics, Optical Designing and Computing, Workshop and Testing Room Methods, Vision and Aids to Vision, Construction Theory and Use of Optical Measuring Instruments, Elasticity applied to Scientific Instrument Design, Advanced Designing and Computing, Mechanical Design of Instruments, Measurement and Recording of Light, Colour and its Measurement. *Physics* : Measurement of High Temperatures and Optical Pyrometry, Spectrum Analysis and Radiation, Internal Combustion Engines, Some New Developments in Physics. *Mechanical Engineering and Motive Power* : Railway Engineering and Mechanical Transport, The Locomotive and Mechanical Transport, Railway Signalling, Electric Traction and Railway Electrification, Bridge Design and Permanent Way. *Civil Engineering* : Structural Engineering, Hydraulic Engineering, Geodesy, Public Works,

Steel Bridges, Reinforced Concrete, Hydraulic Machinery. *Electrical Engineering*: Electrical Machinery, Hydro-Electric Plant, Wireless Telegraphy and Telephony, Alternating Current Commutator Motors, The Organization of Electrical Manufactories, Design of Turbo-Generators, Transformer Practice and Insulation of Electrical Plant.

Composition Fees are at the rate of £62 : 10s. per academic year for course work, and £22 : 10s. for research. They include membership subscriptions to the Unions and Clubs.

EAST LONDON COLLEGE—Advanced and Specialist Courses :

Aeronautics : A special course suitable for those who desire to be trained as Aeronautical Engineers, arranged to run concurrently with the B.Sc. (Engineering) Course. It includes work with an experimental wind channel and special instruction in the construction and design of Aeroplanes. Among the post-graduation courses are *English Language and Literature*, *French Language and Literature*, *Modern History*, Advanced and Research work in *Mathematics*, *Chemistry*, *Physics*, *Botany*, and *Engineering*, for which there are special facilities. *Dramatic Study and Research*. This new school is intimately associated with the School of English Language and Literature. Classes are arranged on the history of the drama and the history of the stage. Special performances of revived and new plays are given in the theatre. Fees—£22 : 2s. for the session.

BIRKBECK COLLEGE—Advanced and Specialist Courses :

Evening Post-graduation courses in *Classics*, *English*, *French*, *German* and *Italian Language and Literature*, *History* and *Geography* ; facilities for advanced work and Research in *Mathematics*, *Chemistry*, *Physics*, *Botany*, *Zoology* and *Geology*. Evening courses for Academic Diploma in *Geography*.

SCHOOL OF ECONOMICS AND POLITICAL SCIENCE

[The name of the subject is followed by the number of lecture hours, and the term or terms (Michaelmas, Lent, Summer) in which the lectures are given. The fee is generally at the rate of about £1 : 5s. for ten hours for day students ; 16s. 8d. for ten hours for evening students.]

The School affords special facilities for research in Economics, Law and Political Science. The Library, which is one of the largest in London, includes the British Library of Political Science, the Cobden Library of International Commerce and Peace, the Fry Library of International Law, and the Schuster Library of Comparative Legislation. There are separate reading-rooms for the different departments. Research students are advised and directed in their research by the senior members of the staff. A large number of seminars are held.

SCHOOL OF ORIENTAL STUDIES

Teaching is provided with opportunities for research in more than 45 languages; in the *history, religions, and customs* of Oriental and African peoples; *Epigraphy*; *Comparative Philology*; *Phonetics*. Fees: For single language classes, with right to attend all other lectures, 8 gs. to 16 gs. Composition, £21 a session.

INSTITUTE OF HISTORICAL RESEARCH

The Institute is the University Laboratory of History devoted exclusively to post-graduation work. It is open to historians, archivists, teachers, and research students from other approved universities.

Introductory Courses. On the Sources of English History in the Thirteenth and Fourteenth Centuries, Th. 3.30-4.30; The Sources of English History in the Fifteenth and Sixteenth Centuries, with practical work illustrating methods of Historical Research, M. 5-6. The Sources of English and Colonial History in the Eighteenth and Nineteenth Centuries, M. 5.30-6.30. The Sources of the History of British India, W. 5-6. Work on Archives, especially the Public Records; 5 lectures and demonstrations to be given in the second and third terms, M. 5.30-6.30. Mediæval Latin, Th. 6-7. Reading of Dutch Historical Texts, W. 4-5. *Seminars*: Greek Palæography, Th. 6.30-7.30. Latin Palæography, Th. 5.30-6.30. The History of England in the Reigns of Edward I. and Edward II., Th. 5-6. English History in the Fifteenth Century, M. 2.30-3.30. European Trade in the Later Middle Ages, M. 7.30-8.30. The History of London in the Fifteenth and Sixteenth Centuries, W. 5.30-6.30. English Constitutional History in the Fifteenth and Sixteenth Centuries, Tu. 5.30-6.30. English Economic History from the Sixteenth Century, Th. 6-7. English History, 1603-1606, W. 4-5. Colonial History: (a) The African Trade, 1660-1837. (b) British North America and the West Indies, 1763-1837, Tu. 5.45-6.45. Diplomatic History in the Seventeenth and Eighteenth Centuries, Th. 5.30-6.30. The Period of the Whig Ascendancy, 1714-1763, F. 5.30-6.30. English Political History in the Eighteenth Century, W. 6-7. Modern French History, W. 3.30-4.30. British India, 1773-1858, M. 5-6. The History of the United States since 1783, W. 5-6. The History of the Great War, 1914-18, Th. 5.15-6.15. The Habsburg Dominions, 1848-1867, Th. 5.30-6.30. Diplomatic History, 1870-1914, Tu. 5.30-6.30. For further information regarding other seminars contemplated apply to the Secretary of the Institute, Malet Street, W.C.1.

BEDFORD COLLEGE FOR WOMEN

Facilities for post-graduation work in Science and in Arts include Pilcher Research Laboratory and Sargent Laboratory of *Plant Physio-*

logy and a Botany garden, exceptionally well equipped *English, French* and *Classical* Libraries, specialist courses for Univ. Diploma in *Journalism* and Academic Diplomas in *Geography* and *Applied Psychology*, College and Ministry of Health's certificates in *Social Studies*. Organized post-graduation courses in French, German, Spanish, Modern History, Latin, Mathematics, Botany, Chemistry, Physics. Composition fees for p.-g. and diploma courses. Fees for separate courses of lectures held once a week—2½ gs. per term.

HOUSEHOLD AND SOCIAL SCIENCE DEPARTMENT OF KING'S COLLEGE FOR WOMEN

Post-graduation classes in *Physiology, Hygiene, Bacteriology, Household Arts, Applied Chemistry*, in preparation for Certificate.

JEW'S' COLLEGE

Rabbinic Literature, Jewish Theology, Jewish History and Literature.

SOUTH-EASTERN AGRICULTURAL COLLEGE, WYE

A. Schools of Agriculture and Horticulture. (Commercial Fruit Growing and Market Gardening.)

B. Facilities are provided for special research work in Agricultural Economics, Economic Entomology and Economic Mycology.

ROTHAMSTED EXPERIMENTAL STATION, HARPENDEN

Laboratories, agricultural library, and experimental farm of 300 acres. Devoted exclusively to research in problems connected with the study of soil and the growing plant in health and disease. The Station does no work on plant-breeding, animal nutrition, agricultural economics, etc. Departments: Bacteriology, Botany, Chemistry, Fermentation, General Micro-Biology, Insecticides and Fungicides, Physics, Plant Pathology (Mycology and Entomology), Statistics. Laboratories also for Algology and technique of Field Experiments. Permanent scientific staff numbers about 40. Provision for post-graduate workers who have already had the necessary training in pure science. Recognized for M.Sc., Ph.D., & D.Sc. London, and M.Sc., Ph.D. Cambridge. Special facilities for gaining experience in field work and for studying methods of agricultural investigation are afforded to graduates proceeding to take agricultural appointments in this country or overseas, and also to officers of Agricultural Departments of the Empire and others engaged in scientific agriculture overseas who, when on leave in this country, may wish to study special problems, to consult the literature, to prepare reports, etc. Facilities are available for investigations not directly connected with agriculture. No fees charged to voluntary workers for the supervision of their work, but a charge is made for apparatus, chemicals, etc., amounting to from £2 : 10s. to £5 a month ordinarily.

BATTERSEA POLYTECHNIC

Facilities for advanced study and research in *Pure Science* and in various branches of technology, e.g. *Chemical Engineering, Applied Bacteriology, Oils, Fats, Waxes and Mineral Oils, Paper-making, and*

Testing. Post-graduation evening courses in Chemical Engineering, etc., have been organised.

NORTHAMPTON POLYTECHNIC INSTITUTE

Facilities for research in *Applied Optics* and *Electrical measurement* are provided.

NORTHERN POLYTECHNIC INSTITUTE

Advanced study and research in various subjects, including *Rubber Technology* and *Piano* (and other musical instruments) manufacture.

SCHOOL OF PHARMACY, Pharmaceutical Society of Great Britain.

SIR JOHN CASS TECHNICAL INSTITUTE

Facilities for advanced study and research in *Physics*, *Mathematics*, *Chemistry*, *Colloids* and *Metallurgy*. Specialist courses in *Alternating Currents* and *Electrical Oscillations*, *Fermentation Industries*, including *Brewing* and *Micro-Biology*, *Petroleum Technology*, *Gas Manufacture*, and *Physical Metallurgy*.

MEDICAL SCHOOLS

Facilities for special research work are offered by the National Institute for Medical Research (Bio-Chemistry and Pharmacology, Exper. Pathology, Bacteriology and Protistology, Applied Optics, Applied Physiology, Medical Statistics), Lister Institute of Preventive Medicine (Bacteriology, Hygiene, Bio-Chemistry, Experimental Pathology, and Protozoology), Middlesex Hospital (Radiology and Electrology, Cancer Research), University College Hospital (Cardiography), Bethlem Royal Hospital (Neurology, Psychological Medicine), Maudsley Hospital, National Hospital for the Paralysed and Epileptic (Neurology), Royal London Ophthalmic Hospital (Ophthalmic Medicine and Surgery), Brompton Hospital for Consumption and Diseases of the Chest, London School of Hygiene and Tropical Medicine (Medical Entomology, Helminthology, Protozoology, Noxious and Venomous Animals. Fees 2 gs. per week.) For information regarding specialized courses arranged by the Fellowship of Medicine and Post-graduate Medical Association, application should be made to the Secretary, 1 Wimpole St., London, W.1.

THE UNIVERSITY OF MANCHESTER

A. Schools and Departments: *Theology*, *Law*, *Medicine*, *Public Health*, *Dental Science*, *Veterinary Science*, *Pharmacy*, *Music*, *Architecture*, *Commercial Science* (including *Administration*), *Engineering* (*Civil*, *Mechanical*, *Electrical* and *Sanitary*), *Metallurgy*, *Mining*, *Education* (including *Training of Teachers of the Deaf*), *Technology* (*Engineering*, *Chemistry*, and *Textiles*).

B. Subjects in which the University is prepared to receive candidates for the Ph.D. degree :

Candidates for the Degree of Ph.D. have been accepted to date in the following subjects: Archæology of Eastern Roman Provinces, Chemistry (Inorganic, Organic, Physical and Applied), Colloids,

Economics, Engineering, Hellenistic Studies, History, Metallurgy, Neurology, New Testament Exegesis, Pharmaceutics, Philosophy, Physics, Physiology, Psychology, Semitic Studies, Sociology, and Zoology.

The General Board of Faculties is prepared to receive applications for recognition from any other department in which candidates may desire to work.

C. Specialist Courses :

Faculty of Arts. In addition to English, French, German, Greek (Hellenistic and Classical), and Latin, instruction is given in Arabic, Chinese, Hebrew, Italian, Provençal, Russian, Spanish, and Syriac. Moreover, special attention is given to the training of students in the methods of Historical Research, with instruction in Palæography and Epigraphy. Special facilities are afforded for research in Historical Cartography by the Mills and Booker collections of maps. There are bibliographical facilities for comparative study of literary theories of the time of the Renaissance.

The Rylands Library offers unique opportunities for advanced study in many branches of modern and ancient literature, for historical research, and for studies in divinity.

Faculties of Science and Technology. In addition to the subjects in which instruction is given in the Honours Schools of the Faculty of Science, special instruction and facilities for research are furnished in the scientific laboratories in the University buildings in *Botany*, Economic (including Cotton Mycology); *Crystallography*; *Electro-Chemistry* (Pure and Applied); *Industrial Psychology*; *Water Supply and Irrigation*; *Hydraulics and Hydro-electric Engineering*, and *Internal Combustion Engineering*; *Zoology*, *Parasitology*, and *Economic Zoology* (including Cotton Entomology). The recently established Graham Research Laboratory offers special facilities for the study of *Colloids*. In the Public Health Laboratories, York Place, courses are delivered and investigations may be undertaken in *Bacteriology* and *Preventive Medicine*, including *Veterinary State Medicine* and also *School and Factory Hygiene*. Research in *Mining* may be pursued either in the Faculty of Science or in the Faculty of Technology.

In the Faculty of Technology (College of Technology) complete plant is installed for practical and research work in *Brewing*, *Colouring Matters* (in the Dye Stuffs Research Laboratory), *Cotton Technology* (Spinning and Weaving, including Textile Testing), *Photographic Technology*, *Wireless Telegraphy* and *Telephony*. In the Dye House of the College complete plant is installed for *Bleaching*, *Dyeing*, *Finishing*, and *Printing*, and also for *Paper-making*. Practical and research work in High Voltage Technology in the High Tension Laboratory.

Faculty of Medicine. Research may be pursued in any of the subjects forming part of the courses leading to the degrees of M.B. and Ch.B., but special facilities exist for the study of *Cancer Research* (in the Helen Swindells Laboratory and the Christie Cancer Pavilion, and in conjunction with the local Cancer Research Committee), *Human Physio-*

logy and Bio-Chemistry, Neurology and Psychological Medicine, and in Factory and School Hygiene, and in Preventive Medicine in the Public Health Laboratory (see Faculty of Science Prospectus and above).

A Laboratory for Clinical Investigations and Research has been established in the Manchester Royal Infirmary under a director appointed by the University.

A scheme arranged in conjunction with various local hospitals provides, in addition to the existing post-graduate courses (D.P.M., D.P.H., Dp. Bact., D.V.S.M.), for intensive general courses in Medicine, Surgery, Obstetrics and Gynæcology; for advanced courses, each of about ten weeks' duration, in (1) Diseases of the *Digestive System*; (2) *Neurology*; (3) Diseases of the *Circulatory System*; (4) Diseases of *Children*; (5) *Orthopædic Surgery*; and (6) *Genito-Urinary* diseases; and for other special courses.

Faculty of Commerce and Administration. The University has received valuable gifts and loans of collections of eighteenth and early nineteenth century records of firms engaged in the cotton industry and trade and in allied industries, and this material is available for students working in the department.

Faculty of Theology. The John Rylands Library contains valuable material on which work can be pursued under the direction of the Professor of *Comparative Religion*, and in connexion with the subject of *Christian Epigraphy* there are special facilities, particularly in connexion with the recent investigations conducted in Asia Minor by the lecturer in that subject.

Faculty of Education. Research in *Education* leading to the degree of M.Ed. may be pursued under the supervision of the Director of this department.

POST-GRADUATE DIPLOMAS AND CERTIFICATES

The following post-graduate diplomas are obtainable :

Bacteriology, Geography, Psychological Medicine, Public Health, Veterinary State Medicine, Teacher's Diploma.

The following post-graduate certificates are obtainable :

Factory and School Hygiene, Teachers of the Deaf.

UNIVERSITY OF OXFORD

For information regarding courses leading to Degrees open to graduates of other Universities the pamphlet on Facilities for Advanced Studies and Research published by the University Press should be consulted. The Degrees in question are those of B.Litt., B.Sc., D.Phil., B.C.L., and B.D. The pamphlet may be obtained at the Clarendon Press Depository, 116 High Street, Oxford.

UNIVERSITY OF READING

A. Schools and Departments: *Agriculture, Dairying, Horticulture, Education, Commerce, Fine Art and Crafts, Music, Domestic Subjects.*

B. The University is prepared to receive candidates for the Ph.D. degree in *Philosophy, English, French, History, Physics, Chemistry, and Botany*. Applications for preparation for the degree in other subjects in the Faculties of Letters and Science can be considered. Post-graduation courses are also provided in *Agriculture and Horticulture*.

C. Specialist subjects :

Exceptional attention is given to *Dairying Science and Practice*. Students wishing to undertake advanced work in this subject should first obtain a degree in Science or a degree or a diploma or diplomas in Agriculture or Dairying. They could then undertake advanced work either in the University laboratories and the British Dairy Institute in Reading or at the National Institute for Research in Dairying (forming part of the University) at Shinfield. The University courses usually begin in October. A post-graduation or post-diploma course would usually occupy at least a year.

UNIVERSITY OF SHEFFIELD

A. Schools and Departments: *Law, Medicine, Dental Science, Civic Art, Architecture, Engineering, Metallurgy, Mining, Fuel Technology, Glass Technology, Education*.

B. Subjects in which the University is prepared to receive candidates for the Ph.D. degree :

Candidates for Ph.D. degree are received in the Faculties of ARTS, PURE SCIENCE, LAW, ENGINEERING (including *Mining, Fuel Technology, Glass Technology*), METALLURGY.

C. Specialist subjects :

Pharmacology. The Animal Nutrition Laboratories are a special feature of the University, where research workers who are graduates in Science or Medicine are admitted to work under the Professor of Pharmacology. *Physiology*. In this Department special facilities are offered for research in Physiology and Physiol. Chemistry for graduates in Science or Medicine. *Engineering*. The Laboratories are equipped for courses of experimental work in Heat Engines, Hydraulics, Strength of Materials and Structures, and Electrical Engineering. In connexion with the Civil Engineering Course several weeks are spent in the field carrying out important surveys. The University awards the degrees of B.Eng., three years being spent for a Pass Degree and four years for Honours, and the Higher Degrees of M.Eng., Ph.D., and D.Eng. Students may take what is known as the "sandwich" course, which includes attendance at the University during the Winter Session, and practical training at an approved works during the six summer months. This course extends over a minimum period of four years. The Laboratories are provided with apparatus and machines for testing the mechanical properties of materials. There is a complete equipment for investigating the resistance of metals to fatigue and the effect of temperature on their properties. A special laboratory is equipped for and devoted to the investigation of the magnetic properties of steels.

Metallurgy. The University is the most fully equipped educational institution in the country for the study of the Metallurgy of Iron and Steel. Attached to the department are large-scale laboratories in which steel can be melted in the crucible open-hearth and electric furnaces, and heat-treatment can be carried out. The research laboratories are equipped with micrographic and physical apparatus, including a high-frequency induction furnace. The Department of Refractories includes laboratories for research. **Mining.** Courses in Mining Engineering, including the practice of Mining, Mine Surveying, Mining Chemistry, Geology, and Electrical Engineering. The "sandwich" courses for Degree and Diploma in Mining course are recognized by the Mines Department, Board of Trade, as exempting from 2 of the 5 years' practical experience required for Colliery Manager's certificate. In the first year students spend 3 terms at the Univ. and 6 months at a colliery under Univ. regulations. Facilities provided for research. **Fuel Technology.** Courses embodying the practical evaluation of Solid, Liquid, and Gaseous Fuels, Coal Carbonization and By-product recovery, and Electro-Technology. Practical experience in working a modern gas producer in conjunction with steel-melting furnaces, and in Pyrometry. **Technology of Glass.** Courses of instruction in general technology of glass, physical properties of glass, glassworks machinery and furnace construction, and practical work includes analytical methods, pyrometry, physical testing and melting of glass on a considerable scale. The Department has been equipped as a special research institute.

UNIVERSITY OF WALES

UNIVERSITY COLLEGE OF WALES, ABERYSTWYTH

A. Schools and Departments: *Law*; *Music*; *Agriculture* (including *Plant Breeding*); *Education*; *Arts and Crafts*.

B. Post-graduation courses leading to the Ph.D. or other higher degrees:

ARTS: *Classics*; *English*; *French*; *German*; *Celtic*; *History*; *Politics*; *Economics*; *Philosophy*; *Geography*; *Education*; *Mathematics*.

SCIENCE: *Mathematics*; *Physics*; *Chemistry*; *Botany*; *Agriculture*; *Zoology*; *Geology*; *Geography*; *Anthropology*.

C. Specialist Subjects:

Anthropology—Comparative Religion, early social organization, folk-lore, prehistoric archæology, mapping of human distributions, physical anthropology. **Botany**—Maritime life-histories and ecology. **Classics**—Rhythms of ancient prose, word-order. **Education**—Problems of bi-lingualism. **History** of British Dominions and of Latin America. **Plant Breeding**—Special study of breeds of grasses. **Politics and Economics**—Mediæval economics, modern international problems. **Zoology**—Marine faunistic work, plumbism, entomology.

UNIVERSITY COLLEGE OF NORTH WALES, BANGOR

A. Schools of *Theology, Music, Education, Agriculture, Forestry.*

B. Subjects in which the college is prepared to receive candidates for the Ph.D. :

Welsh History, Welsh Language and Literature, Comparative Philology (especially Celtic and Teutonic), *Semitics, Mathematics, Physics, Chemistry, Botany, Zoology, Agricultural Chemistry, Botany and Zoology*, and other subjects, provided the special investigation proposed is suitable.

C. Specialist Courses :

Welsh History. Mediæval History : The Reformation in Wales : Religious and Social Conditions in the eighteenth and nineteenth centuries : Economic History. *Welsh Literature.* Ancient Welsh Poetry : Dafydd ap Gwilym : Welsh prosody : modern Welsh Literature : Comparative Celtic Philology. *German.* Germanic Philology : German Dialects : Middle High German Poetry. *Semitics.* Semitic Philology : Hebrew (Old Testament problems) : Arabic (Classical : Modern dialects of Syria and Egypt : Arabic grammar as set forth by Arab grammarians) : Courses in Babylonian, Assyrian, Syriac, and Biblical Aramaic.

UNIVERSITY COLLEGE OF SOUTH WALES AND
MONMOUTHSHIRE, CARDIFF

A. Schools of *Education, Music, Engineering, Metallurgy, Mining, Medicine* (including *Public Health Science* and *Tuberculosis*).

B. Subjects in which the College is prepared to receive candidates for Ph.D. degree :

ARTS : *Greek, Latin, English, Welsh, French, German, Hebrew and Arabic* (including Syriac), *Mathematics, Economics and Political Science, Philosophy, Education.*

SCIENCE : *Botany, Chemistry, Geology, Mathematics, Physics, Physiology, Zoology.*

TECHNOLOGY : *Engineering, Metallurgy, Mining.*

C. Specialist Subjects :

ARTS : *Greek Drama ; Modern English Drama ; History of Latin Language and Literature ; Roman History*, with study of Roman Britain, with field work ; *Comparative Literature* of Wales and France in the Middle Ages ; *Arthurian Legend ; Anglo-Norman ; Arabic* (including Syriac) ; *Money and Banking.*

SCIENCE : *Chemistry.* Experimental work on the Phase Rule and on the mechanism of reactions. *Engineering.* Theory of structures, with special reference to aircraft. *Geology.* The South Wales coal-field and the lower Palæozoic rocks of Wales and of "Siluria." *Mathematics.* Mathematical Physics. *Physiology.* Experimental Neurology and Bio-Chemistry. *Zoology.* The Crustacea.

MEDICINE : Special opportunities for research work in bio-chemistry, experimental physiology, and the physiology of the nervous system. Unusual facilities, organized by the Professor of Tuberculosis, are given for instruction for the Diploma in Tuberculous Diseases (T.D.D., Wales), which is awarded to qualified medical men who, in addition to complying with certain specified conditions, have pursued and successfully completed a course of study extending over 6 months.

UNIVERSITY COLLEGE OF SWANSEA

A. Schools of *Metallurgy, Engineering, Education.*

B. Subjects in which the College is prepared to receive candidates for the Ph.D. degree :

ARTS : *Welsh Language and Literature, Welsh History, Philosophy.*

SCIENCE : *Mathematics, Physics, Chemistry, Botany, Geology, Metallurgy, Engineering.*

Other subjects, provided that the special subject proposed is suitable.

C. Specialist Subject :

Metallurgy (Ferrous and Non-ferrous).

UNIVERSITY COLLEGE OF THE SOUTH-WEST OF ENGLAND, EXETER

A. Schools of *Music, Education, Pharmacy.*

B. Subjects in which the College is prepared to receive candidates for the Ph.D. degree :

English, Physics. Other departments in Arts and Pure Science could also receive candidates in a certain limited range of subjects.

C. Specialist Subjects :

Cornish Language and Antiquities, intended for students who have made some progress in Celtic studies. Part of the Course will be given in Cornwall. Students may enter for it at the beginning of any of the three terms. Fee 5 guineas per term.

UNIVERSITY COLLEGE OF NOTTINGHAM

A. Schools and Departments : *Music, Commercial Science, Engineering, Mining, Agriculture and Dairying, Textiles, Pharmacy, Education.*

B. Subjects in which the College is prepared to receive candidates for the Ph.D. degree of London :

Philosophy, English, French, History, Physics, Chemistry, Botany, Geology, Mathematics, Engineering, Economics, Education.

C. Specialist Subjects :

Slavonic Languages, Fuel, Coal and Gas Technology, Textiles, Adult Education. One-year course for graduates desirous of qualifying as Tutors of University Tutorial Classes leading to Diploma in Education. Fee 12 guineas.

UNIVERSITY COLLEGE OF SOUTHAMPTON

A. Schools of *Music, Commercial Science, Engineering, Education.*

B. Subjects in which the College is prepared to receive candidates for the Ph.D. degree.

Various departments of ARTS and SCIENCE, EDUCATION and ENGINEERING.

UNIVERSITY OF ABERDEEN

A. Schools of *Theology, Law, Medicine, Fine Art, Commercial Science, Agriculture, Forestry, Education, Engineering.*

B. Subjects in which the University is prepared to receive candidates for the Ph.D. degree. Applications for admission to courses of study and research for the Ph.D. Degree will be considered when received. There are special Post-graduation Courses in Theology.

C. Specialist Subjects :

Celtic, Comparative Philology, Oceanography and Fisheries, Comparative Psychology, Cancer Research, Parasitology and Helminthology, Meteorology.

Special facilities for Post-graduation and Research work in Animal Nutrition and cognate subjects are afforded by the Rowett Research Institute and Experimental Farm.

UNIVERSITY OF EDINBURGH

A. Schools and Departments : *Theology, Law, Medicine, Tropical Medicine, Pure Science, Technical Chemistry, Veterinary Science, Music, Art, Commercial Science, Engineering, Mining, Agriculture, Forestry, Education.*

B. Post-graduation Courses are provided in the following amongst other subjects :

Latin ; Greek ; Classical Archæology and Hellenic Art ; Greek and Roman History ; English Literature and Rhetoric ; French Literature ; German Historical Grammar and Literature ; Italian ; Literary Relations of England and Italy during the seventeenth, eighteenth and nineteenth centuries ; Spanish, Mediæval Text and Linguistic problems (the Advocates' Library has a specially interesting collection of old and rare Spanish books) ; Semitic Languages ; Theology, by the University Professors and the staff of New College and of Coates Hall ; Logic, Metaphysics, History of Philosophy and Ethics ; Psychology ; Education ; Economics ; Pure and Applied Mathematics ; Natural Philosophy ; Chemistry (Note—In this Department a new building with complete equipment for teaching and research work has recently been erected at a cost of over £200,000) ; Zoology ; Botany ; Geology ; History ; Constitutional History ; Scottish History ; Engineering ; Law ; Medicine ; Forensic Medicine ; History of Medicine ; Pharmacology ; Gynæcology ; Pathology and Bacteriology ; Psychiatry ; Radiology ; Surgery ; Therapeutics ; Tuberculosis.

For information regarding the subjects in which the University is prepared to receive candidates for the Ph.D. degree, inquiries should be addressed to the Secretary to the University, or to the Dean of the Faculty concerned.

For information regarding Post-graduation Courses in Medicine application should be made to the Secretary, P.-G. C. in M., New Buildings, Edinburgh.

C. Specialist Subjects :

Celtic. A. Ordinary Course—Open only to students who have passed a preliminary test. B. Course for graduates—Modern and Middle Gaelic texts ; Middle Irish Grammar ; Gaelic Literature, Philology, etc. C. Honours Courses, including Manx, Old Irish, History of Celtic Britain and Ireland and of the Celtic Church, Comparative Philology. *Sanskrit and Comparative Philology*, with *Indian Religion and Philosophy*. *Arabic*, Junior, Senior and Honours Courses. *Scottish History and Palæography*. A. Ordinary Course. B. Honours Course, designed to aid students in dealing with original authorities. C. Palæography, directed mainly to the practical study of Scottish records. *Colonial and Indian History*. A. Ordinary Course—divided into *a*, the old Colonial System (to 1783) ; *b*, the Self-governing Dominions ; *c*, India, Crown Colonies, and Dependencies. B. Honours Course. The Self-governing Colonies since 1837. *Fine Art*. Graduation Course—The History and Theory of the Fine Arts from the earliest manifestations of Art in primitive civilization, through Egypt and Babylonia, and the Classical, Early Christian, and Mediæval epochs, to the more modern developments of Painting and the other arts in our own days. *Geography*. A. Ordinary Course covering cartography, climatology, oceanography, and political and economic geography, especially of the Mediterranean region and Central and Western Europe. B. Honours Course—Economic Geography, History of Geography, Historical Geography, Economic Ethnography. The Diploma in Geography is obtainable by graduates of other universities. *Actuarial Science*. There is a Diploma in Actuarial Mathematics, the teaching for which is provided by the Faculty of Actuaries and the University jointly. *Mathematics*. The Mathematical Institute (a large separate building) contains a Mathematical Laboratory for advanced practical computations. *Astronomy*. Lectures at the University, practical exercises at the Royal Observatory, Blackford Hill. *Agriculture*. The course includes the History of British Agriculture, Indian and Colonial Agriculture, etc. *Forestry*. The course includes Indian Forest Trees ; practical work at Dreghorn and in various British and French woods. *Veterinary Science*. The course includes the Origin and History of the more important Domestic Animals ; Genetics in relation to Animal Breeding.

UNIVERSITY OF GLASGOW

A. Schools of *Theology*, *Law*, *Medicine*, *Pharmacy* (Royal Technical Coll.), *Architecture* (R. Tech. Coll.), *Naval Architecture* and *Marine Engineering*, *Engineering*, *Metallurgy* (R. Tech. Coll.), *Mining*, *Mining*

Geology, Agriculture, including Dairying (West of Scotland Agricultural Coll.), Education.

B. Subjects in which the University is prepared to receive candidates for the Ph.D. degree :

In relation to the above, candidates should submit their applications to the Clerk of Senate, giving details of the subject or subjects which it is proposed to study. The University is able to arrange for Post-graduation work in the following : *English, History (Modern and Mediæval), Scottish History and Literature, Constitutional Law and History, Logic, Moral Philosophy, Political Economy (including Political Philosophy, Social Economics and Economic History), Education, Latin, Greek, French, German, Italian, Celtic, Russian, Hebrew, Arabic, Mathematics, Natural Philosophy and Applied Physics, Chemistry, Astronomy, Botany, Zoology, Geology, Geography ; Civil, Electrical, Mining, Chemical Engineering ; Theory and Practice of Heat Engines, Naval Architecture with Marine Engineering ; Anatomy, Physiology, Physiological Chemistry, Materia Medica, Pathology, Bacteriology, Public Health, Forensic Medicine, Medical Pædiatrics, Practice of Medicine, Surgery, Midwifery, Obstetrics and Gynæcology ; Divinity, Biblical Criticism, Ecclesiastical History ; Scots Law, Conveyancing, Mercantile Law, Civil Law, Public International Law, International Private Law, Jurisprudence, Accountancy.*

Note.—Subdivisions of the above subjects are not detailed here. Information as to these can be had from the Clerk of Senate.

The Glasgow Post-graduate Medical Association offers exceptional opportunities for advanced study. Among others, courses may be had in the following : *Clinical Medicine (e.g. Diseases of the Nervous System, Diseases of the Heart), Infectious Fevers and Tuberculosis, Clinical Surgery, Diseases of the Eye, Obstetrics, Venereal Diseases, Diseases of the Ear, Nose and Throat, Children's Diseases, Gynæcology, X-rays, Skin Diseases.* (Application for information should be made to the Secretary, Glasgow Post-Graduate Medical Association, The University, Glasgow.

For information regarding the *Diploma in Public Health*, application should be made to the University Registrar.

C. Specialist Subjects : The Senate, with the approval of the University Court, has recently instituted for Graduates and other advanced students (chiefly from Universities overseas), Post-graduate Diplomas and Certificates for Special Study in Arts. The subjects at present recognized for special study are : *Islamic History, Greek History and Archæology, Roman History and Antiquities, Comparative Philology, Hellenistic Greek, Psychology.*

ROYAL TECHNICAL COLLEGE, GLASGOW

Provision is made for post-graduation studies of candidates for Ph.D. and other higher degrees, and the Associateship of the College is awarded to qualified students who have taken an approved course of advanced study and research. Special apparatus is available for research in the following subjects :

Technical Chemistry. Operations in industrial Chemistry. The Experimental plant includes filter and hydraulic presses, vacuum pan, double-effect evaporator, etc. Fuels, Oils, Dyes and Dyeing. The *School of Sugar Manufacture* forms part of this department and includes plant for experiments on a large scale. *Metallurgy* : Physical properties of metals and their alloys, and of slags and refractories. Apparatus for determination of thermal, electrical and magnetic properties ; dilatation determinations ; thermionic emissivity of metals. *Strength of Materials* : Strength and fatigue of materials at high temperatures and in different atmospheres. *Mechanical Engineering* : Losses in steam nozzles and in turbine blades ; temperature distribution and fuel efficiency in internal combustion engines ; heat transmission from fluid to fluid, across metal surfaces ; frictional resistances, etc. Advanced lecture courses are also given in special branches of technical dynamics such as : critical speeds of turbine shafts, torsional oscillations of crank and propeller shafts ; stresses in turbine discs, etc. *Electrical Engineering* : Railway electrification ; all types of electrical machinery ; interference with communication circuits by power circuits ; domestic electrical apparatus. Advanced courses deal with turbo-alternators, electric traction, etc. *Hydraulic Engineering* : Experimental study of losses in water flow and of the action of water in turbine and reciprocating pumps. Composition fee, twenty-five guineas per annum.

UNIVERSITY OF ST. ANDREWS

A. Schools of *Theology, Medicine, Engineering.*

B. Provision is made for advanced study and research in the following departments :

Latin, Greek, Hebrew, English, French, German, Philosophy, Psychology on its philosophical side, and more particularly in its relation to Theory of Knowledge ; *Moral Philosophy, Moslem Philosophy and Religion, Education, History, Scottish History, Ecclesiastical History, Mathematics, Natural Philosophy, Chemistry*, especially carbohydrates and sugars, Constitution of Natural Products, Essential Oils, Optical Activity ; *Zoology*, including work at the Gatty Marine Laboratory in St. Andrews Bay ; *Botany, Geology, Anatomy (Anthropology and Embryology), Physiology*, especially the Ductless Glands and Metabolism ; *Ophthalmology, Bacteriology.*

UNIVERSITY OF BELFAST

A. Schools and Departments : *Law, Medicine, Dental Science, Commercial Science, Civil Engineering, Applied Science* (Municipal College of Technology), *Education, Agriculture.*

B. Subjects in which the University is prepared to accept students for the Ph.D. or other higher degree. Application for admission to courses of Post-graduation study will be considered as and when received.

C. Specialist subjects :

In conjunction with the Ministry of Agriculture, the department of *Agricultural Chemistry* is responsible for research work in Animal Nutrition and Soils and Plant Nutrition ; the department of *Agricultural Botany* has charge of " Seed Testing " and Plant Pathology Research in Northern Ireland. Extensive laboratories are in course of erection. Ample facilities also exist for Post-graduation work on Plant Genetics and Animal Hygiene at the Plant-breeding and Animal Pathology laboratories of the Ministry of Agriculture. *Naval Architecture*. Ship Design and Construction, Stability and Oscillation of ships, Resistance and Propulsion of ships, Marine Engineering. *Chemical Technology*. Bleaching, Dyeing, Finishing and Printing of Textile fibres and fabrics. *Textile Technology*. Flax culture, preparation and spinning, designing and colouring of woven fabrics ; Textile costing, testing and analysis ; weaving mechanism ; Mill and Factory equipment and administration. The Departments of *Bio-Chemistry* and *Bacteriology* afford facilities for Post-graduation research on these subjects.

UNIVERSITY OF DUBLIN, TRINITY COLLEGE

A. Schools of *Divinity, Law, Physic, Dental Science, Engineering, Agriculture, Music, Education, Commerce*.

For information regarding courses leading to the degree of Ph.D. in the various Faculties ; to the degree of Master in the Faculties of Engineering, Surgery and Midwifery ; and to the degree of Doctor in the Faculties of Divinity, Law, Medicine, Science, Literature and Music, application should be made to the Registrar, Trinity College, Dublin.

A pamphlet setting forth the facilities for advanced study and research can be obtained on application to the Registrar.

NATIONAL UNIVERSITY OF IRELAND

A. Schools of *Law* (University Colleges of Dublin, Cork, and Galway), *Medicine* (Dublin, Cork, and Galway), *Dental Science* (Dublin and Cork), *Music* (Dublin and Cork), *Architecture* (Dublin and Cork), *Commercial Science* (Dublin, Cork, and Galway), *Engineering* (Dublin, Cork, and Galway), *Agriculture, Forestry, and Horticulture* (Dublin and Cork), *Education* (Dublin, Cork, and Galway), *Dairy Science* (Cork). Specialist courses in all Univ. Colls. in *Celtic Archæology, Celtic and Irish Languages and Literatures, Irish History* ; in Univ. Coll., Dublin, in *Anthropology*, and in Univ. Coll., Cork, in *Applied Chemistry and Agricultural Economics*.

A LIST OF CENTRES OF RESEARCH OUTSIDE THE
UNIVERSITIES AND UNIVERSITY COLLEGESRESEARCH STATIONS UNDER THE DEPARTMENT OF SCIENTIFIC AND
INDUSTRIAL RESEARCH

1. National Physical Laboratory, Teddington, Middlesex. The Laboratory comprises the following Departments: Physics, Electricity, Metrology, Engineering, Aerodynamics, Metallurgy and Metallurgical Chemistry, William Froude National Tank.
2. H.M. Fuel Research Station, Blackwall Lane, Greenwich, S.E.10.
3. Geological Survey of Great Britain and Museum of Practical Geology, 28 Jermyn Street, S.W.1.
4. Forest Products Research Laboratory, c/o Royal Aircraft Establishment, S. Farnborough, Hants.
5. Building Research Station, Bucknall's Lane, Garston, near Watford.
6. Radio Research Station, Ditton Park, Langley, Bucks.
7. Chemical Research Laboratory, Teddington, Middlesex.
8. Low Temperature Research Station, Downing St., Cambridge.
9. British Museum Laboratory, 39 Russell Sq., W.C.

OTHER CENTRES OF RESEARCH

10. British Museum (Natural History), Cromwell Rd., London, S.W.7.
11. Imperial Institute, South Kensington, London, S.W.7.
12. Imperial Bureau of Entomology, Natural History Museum, Cromwell Road, London, S.W.7.
13. Imperial Bureau of Mycology, 17 Kew Green, Kew, Surrey.
14. Royal Botanic Gardens, Kew, Surrey.
15. National Institute of Agricultural Botany, Cambridge.
16. Rothamsted Experimental Station, Harpenden, Herts.
17. Empire Cotton-Growing Corporation, Millbank House, 2 Wood Street, Millbank, London, S.W.1.
18. Harper Adams Agricultural College, Newport, Salop.
19. Midland Agricultural and Dairy College, Sutton Bonington, Loughborough.
20. Seale-Hayne Agricultural College, Newton Abbot, Devon.
21. The West of Scotland Agricultural College, 6 Blythswood Square, Glasgow.
22. East of Scotland Agricultural College, 13 George Square, Edinburgh.
23. North of Scotland College of Agriculture, 41½ Union Street, Aberdeen.
24. Scottish Society for Research in Plant-Breeding, Corstorphine.

25. Animal Diseases Research Association (Scotland), 83 Buccleuch Street, Glasgow.
26. Research Institute in Animal Pathology, Royal Veterinary College, Camden Town, London, N.W.1.
27. Veterinary Laboratory of the Ministry of Agriculture and Fisheries, Weybridge.
28. Horticultural Research Station, Walthamstow.
29. Horticultural College for Women, Swanley, Kent.
30. Horticultural Research Station, East Malling, Kent. (Chiefly fruit and hops.)
31. Experimental and Research (Glasshouse) Station, Cheshunt.
32. John Innes Horticultural Institution, Mostyn Rd., Merton, London, S.W.19.
33. Scottish Marine Biological Association, Millport, Scotland.
34. Marine Biological Association of the United Kingdom, The Laboratory, Citadel Hill, Plymouth.
35. Davy-Faraday Research Laboratories of the Royal Institution of Great Britain, 20 and 21 Albemarle St., London, W.1. Director—Sir Wm. Henry Bragg, K.B.E., M.A., D.Sc., F.R.S.
36. Industrial Institute, 102 Belgrave Road, London, S.W.1.
37. National Institute of Industrial Psychology, 329 High Holborn, London, W.C.1.

[Persons wishing to avail themselves of the resources of any of the above centres are advised to call in the first instance for suggestions and advice on the Ministry of Agriculture and Fisheries in London, or the Board of Agriculture in Scotland, if the subjects in which they are interested fall within the purview of these Departments, and in regard to centres 1 to 9 on the Department of Scientific and Industrial Research.]

RESEARCH ASSOCIATIONS ESTABLISHED UNDER THE SCHEME OF THE DEPARTMENT OF SCIENTIFIC AND INDUSTRIAL RESEARCH

- British Photographic Research Association, 30 Russell Square, London, W.C.1.
- British Scientific Instrument Research Association, 26 Russell Square, London.
- British Research Association for the Woollen and Worsted Industries, "Torridon," Headingley, Leeds.
- Research Association of British Motor and Allied Manufacturers, 15 Bolton Road, Chiswick, London, W.4.
- British Boot, Shoe and Allied Trades Research Association, Regent House, Kingsway, London, W.C.2.
- British Cotton Industry Research Association, Shirley Institute, Didsbury, Manchester.
- British Iron Manufacturers' Research Association, Atlantic Chambers, Brazenose Street, Manchester.
- Linen Industry Research Association, Lambeg, Belfast.
- Research Association of British Rubber and Tyre Manufacturers, 105/107 Lansdowne Road, Croydon, Surrey.

- British Association of Research for Cocoa, Chocolate, Sugar, Confectionery and Jam Trades, 22 Buckingham Gate, London, S.W.1.
- British Food Manufacturers' Research Association, 22 Buckingham Gate, London, S.W.1.
- British Non-Ferrous Metals Research Association, Athenæum Chambers, 71 Temple Row, Birmingham.
- British Refractories Research Association, 22 Surrey Street, Strand, London, W.C.2.
- Scottish Shale Oil Scientific and Industrial Research Association, 53 Bothwell Street, Glasgow.
- British Launderers' Research Association, 17 Lancaster Gate, London, W.2.
- British Leather Manufacturers' Research Association, 26 St. Thomas' Street, London, S.E.1.
- British Cutlery Research Association, P.O. Box 49, Sheffield.
- British Electrical and Allied Industries Research Association, 36/38 Kingsway, W.C.2.
- British Motor Cycle and Cycle Car Research Association, "The Towers," Warwick Road, Coventry.
- British Silk Research Association, 19 Russell Square, London, W.C.1.
- British Cast Iron Research Association, 24 St. Paul's Square, Birmingham.
- Research Association of British Flour Millers, 40 Trinity Square, London, E.C.3.
- British Colliery Owners' Research Association, c/o The Mining Association of Great Britain, General Buildings, Aldwych, W.C.2.
- Research Association of British Paint, Colour, and Varnish Manufacturers, 8 St. Martin's Place, Trafalgar Square, W.C.2.

[The following notes are based on replies received to an inquiry as to what opportunities are available at these centres for research by visitors from outlying parts of the Empire.]

1-9. Research workers from overseas are not accommodated in the research stations of the Department of Scientific and Industrial Research unless sent by Dominion and Colonial Governments by arrangement with the Department. Visitors from the Dominions or Colonies making enquiries on subjects falling within the scope of the various stations will, however, be supplied with such information as is available for communication.

3. THE GEOLOGICAL SURVEY AND MUSEUM assists students and others doing research as follows: (a) Palæontology, Petrology and Mineralogy; the collections of British fossils, rocks, and minerals are always available under the guidance of the officer in charge. If sufficient reason is shown specimens may be lent out. Microscopes and all necessary apparatus are provided in the Survey's laboratories. (b) Mapping and field work. In the library large scale maps of all parts of Britain which have been geologically surveyed are open for reference, and often the officers who

made the maps are at hand to explain points of difficulty. (c) The library is especially rich in foreign surveys and in British geological literature. The public are admitted freely.

10. BRITISH MUSEUM (NATURAL HISTORY). Departments: Zoology, Entomology, Geology (Palæontology), Mineralogy, Botany. In addition to the specimens exhibited in the public Galleries, much larger series are contained in the study-collections, which can be consulted or used for purposes of research by duly qualified workers. The function of the Museum is primarily to preserve representatives of the animals and plants (including fossils) of the entire world and of such inorganic natural productions as minerals, rocks, and meteorites. The systematic determination, description, and classification of this material constitute the principal research-work of the scientific staff (49 members) and other helpers. This forms the basis of further scientific research carried on either inside or outside the Museum, such as the study of variation, methods of organic evolution, geographical distribution of animals and plants, correlation of strata, chemical and physical properties of rocks and minerals, study of crystals. All these branches of science may in turn be applied to the solution of practical problems.

11. IMPERIAL INSTITUTE. The principal object of the Institute is to promote the utilization of the raw materials of the Empire, and the investigations carried out in its laboratories are primarily directed to this end. The work includes the examination of all kinds of plant products and minerals; special laboratories have also been installed for the testing of timbers, rubber, cement and ceramic materials. The results of the principal investigations are published in the quarterly bulletin of the Institute and in papers contributed to scientific and technical societies. Valuable information relating to the composition, properties, etc., of raw materials of all kinds has been accumulated in the course of the work, and the Institute will be glad to assist overseas research workers dealing with such materials by supplying any available information regarding particular products in which they are interested. Arrangements have been made in special cases for workers from overseas to carry out investigations in the laboratories of the Institute.

The *Imperial Mineral Resources Bureau* was amalgamated with the Institute in 1925.

12. IMPERIAL BUREAU OF ENTOMOLOGY. An information and identification bureau to assist economic entomologists throughout the Empire. The publications include the *Review of Applied Entomology*, Series "A" (Agricultural) and Series "B" (Medical and Veterinary); the *Bulletin of Entomological Research*; and the *Zoological Record*, part "Insecta." A large lending library is available.

13. IMPERIAL BUREAU OF MYCOLOGY. Mycologists from overseas are admitted to its laboratories to the extent to which space is available. A large lending library of pamphlets is maintained. *Review of Applied Mycology*, published by the Bureau monthly, contains detailed abstracts in English of all work published in any part of the world.

14. ROYAL BOTANIC GARDENS, KEW, afford to botanists, especially from the Colonies, facilities for carrying out scientific investigations in the Library, Herbarium, Economic Museums, and the Jodrell Laboratory. The principal botanical work carried out is concerned with the preparation of Colonial Floras and the naming of plant collections from abroad. Information is also supplied on botanical matters to all parts of the Empire. Research work is carried out on matters relating to Economic, Systematic, and Phytogeographical Botany and also in Mycology. Botanists should apply to the Director for permission to work in the Herbarium or in the Laboratory.

15. THE NATIONAL INSTITUTE OF AGRICULTURAL BOTANY, Huntingdon Road, Cambridge, was established in 1919 to improve the yield and quality of farm crops. The two main branches of the work are (a) Crop Improvement, covering field trials of farm crops at six regular sub-stations in England and Wales, and occasionally at other centres, the distribution of seed of improved varieties, and at the Potato Testing Station, Ormskirk, the official trials of potatoes for immunity from wart disease; (b) Official Seed Testing Station for England and Wales at Cambridge, which makes laboratory tests of the purity and germination of seed samples, and undertakes research work on seed problems. In approved cases facilities would be given for post-graduation research. Reports of work done are issued in the Institute's *Journal*. Periodical meetings of Fellows of the Inst. are held for discussion, etc. A course and examn. in the theory and practice of seed testing will be held in the summer of 1927; probable fee for course (four to five weeks), £5 : 5s.; for examn., £1 : 1s.

16. THE ROTHAMSTED EXPERIMENTAL STATION, HARPENDEN, HERTS, founded in 1843, is controlled by the Lawes Agricultural Trust (Endowment Fund, £100,000), with which the Incorporated Society for Extending the Rothamsted Experiments (founded 1904) co-operates. Annual grants are received from the Ministry of Agriculture, which also gives Capital Funds for an approved purpose. The Station includes extensive laboratories, glasshouses for the study of Plant Nutrition and Soil Problems and Plant Pathology, an area of 300 acres of land for the purpose of Farm and Experimental Fields, and a Library of 15,000 volumes.

Provision is made for Post-graduate Research work, and for studies by agriculturists and others on leave from Agricultural Departments in the Empire.

17. EMPIRE COTTON-GROWING CORPORATION subsidizes research by studentships, grants to institutions for research, etc., and in 1926 established a Cotton Research Station in Trinidad, where the chief subjects of study will be the genetics and physiology of the cotton plant.

18. HARPER ADAMS AGRICULTURAL COLLEGE provides facilities for research workers in Agriculture, or in Chemistry, Mycology, Entomology or Economics in their application to Agriculture. The National Institute of Poultry Husbandry is located at the College, and provides

extensive facilities for poultry research. Reports are published in the form of separate bulletins as well as in journals, such as the *Journal of Agricultural Science*, *Bio-chemical Journal*, and *Annals of Applied Biology*.

19. MIDLAND AGRICULTURAL AND DAIRY COLLEGE. Visitors admitted for research work in the Chemistry Laboratories, or in Dairying or Costings, at 6os. per week, including board and lodging. Reports on experiments and small matters of research are issued from time to time.

20. SEALE-HAYNE AGRICULTURAL COLLEGE. Of the college farm (339 acres with a subsoil of sandstone and shale) 20 acres are devoted to field experiments. There are 100 small botanical plots. The research work is chiefly in connexion with insect and fungous pests. Experts from overseas proposing to visit the College would be welcomed, and arrangements could probably be made for them to work there temporarily. Results of experiments are published in pamphlets.

21. THE WEST OF SCOTLAND AGRICULTURAL COLLEGE, GLASGOW. Applications by experts employed by the Government or Industrial Corporations in the British Empire overseas for permission to visit the College or for copies of bulletins will receive attention.

23. NORTH OF SCOTLAND COLLEGE OF AGRICULTURE. Experiments on farm crops on the College Farm at Craibstone, near Aberdeen; research work in Soils and Drainage and in Entomology; results of experiments and research published in bulletins.

24. ANIMAL DISEASES RESEARCH ASSOCIATION (SCOTLAND). A new Institute has been built at Moredun, Gilmerton, Edinburgh, and a suite of rooms have been taken over at the Royal (Dick) Veterinary College. At present the diseases of sheep and grass disease of horses occupy the staff. The range of work will be extended in the near future to other diseases of animals of Scotland. It is possible that facilities may be available in the future in certain cases for temporary workers.

29. HORTICULTURAL COLLEGE FOR WOMEN, SWANLEY, conducts investigations into insect pests and fungus diseases of cultivated garden plants. Students on leave from other countries will be welcomed.

30. EAST MALLING RESEARCH STATION, KENT. (The Kent Incorporated Society for Promoting Experiments in HORTICULTURE.) Research work is being carried out in Pomology, Hop Culture, Plant Pathology, Physiology, and Entomology. From time to time facilities are offered to graduate students for gaining experience in research in these problems, both in the field and laboratories.

31. EXPERIMENTAL AND RESEARCH STATION (GLASSHOUSE STATION) CHESHUNT. Research workers have been admitted to the laboratories for short periods when space was available. Reports are widely circulated.

32. JOHN INNES HORTICULTURAL INSTITUTION, Merton Park, London, S.W.19, promotes researches in various subjects connected with Horticulture, especially Plant-breeding, Cytology, and Mycology. Certified persons desirous of conducting work coming within the scope of the Institution are given facilities freely.

33. SCOTTISH MARINE BIOLOGICAL ASSOCIATION, Millport, N.B., admits students and research workers: table space rental 10s. 6d. per week, including loan of microscope and use of ordinary reagents, library and reference collections, boats and collecting appliances when available.

34. MARINE BIOLOGICAL ASSOCIATION (Plymouth Laboratory) is always glad to receive visitors from abroad at the laboratories and to help them. Working tables can be rented (30s. a week) or obtained by nomination. Special facilities for fishery investigations. Results of researches are published in the Association's and other Journals.

36. THE INDUSTRIAL INSTITUTE, 102 Belgrave Road, S.W.1. Founded 1925 for the promotion of scientific research into those questions of industrial economics and industrial ethics which touch the relations and interests of the groups into which the development of the industrial system has divided the nation. It is constituted on a non-party basis, and it is expressly laid down that "it will not be concerned to maintain private ownership nor to develop public ownership," its object being "to study things as they are, and by the light of knowledge so gained to form conclusions which may be put into practice and tend towards improvement of the conditions of industrial life." A Committee has been appointed to take charge of each of four lines of work, and a sub-committee has undertaken the preparation of a "map" of the whole range of knowledge bearing on the general question of "Balance," so that the actual knowledge at present available should appear in its proper relations. The "map," it was agreed, should also show the researches at present in progress in different parts of the world which bear on the question. Thus the gaps in the knowledge needed for the practical survey of the whole problem would be clearly presented.

37. NATIONAL INSTITUTE OF INDUSTRIAL PSYCHOLOGY, 329 High Holborn, London, W.C.1. *Director*—C. S. Myers, C.B.E., M.D., Sc.D., F.R.S. The Institute studies the human factors which enter into industry and commerce and applies the results in practice. On behalf of firms it conducts investigations into vocational selection, movement study and the influence of rest pauses, lighting, humidity, ventilation, seating, methods of payment, advertisement, etc., on output. In its own laboratories it offers vocational guidance to individuals, based on mental and physical tests. It provides lectures and practical work suitable for the requirements of the new Academic Diploma in Psychology in the Univ. of London. It also offers facilities for research in those subjects. *Journal*, quarterly; *Special Reports*. Training Courses for School Teachers in the principles and methods of intelligence testing are organized.

THE BRITISH SCIENTIFIC INSTRUMENT RESEARCH ASSOCIATION conducts research into problems pertinent to the manufacture and use of scientific instruments, including optical, surveying, nautical, and electrical instruments, and electro-medical and X-ray apparatus, and also into optical glass. It has headquarters' laboratories at 26 Russell Square, London, W.C.1, and researches are prosecuted in universities, technical colleges, works laboratories and works. Students are not admitted to work in the Association's laboratories. The research reports are, in general, confidential to members of the Association and to certain Government services, but some are published from time to time, either in scientific journals or separately for general circulation. The annual reports of the Association are distributed to certain public libraries, etc., at home and abroad, but otherwise are available only to members. Among the institutions receiving them are: the Research Council Library, Parliament Buildings, Ottawa, Canada; Institute of Science and Industry, 314 Albert St., East Melbourne, Australia; Advisory Board of Industry and Science of the Union of S. Africa, New Law Courts, Johannesburg.

THE BRITISH RESEARCH ASSOCIATION FOR THE WOOLLEN AND WORSTED INDUSTRIES awards Research Fellowships and Advanced Scholarships tenable at Universities and Colleges, but up to the present has not admitted students to work in its private laboratories. The results of research carried out at the headquarters of the Association are in some cases published in the *Journal* of the Textile Institute or in the *Journal* of the Society of Dyers and Colourists. Other reports are retained in the first instance for private circulation to members of the Association, but may subsequently be released for general circulation.

BRITISH COTTON INDUSTRY RESEARCH ASSOCIATION does not admit students to work in its laboratories, but most of its work is released for publication, and appears first as *Shirley Institute Memoirs* and then in the *Journal* of the Textile Institute, 16 St. Mary's Parsonage, Manchester.

LINEN INDUSTRY RESEARCH ASSOCIATION, Lambeg, Ireland. Investigators, who must be British subjects, are admitted to work in the Association's Research Institute in furtherance of its objects and in preparation for higher University degrees. The work includes the investigation of problems arising in all branches of the industry, from the propagation of the seed to the merchandising of the finished goods. It affords scope for much original research in economic botany, agriculture, bio-chemistry, and physics, particularly the properties of colloids. The results of researches are frequently published in scientific journals. In order to develop flax growing within the Empire, special arrangements exist to provide post-graduation instruction in the economic botany and technical utilization of the flax plant for suitable nominees from outlying parts of the Empire.

THE RESEARCH ASSOCIATION OF BRITISH RUBBER AND TYRE MANUFACTURERS has a technical library and information Bureau at their Laboratories at 105/7 Lansdowne Road, Croydon, to deal with inquiries from its members, Government Departments, and scientific workers in the Dominions. Carries out research, chiefly of a confidential nature, through its own staff. A *Summary of Current Literature*, containing abstracts of technical and scientific publications relating to all branches of the rubber industry, is issued to members and subscribers each month.

THE BRITISH NON-FERROUS METALS RESEARCH ASSOCIATION aims to cover the whole field of the non-ferrous metals and their alloys. Membership of the Association is open to individuals and companies in any part of His Majesty's Dominions who have industrial interests in non-ferrous metals whether as smelters, manufacturers, or users. The researches of the Association are carried out in approved academic and other institutions, or in works, and the results are in the first instance reserved to members, although much is being published. So far as possible, the Association will be pleased to inform scientific workers from the Overseas Empire of the work it has undertaken or already published.

BRITISH ELECTRICAL AND ALLIED INDUSTRIES RESEARCH ASSOCIATION. Has no laboratory of its own. Arranges programmes of research and carries them out with the help of makers' laboratories and Universities and Technical Colleges (sometimes under contract with members of staffs or students), in power stations, etc. Aims at securing co-ordination of research work and realization of maximum benefits from it. Reports published generally in the *Journal* of the Institution of Electrical Engineers.

BRITISH SILK RESEARCH ASSOCIATION. Research results of general interest are usually published by the *Journal* of the Textile Institute. Provision is not normally made for circulation of unpublished reports nor for admission of research students to the laboratory, but special applications addressed to the Secretary may be considered.

BRITISH CAST IRON RESEARCH ASSOCIATION of manufacturers of pig iron, grey iron, and malleable castings of all kinds, for research in the constitution, methods of production and after-treatment of these and auxiliary materials, such as refractories, sands, fuels, slags, fluxes, etc. Their Central laboratory is in Birmingham and an auxiliary laboratory in Falkirk, but most of the research work is at University and other research laboratories at Sheffield, Birmingham, Manchester, etc., and at the National Physical Laboratory. Investigators interested in any phase of research work on cast iron may use the Association's Information Bureau, and the Director is prepared to co-operate in planning investigations. Quarterly bulletin of abstracts and information on current metallurgical literature. General account of the work of the Association printed in the *Proceedings of the Empire Mining and Metallurgical Congress, 1924*.
